COMMITTEE OF THE WHOLE MEETING

CITY OF DAVENPORT, IOWA

Wednesday, September 2, 2026; 5:30 PM

City Hall | 226 West 4th Street | Council Chambers

AMENDED AUGUST 31, 2026

I. Moment of Silence

II. Pledge of Allegiance

III. Roll Call

IV. Meeting Protocol and Decorum

V. City Administrator Update

VI. Public Hearings

A. Public Works

1. Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Eastern Avenue Bridge (South) Over Goose Creek Replacement Project, CIP #21012. [Wards 6 & 7]

2. Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Union Station Flood Repairs Project, CIP #68015. [Ward 3]

3. Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Elmore Avenue and East 46th Street Traffic Signal Installation Project, CIP #38023. [Ward 6]

VII. Presentations

1. Police Officer Swearing-In
-Cheryl Glider
-Bennett Vanderheiden
-Ryan Welzenbach

VIII. Petitions and Communications from Council Members and the Mayor

IX. Action items for Discussion

<u>COMMUNITY DEVELOPMENT</u>

Matt Lienen, Chair; Mark Holloway, Vice Chair

X. COMMUNITY DEVELOPMENT

1. Second Consideration: Ordinance for Case ORD26-02 being the request of Obscura Tattoo & Gallery and Happy Cat Tattoo to amend Table 17.08-1: Use Matrix of the Municipal Code of Davenport, Iowa, to allow Body Modification Establishment as a permitted principal use in the C-V Village of East Davenport Zoning District. [Ward 5]

2. Resolution approving the addition of properties to the Davenport 2026 Urban Revitalization Area Plan. [Wards 2 & 8]

3. Resolution approving Case F26-10 being the request of Klingner & Associates, P.C. for a final plat of Kreiter 4th Addition, a 3-lot subdivision on 88.91 acres located at 7805 Jersey Ridge Road. [Ward 6]

XI. Motion recommending discussion or consent for Community Development items

PUBLIC SAFETY

Ben Jobgen, Chair; Tim Dunn, Vice Chair

XII. PUBLIC SAFETY

1. Resolution approving street, lane, and public ground closure requests on the listed dates and times for outdoor events.

   Davenport Community School District; Central High School Homecoming Parade; McKinley Elementary | 1716 Kenwood Avenue; 6:00 p.m. - 7:00 p.m. Thursday, September 10, 2026; **Closures (Police controlled)**: East 18th Street from Woodland Avenue to Fernwood Avenue; Fernwood Avenue from East 18th Street to Forest Road; Forest Road from Fernwood Avenue to Middle Road; Middle Road from Forest Road to Woodland Avenue. [Wards 5 & 6]

   St. Anthony Catholic Church; Parish Festival; 417 North Main Street; 6:00 a.m. - 6:00 p.m. Sunday, September 20, 2026; **Closure:** North Main Street from West 4th Street to West 5th Street. [Ward 3]

   Jimmie O's Saloon; Street Fest; 2734 Telegraph Road; 9:00 a.m. - 10:00 p.m. Saturday, September 26, 2026; **Closure:** South Rolff Street from Telegraph Road south to the alley. [Ward 1]

2. Motion approving noise variance requests on the listed dates and times for outdoor events.

   Davenport Community School District; Central High School Homecoming Parade; see

attached parade route; 6:00 p.m. - 7:00 p.m. Thursday, September 10, 2026; Outdoor music/band, over 50 dBA. [Wards 5 & 6]

22. Ed Stivers Ford | Ford F-150 for NSD | Amount: $42,347
23. Winter Equipment Company, Inc | plow blades | Amount: $47,878.10

XIX. Other Ordinances, Resolutions and Motions

1. Resolution approving the purchase of network hardware and a 5-year licensing term from Aercor, Inc. of Minneapolis, Minnesota, in the amount of $349,945.85 using NASPO Master Agreement AR3228. [All Wards]

2. Resolution approving the purchase of desktops, laptops, docking stations, and monitors from Dell Marketing LP of Round Rock, Texas, in the amount of $247,161.35 using NASPO ValuePoint Master Agreement #23004, CIP #67002. [All Wards]

3. Resolution approving the Global Release & Settlement Agreement and authorizing payment of $397,500 in accordance with its terms for RM25-234. [All Wards]

FOR NOTICE ONLY — STAFF RECOMMENDS TABLING THE ITEM UNTIL AFTER EXECUTIVE SESSION

XX. Motion recommending discussion or consent for Other Ordinances, Resolutions and Motions items

XXI. Public with Business

PLEASE NOTE: At this time individuals may address the City Council on any matters of City business not appearing on this agenda. This is not an opportunity to discuss issues with the Council members or get information. In accordance with Open Meetings law, the Council cannot take action on any complaints or suggestions tonight.

Please state your name and ward for the record. There is a five (5) minute time limit. Please end your comments promptly.

XXII. Final Comments from Council Members and the Mayor

XXIII. Executive Session

1. To discuss strategy with counsel in matters involving litigation pursuant to Iowa Code Section 21.5(1)(c).

   **Council will return to open session in the Council Chambers to determine whether to place Item No. 3 under Section XIX, Other Ordinances, Resolutions and Motions, on the Consent Agenda or Discussion Agenda for the September 9, 2026, City Council Meeting, or to suspend the rules and vote on the item at the Committee of the Whole Meeting.*

XXIV. Adjourn

Agenda Changes

Amended on 8/31/2026: The noise variance request for the German American Heritage Center event at Kaiserslautern Square on September 19, 2026, was added to Item No. 2 under the Public Safety agenda.

Subject:

Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Eastern Avenue Bridge (South) Over Goose Creek Replacement Project, CIP #21012. [Wards 6 & 7]

Recommendation:

Hold the Hearing.

Background:

This project will replace the south bridge over Goose Creek on Eastern Avenue, consisting of the removal and disposal of all existing bridge components and replacement with a new slab bridge meeting modern design requirements. The new bridge will be higher than the existing bridge to allow clearance for the proposed Goose Creek Trail Phase IV. Federal aid will reimburse the City 100% of eligible construction costs up to $1,500,000 in total reimbursement.

Construction plans and specifications have been completed by the City's design consultant and approved by the Iowa Department of Transportation (DOT). The DOT is scheduled to advertise for and receive bids in August 2026. Construction will begin in spring 2027 with completion set for November 2027.

Funding for this project is budgeted in CIP #21012.

Subject:

Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Union Station Flood Repairs Project, CIP #68015. [Ward 3]

Recommendation:

Hold the Hearing.

Background:

This project will include the construction of a permanent, multi-layered flood protection system wrapping around 3 sides of the Union Station perimeter. The core of this system features an engineered earthen berm constructed along the south side of the property, running parallel to the rail line to block rising floodwaters. To guarantee zero encroachment onto the railroad easement, a steel sheet pile wall will be driven into the ground between the new berm and the tracks, serving as a permanent structural boundary. As the earthen berm wraps around the southwest and southeast sides of the property, it will transition into a freestanding flood wall finished with a brick facade to complement the historic character of the station. The southwest entrance to the rear parking lot will utilize a deployable, removable floodgate that can be quickly closed during active flood threats as needed. The project also includes site updates to handle localized drainage, featuring storm sewer revisions, paving removal and replacement around the construction zone, and decorative landscaping over the new earthen berm.

The proposed improvements include, but are not limited to, the furnishing of all labor, materials and equipment necessary for the construction of an earthen berm with sheet pile wall; freestanding flood wall, removable floodgate; proposed PCC paving; new storm sewer system set to finish grade; topsoil; sodding; landscaping; and erosion control.

Subject:

Public Hearing on the plans, specifications, form of contract, and estimate of cost for the Elmore Avenue and East 46th Street Traffic Signal Installation Project, CIP #38023. [Ward 6]

Recommendation:

Hold the Hearing.

Background:

The project consists of installing a traffic signal at the intersection of Elmore Avenue and East 46th Street to improve traffic safety and operations at the intersection. Through the Traffic Safety Improvement Program (TSIP), which provides financial assistance for roadway improvements that enhance safety, the Iowa Department of Transportation (DOT) has awarded the City $200,000 toward the construction of the traffic signal.

This project is budgeted in CIP #38023.

Second Consideration: Ordinance for Case ORD26-02 being the request of Obscura Tattoo & Gallery and Happy Cat Tattoo to amend Table 17.08-1: Use Matrix of the Municipal Code of Davenport, Iowa, to allow Body Modification Establishment as a permitted principal use in the C-V Village of East Davenport Zoning District. [Ward 5]

Recommendation:

Adopt the Ordinance.

Background:

Request

City staff received a Zoning Text Amendment application jointly submitted by Obscura Tattoo & Gallery and Happy Cat Tattoo requesting that Body Modification Establishments be permitted as a principal use within the C-V Village of East Davenport Zoning District. Unlike a rezoning request, which applies only to a specific property, a zoning text amendment modifies the regulations governing all properties within a zoning district.

Background

The Department of Development and Neighborhood Services recently became aware of two tattoo establishments operating within the Village of East Davenport. Under the current Zoning Ordinance, tattoo shops are classified as Body Modification Establishments, which are not permitted as a principal use within the C-V Village of East Davenport Zoning District. As a result, Notices of Violation were issued to each business on May 28, 2026, directing them to cease operations.

In response, the owners of Obscura Tattoo & Gallery and Happy Cat Tattoo jointly submitted this zoning text amendment request. If approved by the City Council, the amendment would allow Body Modification Establishments as a permitted principal use within the C-V Village of East Davenport Zoning District, allowing both businesses to continue operating at their current locations.

Tattoo establishments are regulated by multiple agencies. The Iowa Department of Inspections, Appeals, and Licensing issues tattoo permits, while the Scott County Health Department is responsible for conducting inspections and enforcing applicable public health regulations. The City is not affiliated with the state or county regulatory process. Since City departments were not made aware of either establishment through the standard development, licensing, and permitting processes, each business began operations without City staff's knowledge. As a result, the zoning compliance issue was not identified until staff became aware of the businesses through other means.

Pending final action by the City Council, City staff have temporarily suspended enforcement related to these violations. During this time, staff will work with both businesses to obtain all required City permits and approvals.

Body Modification Establishment Use Definition

An establishment that offers tattooing services, body piercing, and/or non-medical body modification. Body modification establishment does not include an establishment that offers only ear piercing as an ancillary service.

Plan & Zoning Commission Recommendation

At its August 4, 2026, meeting, the Plan and Zoning Commission voted to forward Case ORD26-02 to the City Council with a recommendation for approval subject to the listed findings.

Findings

1. The proposed amendment is consistent with the comprehensive plan and adopted land use policies.
2. The proposed amendment does not significantly impact the public health, safety, and welfare of the city.
3. The proposed amendment is consistent with the intent and general regulations of the zoning ordinance.
4. The amendment reflects a change in policy and development trends.
5. The amendment does not create nonconformities.

The staff report from the August 4, 2026, Plan and Zoning Commission meeting is attached.

ORDINANCE NO. _____

AN ORDINANCE FOR CASE ORD26-02 BEING THE REQUEST OF OBSCURA TATTOO & GALLERY AND HAPPY CAT TATTOO TO AMEND TABLE 17.08-1: USE MATRIX OF THE MUNICIPAL CODE OF DAVENPORT, IOWA, TO ALLOW BODY MODIFICATION ESTABLISHMENT AS A PERMITTED PRINCIPAL USE IN THE C-V VILLAGE OF EAST DAVENPORT ZONING DISTRICT.

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. That Table 17.08-1: Use Matrix of the Municipal Code of Davenport, Iowa, be and the same is hereby amended to add "Body Modification Establishment" as a Permitted Principal Use in the C-V Village of East Davenport Zoning District.

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

Case ORD26-02: Request of Obscura Tattoo & Gallery and Happy Cat Tattoo to amend Table 17.08-1: Use Matrix of the City of Davenport Zoning Ordinance to allow Body Modification Establishment as a permitted principal use in the C-V Village of East Davenport Zoning District. [Ward 5]

Recommendation:
Staff recommend the Plan & Zoning Commission accept the listed findings and forward Case ORD26-02 to the City Council with a recommendation for approval subject to the listed findings.

Findings:

1. The proposed amendment is consistent with the comprehensive plan and adopted land use policies.
2. The proposed amendment does not significantly impact the public health, safety, and welfare of the city.
3. The proposed amendment is consistent with the intent and general regulations of the zoning ordinance.
4. The amendment reflects a change in policy and development trends.
5. The amendment does not create nonconformities.

Background:
Request:
City staff received a Zoning Text Amendment application jointly submitted by Obscura Tattoo & Gallery and Happy Cat Tattoo requesting that Body Modification Establishments be permitted as a principal use within the C-V Village of East Davenport Zoning District. Unlike a rezoning request, which applies only to a specific property, a zoning text amendment modifies the regulations governing all properties within a zoning district.

Background:
The Department of Development and Neighborhood Services recently became aware of two tattoo establishments operating within the Village of East Davenport. Under the current Zoning Ordinance, tattoo shops are classified as Body Modification Establishments, which are not permitted as a principal use within the C-V Village of East Davenport Zoning District. As a result, Notices of Violation were issued to each business on May 28, 2026, directing them to cease operations.

In response, the owners of Obscura Tattoo & Gallery and Happy Cat Tattoo jointly submitted this zoning text amendment request. If approved by the City Council, the amendment would allow Body Modification Establishments as a permitted principal use within the C-V Village of

East Davenport Zoning District, allowing both businesses to continue operating at their current locations.

Tattoo establishments are regulated by multiple agencies. The Iowa Department of Inspections, Appeals, and Licensing issues tattoo permits, while the Scott County Health Department is responsible for conducting inspections and enforcing applicable public health regulations. The City is not affiliated with the state or county regulatory process. Since City departments were not made aware of either establishment through the standard development, licensing, and permitting processes, each business began operations without City staff's knowledge. As a result, the zoning compliance issue was not identified until staff became aware of the businesses through other means.

Pending final action by the City Council, City staff have temporarily suspended enforcement related to these violations. During this time, staff will work with both businesses to obtain all required City permits and approvals.

C-V Village of East Davenport Zoning District Purpose Statement:
The C-V Village of East Davenport Zoning District is intended to preserve and enhance the smaller-scale, historic character of the Village of East Davenport, and to ensure future development is compatible with the unique historic and architectural character of the area.

Body Modification Establishment Use Definition:
An establishment that offers tattooing services, body piercing, and/or non-medical body modification. Body modification establishment does not include an establishment that offers only ear piercing as an ancillary service.

