Subject:

Case REZ21-01: Request of Dan Lorentzen on behalf of Rock Church Ministries Inc. to rezone Parcel P1304-02C from S-OS Open Space District to R-1 Single-Family Residential District to allow for the construction of a church [Ward 7].

Recommendation:

Hold the Public Hearing.

Background:

The petitioner is requesting a rezoning to R-1 Single-Family Residential District to allow for construction of a church. The S-OS Open Space District does not permit places of worship. A rezoning to R-1 Single-Family Residential District is the least intensive zoning classification that permits a church.

The 3.53 acre lot is located south of 46th Street and west of the railroad tracks. Deere Creek flows through the southeast corner of the parcel. The wooded lot also contains 100 year flood plain overlay, making the eastern portion of the property undevelopable.

The vacant parcel does not contain any street frontage. A fifteen foot private easement abuts the railroad right-of-way on the east lot line connecting the site to 46th Street. However, the private easement is not practical in offering ingress and egress to the property given the topography and proximity to Deere Creek. In order to develop the property, the owner will have to purchase additional property or create a new private easement along the west lot line for access to 46th Street.

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designations: The property is designated Parks and Recreation (PR) in the Davenport +2035 Land Use Plan. The Future Land Use Designation would need to be amended to Residential General (RG) through the adoption of a resolution by City Council.

1. **Parks and Recreation (PR)** – Designates major developed parks, recreation areas, golf courses, cemeteries, etc. Park or recreation properties can be located in any zoning district. Smaller parks may not appear on the map because of the more general nature and scale of the map. But, it is implied in Residential General (RG) that small neighborhood parks are included.
2. **Residential General (RG)** – Designates neighborhoods that are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity

may be considered.

Zoning:

The property is currently zoned S-OS Open Space District. This district is intended to provide and protect larger open space and public recreational facilities, both outdoor and indoor, and cemeteries. Larger regional open spaces/parks may include both active and passive recreation areas and certain ancillary uses, such as cultural facilities, performance venues, and eating establishments. This district is also intended for governmental agency offices/facilities providing a governmental service to the public.

The applicant is requesting a rezoning of the property to R-1 Single-Family Residential District. This district is intended to accommodate the lowest-density single-family neighborhoods within the City of Davenport, exhibiting a predominantly semi-suburban development pattern of large lots and generous yards. The R-1 district is the least intensive residential zoning classification that allows for places of worship.

Technical Review:

City Departments are reviewing the proposed Zoning Map Amendment Application. Further comments will be provided at the February 16, 2021 Plan and Zoning Commission meeting.

Public Input:

Letters were sent to property owners within 200 feet of the proposed request notifying them of the February 2, 2021 Plan and Zoning Commission Public Hearing.

To date, staff has not received any responses from adjacent property owners.

Staff will apprise the Commission of any correspondence at the February 16, 2021 Plan and Zoning Commission Public Hearing.

Why is a Zoning Map Amendment Required?

The Zoning Ordinance does not permit a place of worship in the S-OS Open Space District. The R-1 Single-Family Residential District is the least intensive residential zoning classification that allows for a new church to be constructed.

Subject:

ORD20-02: Request of Palmer College of Chiropractic to amend a section of the Campus Master Plan, bounded by East 11th Street and East 10th Street, between Pershing Avenue and Perry Street, from an athletic field to student housing [Ward 3].

Recommendation:

Staff recommends that the Plan and Zoning Commission forward Case ORD20-02 to City Council with a recommendation of approval with the following findings:

1. The modification is consistent with the Comprehensive Plan.
2. The modification meets the intent of the Institutional Campus District.
3. Sufficient parking has been identified for the student housing.

Background:

The Palmer College of Chiropractic is zoned S-IC Institutional Campus. In 2018, the City approved the rezoning under Ordinance 2018-107 which adopted Palmer's Master Campus Plan. At that time, the Land Use Plan called for a Sports Field in the area bounded by East 11th Street and East 10th Street between Perry Street and Pershing Avenue. The Petitioner has requested to modify the plan to utilize this area for student housing. The project includes 115 units and replaces the proposed student housing along Main Street between 7th and 8th Streets.

The proposal Section 17.07.030F outlines thresholds associated with modifications of the Land Use Plan. The proposed use qualifies as a Major Amendment and requires Plan & Zoning Commission review and City Council approval.

City of Davenport
Plan and Zoning Commission

Case: ORD20-02: Request of Palmer College of Chiropractic to amend a section of the Campus Master Plan, bounded by East 11th Street and East 10th Street, between Pershing Avenue and Perry Street, from an athletic field to student housing [Ward 3].

Recommendation: Staff recommends that the Plan and Zoning Commission forward Case ORD20-02 to City Council with a recommendation of approval with the following findings:

1. The modification is consistent with the Comprehensive Plan.
2. The modification meets the intent of the Institutional Campus District.
3. Sufficient parking has been identified for the student housing.

Background:

The Palmer College of Chiropractic is zoned S-IC Institutional Campus. In 2018, the City approved the rezoning under Ordinance 2018-107 which adopted Palmer's Master Campus Plan. At that time, the Land Use Plan called for a Sports Field in the area bounded by East 11th Street and East 10th Street between Perry Street and Pershing Avenue. The Petitioner has requested to modify the plan to utilize this area for student housing. The project includes 115 units and replaces the proposed student housing along Main Street between 7th and 8th Streets.

The proposal Section 17.07.030F outlines thresholds associated with modifications of the Land Use Plan. The proposed use qualifies as a Major Amendment and requires Plan & Zoning Commission review and City Council approval.

Public Input:

Prior to submittal of the Modification request, Palmer College of Chiropractic notified recognized neighborhood and organizations. The notice has been included.

Property owners within 500 feet were notified of the proposed modification. A notice of the public hearing was published in the Quad City Times. A neighborhood meeting was held on January 11, 2021 with 20 people, including staff, elected officials and the Petitioner, in attendance.

