Third Consideration: Ordinance for Case REZ21-01 being the request of Dan Lorentzen on behalf of Rock Church Ministries Inc to rezone Lot 2 of Nims Acres from S-OS Open Space District to R-1 Single-Family Residential District. [Ward 7]

PLAN AND ZONING COMMISSION RECOMMENDS DENIAL. 8 VOTES REQUIRED FOR PASSAGE.

Recommendation:
Adopt the Ordinance.

Background:
The purpose of the rezoning is to construct a church. A rezoning requires analysis of all potential uses within the requested zoning. The Plan and Zoning Commission considered Case REZ21-01 at its March 2, 2021 meeting and voted to forward the request to City Council with a recommendation for denial.

The Commission vote was 5 yes, 3 no, and 0 abstention.

The Public Hearing before City Council was held on March 17, 2021 with no public comment. Staff has received one comment opposing the rezoning which has been included in the background information.

The property currently has no viable access to 46th Street. The petitioner has provided a signed statement indicating potential agreement to grant access with adjacent property owners; however no recorded easement agreement is in place and property ownership has not been verified. The statement and draft easement have been included in the background information.

The 2019 zoning code specifically assigned the Open Space Zoning to align with the +2035 Comprehensive Land Use Plan.

Findings:
1. The proposed amendment does not promote the orderly development of Davenport in accordance with the Comprehensive Plan and adopted land use policies.
2. The rezoning petition does not promote the preservation, protection, and conservation of natural resources.
3. The existing S-OS Open Space District is compatible with the zoning of nearby property.

Case REZ21-01: Request of Dan Lorentzen on behalf of Rock Church Ministries Inc. to rezone Parcel P1304-02C from S-OS Open Space District to R-1 Single-Family Residential District to allow for the construction of a church [Ward 7].

Background:
The petitioner is requesting a rezoning to R-1 Single-Family Residential District to allow for construction of a church. The S-OS Open Space District does not permit places of worship. A rezoning to R-1 Single-Family Residential District is the least intensive zoning classification that permits a church.

The 3.53 acre lot is located south of 46th Street and west of the railroad tracks. Deere Creek flows through the southeast corner of the parcel. The wooded lot also contains 100 year flood plain overlay, making the eastern portion of the property undevelopable.

The vacant parcel does not contain any street frontage. A fifteen foot private easement abuts the railroad right-of-way on the east lot line connecting the site to 46th Street. However, the private easement is not practical in offering ingress and egress to the property given the topography and proximity to Deere Creek. In order to develop the property, the owner will have to purchase additional property or create a new private easement along the west lot line for access to 46th Street.

Comprehensive Plan:
Within Existing Urban Service Area: Yes
Within Urban Service Area 2035: Yes

Future Land Use Designations: The property is designated Parks and Recreation (PR) in the Davenport +2035 Land Use Plan. The Future Land Use Designation would need to be amended to Residential General (RG) through the adoption of a resolution by City Council.

1. **Parks and Recreation (PR)** – Designates major developed parks, recreation areas, golf courses, cemeteries, etc. Park or recreation properties can be located in any zoning district. Smaller parks may not appear on the map because of the more general nature and scale of the map. But, it is implied in Residential General (RG) that small neighborhood parks are included.
2. **Residential General (RG)** – Designates neighborhoods that are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity may be considered.

Zoning:
The property is currently zoned S-OS Open Space District. This district is intended to provide and protect larger open space and public recreational facilities, both outdoor and indoor, and cemeteries. Larger regional open spaces/parks may include both active and passive recreation areas and certain ancillary uses, such as cultural facilities, performance venues, and eating establishments. This district is also intended for governmental agency offices/facilities providing a governmental service to the public.

The applicant is requesting a rezoning of the property to R-1 Single-Family Residential District. This district is intended to accommodate the lowest-density single-family neighborhoods within the City of Davenport, exhibiting a predominantly semi-suburban development pattern of large lots and generous yards. The R-1 district is the least intensive residential zoning classification that allows for places of worship.

Technical Review:
City Departments and Utility Companies have reviewed the proposed rezoning petition. Sanitary sewer is present along the east lot line and on the parcel directly south of the subject property. All other utilities must be brought to the site through utility easements at the owner's expense. The City of Davenport will not permit propane tanks to service the building.

Public Input:
Letters were sent to property owners within 200 feet of the proposed request notifying them of the February 2, 2021 Plan and Zoning Commission Public Hearing. Since the applicant was not in attendance, the Commission voted to table the item for one meeting cycle.

To date, staff has received one written response from an adjacent property owner in opposition to the rezoning. Concerns raised included preservation of the natural area, impacts on wildlife, and treatment of sewage. The property owner at 1603 McCormick Place spoke in opposition at the Plan and Zoning Commission public hearing on February 16, 2021.

A Notice of Public Hearing has been published in the Quad City Times.

Staff will apprise the Commission of any additional correspondence.

Why is a Zoning Map Amendment Required?
The Zoning Ordinance does not permit a place of worship in the S-OS Open Space District. The R-1 Single-Family Residential District is the least intensive residential zoning classification that allows for a new church to be constructed.

Approval Standards for Map Amendments (Chapter 17.14.040)
The Plan and Zoning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular standard. However, in making their recommendation and decision, the Plan and Zoning Commission and the City Council must consider the following standards. The approval of amendments is based on a balancing of these standards.

a. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

   Staff Response: The property is designated Parks and Recreation (PR) in the Davenport +2035 Land Use Plan. The proposed church is incompatible with the future land use category description, which is intended for developed parks, recreation areas, golf courses, and cemeteries. The surrounding area south of 46th Street and west of the railroad tracks consists of cemeteries, creeks, floodplain, and wooded areas. Instead, the proposed church development fits the criteria for Residential General (RG).

It is staff's opinion that the proposed amendment does not promote the orderly development of Davenport in accordance with the Comprehensive Plan and adopted land use policies.

However, if the City Council recommends approval, then a condition shall be placed on the Zoning Map Amendment requesting City Council to adopt a resolution amending the Future Land Use Designation from Parks and Recreation (PR) to Residential General (RG).

b. The compatibility with the zoning of nearby property.

Staff Response: The subject parcel is surrounded by S-OS Open Space District to the north, west, and south. The City of Davenport Public Works Facility and other I-1 Light Industrial District and I-2 Heavy Industrial District properties are north of 46th Street. The parcel is removed from the residential neighborhoods to the east by the railroad tracks. Mt. Calvary Cemetery, Davenport Memorial Park, Pine Hill Cemetery, and Mt. Nebo Cemetery are directly south of Goose Creek and also zoned S-OS Open Space District.

It is staff's opinion that the proposed amendment is not compatible with the zoning of nearby property.

c. The compatibility with established neighborhood character.

Staff Response: The established character of the area south of 46th Street and west of the railroad tracts is predominately open space. While there is residential to the east of the site, there is a clear delineation of uses separated by the railroad tracks. Directly abutting the subject parcel to the north, west, and south are undeveloped wooded areas and creeks. Removing vegetation to construct a building, off-street parking, and an access drive to 46th Street will diminish the natural characteristics of the area.

In addition, the subject parcel does not have street frontage along a public right-of-way. The three properties directly north are under separate ownership. An easement agreement providing the applicant vehicular access to 46th Street must be recorded prior to the issuance of any construction or grading permits if the site were developed.