Use Matrix (Table 17.08-1)
The principal use Body Modification Establishment is permitted by right in the following zoning districts:

1. C-1 Neighborhood Commercial District
2. C-2 Corridor Commercial District
3. C-3 General Commercial District
4. C-C City Centre District
5. C-D Downtown District
6. C-E Elmore Corners District
7. I-MU Industrial Mixed-Use District

Approval Standards for Text Amendments:

1. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.
2. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.
3. The consistency of the proposed amendment with the intent and general regulations of this Ordinance.
4. Whether the proposed amendment corrects an error or omission, adds clarification to existing requirements, or reflects a change in policy or change in development trends or

technology.
5. The extent to which the proposed amendment creates nonconformities.

Stakeholder Discussions:
At the July 14, 2026 Plan & Zoning Commission Meeting, discussion from the public and from Commissioners conjectured that the Village is struggling to fill storefronts. Following discussions, Commissioners inquired to Staff about the number of vacant storefronts in the Village and number of businesses with liquor licenses that may bar the entry of children inside the businesses.

Staff discussions with the East Village SSMID revealed the SSMID's desire to limit "non-family friendly" establishments to what is currently operating in the Village. A Self-Supported Municipal Improvement District (SSMID) is a special area within a city where commercial property owners agree to pay a small additional tax to support projects that improve their district. These funds are reinvested directly into the area to enhance its appearance, attract visitors, and support local businesses. A SSMID allows business and property owners to take the lead in improving the spaces where they work and invest. Following the meeting with SSMID board members, staff suggested, should the Commission wish to follow the SSMID's request for the district, that a 200-foot buffer between Body Modification Establishments be conditioned with this rezoning. However, without robust business licensing policy, staff do not have a method to enforce the 200-foot buffer proactively. Staff have agreed to work with the SSMID to evaluate all the uses within the C-V district with an anticipated request to amend the zoning at a later date. This will give the SSMID the opportunity to look at the district from a broader scope.

Commission Requested Information:
Concerning the economic health of the East Village, as alluded to by public participation at the July 14 Public Hearing, Staff walked the East Village scanning commercial properties within the C-V Village of East Davenport Zoning District. There are 73 properties within the C-V Zoning District. Of those, 45 are commercial in nature and are not parking lots (only), vacant, city park land, or exclusively residential in nature. Staff surveyed the area to determine how many tenant spaces are visible from the street and how many were visibly occupied. Staff counted 57 total tenant spaces, 49 of which are occupied. The survey revealed that 86% of tenants spaces in the East Village are occupied.

In staff's research, the International Downtown Association (IDA) does not recommend any number as a "healthy" metric because each market is unique; however, "persistent vacancies represent more than just empty storefronts—they signal disruption and opportunity." From the local perspective, economic development professionals believe rates are delicate, context-specific, and important.

During the Public Hearing, Commissioners asked what land uses were planned for the East Village. Staff reviewed the Village of East Davenport Master Plan. In section 5.0 Building Design & Land Use, 5.1 Land Use Regulations, the subsection primarily utilizes its page to outline requirements for bars and for a design guideline. Staff note that all regulations recommended in the Master Plan's subsection have been instituted by the City Council. For example, the subsection calls for a limit on bars. No more than 35% of a blockface can be a bar. That recommendation is an ordinance as of 2019, in Section 17.05.020.B. The subsection also calls

for the following uses to be permitted in the district:

- Multi-family residential
- Live/work units
- Bed & Breakfast establishments and small inns
- Bars and taverns
- Restaurants
- Store and retail establishments of various kinds
- Professional services
- Salons and health spas
- Boutique hotels
- Gourmet or specialty grocery stores

Staff reviewed the current ordinance for Body Modification Establishments. In Staff's review, the C-V district is similar to both C-T and C-1 in different respects. It is similar to C-T in bulk/dimensional standards and to C-1 in uses. The remaining zoning districts where Body Modification Establishments are not permitted are industrial, large-scale in nature, or special conservation districts where development is limited.

Body Modification Establishment is not permitted int the following non-residential zoning districts:

1. C-T Commercial Transitional District
2. C-OP Commercial Office Park District
3. I-1 Light Industrial District
4. I-2 Heavy Industrial District
5. AG Agricultural Zoning District
6. OS Open Space Zoning District

The principal use Body Modification Establishment is permitted by right in the following zoning districts:

1. C-1 Neighborhood Commercial District
2. C-2 Corridor Commercial District
3. C-3 General Commercial District
4. C-C City Centre District
5. C-D Downtown District
6. C-E Elmore Corners District
7. I-MU Industrial Mixed-Use District

Technical Review:

Approval Standards for Text Amendment:

1. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

The text change permits a commercial use in an area identified on the Future Land Use Map as

a commercial node. Commercial nodes are clusters of commercial activity. They are areas that should be architecturally integrated, and designed to serve all modes of transportation. Pedestrian connections to the neighborhoods they serve are important. Therefore, master planning and customized zoning provisions for new commercial node areas should occur before development or redevelopment occurs.

Staff believe that the amendment meets adopted land use policies. The East Village Master Plan does not specifically state that Body Modification Establishments should be permitted, nor does it state Personal Service Establishments (i.e., barbers) are permitted either (barbers are permitted in the C-V). Master Plans are guiding documents for Decision-Makers and not policy executed by Staff and Elected Officials. Nor do staff know why Body Modification Establishments are separated on their own merit and not hosted within the umbrella of Personal Service Establishments.

Staff conducted an In-State tattoo zoning code review attempting to discern how peer Iowa cities regulate tattoo establishments. In Cedar Rapids and Sioux City, tattoo establishments are considered Personal Service or Commercial Services and are permitted in all Commercial Zoning Districts. In West Des Moines, tattoo establishments are called Commercial, Office, and Industrial Uses and are permitted by their SIC Industry code and permitted in all non-residential zoning districts.

Dubuque and Bettendorf stand out. Bettendorf prohibits tattoo establishments exclusively in the Downtown to "[To] establish a physically attractive pattern of development in the city and to protect these areas from the negative effects of incompatible development while preserving and expanding the tax base of the city." In Dubuque, Tattoo Parlors are conditional uses in their C-2 Zoning District and permitted in C-3 and C-4 Downtown Zoning District.

Why Body Modification Establishments are not permitted in C-T and C-V or why Body Modification Establishments are a separate use is unknown; however, it may have been stigma driven decision when the Village's original zoning district was established in 2006. C-T and C-V are principally design-oriented zoning districts, intended to establish and maintain an architectural character and to mitigate performance of unwanted architectural features like incompatible massing near residential neighborhoods or special districts. Though C-T does address some use-specific performance by prohibiting uses like bars, gas stations, or drive-thrus.

Therefore, it is of Staff's opinion that the proposed amendment is consistent with the Comprehensive Plan and with the adopted land use policies of the City of Davenport.

2. The extent to which the proposed amendment promotes the public health, safety, and welfare of the City.

The text change has little impact to the public health, safety, and welfare of the city. Members of the Public voiced at the July 14 Public Hearing stated that patrons of Obscura Tattoo & Gallery are known to frequent the resale shop below Obscura. Continuing that relationship may promote the economic welfare of the Village. Additionally, the Public's Health & Safety are secured by the dual body permitting required for tattoo establishments. Tattoo establishments must get approval from The Iowa Department of Inspections, Appeals, and Licensing and Scott

County Health Department to conduct business, regardless of building code, zoning code, or other engineering requirements of a site. This means that tattoo establishments could meet the standards of No-Impact Home Business, State Code 414.33 Home-Based Business, in the State's zoning enabling legislation. A tattoo shop could open in a home anywhere in the State of Iowa and be secure from regulation by zoning, building code, or engineering requirements. Therefore, it is Staff's opinion that the amendment does not significantly impact the public health, safety, and welfare of the City.

3. The consistency of the proposed amendment with the intent and general regulations of this Ordinance.

The purpose of the C-V Zoning District is to adaptively reuse and preserve the historic character and architecture of the East Village. In terms of current land uses permitted in C-V, it is substantially similar to land uses in C-1 Neighborhood Commercial Zoning District. Therefore, it is Staff's opinion that the amendment is in-line with the intent and general regulations of the Ordinance.

4. Whether the proposed amendment corrects an error or omission, adds clarification to existing requirements, or reflects a change in policy or change in development trends or technology.

The proposed amendment may represent a change in social trends within the Quad Cities. The IDA stresses that downtown areas are "highly flexible and represent unique challenges from vacancies." Local Downtown economic development experts emphasized that flexibility is an asset to places like the Village. The proposed amendment may reflect changing market or social conditions within the Quad Cities.

5. The extent to which the proposed amendment creates nonconformities.

The proposed amendment does not create new nonconformities. The proposed amendment addresses nonconformities and adds Body Modification Establishment as a permitted use in the C-V Zoning District. The amendment would allow the applicants, two nonconforming body modification establishments, to continue to operate as conforming uses.

Public Notification:
A Notice of Public Hearing was published in the Quad City Times informing the community of the July 14, 2026 Plan and Zoning Commission Public Hearing. The applicants submitted a petition with numerous signatures from various business owners, property owners, and members of the public expressing support for the text amendment.

Prior to formal application submittal, City staff and elected officials were invited to attend meetings with the Village of East Davenport Business Association and East Village Self-Supporting Municipal Improvement District (SSMID) to discuss the appropriateness of Body Modification Establishments within the district.

No public input has been submitted to-date. Any additional public input received by staff will be provided to the Commission.

CHAPTER 17.08. USES

Section 17.08.010 General Use Regulations
Section 17.08.020 Use Matrix
Section 17.08.030 Principal Use Standards
Section 17.08.040 Temporary Use Standards
Section 17.08.050 Use Definitions

Section 17.08.010 General Use Regulations

A. No structure or land may be used or occupied unless allowed as a permitted or special use within the zoning district.

B. All uses must comply with any applicable federal and state requirements, and any additional federal, state, or city ordinances.

C. Any use that is not included in the use matrix and cannot be interpreted as part of a use within the matrix is prohibited in all districts.

D. A site may contain more than one principal use, so long as each principal use is allowed in the district. Each principal use is approved separately. In certain cases, uses are defined to include ancillary uses that provide necessary support and/or are functionally integrated into the principal use.

E. All uses must comply with the use standards of Section 17.08.030, as applicable, as well as all other regulations of this Ordinance and the City.

Section 17.08.020 Use Matrix

A. Table 17.08-1: Use Matrix identifies the principal and temporary uses allowed within each zoning district. Cells are color-coded for ease of review only; the letter indicated in the cell controls over any errors in color-coding.

B. Uses allowed in the R-3 and R-3C Districts are those listed in Table 17.08-1 for the R-3 District. Uses allowed in the R-4 and R-4C Districts are those listed in Table 17.08-1 for the R-4 District.

C. P indicates that the use is permitted by-right in the district. S indicates that the use is a special use in the district and requires special use approval. If a cell is blank, the use is not allowed in the district.

D. In the case of temporary uses, a T indicates the temporary use is allowed in the district and may require approval of a temporary use permit per the standards of Section 17.08.040.

E. For accessory uses, see Chapter 17.09.

F. See Section 17.04.020 for additional use restrictions in the R-3, R-3C, R-4, and R-4C Districts.

G. See Section 17.05.020 for additional use restrictions in the C-V District.

P indicates a use is permitted by-right in the district. S indicates a use is a Special Use in the district and requires Zoning Board approval. Blank cells indicate a use is not allowed.

Section 17.08.050 Use Definitions

All uses within Table 17.08-1 are defined in this section. Certain uses are defined to be inclusive of many uses. When a use meets a specific definition, it is regulated as such and is not regulated as part of a more inclusive use category.

Body Modification Establishment. An establishment that offers tattooing services, body piercing, and/or non-medical body modification. Body modification establishment does not include an establishment that offers only ear piercing as an ancillary service.

PETITION IN SUPPORT OF OBSCURA TATTOO & GALLERY

To Whom It May Concern,

We, the undersigned members of the community, respectfully request that Obscura Tattoo & Gallery be allowed to continue operating at its current location.

Obscura Tattoo & Gallery is an established, professional tattoo studio that has served the community for several years. The business was originally opened in downtown Davenport and was forced to relocate following the tragic building collapse that occurred across the street from its former location. Since relocating, Obscura Tattoo & Gallery has continued to provide professional tattoo services, contribute to the local economy, and serve its clients responsibly and respectfully.

This petition is not a request for a zoning change. Rather, it is a demonstration of community support for allowing an existing business that is already operating at its current location to remain open and continue serving the public. As customers, residents, neighboring businesses, and supporters, we believe that Obscura Tattoo & Gallery is a positive addition to the community. The business has maintained a professional environment, generated economic activity, and provided a valued service to its clientele.

We respectfully ask the City of Davenport and all relevant decision-makers to consider the support of the community and allow Obscura Tattoo & Gallery to continue operating at its current location.

Thank you for your consideration.

Sincerely,

The Undersigned Supporters of Obscura Tattoo & Gallery

PETITION IN SUPPORT OF OBSCURA TATTOO & GALLERY

To Whom It May Concern,

We, the undersigned members of the community, respectfully request that Obscura Tattoo & Gallery be allowed to continue operating at its current location.

Obscura Tattoo & Gallery is an established, professional tattoo studio that has served the community for several years. The business was originally opened in downtown Davenport and was forced to relocate following the tragic building collapse that occurred across the street from its former location. Since relocating, Obscura Tattoo & Gallery has continued to provide professional tattoo services, contribute to the local economy, and serve its clients responsibly and respectfully.

This petition is a demonstration of community support for allowing an existing business that is already operating at its current location to remain open and continue serving the public.

As customers, residents, neighboring businesses, and supporters, we believe that Obscura Tattoo & Gallery is a positive addition to the community. The business has maintained a professional environment, generated economic activity, and provided a valued service to its clientele.

We respectfully ask the City of Davenport and all relevant decision-makers to consider the support of the community and allow Obscura Tattoo & Gallery to continue operating at its current location.

Thank you for your consideration.

Sincerely,

The Undersigned Supporters of Obscura Tattoo & Gallery

COMMUNITY SUPPORT PETITION

OPTIONAL STATEMENT FOR BUSINESS OWNERS

I am a local business owner located near The Happy Cat Tattoo & Art Studio and support its continued operation at its current location. I believe the business contributes positively to our commercial district and helps attract customers to neighboring businesses.