A public hearing at the Plan & Zoning Commission was held on January 19, 2021. No one from the public spoke. No written protests from the property owners within the notice area have been submitted.

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designations: The major modification area is within the Civic and Institutional category in the Davenport +2035 Land Use Plan.

Civic and Institutional – Reserved for major developments for government, education, religion, medical, utilities, and other cultural or non-profit organizations located outside of the Downtown (DT)

Zoning: Special Purpose District Institutional Campus (S-IC).

Institutional Campus District - Intended to encourage a comprehensive approach to development by significant institutions within the City. The S-IC District is also intended to:

1. Further the policies of the Comprehensive Plan;
2. Permit appropriate institutional growth within boundaries of the district while minimizing the adverse impacts associated with development and geographic expansion;
3. Balance the ability of specific institutions to grow and adapt to changing needs while protecting the livability and vitality of adjacent areas.
4. Encourage the preparation of a land use plan for higher development intensity institutional campuses that enables the community to understand the levels of development being proposed, their likely impacts and appropriate mitigation measures.

Technical Review: Stormwater has been identified as an ongoing issues within the area. Palmer has proposed stormwater detention as part of the student housing development as well as under the already planned athletic field to the north of the modification area to alleviate some of the stormwater issues. Palmer continues to work with staff to address stormwater and infrastructure needs as the implementation of their Campus Master Plan continues. Engineering staff believes the existing street network can accommodate the traffic associated with this modification.

Discussion: The major modification to the Palmer College of Chiropractic is required due to the increase in intensity within the proposed area. The remaining Campus Master Plan as adopted under Ordinance 2018-107 will remain with any minor changes reviewed by staff as outlined in Section 17.07.030F of the Zoning Code.

Approval Standards for Map Amendments (Chapter 17.14.040)

The Plan and Zoning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular standard. However, in making their recommendation and decision, the Plan and Zoning Commission and the City Council must consider the following standards. The approval of amendments is based on a balancing of these standards.

a. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

The proposed modification is consistent with the Comprehensive Plan. The modification is simply relocating an already approved use within the plan area.

b. The compatibility with the zoning of nearby property.

The subject property is adjacent to Residential – Multi-Family zoning districts and several other apartments in the vicinity. There is also R-4C at the campus edge. The Campus Master Plan addresses the need for delineating a campus edge which would be implemented with the modification. It is staff's opinion that the proposed amendment is compatible with the zoning of nearby property.

c. The compatibility with established neighborhood character.

The established neighborhood character is mixed use ranging from single and two-family residential, multi-family, commercial, and institutional. It is staff's opinion that the modification is compatible with the already approved character of the Palmer Campus Master Plan.

d. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

Palmer has identified 160 parking stalls within and adjacent to the proposed modification that will be allocated to students living within the student housing. According to the overall plan, the modification increases overall parking within the Campus. Appropriate access has been planned and will be achieved in conjunction with the vacation of proposed rights-of-way. The proposed modification will develop in a manner that promotes the public health, safety, and welfare of the City.

e. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property in question for one or more of the uses permitted under the existing zoning classification.

Under the current Zoning Ordinance, the S-IC Institutional Campus Zoning District allows for multi-family development. The current Campus Master Plan called for the same number of units of student housing to be located on Main Street between 7th and 8th Streets. The modification is relocated that housing as a net zero change in units.

f. The extent to which the proposed amendment creates nonconformities.

No nonconformities will be created with the modification.

SPECIAL PURPOSE DISTRICT/INSTITUTIONAL CAMPUS (S/IC) AMENDMENT

NARRATIVE

Narrative of intent and compatibility with surrounding area.

a. Description of overall architectural and/or urban design theme:

- **Palmer College of Chiropractic has evolved to meet the needs of its students and faculty as it has grown over the past 100 years; however, the architectural theme has remained constant. Buildings and houses of brick and stone dominate the campus, with more metal and glass introduced into recent projects. All have an urban “academic” design style with 2 to 4 floors of space. The campus plan and interaction with the neighborhood has also evolved aligning the core of academic spaces with Brady Street and residential buildings/parking at the perimeter. The proposed Master Plan strengthens the campus edge through expanded greenspace and landscaping at perimeter streets, buildings, and parking lots.**

b. Total number of existing and proposed users and employees of the facility:

- **Palmer’s current enrollment on at their Davenport Campus is approximately 1,000 students supported by 250 faculty and staff. 150 students currently live on campus. The proposed 10-year plan allows for an accommodation of up to 1,500 students with 400 living on campus.**

c. Description of existing and proposed conditions of development along the outer boundaries of the planned institutional district and its relationship with the surrounding area. Standards must be established to permit a compatible transition from the institutional use to the surrounding area. Standards include, but are not limited to building height and form, exterior lighting, landscaping, etc.

- **The Master Plan goals are to “create sensitive and mutually beneficial transitions between campus and the adjacent properties.” The proposed Campus Master Plan created by RDG Planning & Design is to create connection and comfort establishing a campus presence with the surrounding area. New buildings are minimal (residential only) and adding enhanced lighting, fencing, and landscaping will enhance this design concept.**

