STAFF REPORT

ZONING BOARD OF ADJUSTMENT

Meeting Date: June 27, 2019
Applicant: Place of Refuge
Address: 518 Brown Street

Description

Request HV19-07 of Tom Thomas on behalf of Place of Refuge at 518 Brown Street for a hardship variance to refrain from providing required off-street parking spaces. Proposed plans provide no off-street parking spaces for the 84-seat place of worship. The property is zoned "R-4C" Central Residential District.

Section 17.10.040, Table 17.10-2 of the Davenport Municipal Code requires 9 parking spaces for an 84-seat place of worship (1 space for every 10 seats). [3rd Ward; Ald. Meginnis]

Background & Discussion

The petitioner has submitted a site plan application through Davenport's EPlan submittal. Plans show an addition to the north of the existing building for a sanctuary. Currently the sanctuary is located in the existing building which was built originally as a dwelling unit. The petitioner will need to submit a subdivision for this site as the expansion would be over a property line without the new subdivision. **The petitioner plans on providing two (2) off-street parking spaces.** Nine (9) off-street parking spaces are required for the 84 seat sanctuary.

The City of Davenport can and will be designating 3 on-street parking spaces on E. 6th Street and 4 on Brown St for church use, as allowed by Municipal Code. The parking spaces will be for 2-hour parking on Sunday mornings and signs will be installed before the sanctuary addition is occupied.

Purpose of a Hardship Variance

In the Davenport Municipal Code, Section 17.14.060 states: *The purpose of the hardship variance process is to provide a narrowly circumscribed means by which relief may be granted from unforeseen applications of this Ordinance that create practical difficulties or particular hardships.*

Approval Standards

The Zoning Board of Adjustment decision must make findings to support each of the following: (code requirement/applicants response/staff comments)

1. Strict application of this Ordinance will result in hardship unless the specific relief requested is granted.

Applicant Response:

The onsite parking requirement is a hardship based on site conditions of the project. The project is a corner lot with excessive grade difference. Our request is that the onsite parking requirement be waived. This corner does have ample on street parking that does not contribute to the onsite parking requirement.

Staff Comments:

While this site is not ideal for a church, the designated 2-hour on-street should alleviate most concerns. Residential on-street parking should not be impacted.

2. The particular physical surroundings, shape, or topographical conditions of the specific property impose a particular hardship upon the owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were to be carried out.

Applicant Response:

The existing lot has approximately a 10'-0" grade difference from the alley south of the property to 6th St on the North of the property. Most of the grade difference occurs close to the property lines on the North and the East. The only allowable access for any parking would be from the alley to the south of the property due to the excessive grade difference. The allowable space from the side yard setback does not allow for a driveway to be placed in that location. Also the amount of usable space based on the topography would not allow for proper storm water drainage. This lot has no direct access to a storm water main and uses the existing green space for water absorption.

Staff:

There are topographic issues that prevent the site from being able to provide more than 2 off-street parking spaces. It could be grounds for a hardship consideration.

3. The plight of the owner is due to unique circumstances that do not apply to a majority of adjoining or nearby property, and is not a self-created hardship.

Applicant Response:

This parking situation is unique to this lot based on the location of the existing structures, the width of the existing lot, and the existing topography of the lot. The adjoining property to the west has a structure placed far enough north to avoid the grade issue and to allow for space for parking, but is non-conforming with the side yard buffer requirements. The adjoining properties to the south do not have the same topographical concerns.

Staff:

Topography is a concern. On-street designated parking spaces should accommodate most impacts of this use.

4. The hardship variance, if granted, will not alter the essential character of the locality.

Applicant Response:

The project that is being proposed is an addition to the existing structure for the purpose of a gathering space for worship. Existing services have been located and practicing in this surrounding locality for multiple years, and the congregation is mainly local residents. The majority of the parishioners walk to service and would not require parking. Also there is only one day (Sunday) of major use of this structure, with minimal use for the rest of the week. Other churches have been located in neighborhood districts like this around Davenport.

Staff:

The character of the area will should not be impacted by the appearance of the building, nor by the use of on-street parking for two hours on a Sunday morning with the designation of on-street parking spaces for church use.

Findings & Staff Recommendation:

Findings: (Per the analysis above)

- Item #1 application of the ordinance creating hardship may have been established;
- Item #2 physical surroundings do create difficulty in developing the site;
- Item #3 there are some unique circumstance for this use;
- Item #4 protection of essential character should not be an issue as proposed;

Recommendation:

While the site is not ideal for the proposed use, staff concedes that the impacts to the neighborhood should be minimal if at least 2-hour City designated on-street parking is provided.

17.14.060 Hardship Variance

A. Purpose

The purpose of the hardship variance process is to provide a narrowly circumscribed means by which relief may be granted from unforeseen applications of this Ordinance that create practical difficulties or particular hardships.

B. Initiation

A property owner in the City, or person expressly authorized in writing by the property owner, may file an application for a hardship variance. A property owner, or his/her designee, may only propose a hardship variance for property under his/her control.

C. Authority

1. The Zoning Board of Adjustment will take formal action on hardship variance applications. However, the Zoning Administrator is authorized to grant certain administrative exceptions, as described in Section 17.14.070.
2. Hardship variances to allow uses that are not allowed within a zoning district are prohibited.

D. Procedure

All applications must be filed with the Zoning Administrator. Once it is determined that the application is complete, the Zoning Administrator will schedule the application for consideration by the Zoning Board of Adjustment.

1. After receipt of a complete application, the Zoning Board of Adjustment will consider the proposed hardship variance at a public hearing. If, in the Zoning Board of Adjustment's judgment, the application does not contain sufficient information to enable proper review and consideration, the Zoning Board of Adjustment may request additional information from the applicant and the public hearing may be continued.
2. The Zoning Board of Adjustment must evaluate the application based upon the evidence presented at the public hearing, pursuant to the approval standards of this section.
3. The Zoning Board of Adjustment must approve, approve with conditions, or deny the hardship variance within 30 days of the close of the public hearing, unless an extension is agreed to by the applicant.
4. The Zoning Board of Adjustment may impose conditions and restrictions upon the hardship variance as deemed necessary for the protection of the public health, safety, and welfare. The Zoning Board of Adjustment may grant a hardship variance that is less than that requested when it has been decided that the applicant is entitled to some relief of the hardship, but not to the entire relief requested in the hardship variance application.

E. Approval Standards

The Zoning Board of Adjustment decision must make findings to support each of the following:

1. The strict application of the terms of this Ordinance will result in hardship unless the specific relief requested is granted.
2. The particular physical surroundings, shape, or topographical conditions of the specific property impose a particular hardship upon the owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were to be carried out.
3. The plight of the owner is due to unique circumstances that do not apply to a majority of adjoining or nearby property, and is not a self-created hardship.
4. The hardship variance, if granted, will not alter the essential character of the locality.

F. Expiration

An approved hardship variance will expire one year from the date of approval unless a building permit is obtained or construction has begun prior to the end of the one year period. The Zoning Board of Adjustment may grant an extension for a period of validity longer than one year as part of the original approval. An applicant may apply in writing for an extension of time at any time prior to the date of expiration.