Additional Comments:

Tattoo restrictions are outdated and hurt the local economy
licensed tattoo shops are fully professional
environments and archaic stereotypes
just aren't true any more.

- Alex Gardner

THE HAPPY CAT TATTOO & ART STUDIO

COMMUNITY SUPPORT PETITION

OPTIONAL STATEMENT FOR BUSINESS OWNERS

I am a local business owner located near The Happy Cat Tattoo & Art Studio and support its continued operation at its current location. I believe the business contributes positively to our commercial district and helps attract customers to neighboring businesses.

Additional Comments: I have worked in the East Village now for 23 years, and have spent the last 6½ as a business owner at FIVE STAR SALON, and building owner (1020 MOUND ST) since 2022. I believe we have an opportunity here to show our new neighbours that they can fit into our business setting and become a part of our community. I have known Chelsea for years, and know that she has run a successful business and mentored many artists during that time. I am here to support fully any mission to make sure the changes and effort she has put in to her studio and business. Please feel free to reach out with any other questions. Dustin 573-650-7[illegible]

OPTIONAL STATEMENT FOR BUSINESS OWNERS

I am a local business owner located near The Happy Cat Tattoo & Art Studio and support its continued operation at its current location. I believe the business contributes positively to our commercial district and helps attract customers to neighboring businesses.

Additional Comments:

Chelsea is an amazing artist and business owner. She has ran a reputable business for over 10 years. She is loved by many and I know that she will be an amazing addition to the village. It's important to diversify our community and she does that.

Chelsea (and any owner at The Happy Cat) has always been very kind and open to all walks of life.

I hope that Davenport can extend the same kindness to her.

OPTIONAL STATEMENT FOR BUSINESS OWNERS

I am a local business owner located near The Happy Cat Tattoo & Art Studio and support its continued operation at its current location. I believe the business contributes positively to our commercial district and helps attract customers to neighboring businesses.

Additional Comments:

Chelsea and her crew have worked so hard to transform their new space! This ordinance is very outdated & judgemental! She does so much for her community and has for years! The Village is so lucky to have her! They are kind & loving people trying to make a living and bring art to their community. I hope you give them a chance to flourish!!

Name	City	State	Postal Code	Country	Commented Date	Comment
Cindy Whiteman	Geneseo	IL	61254	United States	2026-06-12	"The Happy Cat owner, Chelsea Frame, really cares about her clients (which I am one of) and her local community. Anyone town would be lucky to have her shop there. Please grant her zoning change request. She's worked so hard to make a positive impact in the Village of East Davenport!"
tori tebbitt	Davenport	IA	52803	United States	2026-06-12	"If you want the east village to survive and thrive, you need to update zoning policies to allow for diverse businesses to set up shop. It can't become a wasteland of old because of archaic policies"
Craig Gaul	Bettendorf	IA	52722	United States	2026-06-12	"The city should not be forcing small business owners to move or close their business due to an outdated zoning ordinance. The city should update the zoning rules based on current data"
Cassandra Lee Kindelsperger	Long Grove	IA	52756	United States	2026-06-12	"Hoping the city realizing this is a weirdly Outdated ordinance! Your business is a wonderful edition to a great location."
Heather Jamison	Davenport	IA	52803	United States	2026-06-12	"As a former resident of the Village and former employee I was always under the impression we put small businesses first here. It's incredibly disheartening to see 2 small businesses being pushed out. Allowing these businesses to stay will increase revenue at surrounding businesses and increases foot traffic in the Village."
Adam Peters	Davenport	IA	52803	United States	2026-06-12	"It's time to get with the times. Also... Support small businesses and support local!"
Sarah Egatian	Iowa City	IA	52240	United States	2026-06-12	"I grew up hearing from my parents that tattoos are for "prisoners and soldiers" and that I'd never get anywhere in life with tattoos. I was in my late 20s when I got my first tattoo, established in a social work career and teaching young children among talented colleagues who had whole sleeve tattoos. I didn't grow up with the same kind of anti-tattoo stigma as my parents did and I know that my tattoos and my colleagues' tattoos don't affect our ability to work. I do know that the ability to sit still with a needle moving in and out of my skin because I care so much about art has only shown me further patience and admiration for both tattoo artists and people with tattoos. It's out of line to have zoning laws that target any specific group of people and all "decency" laws have, over time, been shown to exist as an expression of power to repress "undesirable" groups of people. This is a strange sort of outdated classism and harms our city's ability to and reputation for supporting artists."
Stephanie Bracker Reggelsen	Davenport	IA	52807	United States	2026-06-12	"As a neighbor to the village, a small business owner, a tattoo enthusiast, a city employee, as well as a county employee; this outdated ordinance needs to be changed. If you can have hair salons around the corner, a vape shop down the street, and an unsightly U-Haul storage on a major corner, you should be able to have a professional, quiet, and clean tattoo studio upstairs inside a building. Don't cater and limit the Village to just noisy bars."
Cristiana Hunt	Joy	IL	61260	United States	2026-06-12	"Hoping the village can see how outdated this ordinance is and can see how much buisness and people these amazing shops can bring to the area!"
Shawna Reasoner	Davenport	IA	52804	United States	2026-06-12	"The Happy Cat tattoo, when Josh Kilby was an artist there, was where I got my first tattoo! I absolutely loved their vibes, and Chelsea seemed so cool. The idea that tattoo shops don't belong in the East Village is absolute crap. Tattoos are more often than not stories on people's bodies, and that's exactly what the charm of the East Village is - small and locally owned businesses, decorated with different kinds of charm, much like tattoos having a variety of designs and personality. I understand that Davenport wants to keep the East Village's historical value, however, as someone born and raised in Davenport, I've learned that the people of Davenport are much of the actual historical value of our city than the architecture of our buildings. Times change, and some of history should not be lost amongst those changes, but some of history is also importantly forgotten for the betterment of our town. I have faith that the city of Davenport will reconsider the importance of what is one one's skin, tattoos, being part of each person's story, as much as the things those people contribute to our town. History should not always be the reason to avoid changing with the times."
Zalie Willits	Galesburg	IL	61401	United States	2026-06-12	"These talented people are passionate about what they do and are very hard workers. They are simply just trying to make a living for themselves in a spot that feels like home to them. I know personally that Ryan Kistenmacher has fought for YEARS to have his own studio and make a living. From being kicked out of the last place due to Davenports building collapse, to trying to find a spot to tattoo at temporarily so he can still make money and keep his clients, to now fighting to stay in the very place where he was told he would be welcome. It is NOT fair. These people are not doing anything wrong, they are simply doing their jobs and existing; just like everyone else in that city. Davenport has bigger problems and there are worse people running around the streets while some of the best people I know are inside of those tattoo shops at the Village. Why try to take away everything they have worked for and built for themselves?"
STEPHANIE JORDAN	Davenport	IA	52894	United States	2026-06-12	"Ryan and the crew deserve to have the shop stay open. Great folks who are passionate about their craft. Adding business to a cool part of town also ! Keep them open!!"
Ethan Roling	Davenport	IA	52807	United States	2026-06-12	"As a Happy Cat happy client, I was excited for the shop to move to the Iowa side. The city of Davenport should be thankful such a high quality shop moved in, not trying to push them out. This shop is top notch!"
Ryleigh Terry	Rock Island	IL	61201	United States	2026-06-13	"Tattoos and body modifications have been around for a long time, the way they're done/look has just changed with time, just like everything else"

VILLAGE OF EAST DAVENPORT MASTER PLAN

July 2013

Resolution No. 2013-247

Resolution offered by

RESOLVED by the City Council of the City of Davenport.

RESOLUTION approving Case No. CP13-02 being the adoption of the Village of East Davenport Master Plan as an element of the Davenport 2025 Comprehensive Plan. [5th, 6th Ward]

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Davenport that the Village of East Davenport Master Plan is hereby approved and accepted without any special conditions; and the Mayor and City Clerk be, and they are hereby authorized and instructed to certify to the adoption of this resolution.

Approved: JUL 24 2013

William E. Gluba, Mayor

Attest:

Jackie E. Holecek, City Clerk

Attachment A: Market Overview

INTRODUCTION

The Village of Davenport is poised to reach a new level of vitality. The Village is steeped in tradition and set in a unique location. Residents, business owners and civic leaders recognize the Village as a special neighborhood with a distinct identity and as a place of opportunity. They look to the future with enthusiasm.

At the same time, some uncertainty exists about the direction the Village should take and how individual investments may contribute to enhancing the area for everyone's benefit. Although the Village core still serves as a popular neighborhood center, competition from other historic shopping districts continues to challenge its role as a regional destination. Some of the Village's assets are also under-utilized, requiring a strategy to maximize their potential. In this light, a plan for coordinated action that engages the public and private sectors is needed.

The *Village of East Davenport Master Plan* provides an overall framework and specific strategies to promote the community's vision for the future development of the Village into an economically vibrant mixed-use center that promotes:

- The area's context and unique subareas
- A high-quality pedestrian experience
- Connections to surrounding neighborhoods and the river
- Coordinated parking
- Attractive and unique streets
- Outdoor spaces and activities
- Local heritage
- Diverse uses from residential to offices, fine dining and specialty retail

Village Context

The Village of East Davenport is located on a site once frequented by Native Americans, above a natural harbor, near the downstream end of the Rock Island Rapids. It was established as an independent municipality in 1851, and became part of the City of Davenport in 1857. Soon after, the Village became the site of Camp McClellan, the largest Civil War encampment in the state of Iowa. It is now one of the oldest neighborhoods in the city, and includes both districts and individual buildings listed on the National Register of Historic Places and local Davenport Register of Historic Places.

Using the Plan

The Master Plan serves as a formal policy document to guide future development of the Village of East Davenport. It should be used when planning improvements in the Village and as a means of recruiting business to the area. Plan users include:

- **Property and business owners** should use the plan as a road map when planning individual projects, to reinforce the community vision for the Village.
- **Historic preservation advocates, business groups and other stakeholders** should use the plan to learn about tools and strategies to promote their objectives and the overall community vision for the Village.
- **Residents** may use the plan to learn about existing conditions and plans for future development of the Village.
- **The City of Davenport** will use the plan to guide public improvements, implement management strategies and consider regulatory updates.

The plan does not include specific requirements that apply to the development of private property. It does, however, recommend consideration of new zoning, building design, historic preservation and incentive tools that could help shape private property development in the future.

The study area for the plan includes the commercial core of the Village, adjacent parks and the Mississippi riverfront. Although the surrounding historic neighborhoods are not specifically included in the study area, the plan seeks to improve pedestrian connections and address neighborhood impacts.

Development of the Plan

The City of Davenport initiated the Master Plan process primarily to address concerns with economic development and preservation of historic resources in the Village. The planning team included City staff and consultants, working with the City's Design Review Board, Historic Preservation Commission and a project Advisory Committee made up of local business owners and residents.

The planning team was tasked with addressing:

- Existing Conditions
- Priorities for Historic Preservation
- Redevelopment Opportunities
- Design Concepts
- Public Realm Improvements
- Market Potential
- Implementation Strategies

The elements listed above are addressed throughout the Master Plan document, as described in *"Plan Organization" on page 4*.

Community outreach included active public participation in a series of workshops. In these workshops, participants defined issues, identified opportunities and explored strategies to promote their vision for the future development of the Village. Other stakeholders and interested parties contributed ideas in small meetings and interviews.

The Plan and Historic Preservation

The ***Village of East Davenport Master Plan*** provides a general framework for historic preservation efforts in the Village. It is not, however, a specific historic preservation plan. While recommendations for preservation-related actions are included, they are in the context of urban design and economic development strategies for the area. More specific actions related to preservation could be developed in later stages of planning as suggested in the Implementation Plan starting on page 95.

Also note that the plan does not represent a formal survey of historic or other cultural resources. More formal historic surveys would occur as part of the City's ongoing planning efforts.

Citizens developed concepts for the Village in a series of community workshops.

Plan Background

The ***Village of East Davenport Master Plan*** builds on previous planning efforts and background information, including:

- ***RiverVision***: A 2004 plan for the shared Davenport and Rock Island riverfront.
- ***The Historical and Architectural Resources of the Village of East Davenport, Iowa***: A 2004 historic resource survey.
- ***Davenport 2025***: Davenport 2025: Comprehensive Plan for the City
- ***Davenport in Motion***: The 2010 citywide transportation master plan.
- ***Davenport Municipal Code***: The 2012 amended development regulations.

Property owners have demonstrated their commitment to improving the Village through a series of private and public sector investments.

Plan Organization

Following this introduction, the plan is organized into seven primary chapters:

1.0 A Vision for the Village

The overall community vision for the Village, and the framework concepts that will help shape future development

2.0 Economic Development

An overview of current market conditions and strategies to support economic development

3.0 Streets and Transportation

Strategies for streets (character and design) and circulation (pedestrian, bicycle and vehicular) to promote the community vision

4.0 Public Spaces and Heritage

Strategies for parks, public space and the promotion of heritage resources to promote the community vision

5.0 Building Design and Land Use

Land use, zoning and building design strategies to promote the community vision

6.0 Opportunity Sites

Descriptions of redevelopment opportunities on several sites throughout the Village that illustrate the principles described in the previous chapters to promote the community vision

7.0 Implementation Plan

A step-by-step plan for implementing tools to promote the community vision for the Village

1.0 A VISION FOR THE VILLAGE

Community members came together in workshops and design charettes to help chart the future development of the Village of East Davenport. The following statement articulates their vision:

"An exciting and active urban village that is both a regional tourist destination and a service center for neighborhood residents."

The vision builds on the unique heritage of the Village while allowing for a variety of new development and better connections to the riverfront.

This chapter outlines the overall community vision for the Village of East Davenport. It describes the urban village characteristics that define existing conditions and outlines the framework concepts that will help shape future development according to the community vision.

A diagram on page 16 illustrates one possible concept for the future development of the Village in a way that would be consistent with the plan vision. Future development will likely occur incrementally over time with variations based on changing circumstances.

More detailed descriptions of the specific strategies and systems that are recommended to promote the vision are provided in Chapters 2 through 7.

Community members came together to help chart the future development of the Village into "an exciting and active urban village that is both a regional tourist destination and a service center for neighborhood residents."