- d. Description of existing and proposed methods of communication between the institution and the community, including a method of resolution of community concerns:
- **Palmer College has been actively involved with Hilltop Campus Village since its inception, as well as in communication with Davenport Community Schools and adjacent businesses regarding any campus activities and improvements that impact the surrounding neighborhood. Although there are no known active residential groups, Palmer proposes to open a line of communication with the neighbors similar to their relationships with surrounding businesses. Palmer will schedule annual meetings with the neighborhood stake holders and residents to present and discuss campus planning and schedule, as well as neighbor concerns.**
- e. Description of any existing and proposed impacts of development and the surrounding area and how these impacts should be mitigated. This description shall include property outside the boundaries of the planned institutional district and their interaction with the surrounding area. Impacts include, but are not limited to lighting, noise, parking, etc.
- **The developments proposed in Palmer's Master Plan are primarily defining and softening their campus edge through expanding green space and landscaping. Proposed buildings will be designed to respect and complement the existing architectural theme on campus.**
- f. Description of existing and proposed relationship of institutional transportation system (auto, bus, bicycle, pedestrian) to the external street network. A description of specific programs to reduce traffic impacts and to encourage the use of public transit, carpooling, bicycling and pedestrian.
- **The urban nature of this campus is reinforced by student living. 15% of Palmer's students live on campus and another 30% to 40% live in rented neighborhood and downtown houses and apartments. The Master Plan proposes an additional 130 beds in new student housing. These students all walk to campus. Other students and faculty are encouraged to use public transportation and/or car-pooling for other daily trips to campus. The greening of Brady Street proposed in the Master Plan provides more opportunity for bus access in proximity to campus buildings.**

Subject:

Case ROW20-02 being the request of Palmer College of Chiropractic to vacate East 11th Street between Perry Street and Pershing Avenue and portions of alley in Blocks 89 and 96 of LeClaire's 8th Addition. [Ward 3]

Recommendation:

Staff recommends the City Plan and Zoning Commission table a decision on the alley in Block 96 of LeClaire's 8th Addition.

Staff recommends the City Plan and Zoning Commission accept the listed findings for the East 11th Street and the alley in Block 89 of LeClaire's 8th Addition in Case ROW20-02 to the City Council with a recommendation for approval subject to the listed condition.

Findings:

1. The proposed right of way vacation would not impact adjacent property owners with the proposed ingress/egress easement; and
2. A utility easement would preserve the rights for utility providers maintaining utilities within the East 11th Street right-of-way.

Conditions:

1. A utility easement be dedicated for the preservation and maintenance of public utilities within the East 11th Street right-of-way.
2. An ingress/egress easement be provided from the alley to Pershing Avenue.

Background:

As part of Palmer College of Chiropractic's Campus Master Plan, East 11th Street between Perry Street and Pershing Avenue and the alleys on Blocks 89 and 96 of LeClaire's 8th Addition were planned for future right-of-way vacation. Palmer is formally requesting to vacate these sections of right-of-way to move forward with planned development.

Palmer was rezoned in 2018 to Planned Institutional District (now called S-IC Institutional Campus), with Ordinance 2018-107. Two conditions were specific to the right-of-way:

Condition 3: That Palmer College of Chiropractic formally requests the vacation/abandonment of the public streets and alleys depicted on the Land Use Plan

Condition 4: In the event that East 11th Street between Perry Street and Pershing Avenue is vacated and conveyed to Palmer, that a pedestrian walkway be constructed from Perry Street to Pershing Avenue in the general location of East 11th Street utilizing existing bricks from the roadway surface and that historical markers be located at its intersection with Perry Street and Pershing Avenue.

The legal descriptions of the proposed vacations are attached. The land area to be vacated are as follows:

- 11th Street between Pershing and Perry: 19,545 square feet, more or less.
- Alley in Block 89 of LeClaire's 8th Addition: 5,604 square feet, more or less.
- Alley in Block 96 of LeClaire's 8th Addition: 4,091 square feet, more or less.

The staff report has been attached with a full analysis.

Palmer was rezoned in 2018 to Planned Institutional District (now called S-IC Institutional Campus), with Ordinance 2018-107. Two conditions were specific to the right-of-way:

Condition 3: That Palmer College of Chiropractic formally requests the vacation/abandonment of the public streets and alleys depicted on the Land Use Plan

Condition 4: In the event that East 11th Street between Perry Street and Pershing Avenue is vacated and conveyed to Palmer, that a pedestrian walkway be constructed from Perry Street to Pershing Avenue in the general location of East 11th Street utilizing existing bricks from the roadway surface and that historical markers be located at its intersection with Perry Street and Pershing Avenue.

The legal descriptions of the proposed vacations are attached. The land area to be vacated are as follows:

- 11th Street between Pershing and Perry: 19,545 square feet, more or less.
- Alley in Block 89 of LeClaire's 8th Addition: 5,604 square feet, more or less.
- Alley in Block 96 of LeClaire's 8th Addition: 4,091 square feet, more or less.

The Petitioner has proposed ingress/egress easement from the alleys to the street to ensure adjacent properties will be able to maintain two-points of access off of the existing street network. These would be formalized as part of a subdivision.

The petitioner also intends to comply with the existing condition for the vacation of East 11th Street. A concept plan has been provided.

Analysis:

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Zoning:

The adjacent properties are zoned S-IC Institutional Campus District and R-MF Residential Multi-Family District.

Technical Review:

Streets. East 11th Street is improved with roadways and sidewalks. Street is currently listed on the protected historic brick street inventory. The Historic Preservation Commission reviews the removal of historic brick streets. The Commission recommended a conditional approval of the removal of East 11th Street between Perry Street and Pershing Avenue at its August 8, 2017. Those conditions were incorporated into the rezoning conditions of the Planned Institutional District.

Storm Water. There is no existing stormwater infrastructure within the alleys or E 11th Street rights-of-way.

Sanitary Sewer. No sanitary sewer service is located within the rights-of-way.

Other Utilities. A water main is located parallel to East 11th Street and a utility easement will be required. Electric and telecommunication utilities are located within the alley in Block 96. Discussions with the utilities on relocation or other alternatives are ongoing, and a final decision from the utilities has not been obtained. Electric service is located within the alley in Block 89; however the utility is able to remove their infrastructure and still service their customers and the proposed student housing.

Emergency Services. East 11th Street will serve as a fire access point for the proposed student housing. All other affected properties are adjacent to other rights-of-way and would not affect Emergency services.