It is staff's opinion that the proposed amendment is not compatible with the established neighborhood character.

d. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

Staff Response: Developing the 3.53 acre wooden lot requires substantial alteration of the natural landscape. Deere Creek flows along the east lot line and merges with Goose Creek directly south of the property. There is 100-year floodplain covering the southeast portion of the site, making this area undevelopable. Furthermore, the typography of the parcel fluctuates roughly 36 feet from its highest point on the northwestern portion of the site to its lowest point along the east lot line.

The subject parcel is setback approximately 435 feet from 46th Street. Elevations and its distance to the public right-of-way make it challenging to identify the property in an event of an

emergency. Off premise signs are not permitted, adding to the difficulty in directing first responders to the property. New construction requires grading the natural terrain to accommodate the building footprint and off-street parking requirements. Section 17.11.100 of the Zoning Ordinance, titled “Tree Preservation”, encourages existing trees that are in good condition to be preserved to the maximum extent practicable. Rezoning the site produces potential risks to the public health, safety, and welfare of the city.

It is staff’s opinion that the proposed zoning map amendment to R-1 Single-Family Residential District does not promote the preservation, protection, and conservation of natural resources.

e. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property in question for one or more of the uses permitted under the existing zoning classification.

Staff Response: Under the current Zoning Ordinance, the S-OS Open Space District does not allow for places of worship. The S-OS Open Space District is suitable given its topography, vegetation, and proximity to floodplain. The City made a deliberate decision to zone this area as open space to align with the City's Comprehensive Plan during the 2019 Zoning Code update.

It is staff’s opinion that the property is not suited for development of the proposed use under the existing S-OS Open Space District.

f. The extent to which the proposed amendment creates nonconformities.

Staff Response: The undeveloped 3.53 acre site satisfies the dimensional standards for the R-1 Single-Family Residential District.

It is staff’s opinion that the proposed amendment will not create any nonconformities.

Mr. Dann C. Naverson

This letter is in regards to the proposed construction of a private access drive from 46th Street in Davenport, IA across parcels P1303-03C, P1304-05, and P1304-04A, all of which are owned by SCI Funeral Services of Houston, TX. Per our previous discussions, the proposed drive would be used to access Rock Church Ministries' parcel, P1304-02C, with plans to build a new church at that location. Rock Church Ministries grants SCI full access to the drive for future development purposes. This includes the use of and connection to the proposed drive. Plans for the location of the drive are shown on the following page.

In order for the City to move forward with Rock Church's rezoning application, an authorized signature granting the construction of said drive is required. As Director of Real Estate for SCI, we have provided a signature line for you below.

Please review and return a signed copy for Rock Church's records in moving forward with the rezoning application. If you should have any questions or concerns, please contact us and we can discuss.

Regards,

Joshua Arguello

Subject: Public Hearing for a Rezoning Request Before the Committee of the Whole

To: All property owners within 200 feet of the subject property located **South of East 46th Street, West of the Railroad Tracks (Parcel P1304-02C).**

There is on file in the Development and Neighborhood Services Department (DNSD), on behalf of the Plan and Zoning Commission, the following request:

Case REZ21-01: Request of Dan Lorentzen on behalf of Rock Church Ministries Inc. to rezone Parcel P1304-02C from S-OS Open Space District to R-1 Single-Family Residential District to allow for the construction of a church [Ward 7].

I would like to oppose the construction of a church being built at this location. I am a neighbor who's property will be next to the church and I have some concerns with development in that area. First I am concerned with the added sewage use. We currently have days when the sewer smell can be unbearable. This item has been a complaint for many years by fellow neighbors and my concern with added sewer usage. Will this smell continue to worsen? Also my other concern with that area is the effect it will have in the wildlife who take refuge in those woods. There are not many places in the city for the variety of animals that live in that area. I am concerned with increase development, it will drive the wildlife out and into more of the neighborhoods in that area. If these items can be addressed I would greatly appreciate it.
Thank you so much,

Resolution setting a Public Hearing on the proposed conveyance of City-owned property, 1006 Warren Street, parcel G0035-41 (Yoshis Place LLC, petitioner). [Ward 4]

Recommendation:
Adopt the Resolution.

Background:
As part of the City of Davenport's ongoing effort to rehab and revitalize abandoned properties, Yoshis Place LLC has submitted a purchase offer of $7,500 to acquire property located at 1006 Warren Street.

This single-family house was acquired in late 2019 by the City through the 657A 10A process as an abandoned, nuisance property with frequent environmental and police calls. The petitioner is a local business owner and had been interested in acquiring another property in this same block, which is where he grew up.

Yoshis Place LLC plans to invest over $30,000 in the rehab of the property with plans to sell as an owner-occupied unit. He has agreed to begin rehabilitation work within 60 days of closing and other conditions on the sale, including reversion to the City if the requirements are not satisfied.

Adoption of this Resolution will set the date for the Public Hearing on this proposed conveyance at the Committee of the Whole Meeting on August 18, 2021 at 5:30 p.m. in Council Chambers at Davenport City Hall.

Motion approving the appeal of the Design Review Board's denial of Case DR20-35: Request for Design Approval for unscreened HVAC at Modern Woodmen Park | 209 South Gaines Street (City of Davenport, petitioner). [Ward 3]

YES VOTE OVERTURNS DESIGN REVIEW BOARD DECISION; NO VOTE UPHOLDS DESIGN REVIEW BOARD DECISION.

Recommendation:
Pass the Motion.

Background:
As part of the recently revised Stadium Lease Agreement, the City is undertaking a HVAC replacement project. Shive-Hattery was selected as the design consultant. Due to the roof load limits on the original stadium, their recommendation is to install 14 HVAC units spaced across the length of the roof.

The units and stands will be approximately 6 feet 7 inches in height. The distance from the roof edge varies from 19 feet 11 inches from the edge of the straight section of the building, to 38 feet 10 inches from the edge along the curved section. Existing mechanical units are currently unscreened and measure approximately 4 feet 2 inches in height.

The Downtown Guidelines recommend the screening of mechanical equipment; however the consultant's structural engineer does not recommend additional weight associated with the screening on this part of the roof. Therefore the City requested the Design Review Board approve the units without any screening.

On June 28, 2021 the Design Review Board denied the request.

The alternate design would be to consolidate the units on the newer portion of the roof. In order to distribute the weight of the system, a steel platform is required. The steel structure and HVAC units would be approximately 14 feet in height and 16 feet wide. Estimated costs associated with this alternative and needed screening is $150,000.

Subject: HVAC Unit Screens at Modern Woodmen Park

Dear Clay,

I was asked to provide an opinion of placing roof mounted screens around new HVAC equipment at Modern Woodmen Park to be mounted on the roof of the 1930's grandstand portion of the stadium. Below is a brief discussion of impact of mounting equipment and additional screens on the roof. See Attachment 1 – Roof Mounted HVAC Figures.