Community Comments

Community members participated in a kickoff workshop in August 2012 and an interactive design charrette a month later. They provided a range of feedback regarding features that would promote their vision for the Village. Commonly cited features included:

- "Historic museum, tours, plaques and smart phone scanning at historic sites"
- "Removal of 1960s and 70s look to replace with an earlier historic feel"
- "Walkways between buildings with connections to alleys and outdoor seating"
- "Telescopes or viewfinders to look at wildlife on the river"
- "Soft lighting on the train trestle"
- "Green space and a common area for festivals and events"
- "Weekend and seasonal events such as free concerts, farmers markets or festivals"
- "Compatible mixed-use buildings and second-floor offices"
- "More entertainment options, including movie theaters, brew pubs and fine dining"
- "A shop to rent bikes, canoes, kayaks and roller blades"
- "Upscale and diverse businesses and stores, including gift shops and a local organic grocery store like New Pioneer or Greatest Grains"
- "A cool, hip, environment with historic character"
- "Fun, family environment"
- Small residential cottages and rentals
- "Redevelopment at the corners of Jersey Ridge at 12th and Jersey Ridge at Kirkwood"
- "An electronic Village newsletter"

The framework concepts described later in this chapter reflect workshop comments provided by community members.

1.1 What Makes An Urban Village?

The core of the Village of East Davenport is an "urban village," which is distinct from a downtown or a neighborhood commercial center, and provides a unique sense of place. The key characteristics of an urban village are summarized below. They relate closely to the framework concepts for future development presented later in this chapter.

A Sense of History

An urban village has layers of history. Historic buildings and sites should be preserved as they contribute to the character of the street. Some will have compatible additions that reflect an evolution in uses.

Things to See

Storefronts that create a browsing environment, with goods and activities to see in windows, invite walking. Buildings, landscapes and street furnishings also include small-scale details that add interest to the street. Outdoor displays and seating areas also contribute to people watching and a sense of discovery.

A Network of Walkable Streets, Lanes and Alleys

A mix of walkways, with variety in their designs, contributes to the diversity of an urban village. Shortcuts between buildings and paths to enclosed courtyards contribute to the diversity of pedestrian connections and offer a sense of discovery. They should be clearly defined and well lit, with distinctive paving, signage and landscape features. This will also enhance the walking experience from parking locations to the Village.

Courtyards, Lawns and Outdoor Spaces

An urban village has more active open spaces and landscaped areas than a downtown, in proportion to the number of buildings. These places invite outdoor activity and encourage walking along the street. Some have a specific purpose, such as an outdoor dining area. Others are simply places to sit and watch the street.

Activities and Events

An urban village is active, not just with commercial activities, but with residents and visitors enjoying the experience. It includes a range of gathering places such as a Village green, or park, as well as smaller mini-parks and plazas. Even streets that can be conveniently closed to stage a festival are key ingredients.

A Mix of Uses

An urban village accommodates many uses, including commercial, residential, civic and institutional. While retail and dining are important parts of the mix, they are not the only ingredients.

A Variety of Building Types

Traditional commercial storefronts are essential ingredients of an urban village, as are conventional residential structures, including those adapted to commercial uses. Porches serve as "connections" to the street and as places for product displays. Storefronts offer views to goods and services inside. Building materials also vary.

Human Scale Buildings

In the urban village, most buildings range in height from one to three stories, and they are designed to convey a sense of human scale.

Village character includes small scale details, window displays and entrances that face the street.

Shortcuts between buildings contribute to the diversity of pedestrian connections and offer a sense of discovery.

A Three-Hour Visit

Participants in the community workshops identified activities they'd like to do during a three hour visit to the Village. In many cases, they would visit existing businesses and attractions. They also envisioned visiting attractions that would be part of future development of the Village. A three-hour visit could include:

- Arriving via Channel Cat
- A walk in the park along the bike path or riverside
- Lunch at a deli or a tenderloin at the 11th Street Precinct
- A drink at a coffee shop, teahouse or brew pub (on a patio or balcony if the weather is good enough)
- An event in the park or special events space, or a visit to an alternative movie theater
- Shopping at galleries (including Mississippi Gallery and local artist Isabel Bloom), antique shops and other unique and upscale stores (including Boyler's Ornamental Iron)
- A historic walking tour or visit the Fire Station Museum
- Dinner in a nice restaurant (not a bar), or picking up some Rudy's for the trip home
- Ice cream at Lagomarcino's

In an urban village, design considerations should focus on the pedestrian (Le Claire, IA).

Variations in the Street Wall

Unlike a downtown, where all buildings align uniformly at the sidewalk edge, an urban village will have more gaps. These spaces are designed to be used and should include plants and landscape structures.

Building Entrances Oriented to Pedestrian Ways

Storefronts that face the street and invite walking are key features, as are shops that open onto alleys and internal paths. Residences with stoops and porches that signal connection to the street also contribute to the urban village character.

Elements that Reflect the Changing Seasons

Life in an urban village varies by season. Plants that flower in the spring, and others that show colors in the fall, signal the changing seasons. Holiday decorations, seasonal banners and lighting designs also do so. Even having outdoor tables with umbrellas and outdoor product displays that come and go with changes in the weather are a part of the scene. This sense of change invites visitors to return for a fresh look.

Parking is Subordinate

In an urban village, design considerations should focus on the pedestrian. Parking, while a necessary service, is visually screened or located in less prominent areas. One should expect to park once and then walk to different destinations in an urban village.

High Quality in All Things

Finally, an urban village conveys a high level of quality, in terms of the goods and services provided, the buildings and infrastructure and in the experiences that villagers encounter.

1.2 Framework Concepts

Framework concepts provide the overall organizing principles that support the community vision for the Village of East Davenport. The framework focuses on physical improvements, as illustrated on the map below, but also includes principles for economic and administrative strategies.

The key framework principles for the Village of East Davenport are summarized in the following pages. The "Illustrated Vision" diagram on page 16 demonstrates how the framework concepts could support future development of the Village.

Highlight the Different Character Areas of the Village

Build on the unique characteristics of the Village's distinct "character areas." These areas should work together to support a sense of diversity and visual interest. They are:

- **Historic Storefront Area**. This area, primarily along Mound and East 11th Streets has the greatest concentration of traditional storefront buildings. It will continue to be the most active, retail-oriented area of the Village.
- **Cottage Area**. This area along East 12th Street is defined by small-scale cottage structures. In the future, most existing cottage structures will be preserved and expanded while the area redevelops with new buildings to the rear mixed with courtyards and other outdoor areas that support commercial activities, professional services and residential uses.
- **Northern Entry Area.** This area at the northern gateway to the Village currently includes a mix of residential and service uses. As the Village redevelops, it will become more active with uses that serve local residents in an inviting, pedestrian-friendly setting.
- **Gateway Area**. This area surrounding the intersection of East River Drive and Mound Streets is the primary gateway to the Village. It will redevelop with a mix of uses in buildings that align at the sidewalk edge.
- **The Greenway**. This includes a collection of parks that extends from Indian Springs to Upper Lindsay Park. The parks will be improved and interconnected with new gateways and paths.
- **The Riverfront**. This area alongside the Lindsay Park Yacht Club is an important gateway to the Village from the Mississippi River. It will be significantly improved with new amenities that invite visitors into the Village.

Expand the Diversity of Uses

Broaden the range of commercial uses to address a wide range of markets. Key uses should include:

- Specialty retail
- Fine dining
- Boutique Hotel
- Services
- Professional offices
- Multifamily residential

See “Commercial Market Opportunities” on page 19 and “Permitted Uses” on page 64 for more information.

Specialty retail is a key part of the land use mix in the Village.

Enhance Walkability

Extend walking routes throughout the area into a seamless network that invites pedestrian activity. This includes an interconnected system of sidewalks along block fronts, which lead to paths and walkways between buildings and to alleys. Pedestrian improvements include:

- Extended sidewalks to and along the riverfront
- Improved alleys and lanes in the Historic Storefront Area

See “Circulation” on page 24 for more information.

An interconnected system of sidewalks enhances walkability throughout the Village.

Plan improvements should strengthen the edges of the Village core to better serve neighborhood residents.

Give Each Street a Purpose

Develop each street to have a special character that supports the uses along it. Each street should accommodate bicyclists and pedestrians as well as cars. Landscaping should convey a consistent palette, while also highlighting the different street types. Buildings should be designed to reinforce the planned character for each street as well.

See “Street Types” on page 31 for more information.

Connect the Village Core to the Neighborhoods

Improve the transitional area along the northern edge of the Village core as a distinct place that serves local residents. Also use improvements to the parks around the edges of the Village core to enhance neighborhood connections.

Extend the Village to an Improved Riverfront

Improve connections to promote the riverfront as an asset to the Village. A key strategy is to improve Mound Street south of East River Drive to extend the image of the Village across the railroad tracks, towards improvements along the river.

Design improvements along the riverfront to attract others to the Village, and, conversely, to serve those who work and live in the Village. Arriving at the riverfront, visitors should already consider themselves to be in the Village. Key riverfront improvements include:

- An improved water taxi landing
- A river's edge promenade
- Small shops serving river and trail users
- Improved street connection to the Village core

See the discussion on improving the Mound Street connection on page 41 and "Parks and Open Space" on page 50 for more information.

Extending Mound Street improvements south of East River Drive is a key strategy to promote the riverfront as an asset to the Village.

Improved connections from the Village core will promote increased use of Lower Lindsay Park and the adjacent riverfront.

Connecting parking and business areas with paths and landscaping helps improve outdoor spaces and animate the street.

On and off-street parking areas in the Village should be managed as a coordinated system.

Use Outdoor Spaces More Effectively

Improve outdoor spaces throughout the Village to encourage use throughout the year and help animate the street. This includes places to gather and celebrate in the public realm, such as a "festival street," as well as plazas, patios and courtyards on private property for outdoor dining, displays and other uses. Specific opportunities include:

- A new plaza at the base of the school
- A new plaza near the Fire Station Museum
- Trail improvements in Indian Springs Park
- Improved paths and landscaping between parking and business areas
- A festival street along Christie Street
- A skating rink / toy boat basin in the park

See "Parks and Open Space" on page 50 for more information.

Manage Parking as a Coordinated System

Make best use of existing parking resources by improving pedestrian access to parking and enhancing its appearance. The City and Village business organizations should help property owners coordinate private off-street parking facilities (access, availability, etc.) where feasible. Opportunities for parking improvements include:

- Reconfigured surface parking lots
- Enhanced alley parking
- Expanded on-street parking public
- Future opportunities for structured parking
- Improved surface parking (in lots and on the street)

See "Parking Management" on page 46 for more information.

Highlight the Village's Heritage

Celebrate the Village's rich, diverse heritage as a distinguishing asset and economic development opportunity. Tools include:

- Appropriate guidelines for rehabilitation of historic buildings and for compatible new construction.
- Interpretive programs, including markers and electronic touring systems, to highlight historic buildings and sites associated with significant cultural events and activities.

See "Heritage Resources" on page 57 for more information.

Execute Plan Improvements in Stages

Generally, implementation is a long term, incremental endeavor. Some projects will be implemented in phases, as individual property owners execute improvements to meet their schedules. Others will need a coordinated effort amongst property owners and/or the overall Village businesses. Several projects will require more work, or must wait until market conditions are correct and as budgets permit. There are also key plan ideas that can be implemented short term. Public realm improvements should be timed to attract and support private investment nearby.

The diagram on the next page illustrates how incremental development over time could combine to produce a future development concept that is consistent with the plan vision for an exciting and active urban village.

See the Implementation Plan on page 95 for more information on executing plan improvements in stages.

Programs to highlight the Village's heritage include guidelines for the rehabilitation of historic buildings and interpretive programs such as markers and tours.

2.0 ECONOMIC DEVELOPMENT STRATEGY

Implementing the community vision for an active and exciting urban village requires a successful economic development strategy that addresses market trends and helps position the Village as a special place with a unique brand identity. Demographic trends and market opportunities provide the foundation for an economic strategy that seeks to draw regional visitors while providing services to neighborhood residents.

This chapter outlines preliminary economic strategy information for the Village. It provides a general overview of area demographics, development opportunities and potential management systems to promote economic development.

A more detailed market overview is provided as an attachment to this plan.

An economic development strategy should help position the Village as a special place with a unique brand identity.

2.1 Area Demographics and Market

The Village of East Davenport and surrounding neighborhoods have a relatively stable population and employment base. The majority of households have two or fewer persons and household age is generally increasing.

As illustrated in the charts below, household income is increasing in the neighborhoods immediately surrounding the Village (three minute drive time), as well as the wider area beyond (15 minute drive time). This trend supports development of both services for neighborhood residents and retail/commercial opportunities consistent with the vision for the Village as a regional tourist destination.

Household Income within a Three Minute Drive Time

Household Income within a 15 Minute Drive Time

2.2 Commercial Market Opportunities

Incorporating a diversity of commercial activities is essential to the vitality of the Village. Diverse businesses and customers will help expand the strength of the Village as a commercial center, and also buffer it from changes in the market in a single business category.

To support the vision for the Village as both a neighborhood center and regional tourist destination, most commercial development will be in the areas of retail, entertainment and services. However, some limited office uses may also be part of the mix.

Commercial development in the Village should serve key market segments, including:

- Village residents seeking daily services, as well as specialty retail, dining and entertainment
- Residents of the Quad Cities seeking specialty retail, dining and entertainment
- Recreational boaters who stop at the Lindsay Park Yacht Club
- Mississippi Riverboat tourists
- Joggers and cyclists who are using the riverfront trail
- People using recreational facilities in the parks, including those along the river and the ball park
- Employees working nearby, who will go to lunch, shop, and use professional services in the Village
- Regional visitors, who seek areas with distinctive character and interesting experiences
- Heritage tourists, who are interested in experiencing the cultural heritage of the community

Strategies for Businesses

Local businesses can help position the Village as a special place for visitors from around the region. They should:

- **Maintain consistent business hours.** Some businesses in the Village have operated with limited business hours in the past, and are closed on Sunday and in the evening. This leaves some storefronts inactive during key times when it is important to see the street active with pedestrians.
- **Provide high quality goods and services.** Business owners should continually strive to upgrade the quality of their products.
- **Appeal to a broad range of customers.** While the Village's role as a dining and entertainment area is well known, it is important to broaden the range of goods and services and the customer base. Businesses should market to area residents, the overall city and the region.