Parks/Open Space. This request does not impact any existing or planned parks or public open spaces. East 11th Street will serve as a pedestrian corridor with the Palmer campus to implement the Campus Master Plan's goal of connectivity throughout the campus.

Public Input:

Public Hearing notices were sent concurrently with Case ORD20-02, which is Palmer's request for a modification to the Campus Master Plan to allow for student housing. Property owners within 200 feet of the proposed right-of-way vacation in advance of the January 19, 2021 Plan and Zoning Commission Public Hearing. No one spoke other than the applicant at the public hearing. To date, staff has not received any written objections to the request.

Staff Recommendation:

Staff recommends the City Plan and Zoning Commission table a decision on the alley in Block 96 of LeClaire's 8th Addition.

Staff recommends the City Plan and Zoning Commission accept the listed findings for the East 11th Street and the alley in Block 89 of LeClaire's 8th Addition in Case ROW20-02 to the City Council with a recommendation for approval subject to the listed condition.

Findings:

1. The proposed right of way vacation would not impact adjacent property owners with the proposed ingress/egress easement; and
2. A utility easement would preserve the rights for utility providers maintaining utilities within the East 11th Street right-of-way.

Conditions:

1. A utility easement be dedicated for the preservation and maintenance of public utilities within the East 11th Street right-of-way.
2. An ingress/egress easement be provided from the alley to Pershing Avenue.

Subject:

REZ20-09: Request of S.J. Russell, L.C. on behalf of Sophie Foster Revocable Trust to rezone the property located at 4607 East 53rd Street to C-2 Corridor Commercial District and R-MF Multi-Family Residential District. The purpose of the rezoning is to lift the existing land use and development restrictions on the property, adjust the commercial zoning boundary, and allow for townhouse and multi-family development [Ward 6].

Recommendation:

Staff recommend Case REZ20-09 be forwarded to the City Council with a recommendation for approval subject to the listed findings and conditions.

Findings:

1. The zoning map amendment is consistent with the Davenport +2035 Land Use Plan, which identifies the property as Regional Commercial (RC) along the 53rd Street corridor and Residential General (RG) on the southern portion of the site.
2. The proposed C-2 Corridor Commercial District is compatible with the zoning of nearby property on 53rd Street. However, the proposed R-MF Multi-Family Residential District creates a higher density than the surrounding neighborhoods, which are zoned R-3 Single-Family and Two-Family Residential District. Therefore, conditions requiring enhanced landscaping buffers and a reduction in the maximum building height are needed to mitigate potential impacts between land uses.
3. Special consideration must be given to the increased density the proposed rezoning petition. A traffic study is required to address increased traffic demand on the major arterial roadway and local streets. Requiring a traffic signal on 53rd Street and a public north-south road through the development site will aid in mitigating traffic and emergency response concerns.
4. Rezoning the property to C-2 Corridor Commercial District and R-MF Multi-Family Residential District does not create any nonconformities.

Conditions:

1. The City Council is requested to pass a resolution amending the Regional Commercial (RC) and Residential General (RG) land use boundaries on the Davenport +2035 Future Land Use Map.
2. A traffic study is required and additional traffic safety measures may be required as development occurs.
3. A north-south public street shall be required to connect Lakeview Parkway to Eastbury Estates Drive.
4. A traffic signal shall to be required at the intersection of Lakeview Parkway and East 53rd Street.
5. A second ingress/egress point to East 53rd Street shall be required.
6. Street connections to East 51st Street and Hawk Drive shall be prohibited.
7. The multi-purpose trail shall be extended to the west property line.
8. A 20-foot setback on the eastern and western-most property lines in the C-2 zoning district shall be required where abutting commercial zoning districts.
9. A 30-foot buffer shall be required on the eastern, western and southern-most property lines

- of the subject property where abutting residential districts.
10. The height of structures in the R-MF zoning district shall be no greater than 35 feet.

Background:

Comprehensive Plan:

Within Existing Urban Service Area: Yes

Within Urban Service Area 2035: Yes

Future Land Use Designations: The northern 19.86 acre area along East 53rd Street is designated Regional Commercial (RC). The southern 18.06 acre portion of the property is designated as Residential General (RG) in the Davenport +2035 Land Use Plan. The boundary between the two land use designations would need to be amended.

1. **Regional Commercial (RC)** – Are the most intense commercial areas that have service boundaries that extend beyond the City limits of Davenport. Areas designated RC should be located at the intersections of major streets and have good access to interstate and other highways. Typical uses include big box retail and large office complexes; although some residential, service and institutional uses may also be located within RC. Most people will drive or take transit to areas designated RC. However, good pedestrian systems should serve these areas and focus on connectivity from the street, through parking lots and between individual uses. Connectivity to nearby neighborhoods is desirable but less important.
2. **Residential General (RG)** – Designates neighborhoods that are mostly residential but include, or are within one-half mile (walking distance) of scattered neighborhood-compatible commercial services, as well as other neighborhood uses like schools, churches, corner stores, etc. generally oriented along Urban Corridors (UC). Neighborhoods are typically designated as a whole. Existing neighborhoods are anticipated to maintain their existing characteristics in terms of land use mix and density, with the exception along edges and transition areas, where higher intensity may be considered.

Zoning:

The northern portion of the property is currently zoned C-2 Corridor Commercial District. This district is intended to address the commercial corridors that are primarily oriented toward a mix of retail, personal service, and office uses along arterial streets and collector streets adjacent to arterials streets in the City. The C-2 District accommodates auto-oriented development – both individual businesses and retail centers – and mixed-use development, with the intent of improving the pedestrian environment along Davenport's commercial corridors.