Project Background

- Built in the early 1930's as Municipal Stadium, Modern Woodmen Park was renovated in 2003-04 from and open-air grandstand to an enclosed, heated and air-conditioned stadium. The 1930's grandstand had a 2 ½" poured gypsum roof over ½" Celotex insulation board weighing approximately 20 psf across the entire roof.
- Between 1930's construction and 2003-04 renovations, the poured gypsum roof was replaced with 2x wood decking, rigid insulation and bituminous roofing weighing approximately 5 psf across the entire roof.
- The difference between a 20 psf poured gypsum roof and a 5 psf wood roof is around 15 psf net unloading of the existing riveted steel trusses and columns that remain unchanged from the 1930's through more recent renovations. It is in this 15 psf net excess dead load capacity that lies a limited ability of the roof to carry additional load such as HVAC equipment. For comparison, modern roof superimposed (excess) load capacity typically starts on the order of 30 psf and goes upward.
- New HVAC equipment was initially to be mounted to the 2003-2004 stadium addition roof located east of the 1930's stadium using an elevated steel framework extending up from existing columns. Loads would be carried directly to the building structural steel frame, bypassing roof joists and beams. This location was undesirable to the City due to the cost of steel framing and the perceived visibility of HVAC units from ground level. The City asked Shive-Hattery to evaluate other options to reduce the estimated cost of the project. Relocating HVAC units closer to the rooms being heated and cooled within the 1930's grandstand part of the stadium and eliminating the screening structure provided significant savings, estimated to be approximately $100,000.
- In the revised design, HVAC units are placed on **large** plastic feet directly on top of the 1930's stadium roof taking advantage of the net 15 psf of poured gypsum roofing material removed prior to 2003-2004 renovations. See Figure 1 for detail and notes limiting contact pressure from plastic feet to 15 psf or less, including a warning that loads in exceeding that could cause permanent damage to the building trusses and structural steel framing.

Equipment Screens for 1930's Grandstand Roof Current Design

- Discussion with Shive-Hattery mechanical engineers indicate that free standing equipment screens that sit on top of the existing roof can be added to the project. See link below for an example. http://lineascreen.com/wp-content/uploads/2017/07/Linea-Screens-by-ModWerks.pdf
- Screen walls are typically installed on three or four sides of equipment for stability. The curved roof with multiple angles of visibility would require a four-sided screen installation.
- To minimize contact pressure on the roof, the selected equipment screen vendor may connect opposite screen sides so that the screens act together over a larger area.
- Equipment screens for this installation would be approximately 12'-0" x 12'-0" in plan and measure 10'-0" above roof to screen the equipment. Around 48 linear feet of screen is required for each equipment location, and there are 14 equipment locations. This totals approximately 672 linear feet of screens. For planning and budgeting purposes we estimate screening of the 14 units may add $200,000-$250,000 to construction costs.

Recommendations

- Place the equipment on the 1930's roof as shown in the most recent drawings dated January 18, 2021 without the addition of HVAC screening. The current design is a cost-effective solution for replacing the HVAC system in the suites/event area. The visual impact of equipment screens spaced widely across the 1930's roof is larger than the visual impact of the HVAC units alone at significant additional project cost. Placing the additional weight of equipment screens on the 1930's roof with limited capacity isn't recommended from a structural perspective if there are other viable alternatives.
- If equipment screens are a necessity, we recommend returning to the equipment location on the roof of the 2003 addition. The visual impact of all of screened equipment at one location is arguably less than the visual impact screening individual units spread across the larger 1930's roof. The design on the 2003 addition includes a structural steel frame supporting all equipment at a single location using posts extending through the roof from building columns. This is a more robust structural solution than placing the additional weight of screens on the 1930's roof.

If you have any questions regarding this letter or this project, please feel free to contact us.

Recommendation:
Adopt the Ordinance.

Background:
Mr. William Bryant owns the home at 1603 Division Street, which is at the northeast corner of Division and 16th. With no parking on Division, the tenants at the nearby rental properties are taking all of his parking and he is often forced to park far away from his home. He is only asking for one space near the gate in his fence that leads to his back door. His frontage along 16th Street has 125 feet available for parking, so there will still be room for 2 vehicles in front of and in back of this parking space for others to use.

Recommendation:
Adopt the Ordinance.

Background:
The residents at 1701 East 12th Street have no off-street parking available. There are 6 townhouses and a few other apartments across the street that have a small amount of off-street parking. The residents and the guests of those rental properties will often park in front of 1701 and force those residents to park further down the block away from their home. There is plenty of available frontage for everyone so creating this resident parking only zone will not be a hardship to those who live in the townhomes and apartments. This zone would be about 60 feet long but there would still be 190 feet available along the south side of 12th Street between the zone and Judson Street that is available to anybody.

Background:
The intersection of Brady Street and 65th Street/Veterans Memorial Parkway has numerous issues that need to be addressed such as congestion, access points, and pedestrian safety. The Iowa Department of Transportation has Traffic Safety Improvement Program funding available for intersection improvements and for studies to be done on intersections. The City will apply for a traffic safety study now and likely apply for intersection improvement funds in the next year or two after the problems are clearly identified. These funds can pay up to 100% of the cost of the study, which is expected to be $80,000.

GENERAL NOTES:

*1. A CONCRETE TRENCH WITH A 6-INCH SHEAR KEY (SEE BELOW FOR CONCRETE TRENCH MINIMUM REQUIRED DEPTHS) SHALL BE CONSTRUCTED BELOW THE PROPOSED WALLS IN ORDER TO ACHIEVE A MINIMUM 1.3 SAFETY FACTOR FOR GLOBAL STABILITY. THE CONCRETE TRENCH SHALL EXTEND EITHER TO THE MINIMUM DEPTH LISTED FOR EACH WALL SECTION, OR TO SHALE BEDROCK (IF THE BEDROCK DEPTH IS SHALLOWER THAN THE DEPTH OF THE CONCRETE TRENCH, IT IS NOT NECESSARY TO REMOVE ADDITIONAL ROCK TO INSTALL THE CONCRETE TRENCH). THE CONCRETE TRENCH SHALL EXTEND EITHER TO THE MINIMUM DEPTH LISTED FOR EACH WALL SECTION, OR TO SHALE BEDROCK (IF THE BEDROCK DEPTH IS SHALLOWER THAN THE DEPTH OF THE CONCRETE TRENCH, IT IS NOT NECESSARY TO REMOVE ADDITIONAL ROCK TO INSTALL THE CONCRETE TRENCH). THE BORINGS LOGS PROVIDED IN THE GEOTECHNICAL REPORT WERE TAKEN AT THE TOP OF THE EMBANKMENTS, SO THE DEPTH OF MATERIALS BELOW THE ACTUAL WALL FOUNDATIONS IS UNKNOWN.

2. SEE SHEET 5.00 FOR SECTION A - A.

3. IF THE EXISTING SANITARY MANHOLE CANNOT BE RELOCATED BEHIND THE WALL, THE BLOCKS WILL LIKELY NEED TO BE FIELD CUT AROUND THE MANHOLE AS IT APPEARS TO BE WITHIN THE AREA OF THE SETBACK BLOCKS.

Subject:
Resolution approving a contract for the purchase of a 100-foot platform fire truck from Sutphen Corp of Amlin, Ohio in the amount of approximately $1,322,304.96, CIP #24021. [All Wards]

Recommendation:
Adopt the Resolution.

Background:
Truck 3, located at Station 6, services the west side of Davenport. Truck 3 is currently a 2002 Sutphen 70-foot aerial platform. The new vehicle requested will be a 100-foot platform. The new apparatus will be more effective in reaching buildings of larger size and setbacks. The recent large industrial developments on the northwest side of Davenport are served by Truck 3, and require a larger ladder than the current apparatus can accommodate. The truck requested will be identical to the recently purchased Truck 1, a Sutphen SPH100.

At no cost, the City of Davenport joined the Houston-Galveston Area Council (HGAC) in 2018, a cooperative group that bids public safety items for members. Because of the volume created by purchases from several communities, the advantage is lower contracted prices. Sutphen was awarded the contract for aerial apparatus vehicles.