Demand for Retail, Entertainment and Services

An evaluation of supply and demand for retail, entertainment and services within an approximate 15 minute drive of the retail core indicates opportunities for:

- Mixed-use development, including retail and residential space or retail and commercial office space
- Limited service restaurants
- Destination/upscale restaurant/brewery
- A moderate-sized destination grocery
- A small bookstore
- Health, beauty and personal care services
- Clothing and shoe stores
- Office supply outlets

Some retail and services will serve residents within about a three minute drive time of the Village. Others, such as a destination grocery or brew pub, could draw from a wider area (a 15 minute drive time and beyond) to promote the vision for the Village as a destination for regional visitors. To be successful, such destination opportunities will require unique or high quality uses such as a popular national chain that does not yet have an outlet in the Davenport area.

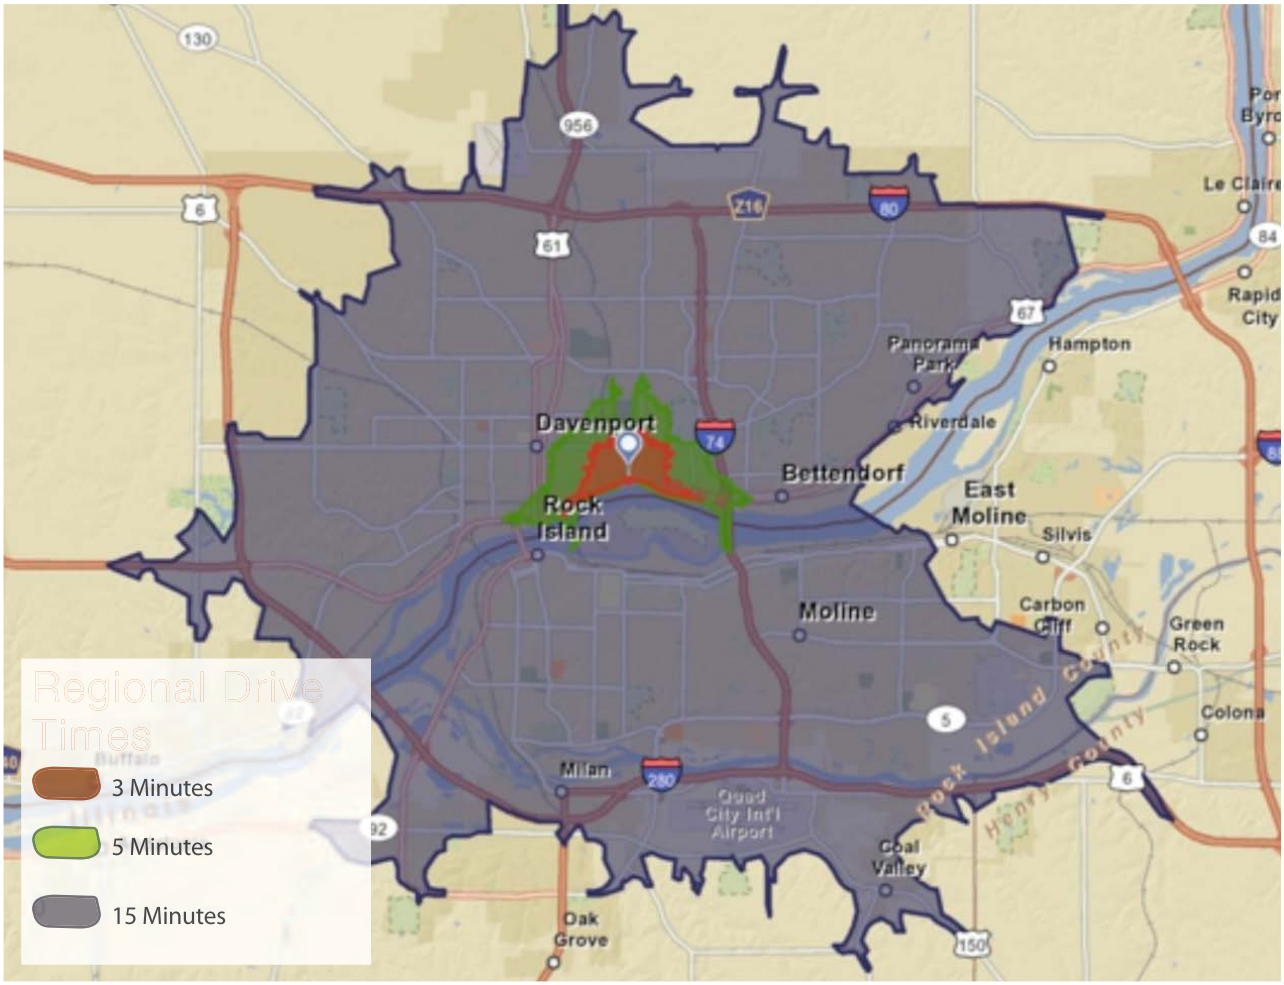
Additional opportunities for commercial development that would support the community vision for the Village include:

- Specialty retail
- Boutique hotel
- Bicycle rental and sales

Demand for Office Space

Future development in the Village is unlikely to support a substantial amount of new office space. However, an evaluation of employment dynamics in the area indicates a few opportunities for office space, mostly small neighborhood services including:

- Finance and insurance
- Professional and technical services
- Administration
- Health services



2.3 Residential Market Opportunities

Residential development is essential to support the community vision for the Village. It will extend the hours of activity in the Village and build a base of local customers for commercial development.

Nationally, demand for residential uses within walking and biking distance of commercial and entertainment centers has been growing, especially among seniors and young professionals. These trends may indicate a market for smaller units for young households or those transitioning from larger single-family homes to residences requiring less maintenance and automobile use. Residential development in the Village should serve:

- Empty nesters wishing to stay in the neighborhood (most such residents will be year-round, but a few may be seasonal)
- Young professionals with employment in Downtown Davenport or the Village
- Other groups seeking a walkable neighborhood with access to retail and services

A variety of residential development types can help support residential market trends and promote the community vision for the area, including:

- Townhouses
- Mixed-use buildings with a retail ground floor and apartments above
- Carriage houses

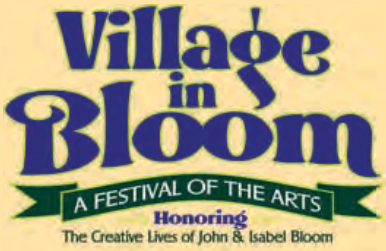
An evaluation of the residential market in the area indicates a much stronger demand for multi-family housing rather than for-sale condominiums or single-family residences.

Promoting the Village's Assets

In addition to offering a high quality commercial and residential experience, the Village can distinguish itself from other areas by highlighting its distinctive location and assets, including:

- The river
- Heritage resources
- Village character
- Parks

Business Association Events



The Village of East Davenport Business Association organizes, or supports a variety of important evens in the Village including:

- Village in Bloom Festival of the Arts (in coordination with festival organizers and sponsors)
- Classic Car Show
- Wine Walk (in coordination with Gilda's Club of the Quad Cities and participating restaurants)
- Antique Tractor Show
- Village Christmas Walk

2.4 Organization and Management

Public institutions and organizations, including the City of Davenport, the Village of East Davenport Business Association and the Village of East Davenport Self-Supported Municipal Improvement District (SSMID) play strategic roles in attracting private investment to the area.

These and other organizations may plan activities and events that:

- Promote heritage and other themes
- Make use of outdoor spaces that are visible from East River Drive
- Engage other groups and organizations such as the theater, historical society and Parks and Recreation

3.0 STREETS AND TRANSPORTATION

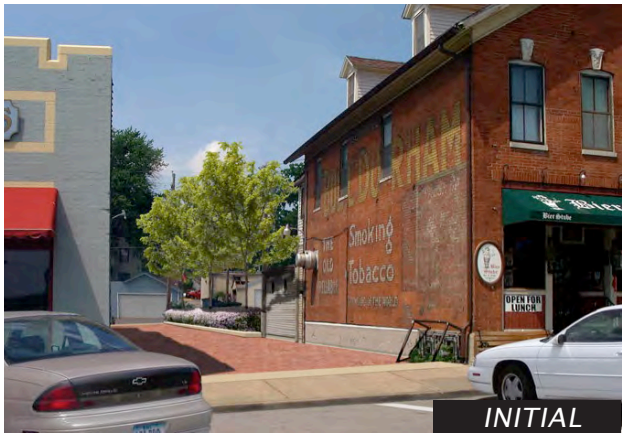
Vibrant and attractive streets are an important part of a successful urban village and key to promoting the community vision for the Village of East Davenport as a regional tourist destination. Successful parking strategies and a coordinated pedestrian, bicycle and vehicular circulation system will also help the Village serve nearby residents and regional visitors.

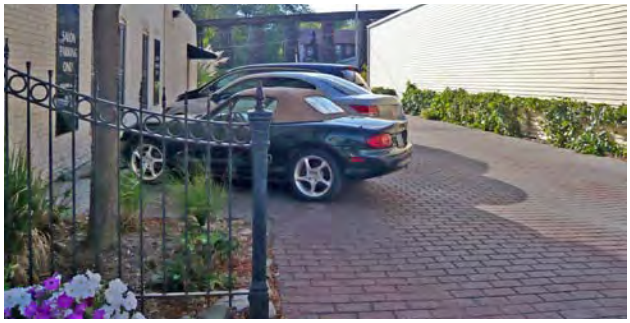
This chapter describes the circulation system that will provide pedestrian, bicycle and vehicular connections into and through the Village, as well as associated streetscape and parking strategies. A series of street types are also defined to illustrate design possibilities for a variety of different contexts.

Vibrant and attractive streets are an important part of a successful urban village and key to promoting the community vision for the Village of East Davenport.

3.1 Circulation

Circulation should be considered to be a set of coordinated systems in the Village. This includes pedestrian and bicycle circulation, as well as automobiles, boats and buses. The key principles for a coordinated system are described below and in the following pages.





Use decorative paving and landscaping to enhance the appeal of small parking areas and promote their use as pedestrian connections.

Improving links between public sidewalks and alleys creates greater pedestrian connectivity. This photo simulation illustrates potential initial and long term improvements to an alley connection on East 11th Street.

Where a dedicated bike lane is not feasible, designate a sharrow (a street marking placed in the center of a travel lane) to indicate that it is shared by autos and bikes (New Orleans, LA).

Pedestrian Circulation

Improve connections throughout the Village by:

- Assuring that crosswalks are clearly identified with decorative paving at key intersections
- Improving links to the public sidewalks from alleys and pathways
- Providing streetscape amenities along the walkway system

Bicycle Circulation

Improve bicycle circulation by:

- Providing dedicated bike lanes on streets where space is available
- Where space is not available, indicating that travel lanes are to be shared by cars and bicyclists, using street graphics
- Providing bike racks in public parking lots and parks

Transit Circulation

Existing transit service in the Village includes the Davenport CitiBus and QCTransit Loop service. Future transit service will be influenced by demand, and as the population increases in the Village, additional stops may be merited. Transit access could be improved by:

- Clearly identifying transit stops with signage
- Locating a cluster of streetscape furnishings at transit stops
- Providing safe and convenient access from transit stops to the pedestrian circulation system

Automobile Circulation

The existing automobile circulation system functions adequately and provides convenient access into and through the Village. Auto circulation could be improved with additional directional signage to help motorists find parking facilities and public amenities. Potential locations for additional signage include the intersection of East River Drive and Mound Streets, East 11th and Mound Streets, East 11th and Christie Streets, and Jersey Ridge Road and Kirkwood Boulevard.

River Access

Access from the river should be considered an integral part of the Village circulation system. This applies to water taxi users as well as pleasure boats. River access could be improved by:

- Including signage that directs users to the Village core at the riverfront
- Extending the sidewalk system and the landscape palette to the riverfront
- Integrating river traffic, including the water taxi, as an important component of the Village's circulation system
- Providing wayfinding that leads from embarkation points to the Village core.

Continue to cluster street furniture to define small seating areas. Locate these at key intersections, transit areas, mini-parks, plazas, and along the riverfront promenade.

Access from the river should be considered an integral part of the Village circulation system.

Davenport in Motion

The 2010 *Davenport in Motion* citywide transportation master plan establishes the vision and key policies for pedestrian, bicycle, transit and automobile circulation throughout Davenport.

Wayfinding Systems

Wayfinding systems include signs, maps and other materials that convey location and provide directions to visitors. Although some wayfinding elements are already in place in the Village, a complete wayfinding plan and design palette should be developed. Its design should be compatible with the black metal information kiosks already in use. A wayfinding system typically includes signs for:

- Gateway entries into the area
- Directional signs at key intersections
- Directions to parking areas
- Identification of bicycle routes and parking areas
- Pedestrian-oriented directories, identifying businesses and services
- Historical markers

Signs should be scaled for pedestrians or automobiles depending on their location.

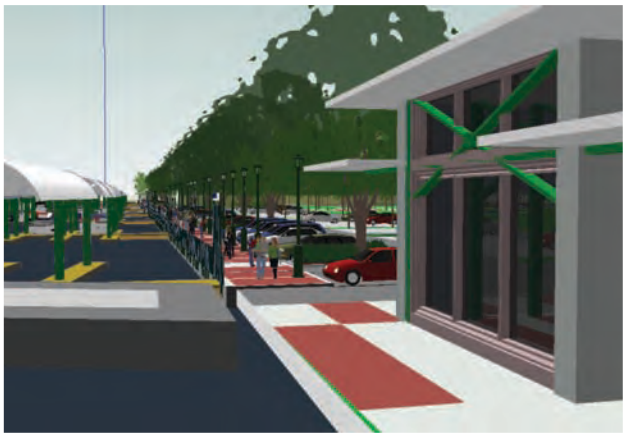
Although some wayfinding elements are already in place in the Village, a complete wayfinding plan and design palette should be developed.

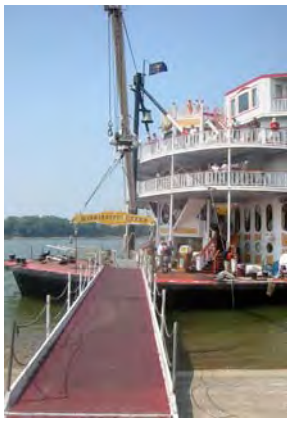
Gateways and Key Intersections

Gateways into the Village should be clearly identified and establish a "preview" of the streetscape design elements that extend throughout the area. Each of these should be custom-designed, but should have a consistent design palette. In addition, providing space for public art or planters should be considered where it is feasible.