The southern half of the site is presently zoned R-4 Single-Family and Two-Family Central Residential Zoning District. This zoning district is intended to accommodate residential neighborhoods in the City of Davenport consisting of single-family and two-family homes in a dense urban development pattern. The R-4 District may also serve as a transitional district between Davenport's single-family and two-family neighborhoods and more intense uses within the City. Limited non-residential uses that are compatible with the surrounding residential neighborhoods may be permitted in the R-4 District. The maximum building height allowed in R-4 districts is 35 feet.

The applicant is petitioning to rezone the southern portion of the property to R-MF Multi-Family Residential District. This district is intended to accommodate a high-density neighborhood

environment characterized by a mixture of housing types including semi-detached dwellings, two-family dwellings, townhomes and multi-family dwellings. Single-family is not allowed in this district. Limited non-residential uses that are compatible with the surrounding residential neighborhoods may be permitted in the R-MF District. The maximum building height allowed in this district is 70 feet. The petitioner has provided a concept plan showing townhomes on the southern portion with the intention of selling as owner occupied. The northern portion of the proposed R-MF would be townhouse-style rental units.

Technical Review:

City Departments reviewed the proposed Zoning Map Amendment Application for compliance with city ordinances and impacts to regional systems. City staff coordinated technical review with planning staff at the City of Bettendorf to ensure continuity between the two municipalities.

Public Input:

Letters were sent to property owners within 200 feet of the proposed request notifying them of the January 7, 2021 Neighborhood Meeting and the January 19, 2021 Plan and Zoning Commission Public Hearing.

Over 40 people attended the meeting to express concern over the proposed commercial and residential development. Discussion was generally related to the following items: impact on property values, opposition of multi-family residential development in favor of single-family homes, building height, buffering between development and the existing neighborhood, traffic on 53rd Street and neighborhood roads, typography and mass grading of the site, wet detention ponds, noise, and light spillover from commercial properties. Comments were generally opposed to the rezoning request.

In addition to the concerns raised at the neighborhood meeting, written comments received after the Plan and Zoning Commission public hearing have highlighted concerns over the capacity of the school district and an increase in crime.

In response to public comments, Dan Dolan Homes has committed to a building height restriction of thirty-five feet, which is consistent with the adjacent residential zoning districts. Both Russell Construction and Dan Dolan Homes have agreed to a minimum thirty foot buffer along the eastern, western, and southern property lines where abutting residential. The overall site plan is being modified to address City and property owner concerns. A revised concept plan has been included in the report, and is subject to change as the petitioner seeks to address additional concerns and incorporate the conditions outlined in staff's recommendation.

Protest Petitions

As of Friday January 29th, staff has received forty-nine protest petitions from adjacent property owners within the 200 foot notification boundary. The percentage of protests impacts City Council action requirements. When the protest rate exceeds the 20% threshold, the rezoning request may only be approved by a favorable $\frac{3}{4}$ vote of the City Council.

Protests are accepted through the public hearing before the City Council. All protest petitions and comment received by the City are included in the staff report packet.

Discussion:

The 37.93 acre lot is currently being used for agriculture. The northern section of the property

abuts East 53rd Street, which is a commercial corridor containing a mix of retail, restaurants, and offices. In contrast, the southern portion is surrounded by single-family residential neighborhoods. The City of Bettendorf borders the eastern boundary of the development site.

In 2011, the property was rezoned as part of a Planned Development District. The Plan and Zoning Commission placed land use restrictions on the site to mitigate potential impacts to the surrounding residential neighborhoods. The development of the property never occurred, but the zoning restrictions have remained on the site. The petitioner is requesting to remove the existing land use and development restrictions from the property, adjust the commercial zoning boundary, and enable multi-family residential development.

The City Council approved Ordinance No. 2011-20 and Ordinance No. 2011-21, which placed the following restrictions on the property:

1. That the proposed uses be limited to professional offices and residential uses.
2. That building height restrictions be reviewed at the site plan phase with lower building height (step down) being located along the perimeter of the development area.
3. That at a minimum, a buffer yard of fifty feet containing an undulated five to six foot berm be established along and within the commercially zoned area and that this buffer yard be developed with the following plantings: three canopy trees, 6 understory trees and 9 shrubs or evergreens/conifers per 100 linear feet. This buffer yard and berm shall be established during construction of any portion of the commercial zoned area.
4. 275 foot building setback line on both the east and west boundaries of the commercial zoning (no buildings allowed in the setback area for both east and west side setbacks other than residential lots on west side (houses to be built on residential lots).
5. A maximum of six buildings in the commercially zoned area.
6. A maximum commercial footprint of 160,000 square feet within the commercially zoned area.
7. A maximum commercial total square feet of 240,000 square feet within the commercial zoned area.
8. A maximum of two story height on the commercial buildings.
9. Any commercial buildings located on the approximate 40% of the PDD area can be no higher than one story above finished grade.
10. That with each site plan, preliminary or final plat provision be made for the dedication of right-of-way for the dedication of right-of-way for: the easterly extension of East 51st Street to Hawk Drive; the northerly extension of Eastbury Estates Drive to East 51st Street; the southerly extension of Lakeview Parkway to East 51st Street; and a northerly connection from East 51st Street to the northerly development site. Review of this connection and any necessary traffic calming measures be done in conjunction with the review and approval of the associated development plan or subdivision platting.
11. That at least 50% of the residential development be single-family detached housing and said detached housing be located abutting the existing single-family development.

Why is a Zoning Map Amendment Required?

The zoning map amendment is required to lift the existing land use and development restrictions on the property, adjust the commercial zoning boundary, and allow for townhouse and multi-family development.