Funding for this purchase is from CIP #24021 Fire Apparatus and Equipment. These funds are available from the sale of General Obligation Bonds and through FY 2021 funds as assigned by the Chief Financial Officer.

TOTAL MAXIMUM GRANT AMOUNT:
GRANTEE FEDERAL ID #:
GRANT TYPE:

THIS AMERICORPS GRANT AGREEMENT is made by and between the IOWA COMMISSION ON VOLUNTEER SERVICE, 1963 Bell Avenue, Suite 200, Des Moines, Iowa 50315 ("Commission" or "Volunteer Iowa"), an agency of the State of Iowa, and (“Grantee”),

WHEREAS, the Commission is designated to receive, administer and disburse AmeriCorps grant funds; and
WHEREAS, the Commission desires to disburse grant funds to the Grantee for eligible purposes primarily addressing community needs identified in the Grant Application; and
WHEREAS, the Grantee submitted an application for funding to the Commission and the Commission has approved the application; and
WHEREAS, in approving the application, the Commission has relied upon the representations of the proposed Program activities; management and financial condition of the Grantee; investment of other Grantee funds; and other material information contained therein; and
WHEREAS, the Grantee has certified to the Commission that the primary purpose for obtaining AmeriCorps funds is to make a significant impact in the community while providing a meaningful service opportunity for the AmeriCorps members;
NOW, THEREFORE, the Grantee accepts this grant upon the terms and conditions set forth in this Agreement.

In consideration of the mutual promises contained in this Agreement, the Parties agree as follows:

ARTICLE 1 - DEFINITIONS

As used in this Agreement, the following terms shall apply:

1.1 **ACT.** "Act" means the National and Community Service Act of 1990 (42 U.S.C. 12501 et seq.), as amended by the Serve America Act, (42 U.S.C. S.12501 et seq.).

1.2 **GRANT AGREEMENT or AGREEMENT.** "Grant Agreement" or "Agreement" means this Agreement and all of the exhibits, attachments and documents referred to in the Agreement and

incorporated by reference. The Grant Agreement is the legal agreement by which the Commission makes subawards of AmeriCorps funding to the Grantee.

1.3 **PROGRAM.** "Program" means the detailed description of the work, services, and other obligations to be performed or accomplished by the Grantee as described in this Agreement and the AmeriCorps application approved by the Corporation for National and Community Service ("Corporation" or "AMERICORPS") and the Commission, as authorized by the National and Community Service Act of 1990, as amended.

1.4 **GRANT AGREEMENT PERIOD.** "Grant Agreement Period" is and is the period in which the Agreement is in force and effect. The first date of the Grant Agreement Period is considered the Effective Date of the Agreement and the last date is considered the Completion Date. The Grant Agreement Period is aligned with the Budget Period for the federal subaward. The Agreement expires upon the occurrence of one of the following: a) Program tasks have been fully accomplished including fulfillment of the obligations identified in Article 6 as of the end date of the grant agreement period; or b) the Agreement is terminated by Volunteer Iowa due to any default under Article 8.1; or c) the Agreement is terminated in accordance with the provisions set forth in Article 10.3. Except in limited circumstances, the Grant Agreement Period Completion Date will not be extended beyond 90 (ninety) days past the original Grant Agreement Period Completion Date.

1.5 **GRANT TYPE.** "Grant Type" refers to the category of grant award provided. AmeriCorps grants may be either cost reimbursement or fixed amount types; the type of grant determines certain budget and financial management responsibilities of the grantee. Cost Reimbursement Grants fund a portion of program operating costs and member living allowances, with flexibility to use the funds for allowable costs regardless of whether or not the program recruits and retains all AmeriCorps members. Cost reimbursement grants include a formal matching requirement and require the submission of a budget and financial reports. Fixed Amount Grants provide a fixed amount of funding per Member Service Year (MSY) that is substantially lower than the amount required to operate the program. Organizations use their own or other resources to cover the remaining costs. Fixed Amount programs are not required to submit detailed budgets or financial reports, there is no specific match requirement, and programs are not required to track and maintain documentation of match. However, AMERICORPS provides only a portion of the cost of running the program and organizations must raise the additional resources needed to run the fixed amount program. Fixed Amount Programs can access all of the funds, provided they recruit (Education Award Program or "EAP") or retain (full-cost Fixed Amount programs) the members supported under the grant based on the MSY level awarded. Professional Corps programs applying for operational funding through a Fixed Amount Grant must submit a budget in support of their request for operational funds.

1.6 **ALLOWABLE COSTS.** "Allowable Costs" are those costs which are identified in Attachment A, Grant Application; Attachment B, Budget; and consistent with Federal regulations and guidelines applicable to the AmeriCorps program.

ARTICLE 2 - FUNDING

2.1 **FUNDING SOURCES.** The primary source of funding for the Grant is a federal grant from AMERICORPS [Code of Federal Domestic Assistance (CFDA) 94.006] for the AmeriCorps Program. A portion of the local match for this Grant may be provided to the Grantee by Volunteer Iowa if noted in Article 3.1. The source for this local match is .The Grantee shall comply with the requirements, conditions and rules of AMERICORPS, the Commission and any other public or private entity having authority over the funds or the Grant.

2.2 **RECEIPT OF FUNDS.** All payments under this Agreement are subject to receipt by the Commission of sufficient funds for the AmeriCorps Program. Any termination, reduction, or delay of federal or state funds to the Commission may, in the sole discretion of the Commission, result in the termination, reduction or delay of AMERICORPS funds to the Grantee and/or termination of this Agreement.

2.3 **PRIOR COSTS.** If any grantee has received written approval from the Commission to incur certain costs prior to the Award Date of this Agreement, then said written approval and those terms and conditions are incorporated herein and made a part of this Agreement by this reference as if fully set forth.

2.4 **USE OF GRANT FUNDS.** The Grantee shall expend funds received under the Grant only for the purposes and activities described in its application and approved by the Commission and in compliance with applicable federal and state law and regulations.

2.5 **BUDGET AMENDMENTS FOR COST REIMBURSEMENT GRANTEES.** The following budget changes for cost reimbursement grantees shall be subject to prior approval of the Commission through the amendment process as provided for in Article 10.6. Budget amendments shall be requested from the Commission and approved prior to implementation of the budgetary changes. Budget amendments shall be compatible with the terms of this Agreement and of such a nature as to qualify as an allowable cost. Budget amendments requested during the final ninety (90) days of the Agreement period will be approved on a limited basis. The following circumstances require budget amendments.

a) Budget changes which would result in changes in excess of ten percent (10%) of the total budget.
b) Budget changes which would lower the Grantee's percent share of costs required under this Agreement.
c) Budget changes which would add costs in a previously unbudgeted line item or that include supplies in excess of $1,000 per item or equipment valued at greater than $5000, regardless of the ten percent budget limitation.

2.6 **DISBURSEMENT OF LESS THAN THE TOTAL AWARD AMOUNT.** If the total award amount has not been requested by the Grantee within sixty (60) days following the Completion Date, then the Commission shall be under no obligation for further disbursement.

2.7 **MEMBER COSTS.** The award amount contemplated by this Agreement reflects a maximum possible payment based on full member enrollment. In the event that the Program does not fully

recruit the awarded member service years (MSY), the Commission may reduce the federal funding. The Commission reserves the right to request repayment of any federal funds disbursed above the reduced federal amount.