Gateways should include:

- Decorative crosswalk paving (where road conditions permit)
- Decorative paving at sidewalk corners
- A cluster of streetscape furniture components (planters, benches and kiosks)
- A signature entry sign that uses established graphics





Enhance embarkation points and provide wayfinding information that leads from the riverfront to the Village core. Continue the existing Village streetscape palette in this area to link it visually with the Village.

3.2 Streetscape Palette

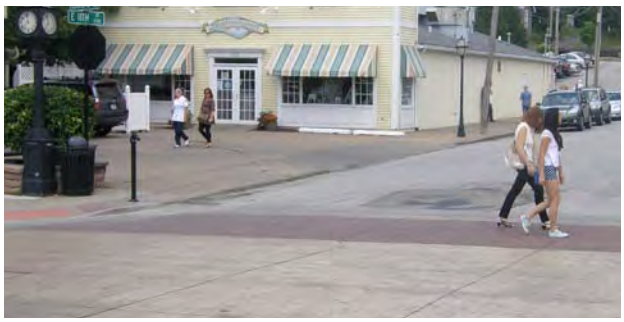
A custom streetscape palette is in place in the Village, which helps to define it as a distinct place and to enhance the pedestrian experience. It has these components:

Special Accent Paving

Brick paving is used as a decorative accent in the Village core. It defines the corners of sidewalks at street intersections and also defines some special seating areas. It appears as a band along the outside edge of some sidewalks and in most crosswalks in the Village. These provide clear signals that one is in the Village, while also enhancing pedestrian safety.

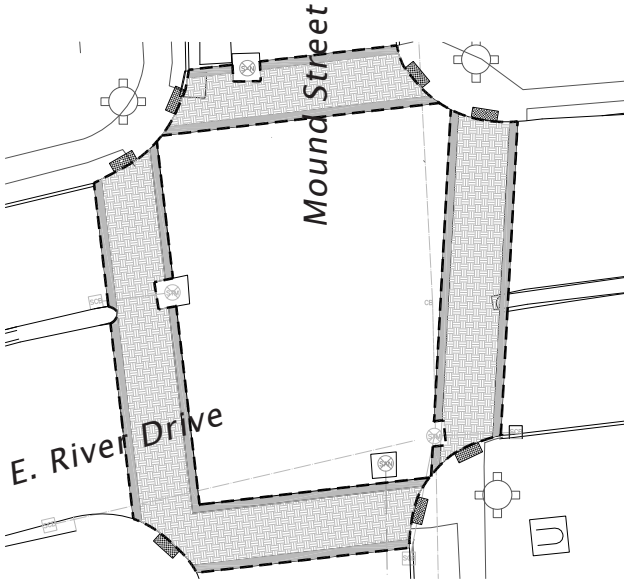
An additional decorative paving pattern is installed in the middle of the intersection of Christie and 11th Streets, which highlights a key focal point in the Village.

Enhance the existing system by continuing the use of decorative paving, and extending it to the edges of the Village. This includes installing additional crosswalk paving where feasible, and adding planters, benches and streetlights.



Continue the use of brick crosswalk patterns at key intersections.

Highlight key intersections with paving and street furniture.



Decorative stamped brick crosswalks will be installed at the intersection of Mound Street and East River Drive in summer, 2013.

Specific locations for decorative paving:

- The northern entry on Jersey Ridge Road
- The southern portion of Mound Street through lower Lindsay Park, extending to the river promenade
- The intersection of Mound Street and East River Drive (planned for installation in summer, 2013)
- Proposed “mini-parks” at the base of the school, and at the Fire Museum
- Along mid-block pedestrian connections
- In the alley between 11th and 12th Streets as described in “Village Lane” on page 36
- Along Christie Street to support the Festival Street concept described on page 40 (note that a more detailed design study will be required to develop this specific design concept)

Continue the use of decorative paving in the middle of intersections that are to be identified as central points of activity in the Village. This paving at the intersection of Christie Street and 12th Street, in conjunction with the mini-plaza illustrated at the upper left, is an example.

Planters

Planters are framed in black metal, and are clustered with other furnishings, typically at key intersections. These accommodate changing plant materials, to provide seasonal color and variety. They are consistent with the overall streetscape palette.

Recommendations:

- Continue the use of planters, and extend their locations to the edges of the Village.
- As these do require maintenance, they should be used where levels of pedestrian activity merit, and where water is conveniently available.
- Consider a grouping of large planters at the Gateway intersections.

Continue to use the established planter design throughout the Village, and extend their use to other paths and walkways, to signal a sense of continuity in the pedestrian circulation system.

Benches

Decorative benches are used in combination with other street furnishings. They are a black strap metal design, consistent with the overall streetscape palette.

Recommendations:

- Continue the use of benches, and extend their locations to the edges of the Village and the areas identified for park improvements, such as at the Fire Museum and Indian Springs Park.

Continue the use of benches, and extend their locations to the edges of the Village and the areas identified for park improvements.

Continue the use of kiosks, locating them in areas of high pedestrian volume, and near major parking facilities.

Kiosks

Information kiosks that are consistent with the overall streetscape palette are installed at key intersections. These also are consistent. They provide opportunities for public notices related to events in the Village, as well as wayfinding maps.

Recommendations:

Continue the use of kiosks, locating them in areas of high pedestrian volume, and near major parking facilities.

Specific locations to consider:

- At the southern end of the extended Mound Street, near the intersection with the proposed riverfront promenade
- At the public parking lot near the intersection of Mound Street and East River Drive

A streetlight replacement design should be one that is compatible with the carriage lamp, but also establishes a stronger visual statement. (Monroe, WA)

Streetlights

Colonial style "carriage" lamps are used in the Village. These are mounted on black metal poles, or standards, and are spaced at approximately 40 foot intervals. While these lights are decorative, some community members have expressed concern that they are not of the same quality of other components of the streetscape palette and that pole heights may be too low.

Recommendations:

- Consider replacing the streetlights with a design that is more consistent with the rest of the streetscape palette. Since the existing lights are a relatively new installation, some time may be needed to amortize them. One approach may be by installing a new light fixture in areas where the streetscape palette is to be extended. To do so, the replacement design should be one that is compatible with the carriage lamp, but also establishes a more strong visual statement. This would require additional study.

3.3 Street Types

This section describes a series of street types that exist in the Village core. They are based on variation in existing conditions and long term goals for the design and character of the Village's streets. The street types address public elements such as lighting, benches, street trees and civic space, as well as building placement, building scale, and parking design. Enhancing the pedestrian experience and establishing a consistent identity for the Village is a key objective for each street type. Many suggested improvements would be phased over time, as market conditions merit, and as funding becomes available.

Commercial Storefront Street

This street type runs through the core of the Village. It is defined by storefronts aligned at the sidewalk edge, creating a strong pedestrian orientation.

Shopfronts are a key feature in the Commercial Storefront Street and should continue to define this frontage.

Key features of the Commercial Storefront Street include:

- Storefronts, aligned near the sidewalk edge, provide a wall of windows to invite browsing.
- Building heights vary, predominantly two and three stories, with some one-story elements.
- Commercial activities (retail, services, dining and entertainment) predominate at street level, and residential and professional offices are subordinate.
- Some on-site parking exists, but is subordinate to the buildings and the streetscape, and only in the rear.

Storefronts, aligned near the sidewalk edge, provide a wall of windows to invite browsing (Le Claire, IA).

Some larger storefronts or a specialty grocery could be located along the Commercial Storefront area of East River Drive (Milwaukee, WI).

Mixed Use Corridor

These streets serve as entries into the Village core. They include a mix of commercial and residential buildings. While they are not as "urban" as the Commercial Storefront streets, they are predominantly commercial in character. Sidewalks are improved, and curb cuts are reduced to promote walking. They serve as access ways for residents in the nearby neighborhoods. Street furniture matches that of the commercial storefront areas.

The Mixed Use Corridor has a varied street wall with some buildings built to the sidewalk edge and others set back from the street.

Key features of the Mixed Use Corridor include:

- A varied street wall, with some storefronts built to the sidewalk edge, and others set back, with landscaping in front
- Some on-site parking, but subordinate to the buildings and the sidewalk, and with a landscape buffer

Village Mixed Use Street

This street includes a mix of residential and commercial building types, with active open spaces around them. This variation in the street wall, with a diversity of open spaces and building types, contributes to a “sense of exploration” that is part of the Village character. Small-scale building details provide visual interest. The area has a more varied street edge, with less of a continuous line of storefronts than is seen in the Commercial Storefront street type. All of these features invite walking.

Redevelopment to support a vibrant Village Mixed Use Street would occur primarily to the rear of the existing cottages on the south side of East 12th Street, and along the “Village Lane” alley between East 11th and 12th Streets. See “Site 6” on page 80 for more information on rehabilitation and expansion of the existing cottages.

Residential structures (often containing commercial uses) are predominant along the Village Mixed Use street type.

Key features of the Village Mixed Use Street include:

- Residential building types, but with commercial uses predominantly at the street level; residential and professional office in upper floors, and in rear additions
- Building heights vary, predominantly one and two stories in front; taller additions to the rear, following the topography.
- Building fronts are often set back from the sidewalk, with landscaped yards, patios, courtyards and dining areas in front and to the sides and rear of buildings.
- Porches provide a transition in scale, and accommodate product displays and dining.
- Some on-site parking exists, but is subordinate to the buildings and the streetscape, and only in the rear.

Adaptive reuse of historic residential structures can promote an active retail and entertainment environment (Sausalito, CA and Woodstock, VT)

The Village Mixed Use Street includes a variety of commercial and residential building types. Porches provide a transition in scale and accommodate product displays and dining (Lexington, KY).

Village Lane

The alley between East 11th and 12th Streets is currently provides parking and service areas for neighboring businesses and homes. The plan envisions a transformation of the alley into a "Village Lane" that will provide opportunities for new pedestrian-oriented development and improved parking areas. See pages 38 and 39, as well as "Site 6" on page 80 for more information on the transformation of the alley into a Village Lane.

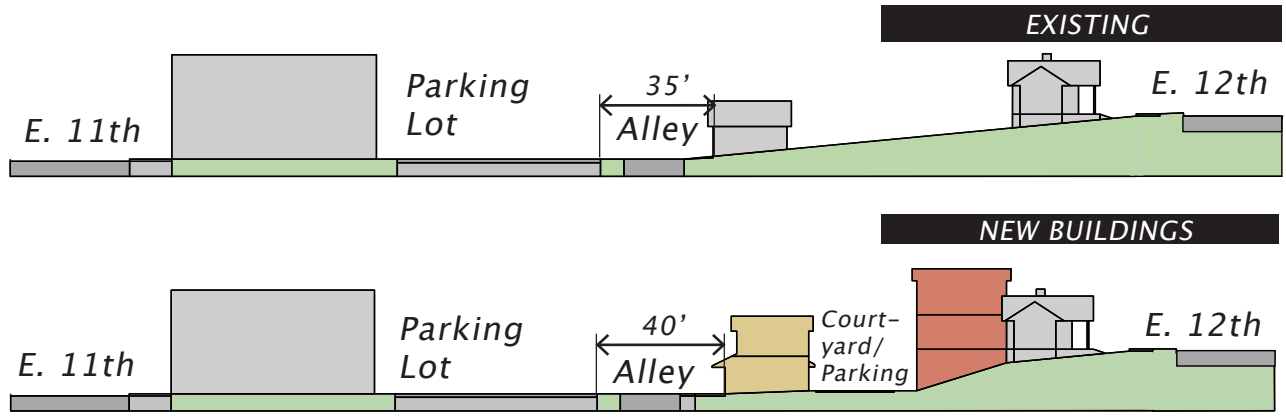
The alley between East 11th and 12th Streets currently provides parking and service areas for neighboring businesses and homes.

Key features of the Village Lane include:

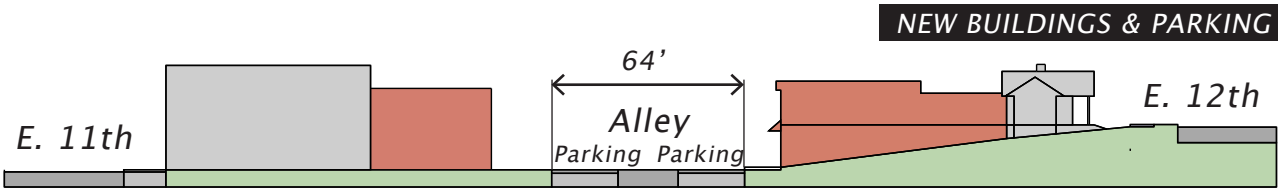
- Narrow lane, with a mix of buildings and parking areas aligned along the edges, and retail, residential and professional offices mixed in.
- Smaller walkways and paths connecting-to and crossing the Village Lane to encourage pedestrian activity.
- Decorative paving that highlights walkways and special activity areas.
- Smaller scale streetscape elements, with lighting focused on the ground level.

Alley Configuration for the Village Lane

As illustrated below, a number of possible alley configurations could support the Village Lane concept.



This configuration preserves existing parking lots on the south side of the alley and adds new townhouse buildings with garages on the north side. Also see "Site 6" on page 80.



This configuration adds new 90 degree parking spaces on either side of the alley. Rear additions to buildings facing East 11th and 12th Streets help define the alley.

Village Lane Alley Improvements

The Village Lane concept includes alley improvements to highlight walkways and special activity areas. As illustrated in the photo simulation below, an initial project could include decorative paving along the alley and more long term improvements could include lighting and landscaping to support outdoor use, including product displays and dining areas.