Approval Standards for Map Amendments (Chapter 17.14.040)

The Plan and Zoning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular standard. However, in making their recommendation and decision, the Plan and Zoning Commission and the City Council must consider the following standards. The approval of amendments is based on a balancing of these standards.

a. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

Staff Response: The property is designated Regional Commercial (RC) and Residential General (RG) in the Davenport +2035 Land Use Plan. The modified boundary for Regional Commercial (RC) on the northern portion of the development site is compatible with the surrounding area. 53rd Street has developed as a major commercial corridor in both the City of Davenport and the City of Bettendorf. The applicant is attracting retail, office, service, and institutional development to the property within the C-2 Zoning District, which is consistent with the established character of 53rd Street.

The southern portion of the site will remain Residential General (RG). However, the boundary will be modified to reflect the conceptual site plan. This land use is consistent with the neighborhoods south of 53rd Street and east of Utica Ridge Road. The surrounding neighborhoods are single-family residential to the west, south, and east of the site. The Residential General (RG) land use classification allows for higher density housing along edges and transition areas.

It is staff's opinion that a condition shall be placed on the Zoning Map Amendment requesting City Council to adopt a resolution amending the Regional Commercial (RC) and Residential General (RG) boundaries on the Future Land Use Map to reflect the proposed development.

b. The compatibility with the zoning of nearby property.

Staff Response: The subject property is located on a commercial corridor, spanning both the City of Davenport and the City of Bettendorf. Land uses to the north of 53rd Street include medical and professional offices. The properties directly east comprise a bank, restaurant, and gas station. Developing the northern portion of the site for similar office, retail, and restaurant establishments is compatible with the zoning of nearby property. To reduce potential conflict with adjacent uses, staff recommends a 20-foot setback on the eastern and western-most property lines in the C-2 zoning district where abutting commercial zoning districts.

It is staff's opinion that the proposed amendment to R-MF Multi-Family Residential District is with no restrictions is incompatible with the zoning of nearby property. The existing R-4 Single-Family and Two-Family Residential District serves as a more appropriate transitional zone between the lower density neighborhoods and the more intense commercial uses on the northern portion of the site. To minimize impacts to the homes on Hamilton Court, 49th Court, 49th Street, and Dove Court, staff recommend a 30-foot buffer along the eastern, western and southern-most property lines that abut residential districts. A height restriction of 35 feet would also reduce overall potential density.

c. The compatibility with established neighborhood character.

Staff Response: The established neighborhood character is primarily commercial along 53rd Street and residential to the west, south, and east of the subject property. It is staff's opinion that the C-2 Corridor Commercial District on the northern portion of the site is compatible with the existing zoning along the 53rd Street corridor. However, the rezoning classification to R-MF Multi-Family Residential District will create a higher-density residential environment that is inconsistent with the established character of the surrounding single-family neighborhood. R-MF allows multi-family and townhouse style developments of 3-units or more, which diverges from the established adjacent neighborhoods. However the change in housing types can help transition between single and two-family homes to a commercial development. To address the differences in density, it is staff's opinion that a buffer, landscaping, and building height restrictions are necessary.

d. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

Staff Response: The proposed commercial will result in additional traffic along the 53rd Street corridor. The proposed multi-family development substantially increases the density of the subject property, which will generate additional trips onto 53rd Street, Hawk Drive, and Eastbury Estates Drive. The commercial and residential development of the site requires a traffic study to ensure appropriate infrastructure is in place to address the projected increase in traffic volume on 53rd street and the surrounding residential neighborhoods. City staff recommend a north-south public road be constructed extending Eastbury Estates Drive north to 53rd Street. The new public right-of-way shall align with Lakeview Parkway. This will direct site traffic to a major arterial roadway and reduce traffic on the local streets. A traffic signal shall be installed at the newly created four way intersection. To alleviate congestion at the new traffic signal, a second access point is required further east on 53rd Street.

Based on comments from the City of Bettendorf and adjacent property owners, internal roads shall not connect to 51st Street and Hawk Drive. This ensures local residential roads do not receive higher traffic volumes. In order to enhance walkability and bicycle infrastructure, city staff recommend an extension of the ten foot multi-use path to the west property line. The final placement of streets will be reviewed during the subdivision process.

It is staff's opinion that the proposed zoning map amendment fails to adequately promote the public health, safety, and welfare of the City. The revised conceptual development plan addresses the negative traffic impacts to the regional transportation system on the proposed R-MF area. The C-2 area has not been revised to show staff recommendations on the transportation network. Internal road connectivity is required to ensure emergency response times and service standards. Staff believes adding conditions to the rezoning request can address and mitigate the impacts to the regional transportation network.

e. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property in question for one or more of the uses permitted under the existing zoning classification.

Staff Response: Under the current Zoning Ordinance, strict conditions are placed on the

commercial portion of the site that limit setbacks, building height, building footprint, number of buildings, total square footage of buildings, and uses. It is staff's opinion that the existing development restrictions on the commercial portion of the site be removed and replaced with modified conditions. The recommended conditions will promote development of the site while recognizing the concerns of the abutting residential property owners.

The current zoning restrictions on the residential portion of the property require the connection of 51st Street, Hawk Drive, and Eastbury Estates Drive. In collaboration with the City of Bettendorf, it was determined that the road network eliminate the connection of 51st Street and Hawk Drive. Instead, a new public road connecting Eastbury Estates Drive to 53rd Street should be constructed to enhance connectivity and direct traffic away from the abutting neighborhoods. The existing zoning conditions require at least fifty percent of the residential development be single-family detached housing, which better maintains the character of the established neighborhoods. The conditions placed are appropriate for the level of density that is permitted under the current zoning.

f. The extent to which the proposed amendment creates nonconformities.

Staff Response: The undeveloped 37.93 acre site satisfies the dimensional standards for C-2 Corridor Commercial District and the R-MF Multi-Family Residential District. Dimensional standards, such as lot area, lot width, setbacks, building coverage, and impervious surface will be addressed during the subdivision and development process.