2.8 **ADMINISTRATIVE COST GUIDELINES.** Federal funds used for reasonable administrative costs, are allowable.

a) For cost reimbursement grantees, the federal share of administrative costs shall be limited to five percent (5%) of the AMERICORPS funds in Sections I and II of the approved budget. (See Exhibit E. Application Instructions for detailed calculations of administrative costs). Grantees are eligible for additional administrative costs in the Grantee Share of the budget. These amounts are approved at the time of award and are reflected in the budget. Administrative costs will only be disbursed proportional to the other grant funds expended.
b) Competitive cost reimbursement grantees will be invoiced on a quarterly basis for forty percent (40%) of the allowable federal share of administrative costs from Section III of the approved budget.
c) Formula cost-reimbursement grantees will be invoiced on a quarterly basis for a State Support & Monitoring Fee of two percent (2%) of the total federal share of Sections I and II of the budget.
d) Fixed-amount grantees are also subject to having two percent (2%) of their grant retained by the Commission, calculated according to guidance from AMERICORPS. The Commission will invoice programs on a quarterly or other regular basis.

2.9 **UNALLOWABLE COSTS.** If Volunteer Iowa determines at any time, whether through monitoring, audit, closeout procedures or by other means, that the Grantee has expended funds for unallowable activities, the Grantee will be notified of the questioned costs and given an opportunity to justify questioned costs prior to Volunteer Iowa's final determination of the disallowance of costs. Appeals of any determinations will be handled in accordance with the provisions of Chapter 15h, Iowa Code. If it is Volunteer Iowa's final determination that costs previously paid by Volunteer Iowa are unallowable under the terms of the Agreement, the expenditures will be disallowed and the Grantee shall repay to Volunteer Iowa any and all disallowed costs. Grantee shall repay all disallowed costs within thirty (30) days. Volunteer Iowa may work out a payment plan with the Grantee at its discretion.

2.10 **NATIONAL SERVICE CRIMINAL HISTORY CHECKS DISALLOWED COSTS.** If Volunteer Iowa determines at any time, whether through monitoring, audit, closeout procedures, program self-reporting, or by other means, that any portion of the National Service Criminal History Check (NSCHC) process has not been completed as required, Volunteer Iowa will follow the most recent version of the AMERICORPS NSCHC Enforcement Guide to assess disallowance in cases of noncompliance or other unallowable circumstances as described in the Guide. Disallowance payments must be made with non-federal funds.

ARTICLE 3 - TERMS OF GRANT

3.1 **GRANT.** The Commission grants $52,000, for the time period of, to the Grantee for AmeriCorps activities. The services of the Grantee are to commence as of the Effective Date and shall be undertaken in such a manner as to assure their expeditious completion. All of the services required hereunder shall be completed on or before the Completion Date.

If the Grantee's evaluation plan requires AMERICORPS approval, the Grantee will secure this approval by the date communicated in writing. Designated program staff may be required to participate in training and technical assistance. Failure to submit plans or plan corrections or to participate in required training will result in program suspension.

ARTICLE 4 - CONDITIONS TO DISBURSEMENT OF FUNDS

4.1 **GRANT AGREEMENT EXECUTED.** The Grant Agreement shall have been properly executed and returned to Volunteer Iowa prior to the grant agreement start date or within thirty (30) days of Volunteer Iowa's transmittal of the final Agreement to the Grantee, whichever is sooner.

The Grantee participates with the other State Departments or Regents Institutions in a self-insurance pool for purposes of vehicular liability on owned and rented vehicles. The requirement of insurance under this provision may be met by establishing, to the satisfaction of Commission, either of the following: (i) that a policy covering the project is in effect with any insurance company of recognized responsibility; or (ii) that Grantee maintains an actuarially sound program of self-insurance sufficient to cover the project. Grantee shall submit copies of all applicable agreements, certificates, policies or other documentation requested by the Commission attesting to insurance coverage and any renewals thereof.
Indemnification for non-state agencies: The Grantee shall indemnify and hold harmless the Commission, its officers and employees from and against any and all losses in connection with the Project.

6.14 **CERTIFICATIONS.** The Grantee certifies and assures that the Program will be conducted and administered in compliance with all applicable Federal and State laws, regulations and orders. Certain statutes are expressly made applicable to activities assisted under the Act by the Act itself, while other laws not referred to in the Act may be applicable to such activities by their own terms. The Recipient certifies and assures compliance with the applicable orders, laws and implementing regulations, including but not limited to, the following:

a) Financial Management guidelines issued by the U.S. Office of Management and Budget, Uniform Guidance (2 CFR 200).
b) Certifications and Assurances agreed upon at the time of application as detailed in the AmeriCorps Application Instructions, (Exhibit E).

ARTICLE 8 - DEFAULT AND REMEDIES

8.1 **EVENTS OF DEFAULT.** The following shall constitute Events of Default under this Grant Agreement:

a) **Material Misrepresentation.** If at any time any representation, warranty or statement made or furnished to the Commission by, or on behalf of, the Grantee in connection with this Grant Agreement or to induce the Commission to make a grant to the Grantee shall be determined by the Commission to be incorrect, false, misleading or erroneous in any material respect when made or furnished and shall not have been remedied to the Commission's satisfaction within thirty (30) days after written notice by the Commission is given to the Grantee.
b) **Lack of Progress/Failure to Meet Program Requirements.** If there is a failure of the Grantee to make substantial and timely progress toward performance of the Program or when the Grantee has failed to comply with the Agreement, award conditions or standards. Full program requirements are outlined in the Agreement and supporting materials. Some key areas of program requirements are full member enrollment, meeting Performance Measure targets, responsiveness to Volunteer Iowa communication on compliance issues, timely correction of compliance issues, submitting timely and accurate program and financial reports.
c) **Noncompliance.** If there is a failure by the Grantee to comply with any of the covenants, terms or conditions contained in this Agreement.
d) **Program Incompletion.** If the Program, in the sole judgment of the Commission, is not completed on or before the Grant Agreement Period Completion Date.
e) **Misspending.** If the Grantee expends Grant proceeds for purposes not described in the AmeriCorps application, this Agreement, or as authorized by the Commission.
f) **Insolvency or Bankruptcy.** If the Grantee becomes insolvent or bankrupt, or admits in writing its inability to pay its debts as they mature, or makes an assignment for the benefit of creditors, or the Grantee applies for or consents to the appointment of a trustee or receiver for the Grantee or for the major part of its property; or if a trustee or receiver is appointed for the Grantee or for all or a substantial part of the assets of the Grantee and the order of such appointment is not discharged, vacated or stayed within sixty (60) days after such appointment; or if bankruptcy, reorganization, arrangement, insolvency, or liquidation proceedings or other proceedings for relief under any bankruptcy or similar law or laws for the relief of debtors, are instituted by or against the Grantee and, if instituted against the Grantee is consented to, or, if contested by the Grantee is not dismissed by the adverse parties or by an order, decree or judgment within sixty (60) days after such institution.

g) **Lack of or Insufficient Insurance.** If loss, theft, damage or destruction of any substantial portion of the property of the Grantee occurs for which there is either no insurance coverage or for which, in the opinion of the Commission, there is insufficient insurance coverage.