Alleys are popular destinations in other communities. (Flag-staff, AZ)

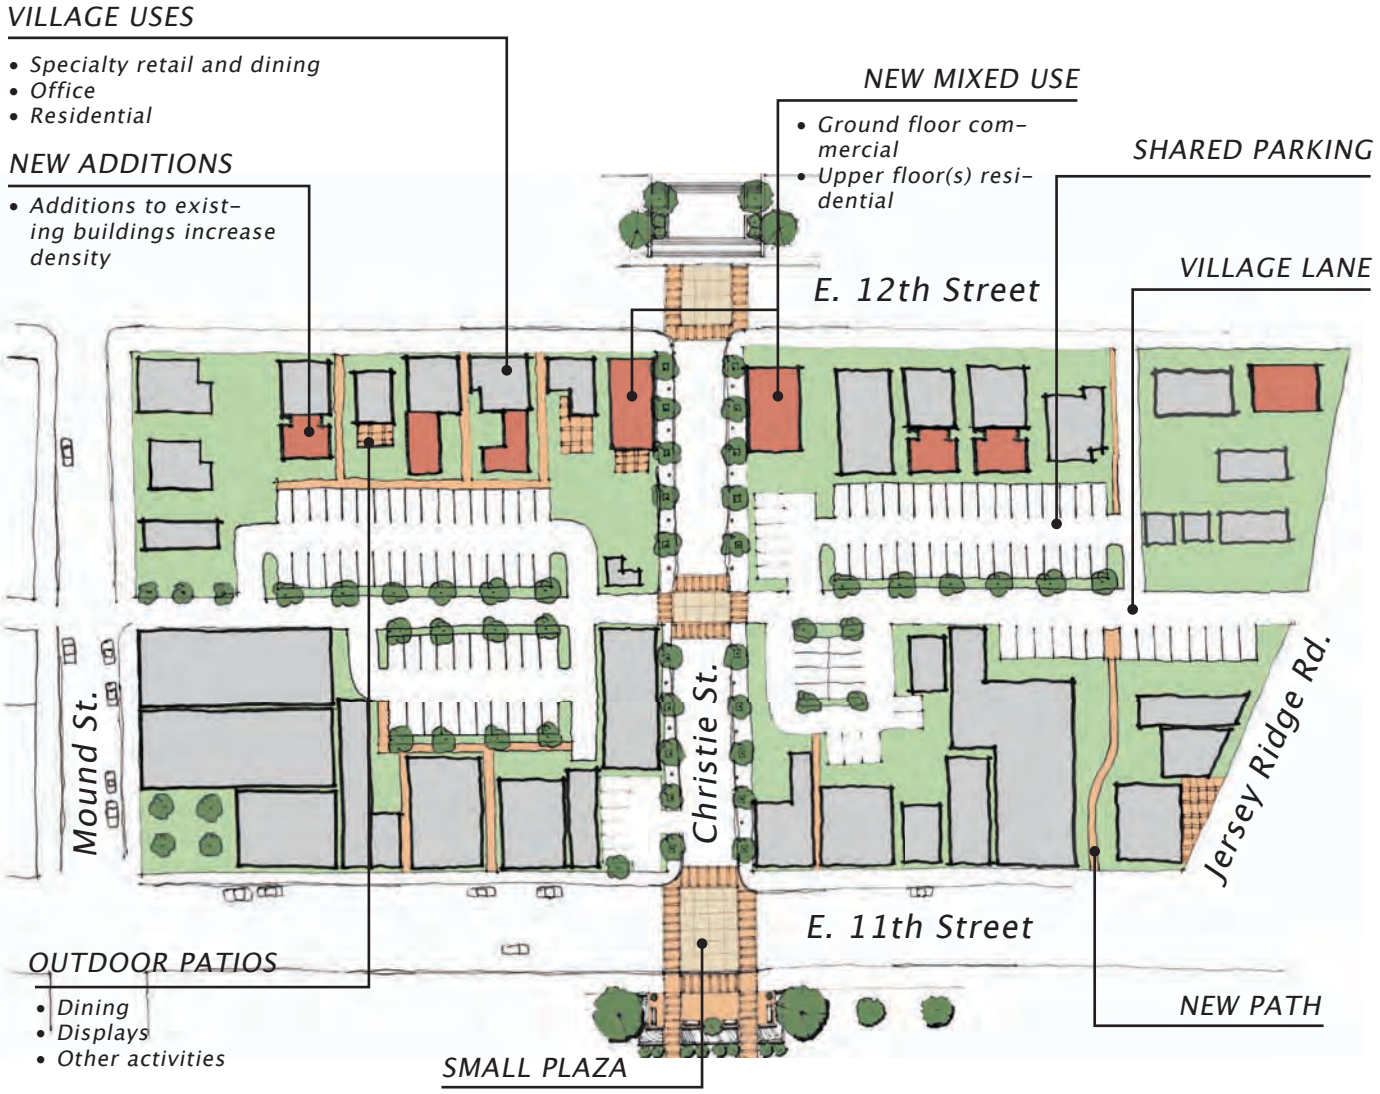
Concept Sketches

This chapter includes a number of conceptual sketches to illustrate opportunities for street improvements. They do not represent formal proposals and property owner participation would be voluntary. Some concepts could be implemented incrementally over time, and variations could occur based on changing circumstances.

Low Intensity Concept for the Village Lane

The concept sketch below illustrates opportunities to enhance the alley between 11th and 12th Streets with some expanded commercial uses located/attached to the rear of the cottages, and coordinated parking. In this concept, cooperative agreements among property owners would facilitate arranging parking in a coordinated manner that would yield more spaces, while also accommodating a modest increase in commercial and residential space. The alley itself would be improved with decorative lighting, paving and landscaping to enhance its appeal to pedestrians. Outdoor uses, including product display and dining areas, would also orient to this improved Village Lane. A portion of the parking area could even be programmed for special events as well, as an adjunct to improvements recommended for Christie, as a Festival Street. Enhanced, privately-owned walkways that lead between buildings would allow pedestrians to filter into and through the Village.

The opportunity sites summarized on pages 80 through 82 provide additional detail on redevelopment concepts for this area.



Mixed Use Concept for the Village Lane

This concept sketch below illustrates a more intense alternative for development of the alley between 11th and 12th Streets with expanded commercial uses, and coordinated parking. In this concept, cooperative agreements among property owners would facilitate arranging parking in a coordinated manner that would yield more spaces, while also accommodating a more intense increase in commercial and residential space.

A row of mixed-use buildings, two and three stories in height, would be constructed along the alley. These would include entrances that face the Village Lane, and some could also orient to courtyards uphill, which would be shared with the buildings that face 12th Street. Because of the sloping hillside, these structures would fit in with the traditional Village scale.

The alley would be improved with decorative lighting, paving and landscaping to enhance its appeal to pedestrians. It also would serve as the driving lane for parking. Outdoor uses, including product displays and dining areas, would orient to the improved lane. When opportunities arise, enhanced walkways that lead between buildings could be provided to allow pedestrians to filter into and through the Village. These would be privately-owned walkways that could run alongside outdoor dining and display areas.

The opportunity sites summarized on pages 80 through 82 provide additional detail on redevelopment concepts for this area.

Festival Street

Enhance Christie Street as a Festival Street in the heart of the Village for special events.

The Village of East Davenport hosted a campaign event for President Obama along Christie Street.

Key features:

- Utility hookups
- Banners
- Gates to facilitate street closure
- Lighting
- Decorative paving to highlight street crossings
- Street trees in grates along the sideswalk
- A mid-block bulb-out to accent the alley lane and provide a location for ornamental tree clusters (note that some bulb-out areas could be leveled for festival functions that work along the sloping street)

The one-block stretch of Christie Street in the heart of the Village provides views of up towards the historic Pierce School and down towards the riverfront.

A Festival Street can provide space for a wide variety of community events. (Boulder, CO)

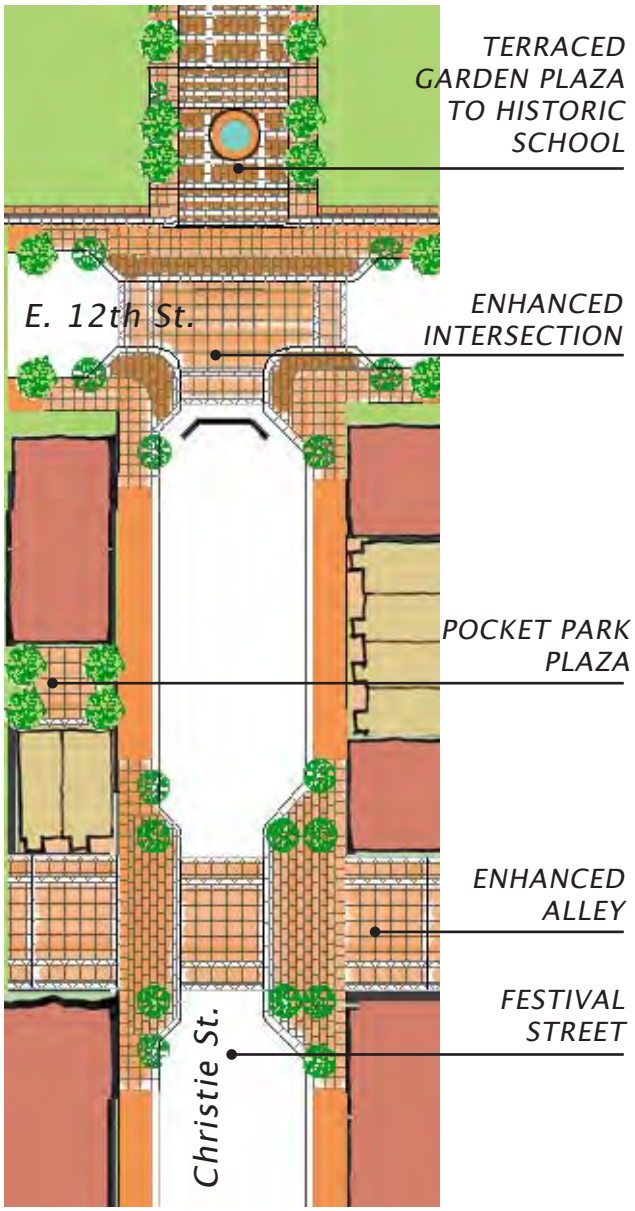
Festival Street Concept

The study sketch at right illustrates the opportunity to improve a segment of Christie Street to provide space for festivals, special events and outdoor market days. Small plazas at either end would serve as staging areas for performances and other activities.

Utility hookups would be included on street lights for use by vendors. On an ordinary day, Christie Street would serve as a conventional street, with travel lanes and parallel parking. On special event days, all, or a portion, of the street would be closed to automobiles. Other events, including larger scale festivals, could continue to be held on 11th Street, as they are presently.

The north-south slope of Christie Street should not be a significant issue, as most festival vendors would generally use 10' by 10' tent structures with adjustable legs. The slope may actually help increase the visibility of events, allowing a stacked view of vendors, and providing glimpses of events from River Drive.

A Festival Street can be closed for special festivals and outdoor market days. (Boulder, CO)



Boulevard

This street (an extension of Mound Street) provides a link to the riverfront.

The Boulevard street type would include improvements to promote a strong visual and pedestrian connection between the Village core and the river.

Key features:

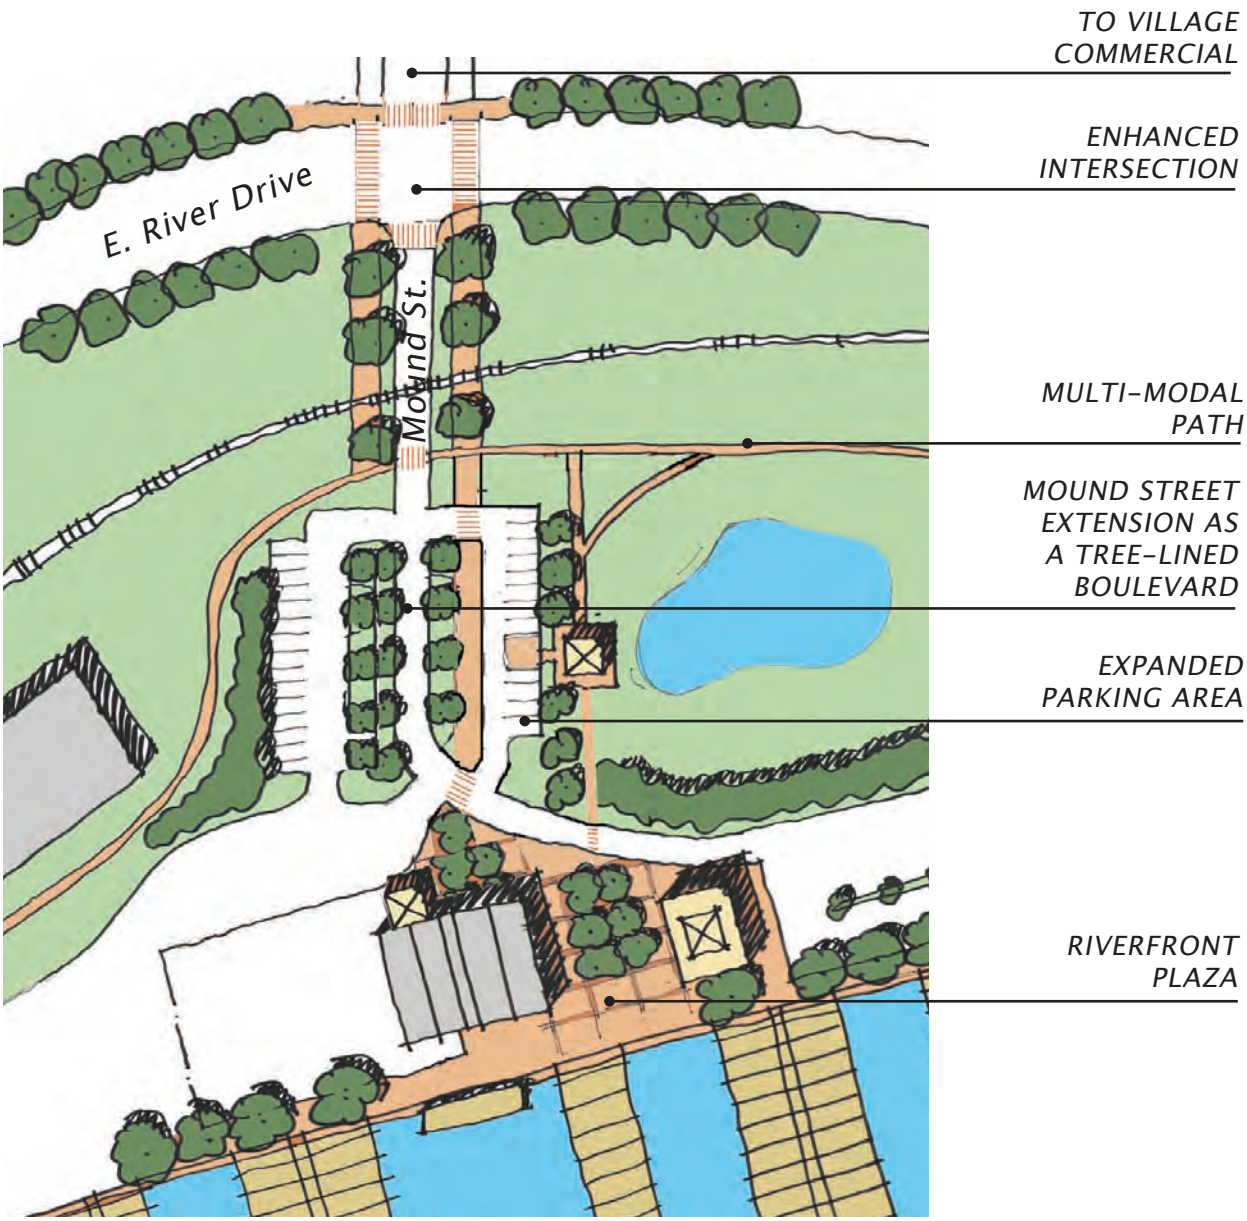
- A clearly defined sidewalk and street trees.
- A strong visual connection between the Village core and riverfront, inviting visitors to park in this area.
- A string of small parking lots along its edges (if demand merits). On-street parking also could be provided as shown in the design alternative above.
- Decorative paving and streetscape elements to indicate its connection with the Village and promote use of parking that lies along the river edge (note that installation of decorative paving is planned for the intersection of Mound Street and East River Drive in summer, 2013).