It is staff's opinion that the proposed amendment will not create any nonconformities. City staff are recommending a condition that the height of structures in the R-MF Multi-Family Residential District be no greater than thirty-five feet, which is the same height restriction in the abutting R-3 Single-Family and Two-Family Residential District. Reducing the maximum building height from seventy feet to thirty-five feet will create consistency with the surrounding single and two story homes.

Findings:

1. The zoning map amendment is consistent with the Davenport +2035 Land Use Plan, which identifies the property as Regional Commercial (RC) along the 53rd Street corridor and Residential General (RG) on the southern portion of the site.
2. The proposed C-2 Corridor Commercial District is compatible with the zoning of nearby property on 53rd Street. However, the proposed R-MF Multi-Family Residential District creates a higher density than the surrounding neighborhoods, which are zoned R-3 Single-Family and Two-Family Residential District. Therefore, conditions requiring enhanced landscaping buffers and a reduction in the maximum building height are needed to mitigate potential impacts between land uses.
3. Special consideration must be given to the increased density the proposed rezoning petition. A traffic study is required to address increased traffic demand on the major arterial roadway and local streets. Requiring a traffic signal on 53rd Street and a public north-south road through the development site will aid in mitigating traffic and emergency response concerns.
4. Rezoning the property to C-2 Corridor Commercial District and R-MF Multi-Family Residential District does not create any nonconformities.

Conditions:

1. The City Council is requested to pass a resolution amending the Regional Commercial (RC) and Residential General (RG) land use boundaries on the Davenport +2035 Future Land Use Map.
2. A traffic study is required and additional traffic safety measures may be required as development occurs.
3. A north-south public street shall be required to connect Lakeview Parkway to Eastbury Estates Drive.
4. A traffic signal shall to be required at the intersection of Lakeview Parkway and East 53rd Street.
5. A second ingress/egress point to East 53rd Street shall be required.
6. Street connections to East 51st Street and Hawk Drive shall be prohibited.
7. The multi-purpose trail shall be extended to the west property line.
8. A 20-foot setback on the eastern and western-most property lines in the C-2 zoning district shall be required where abutting commercial zoning districts.
9. A 30-foot buffer shall be required on the eastern, western, and southern-most property lines of the subject property where abutting residential districts.
10. The height of structures in the R-MF zoning district shall be no greater than 35 feet.

FORMAL PROTEST

Name: Barry & Kristin Winkler

Address: 4978 Dove Ct., Bettendorf, IA 52722

I am filing this formal protest with the Planning and Zoning Commission and City Council of the City of Davenport, Iowa. I **object** to the rezoning of 4607 E. 53rd St. (Case REZ20-09).

Other comments (optional): The current zoning plan maintains a consistent housing plan within the neighborhood. The new zoning plan completely changes the neighborhood adjacent to the property. The only reason there is a new zoning request is because the property is priced above market value. If the property was sold at market value, the current zoning plan would allow any developer to make a reasonable profit.

To: Davenport City Council Members

We are residents of Bettendorf at 5011 Dove Court, (corner of Hawk Dr. & Dove Ct.).

This letter serves as our reasons for objecting to the recent request for a Davenport rezoning plan filed under the Sophie Foster estate.

We live within the immediate perimeter of several neighborhoods impacted by the proposed plan. As a longtime Bettendorf resident (19 yrs.), we request consideration of our concerns listed in this letter on this subject. We have no plans of moving as many of us within these neighborhoods have homes that can or have been modified to allow us a quality of life of aging within our current homes.

Our main concerns to be addressed and/or communicated more in detail in future meetings:

1. There will be a significant increase in traffic volume and varying patterns of flow since Hawk Dr. is one of two outlets to/from the projected housing areas.

We currently enjoy a clean, quiet, low crime neighborhood that will certainly change if this project is approved. That change has not been proven this would be a positive one.

Question: Has there been a study conducted to show residents an estimation of impact/volume?

2. Traffic flow from the proposed condo/apartments adjacent to the proposed and including the commercial section only shows access or outlet from an already very busy 53rd Street. This proposal going forward should include plans for a coordinated and timely commitment to install sufficient well placed traffic lights. Otherwise, the current status for safety, convenience, and quality of commuting will decline quickly. If nothing more is communicated, this proposal will meet with escalating objections. This part is critical. I would hope planners, developers, etc, do not adopt the thought that disappointed and unhappy current residents will just simply pick up and move if they don't like it. We have created this desirable neighborhood and community in the first place. It just happened to be built next to farming land. Regardless, we all have been great stewards of our properties and plan to continue to maintain that same high level standard in the future. This is seen as a threat to leaving behind and perhaps the planners will not be gaining back like-minded new residents. Something to think about.
3. Light pollution from future commercial development hasn't been communicated very well as to how this is monitored, enforced, or addressed if there are infractions. That information is missing and lay people need to understand what would be leveraged as enforceable and result in fines should there be infractions.

We can share the impression of many present during the last meeting was once the land is approved/rezoned, planners can do as they please. What protects current residents?

4. Collection ponds should be dry and not wet as the ponds north of 53rd St. have not been desirable in how they have been kept up, cleaned up, and the attraction of more geese with contamination of their proliferative waste products is not now we need more of. The collection marsh to the east of the Village Cooperative of Crow Creek is a far better option year round. Walking by them is more pleasant all seasons compared to north of 53rd.

These comments reflect our major concerns with this rezoning and we are asking for consideration and attention to this project.

Thank you,

To Whom It May Concern,

This letter is to serve as a written protest to the rezoning of the land on 4607 E 53rd St. Davenport (Case REZ20-09). My husband and I own property at 2115 Hawk Dr. Bettendorf, IA which is within 200 feet of the property under consideration. We strongly object to the rezoning from R4 to R-MF, as we feel this would negatively impact our neighborhood and home values. We are also concerned about the amount of additional vehicular traffic on Hawk Dr. if it becomes an access street to the new townhomes as proposed.

We hope that you will take our concerns, as well as our neighbors', into consideration during the rezoning process.