8.2 **CORRECTIVE ACTION.** Prior to issuing a formal notice of default for any of the events identified under Article 8.1, Volunteer Iowa may, on reasonable notice to the Grantee, take action to compel the Grantee to complete corrective action as required by Volunteer Iowa. The Commission shall have the final authority to assess whether the Grantee is making adequate progress on the performance measures and other program goals and requirements. The Commission may require underperforming Grantees to submit Corrective Action Plans designed to increase the Program's performance. The Commission reserves the right to monitor and measure the achievement of program performance at any time during or after the Grant Agreement Period. Corrective action may involve the following:

a) **Suspend Payments.** Volunteer Iowa may suspend the Agreement and withhold future payments under the Agreement until the program is brought into compliance or develops a corrective action plan and timeline that is approved by the Commission to bring the program into compliance. Volunteer Iowa may allow such necessary and proper costs which the Grantee could not reasonably avoid during the period of suspension provided that Volunteer Iowa concludes that such costs meet the requirements of the federal regulations.
b) **Partial Repayment.** Volunteer Iowa may require partial repayment of Grant proceeds which allows partial credit for the performance targets or programmatic goals which have been met.
c) **Other Remedies.** The Commission may require other remedies following the parties' unsuccessful good faith attempt to resolve any event of default giving rise to the Commission seeking to exercise the enforcement of this clause.

8.3 **NOTICE OF DEFAULT.** Volunteer Iowa shall issue a written notice of default providing therein a fifteen (15) day period in which the Grantee shall have an opportunity to cure, provided that cure is possible and feasible.

8.4 **REMEDIES UPON DEFAULT.** If, after opportunity to cure, the default remains, Volunteer Iowa may do one or more of the following:

a) Exercise any remedy provided by law,
b) Terminate the Grant Agreement and establish revised reporting deadlines for the purposes of closing out the grant,
c) Require immediate repayment of the full amount of funds disbursed to the Grantee under the Grant Agreement, plus interest.
d) Other Remedies. The Commission may require other remedies following the parties' unsuccessful good faith attempt to resolve any default giving rise to the Commission seeking to exercise the enforcement of this clause.

ARTICLE 9 - DISBURSEMENT PROCEDURES

9.1 **REQUEST FOR DISBURSEMENT.** All disbursements of proceeds shall be subject to receipt by the Commission of claims for disbursement submitted by the Grantee. Claims for

disbursement ("claims") shall be in form and content acceptable to the Commission. Each requisition shall be submitted to the Commission according to the schedule shown in Article 6.10.

a) **Program Income**. All program income as defined in 2 CFR 200.307 shall be added to the Budget and used to meet the grantee share in furthering eligible Program activities as defined in the Agreement and the approved Grant Application. Program income not used to further Program activities will be deducted from the federal share for the purpose of determining the amount of reimbursable costs under the Agreement. In cases of dispute, final decisions regarding the definition or disposition shall be made by Volunteer Iowa. Proceeds generated from the AmeriCorps program are considered Program Income. Programs are required to report all income generated in excess of that which is used to meet the grantee share of the expenditures on the FFR to the Commission according to the schedule shown in Article 6.10. All program income shall be expended prior to requesting federal AMERICORPS funds. Program income received after the Grant Agreement Period shall be returned to the Commission.

9.2 **REQUEST FOR PAYMENT MODIFICATIONS.**

a) **Quarterly payments.** With prior approval, the Grantee may qualify for quarterly claim submission, provided the Grantee meets the financial management standards specified in 2 CFR Chapters I and II, as applicable, and provided Grantee submits any additional information that may be required by Volunteer Iowa. The Commission may revoke the approval for quarterly payment at any time, if the Grantee fails to meet financial management requirements or demonstrates significant deficiencies.

b) **Advance payments for cost reimbursement grantees.** With prior approval, cost reimbursement grantees may receive advance payments of grant funds, provided the Grantee meets the financial management standards specified in 2 CFR Chapters I and II, as applicable, and provided Grantee submits any additional information that may be required by Volunteer Iowa.

   i. **Immediate cash flow needs.** The amount of advance payments requested by the Grantee must be based on actual and immediate cash needs in order to minimize federal cash on hand in accordance with policies established by the U.S. Commission of the Treasury in 31 CFR Part 205.

   ii. **Discontinuing advance payments.** The Volunteer Iowa may, after providing due notice to the Grantee, discontinue the advance payment method and either allow payments in advance based upon individual request and approval, or by reimbursement only, in cases where the grantee receiving advance payments demonstrates unwillingness or inability to establish procedures to ensure accurate reporting, minimize the time elapsing between the receipt of the cash advance and its disbursement, displays other practices that indicate a potential financial management problem or in cases where federal funds are not forthcoming or insufficient due to non-appropriation, termination of the Program, or reduction in funding level.

   iii. **Interest earned.** In most circumstances, the Grantee must deposit advance funds received from the Volunteer Iowa in a federally insured, interest-bearing account. For exceptions to this requirement, refer to 2 CFR Chapters I and II. To the extent that interest is earned on advances of AMERICORPS funds, this interest shall be returned to Volunteer Iowa.

9.3 **MATCHING REQUIREMENTS FOR COST REIMBURSEMENT GRANTEES.** The following requirements apply only to cost reimbursement grantees.

a) The Grantee agrees to provide local matching contribution to the Program as defined in the "Grantee Share" column of the budget shown in Attachment B, "Budget". The Grantee is expected to meet the budgeted match percent of the Grantee share for each reporting period, unless otherwise agreed upon by the Commission.
b) The Grantee shall comply with OMB Cost Principles 2 CFR Part 200, Subpart E requirements related to allowable kinds and sources of match and match documentation requirements. Grantees utilizing match funds from other Federal sources must have consent from the other Federal source allowing the use of the funds as match under this Grant. Grantees shall report the amount and sources of federal funds, other than those provided by AMERICORPS, used to carry out its Program. This includes other federal funds expended by Program Subrecipients and operating sites. This information shall be reported on the Federal Financial Report (FFR).
c) If a Program fails to meet the matching requirements, the Commission will notify the Grantee in writing of the situation and request that the costs be brought into alignment with the budgeted federal and match percentages within one reporting period. If there is an on-going issue related to match, the Commission may notify the Financial Representative, Program Representative and/or the Authorized Representative of the Grantee agency. The Commission may suspend payment of reimbursement request(s) until the situation is corrected.

ARTICLE 10 - GENERAL TERMS AND PROVISIONS

10.1 **BINDING EFFECT.** This Grant Agreement shall be binding upon the Grantee and the Commission, and their respective successors, legal representatives and assigns. The obligations, covenants, warranties, acknowledgments, waivers, agreements, terms, provisions and conditions of this Grant Agreement shall be jointly and severally enforceable against the parties to this Grant Agreement.

10.2 **SUSPENSION.** Volunteer Iowa may suspend a grant for not more than thirty (30) calendar days. Examples of situations necessitating a suspension may include, but are not limited to:

a) **Serious risk to persons or property.**
b) **Violations of Federal, state or local criminal statutes.**
c) **Material violation(s) of the grant agreement.** Violations that are sufficiently serious that they outweigh the general policy in favor of advance notice and opportunity to show cause.
d) **Corrective action.** As part of a corrective action plan undertaken according to Article 8.2.