Sincerely,

Marie and Eric Burton

Subject: 38 acres of Foster land on 53rd.

To the City of Davenport

Russell Construction's request to rezone the land from R-4 to R-MF would be far too much for the schools to handle with all the children moving in and it would also decrease the value of our homes on 49th CT. in Davenport.

Russell Construction's greed will only hurt the city and our home values.

Please consider the home owners affected by this decision and rule in our favor to not allow them to rezone the land.

Thank You. Douglas E Andersen

To Whom It May Concern:

My name is Kelly Cypher and I live at 4721 E 49th Ave Davenport, IA 52807. I have recently been notified about the proposed rezoning of 4607 E 53rd St Davenport, IA 52807, the property across the street from my home. I must voice my strong opposition to this rezoning as I bought my current home since it was not near any apartments, condominiums or town homes. This rezoning will decrease our property values and increase traffic and noise in our neighborhood which is one of the main reasons we purchased our home here, those are not current issues in this area. Please take into consideration all the homeowners, including myself and my family, near this property that object the rezoning of case # REZ20-09.

Thank you for your time,

Matt,

I would be in protest of the proposed rezone. I own a property at 4750 E. 49th Ave. that touches the south end.

After attending the January 7th public meeting property owners raised solid arguments and concerns. I have practiced real estate sales and brokerage in Davenport for 40 years, statements made about property value reduction are "valid".

If the zoning on this property was decades old or zoned "ag" a change makes sense. The current zoning is only 3 years old. Several neighbors made purchase decisions based on the 2018 zoning change.

It is unfair to "move the goalposts" on the neighborhood.

The development should fit the zoning, not the other way around.

Kevin Dolan mentioned at the public meeting the ground was extremely expensive so the proposed development plan was needed to cover the costs. Why should property owners be damaged so Sophie Foster obtains a premium over market value.

She has been trying to sell the ground for 15 years. If it was "market priced" it would of sold in one year.

Enforce the current zoning without modification.

Please share this E-mail with the P&Z commission and or city council.

Regards,

W. T. Grampp

4607 E. 53rd St.
Davenport, IA

This letter is presented in opposition to the rezoning of the above listed property. Based on the proposed use of this property by S.J. Russell, L.C. major concerns are:

- a. There are only two entrances/exits for the residential portion of this property. Rezoning as requested for multi-family dwellings and 56 single family dwellings will severely overload the residential streets of Hawk Drive and Eastbury Estates Drive.
- b. The Bettendorf elementary neighborhood school will be adversely affected with the potential substantial increase in children.
- c. There is concern for excessive water run-off due to the increased number of buildings being suggested for this property. Today there is a large of amount of water run-off and pooling in the low areas on the east side of this area is substantial.

City of Davenport Planning and Zoning,
Subject: **OBJECTION** to the rezoning of 4607 E. 53rd St. (Case REZ20-09)
Reference Property: 4607 E. 53rd St. (Case REZ20-09)

I would like to formally **object** to rezoning of 4607 E. 53rd St. (Case REZ20-09). We have many concerns with the development of this property, which is adjacent to my property. The following are my concerns.

Residential/Multi Family Concerns (R-MF)

- Traffic from single family homes.
 - o Having the families exiting and entering the new neighborhood through Hawk Drive and Eastberry Estates poses many issues.
- The largest, and most concerning is safety. There are many families with children in the area, any additional traffic only increases the risk of accidents.
- Another major concern is maintenance. With the addition of the 100+ cars a day there will be additional wear and tear on the streets in Bettendorf. Who is going to pay for the additional maintenance that is required?
- Traffic from the Multi Family Rental Properties
 - o How is the additional traffic on 53rd going to be addressed? It is already congested and adding 120+ homes will only make it worse.
- Height of the Multi Family Rental Properties
 - o The R-MF zoning allows for building up to 70 feet tall. This does not fit the area and would be a big deterrent to owning a home adjacent to these structures. I feel a height restriction of 25-30 ft (2-story) exposed building would be appropriate for the area.
- Light Pollution from Multi family parking lots
 - o I understand the builders will be required to follow the codes, with lighting levels of <1 fc at the lot line, but this does not address the direct site of the light fixtures themselves.

Commercial (C-2)

- Type of uses being proposed, Retail and Restaurants (bars), for the commercial zoned areas is less than desirable for many reasons.
 - o Additional traffic. In addition to the traffic single family homes, the additional traffic to the stores and restaurants will only cause more traffic issues. How is this being addressed?
 - o Noise. If restaurants and bars are going to be built there will be outdoor seating and the possibility of live, or played, music that will disrupt the surrounding area. If these types of businesses are going to be built, I feel limitations on outdoor seating and limitations on sound levels should be included in the zoning.
- Light Pollution from parking lots
 - o I understand the builders will be required to follow the codes, with lighting levels of <1 fc at the lot line, but this does not address the direct site of the light fixtures themselves.

Thank you,

Jared Van Middlesworth

Subject: Rezoning Of Sophie Foster Property 4607 E. 53rd St. Davenport, IA

This letter is presented in opposition to the rezoning of the above listed property. Based on the proposed use of this property by S.J. Russell, L.C. major concerns are:

- It seems to me that when both sides, that is the east and west sides of the property adjacent to 4607 East 53rd Street were being developed, adequate traffic flow onto the streets surrounding that property and the safety issues regarding vehicle congestion in those residential streets were a part of the planning process. In the proposed plan there seems to be no regard for those residents who own property on Hawk Drive and Eastbury Drive in terms of the new traffic flowing into those single family home residential areas. I believe this proposal will create a serious safety issue for the current residents.
- It seems to me that the school system in Bettendorf, specifically Paul Norton Elementary, has enrollment challenges due to the current population of residents in the area. I believe adding more family housing into the area will create more problems for current residents.