10.3 **TERMINATION.** Termination means the ending of the Grant Agreement, at any time prior to the planned end of the Grant Agreement Period.

a) **Circumstances for Termination.** This agreement may be terminated in the following circumstances. (The Administrative Rules of Volunteer Iowa in regards to the appeals process apply in all situations.)
    i. **For Convenience.** With thirty (30) days notice, Volunteer Iowa or the Grantee may terminate the Agreement in whole, or in part, when all parties agree that the

continuation of the Program would not produce beneficial results commensurate with the future disbursement of funds.

ii. **For Cause.** As a result of Grantee's default under this Agreement, as stated in Article 8. The agreement may also be terminated if it no longer effectuates the program goals or AMERICORPS priorities

iii. **Due to Non-appropriation or Reduction of AMERICORPS Funding.** If funds anticipated for the continuing fulfillment of this Agreement are at any time not forthcoming or insufficient due to non-appropriation, termination of the Program, or reduction in funding level, then Volunteer Iowa shall have the right to terminate this Agreement without penalty by giving the Grantee not less than thirty (30) days written notice. In the event of termination of this agreement under this Article, the exclusive, sole and complete remedy of the Grantee shall be payment of services rendered prior to termination.

b) **Procedures Upon Termination.**

i. **Termination Notice.** Volunteer Iowa shall provide written notice to the Grantee of the decision to terminate, the reason(s) for the termination, the effective date of the termination, and final reporting obligations and deadlines. If there is partial termination due to a reduction in funding, the notice will set forth the change in funding and the changes in the approved budget. The Grantee shall not incur new obligations after the effective date of the termination and shall cancel as many outstanding obligations as possible.

ii. **Rights in Products.** All finished and unfinished documents, data, reports and other material prepared by the Grantee under the Agreement, except for any intellectual property, shall, at Volunteer Iowa discretion, become the property of the Commission.

iii. **Return of Funds.** Volunteer Iowa's share of noncancelable obligations which Volunteer Iowa determines were properly incurred prior to notice of cancellation will be allowable under the Grant Agreement. The Grantee shall return to the Commission any costs previously paid by the Commission which are subsequently determined to be unallowable through audit, monitoring or closeout procedures within thirty (30) days of the disallowance. In case of termination, all unencumbered Grant proceeds shall be returned to Volunteer Iowa within thirty (30) days of the of receipt of Notice of Termination.

10.4 **SURVIVAL OF AGREEMENT.** If any portion of this Grant Agreement is held to be invalid or unenforceable, the remainder shall be valid and enforceable. The provisions of this Grant Agreement shall survive the execution of all instruments herein mentioned and shall continue in full force and effect until the Grant Agreement is terminated or the proceeds are paid in full.

10.5 **GOVERNING LAW.** This Grant Agreement shall be interpreted in accordance with the law of the State of Iowa, and any action relating to the Grant Agreement shall only be commenced in the Iowa District Court for Polk County or the United States District Court for the Southern District of Iowa.

10.6 **AMENDMENT.**

a) **Joint Modification.** The Agreement may only be amended through written prior approval of the Commission. The Commission or the Grantee may, during the duration of this

Agreement, deem it necessary to modify provisions of this Agreement, which make a substantial change in the scope of services, extend the period of operation, modify the performance measures or make other changes to programmatic elements of the Agreement. The provisions of the amendment shall be in effect as of the date the modification is signed by both the Commission and the Grantee, unless otherwise specified within the amendment.

b) **Unilateral Modification.** Notwithstanding paragraph (a) above, Volunteer Iowa may unilaterally modify this Agreement at will in order to accommodate any change in the Act or any change in the interpretation of the Act or any applicable federal, state or local laws, regulations, rules or policies. A copy of such unilateral modification will be given to the Grantee as an amendment to this Agreement. Volunteer Iowa will give the Grantee reasonable prior notice of any proposed unilateral modification of this agreement.

c) **Volunteer Iowa Review.** Volunteer Iowa will consider whether an amendment request is so substantial as to require AMERICORPS written approval or as to necessitate reevaluating the Commission's funding decision on the Program. An amendment will be denied if it substantially alters the circumstances under which the Program funding was originally approved or if it does not meet federal or state requirements.

10.7 **NOTICES.** Whenever this Grant Agreement requires or permits any notice or written request by one party to another, it shall be in writing, and delivered at Volunteer Iowa's discretion via electronic means (such as email with a read receipt requested), to the Authorized Representative, Financial Representative, or Program Representative as noted on this Grant Agreement (or to another Authorized Representative who may have been designated by written notice) or enclosed in an envelope, addressed to the party to be notified at the address heretofore stated (or at such other address as may have been designated by written notice), properly stamped, sealed and deposited in the United States Mail, as Certified Mail, return receipt requested. Any such notice given hereunder shall be deemed delivered upon the earlier of actual receipt or two (2) business days after posting. The Commission may rely on the address of the Grantee and Authorized Representative set forth heretofore, as modified from time to time, as being the address and Authorized Representative of the Grantee.

10.8 **WAIVERS.** No waiver by the Commission of any default hereunder shall operate as a waiver of any other default or of the same default on any future occasion. No delay on the part of the Commission in exercising any right or remedy hereunder shall operate as a waiver thereof. No single or partial exercise of any right or remedy by the Commission shall preclude future exercise thereof or the exercise of any other right or remedy.

10.9 **LIMITATION.** The Commission shall not, under any circumstances, be obligated financially under this Grant Agreement except to disburse funds according to the terms of the Agreement. It is expressly understood and agreed that the maximum amounts to be paid to the Grantee by the Commission for any item of work or service shall conform to the Budget as presented in Attachment B. It is further understood and agreed that all payments to the Grantee by the commission for all work and services required under this Agreement shall not exceed the Total Maximum Grant Amount unless modified by written amendment of this Agreement as provided for in Article 10.6.

10.10 **ENFORCEMENT EXPENSES.**

a) **State agencies:** If the Grantee is an Agency of the State of Iowa, if any dispute arises between the parties in connection with this Agreement and it cannot be resolved by mutual agreement of the parties, the remaining dispute shall be submitted to a board of arbitration in accordance with the procedure set forth in Iowa Code §679A.19.
b) **Private nonprofits, private institutions of higher education, city governments, school districts, and other grantee types:** If the Grantee is not an Agency of the State of Iowa, the Grantee shall pay upon demand any and all reasonable fees and expenses of the Commission, including the fees and expenses of their attorneys, experts and agents, in connection with the exercise or enforcement of any of the rights of the Commission under this Grant Agreement, following the parties' unsuccessful good faith attempt to resolve any default giving rise to the Commission seeking to exercise the enforcement of its rights.

10.11 **HEADINGS.** The headings in this Grant Agreement are intended solely for convenience of reference and shall be given no effect in the construction and interpretation of this Grant Agreement.

10.12 **PROGRAM NONDISCRIMINATION.** Grantee shall comply with the provisions of federal, state and local laws and regulations to ensure that no employee, member or applicant for employment is discriminated against because of race, creed, religion, color, age, sex, gender identity, sexual orientation, national origin, disability, or other protected class. Grantee shall provide state or federal agencies with appropriate reports as required, ensuring compliance with equal employment laws and regulations. Grantee shall ensure that all authorized subcontractors comply with provisions of this clause. A breach of this Article shall be considered a material breach of this Agreement.

10.13 **NON-ASSIGNMENT.** This Agreement may not be assigned without prior Commission written consent. The Grantee may not discontinue administration of activities under this Agreement without the prior written disclosure to and prior written consent of the Commission.

10.14 **INTEGRATION.** This Grant Agreement contains the entire understanding between the Grantee and the Commission and any representations that may have been made before or after the signing of this Grant Agreement, which are not contained herein, are nonbinding, void and of no effect. Neither of the parties has relied on any such prior representation in entering into this Grant Agreement.

10.15 **COUNTERPARTS.** This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all of which together shall constitute but one and the same instrument.

SUBJECT: 2021 – 2022 Iowa AmeriCorps State Award Letter

Dear Theresa Hauman,

We are pleased to inform you that Volunteer Iowa has approved an AmeriCorps program grant in the amount of $498772 in federal funding for City of Davenport AmeriCorps & Youth Corps Program. This award amount does not reflect any additional state funding that your program may receive or any administrative fees that may be charged or retained by Volunteer Iowa.

There are several steps in the AmeriCorps grant award process (award in eGrants, award in IowaGrants, and signing a hard copy grant agreement). There are also multiple pre-award/program start up requirements that you will wish to undertake before the formal start of your program. This letter aims to summarize these steps. We will also include some welcome information as part of our regular monthly Program Director webinar scheduled for July 21. Information is provided in the Key Requirements & Resources chart below about getting signed up for the monthly webinars and weekly email updates.

Grant Award

Written grant agreement: Your grant award will have a start date of 9/1/2021 and will go through one program year, ending on 8/31/2022. A signed grant agreement or a pre-award letter (see details below) must be in place before any grant funds can be expended (although your grant will appear in "awarded" status in eGrants and IowaGrants at an earlier date, it is not fully awarded until the grant agreement is executed).

Currently, the person to whom this letter is addressed is considered the program director/program contact for the grant award process. Additionally, we have the following individual listed as the authorized representative for the grant, based on your eGrants submission and/or previous grant agreements. This individual will be listed as the signer for your AmeriCorps grant agreement. Please contact us via email by Friday, July 9, to update the program contact or authorized representative.

Authorized Representative Name: Mallory Merritt

Title: Assistant City Administrator

Email: Mallory.merritt@davenportiowa.com

Once your individual grant agreement is drafted it will be sent to the authorized representative with instructions on how to complete it and return it to us. Let us know as soon as possible of deadlines that impact the approval and signature of the grant agreement by your organization (for example, if you need authorization from your board/council on a specific date) or if you would like to see a draft agreement template in order to expedite your agency's review process.

eGrants: The AmeriCorps grants have been awarded by CNCS in the eGrants system. Once this is complete, you are able to add recruitment postings and begin member pre-enrollment steps in the MyAmeriCorps/eGrants portal. If there are new staff who will be active in eGrants, they will need to set up their own account. They should register with your organization's EIN to be connected to your existing account. eGrants account registration system questions should be directed to the eGrants helpdesk.

IowaGrants: Most applicants had clarification and/or resolution items that resulted in changes to your eGrants submission. Note that when your grant is awarded in IowaGrants, it will include your final approved eGrants award and will be saved in the Grant Reference Materials section of IowaGrants. Any versions included in the Application section of IowaGrants may not be accurate and final. Grantees who receive state funding for their program in addition to federal AmeriCorps funding must complete the State Budget Allocation form and email to Volunteer Iowa by Friday, July 9, in order for the grant award to be set up correctly in IowaGrants.

IRS Form W9 & Iowa Direct Deposit Authorization Form: All new programs must submit a W9 to Volunteer Iowa so that we can set up an account to reimburse you under the grant award. New grantees wishing to use direct deposit, or existing grantees who wish to switch to direct deposit payments, have an additional form to submit. These forms should be submitted via email by Friday, July 9.

Pre-Award/Start Up Responsibilities & Reminders

Authorization for Pre-Award Costs: Programs should notify Volunteer Iowa via email by Friday, July 9, should they like to request authorization to incur pre-award costs. This authorization allows programs to incur allowable, non-member-related expenses from their AmeriCorps budgets in advance of the official grant start date, such as for staff time to work on program start-up activities. No pre-award costs should be incurred without authorization from Volunteer Iowa. Returning programs are reminded that a few recurring costs, such as for member recruitment and National Service Criminal History Checks, have been determined by the federal AmeriCorps agency to be allowable costs across grant years, meaning you may use funds from your 2020-2021 grant to cover that type of expense for 2021-2022 applicants. However these are exceptions from the general rule that 2021-2022 expenses must be incurred during the 2021-2022 grant period and charged to that year's grant.

IowaGrants Start Forms: Now that your grants are awarded in eGrants (and after your final eGrants materials are uploaded into IowaGrants as noted above), we will work to award them in IowaGrants so that you can begin work on the required start forms. These will be due in phases, with some due as soon as Aug. 1 for new programs with Aug. or Sep. 1 grant start dates. See our Start Form Checklist for full details on the required start forms and timeline. You are able to begin submitting start forms after the grant is awarded. If there are new staff on the program who were not involved in the application process, they will need to set up their own IowaGrants account and you will need to connect them to your awarded grant in the system (see our guide to Giving Others Access to IowaGrants). IowaGrants

account registration system questions should be directed to Volunteer Iowa compliance officer Jane Mild.

21-22 Enrollment Plan Form: The Enrollment Plan start form will be due **Aug. 1** for programs with an Aug. or Sept.1 start date. For those programs that would like to start working on their enrollment plan here's the link to the 21-22 Enrollment Plan form. There are a couple of changes to the form for 21-22, for example conditional formatting has been added to add reminders about anticipated service schedule hours and start dates beyond the conversion date. The two new columns, Planned Refills and Slots Left Unfilled are for use during Enrollment Plan Updates and can be left blank during the initial planning. If you have questions about the form or need more space, please reach out to Jane Mild.

National Service Criminal History Checks (NSCHC): The AmeriCorps agency has updated the National Service Criminal History Check guidance found at https://americorps.gov/grantees-sponsors/history-check. Operational programs must have a minimum of two staff complete the annual CNCS-required NSCHC e-course (planning grantees will be introduced to this course and complete it as part of their planning curricula). Certificates of completion from the training must be uploaded as part of the start form requirements in IowaGrants. Also, any covered staff on the grant must have completed NSCHC before they can begin charging time to the grant. Reminder: Contractors and staff NOT listed on an AmeriCorps budget (i.e. staff of fixed-amount grants) are not subject to NSCHC requirements. Programs must complete and adjudicate all components of the check the day before the member/staff start date (for members, this is based on the start date in eGrants) so it is important to start the process as early as feasible. If you have questions about how to conduct the checks under the new rule or how to get set up with any of the vendors for the checks, contact your program officer.

Program Manual: Please send an email to americorps@iowaeda.com by Friday, July 9, to let us know if you wish to receive a hard copy manual. For those who prefer a hard copy, we will plan to mail them out or make them available for pick-up at our office. Your email should include the number of hard copy manuals requested (normally a maximum of 2 per program and the desired mailing address or the best contact person to communicate details about picking up the manuals at our office). If we do not hear from you, we will assume you will be utilizing the electronic version.

Risk-Based Monitoring: As we continue to tailor our risk-based monitoring and support, this year programs with elevated risk/monitoring levels in grant, member, and/or financial management may be required to use Volunteer Iowa tools and templates or attend targeted trainings in these areas. More information on these expectations will be communicated in the start forms and/or along with notification of your risk/monitoring levels.

Member Recruitment & Support: See the Key Requirements & Resources section for important reminders about required member recruitment postings in eGrants (& suggested postings in Service Year), setting up member benefits for the coming year, and setting up your timekeeping system for incoming members. Programs that don't have final approval for their 2021-2022 their host site agreements and member service agreements should be working with Jane Mild to ensure that these are ready before the first members start under the new grant. New programs can request a template and technical assistance to get started on these documents.

Upcoming Trainings

Training & Evaluation Start-Up Survey: We encourage you to take our Start-Up Survey by the beginning of August to provide your input on the grant application process and training needs for the coming program year. Your feedback will help us make improvements in both of these areas!