Long Term Concept for the Boulevard

The concept sketch below illustrates opportunities to enhance the connection between the core of the Village and the riverfront. The key feature is an improved street as an extension of Mound Street south of East River Drive. It would include sidewalks, street trees and accent paving to visually connect with the Village core. South of the railroad tracks, an expanded parking area could be provided if growth in the area demonstrates the need. Parking could also occur along the street.

The concept also includes a shallow pond to serve as a toy boat basin in summer months, and an ice rink in wintertime. A small service building could serve as a warming hut and as a boat rental facility.

The "Illustrated Vision" on page 16 shows a variation on this concept. It is also described and illustrated in "SITE 12" on page 92.



Parkway

This portion of East River Drive would be enhanced.

The Parkway will enhance East River Drive as a gateway to the Village.

Key features:

- Additional trees and shrubs that relate to those in the Village core would be planted along the inside edge of the existing sidewalks.
- They would be spaced to retain, and frame views into the Village core to indicate to motorists that they have entered the Village area.
- Maintain the existing hierarchy of streets with respect to the way in which they serve automobile traffic.
- Assure that key intersections and decision-making points are clearly identified with landscaping and way-finding information.

An enhanced East River Drive would include additional trees and shrubs spaced to maintain views of the river and indicate to motorists that they have entered the Village area.

Promenade

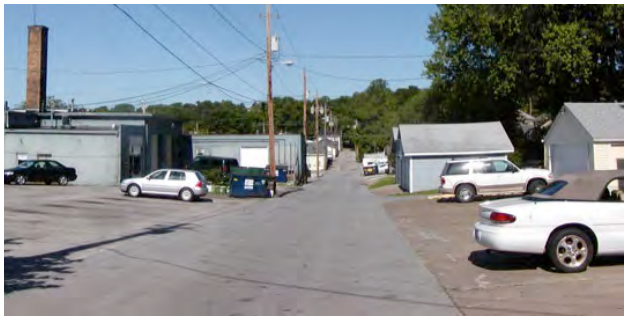
This is a portion of the riverfront trail that runs along the southern edge of the Village.

The promenade builds on existing waterfront improvements.

Key features:

- This area should be enhanced as a walkway for viewing the waterfront and the yacht club while also maintaining security for boat owners and slip users.
- The inland edge would include new trees, shrubbery and ground planting, that visually link it with that in the Village core.
- Street furniture also would relate to that found in the Village core, including benches and waste receptacles.

The promenade should be enhanced as a walkway for viewing the waterfront and the Lindsay Park Yacht Club. Design elements such as dock gates and fencing should be transparent and decorative, while maintaining yacht club security.



A parking management strategy should seek to Make best use of existing off-street parking resources.

3.4 Parking Management

Parking is an important part of the transportation system in the Village. Although a lack of parking was not raised in public workshops, some people believe that a shortage of parking exists in the Village core, especially for dining and entertainment uses at peak times of activity. While future development may justify some new parking facilities, a key plan objective is to manage existing parking resources and encourage alternatives to driving.

Existing Parking

Approximately 980 spaces exist in the Village. Of these, 546 are private, off-street spaces, 224 are public, off-street spaces, and 220 public, on-street spaces.

Approximately 160 spaces currently exist in the eastern lot of the riverfront portion of lower Lindsey Park.

Parking ratios used in walkable communities are generally as follows:

- Single family residential: 2.0
- Multifamily: 1.0 bdrm. = 1.25; 2.0 bdrm. = 1.5; 3 bdrm. = 1.75; 4+ bdrm = 2.0
- Retail/Commercial: 1 per 300 square feet
- Restaurant: 1 per 200 square feet
- Office: 1 per 300 square feet
- Baseball/Softball Players (24 per game): 1 per 1.2 players + 3 (officials)
- Theater (70 seats): 1 per 4 seats = 18 spaces

Applying these parking ratios to the existing uses, the demand is for approximately 438 spaces.

Parking Management Strategies

The Village should strive to operate an efficient, safe and convenient parking program, as a part of an overall strategy to facilitate resident, worker, and visitor access to the Village core to reach goods and services. A successful parking program provides sufficient supply for normal operational periods, is coordinated, among private and public facilities, and does not create significant gaps in the pedestrian experience.

A successful parking management strategy also seeks to:

Make best use of existing off-street parking resources.

Before developing more parking spaces, it is important to improve the efficiency of existing parking facilities. This means coordinating access to individual parking lots, and sharing spaces in private, off-street lots, in addition to any improvements that may occur to public parking facilities. Establishing cross-property easements between properties can, in some cases, permit more efficient use of existing spaces by reducing the amount of space taken up by driveways.

Manage on-street parking to assure short-term availability.

On-street spaces in the Village core should be available to customers. The best means of assuring this is to encourage employees to park in outlying areas. Setting time limits will also help to achieve this objective, and should be considered if parking demand increases in the core.

Improve the appeal of parking areas south of East River Drive.

Significant parking supply exists south of River Drive. However, it is unlikely to appeal to visitors to the Village until the pedestrian experience is improved significantly. This includes providing a more clearly defined street, flanked with landscaped walkways that lead from parking near the river's edge into the Village core as described on page 41. Such improvements will also help extend the perception of the Village to include the park and riverfront.

Reduce parking demand by promoting alternative modes of transportation.

Enhancing walkways and bicycle routes with landscaping, signage and welcoming lighting will encourage users to access the Village core in alternative ways to automobiles. Promoting the Davenport CitiBus and QCTransit Loop service will also help reduce parking demand.

The Loop downtown riverfront circulator connects the Village with other Quad Cities entertainment destinations in the evening on Friday, Saturday and Sunday.

When demand merits, provide additional parking in compact, efficient ways.

If net parking demand rises to the point of justifying new parking facilities, these should be located where they will support the Village core, without eroding the density of buildings there or by creating gaps in the street wall. This means creating parking in the perimeter and, when feasible, developing structured parking.

With these general strategies in mind, here are some specific actions related to parking in the Village core:

- When demand merits, establish a parking time limit in the Village core. This may first apply only to periods of peak use when demand is highest.
- Provide a coordinated "spine" of improved parking areas along the Village Lane. This includes private lots, as well as some public ones that may be developed.
- Improve Mound Street south of the railroad tracks with curb-and-gutter and on-street parking.
- Coordinate parking signs to improve visibility.
- The SSMID has installed some signs that identify the Village. This design should be adapted to identify key parking areas throughout the area.
- Enhance parking lots with landscaping and better paving to encourage their use.
- Some lots have uneven surfaces, and are deficient in their lighting. Improving the existing lot at the northeast corner of Mound and East River Drive should be a high priority. (While this site may later redevelop to include other uses, further enhancing it with landscaping should occur earlier.) Another opportunity is to enhance the existing lot near the river edge with landscaping, lighting and clearly defined walkways.
- When developing new parking areas, locate them to the side or rear of buildings, to minimize interrupting the street wall. Provide some view from the street to parking areas, but keep this subordinate to the line of buildings and outdoor use areas that define the Village character. One opportunity is to develop a small public parking lot near 12th Street and Jersey Ridge Road. (See the Opportunity Site discussions.) Another opportunity is to develop a string of small, well-landscaped parking lots along the southern portion of Mound Street as it extends south of East River Drive to the water. These may also serve improved uses in the park.

4.0 PUBLIC SPACES & HERITAGE RESOURCES

The Village is clearly defined by its parks, open spaces and heritage resources. In a number of cases, heritage resources are an integral part of the Village's open spaces. Promoting these resources is key to the community vision for the Village of East Davenport as a regional tourist destination.

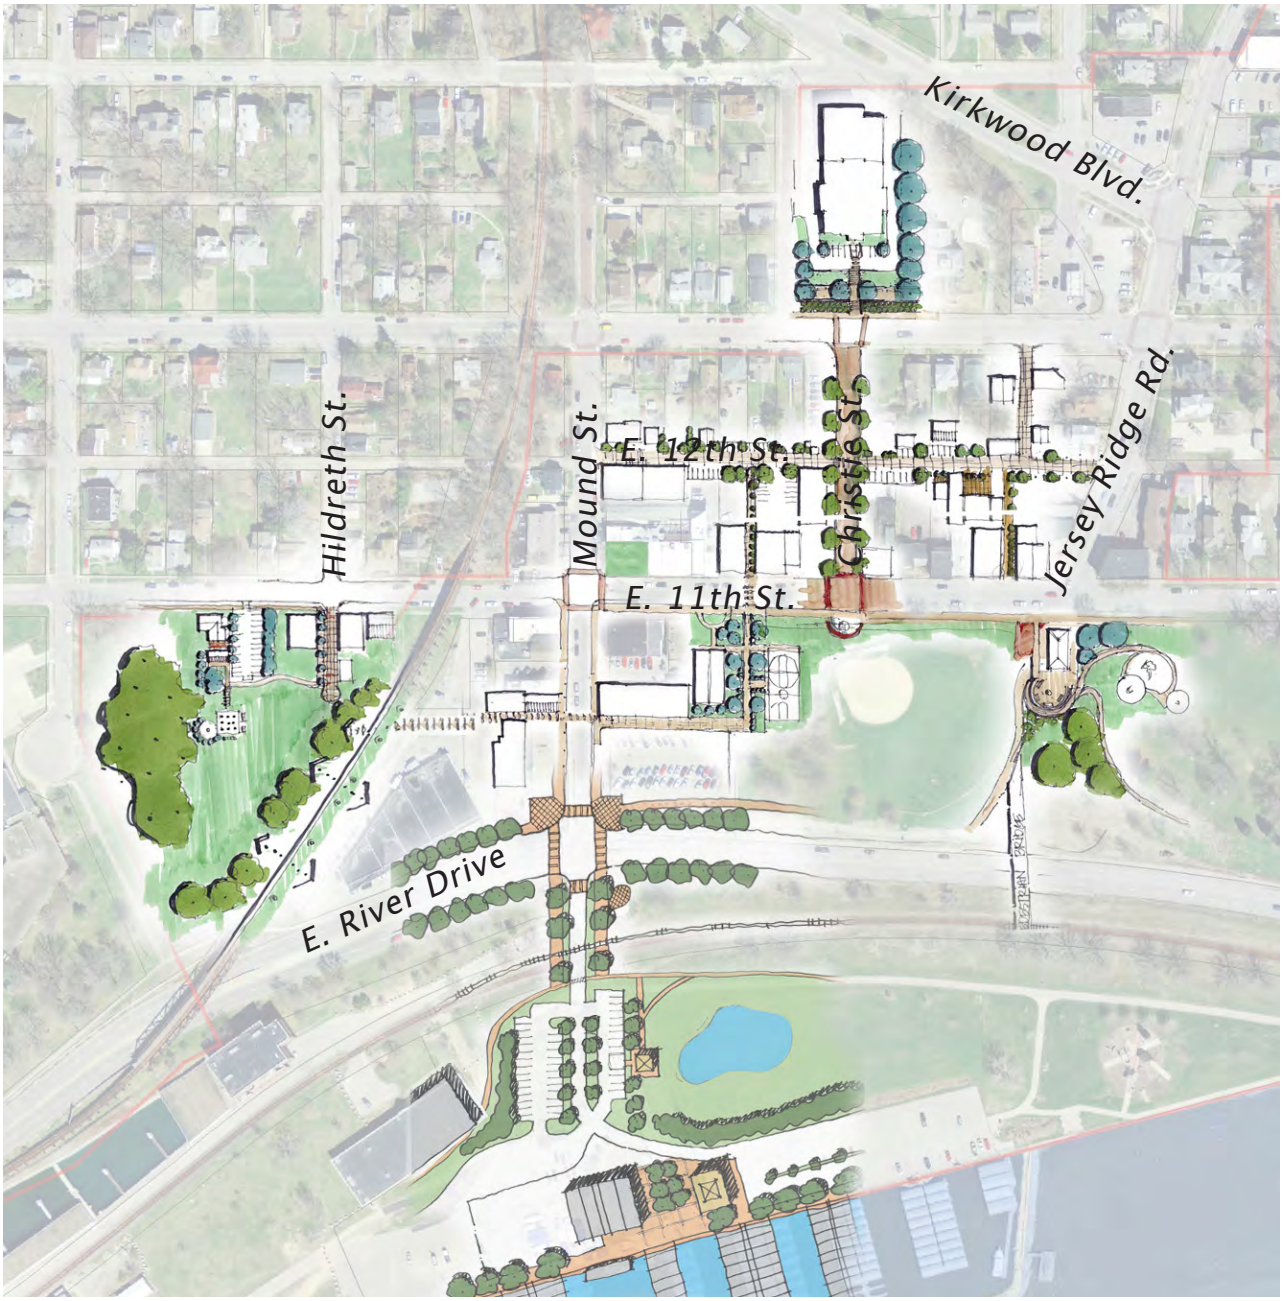
This chapter describes strategies for parks, public space and heritage resources throughout the Village. It includes illustrated design concepts for several parks and open spaces and describes strategies for interpreting and protecting historic resources.

Heritage resources help define the Village.

4.1 Parks and Open Space

Some of the strongest imagery for the Village's identity is in its parks. They should be improved to provide venues for activities year round. A key concept is to extend the perception of the area that is considered to be the Village to the south to the river edge, and to the west to include Indian Springs Park. In other places, smaller plazas and special outdoor use areas should be developed and existing ones should be enhanced.

The following pages explain some specific improvements.



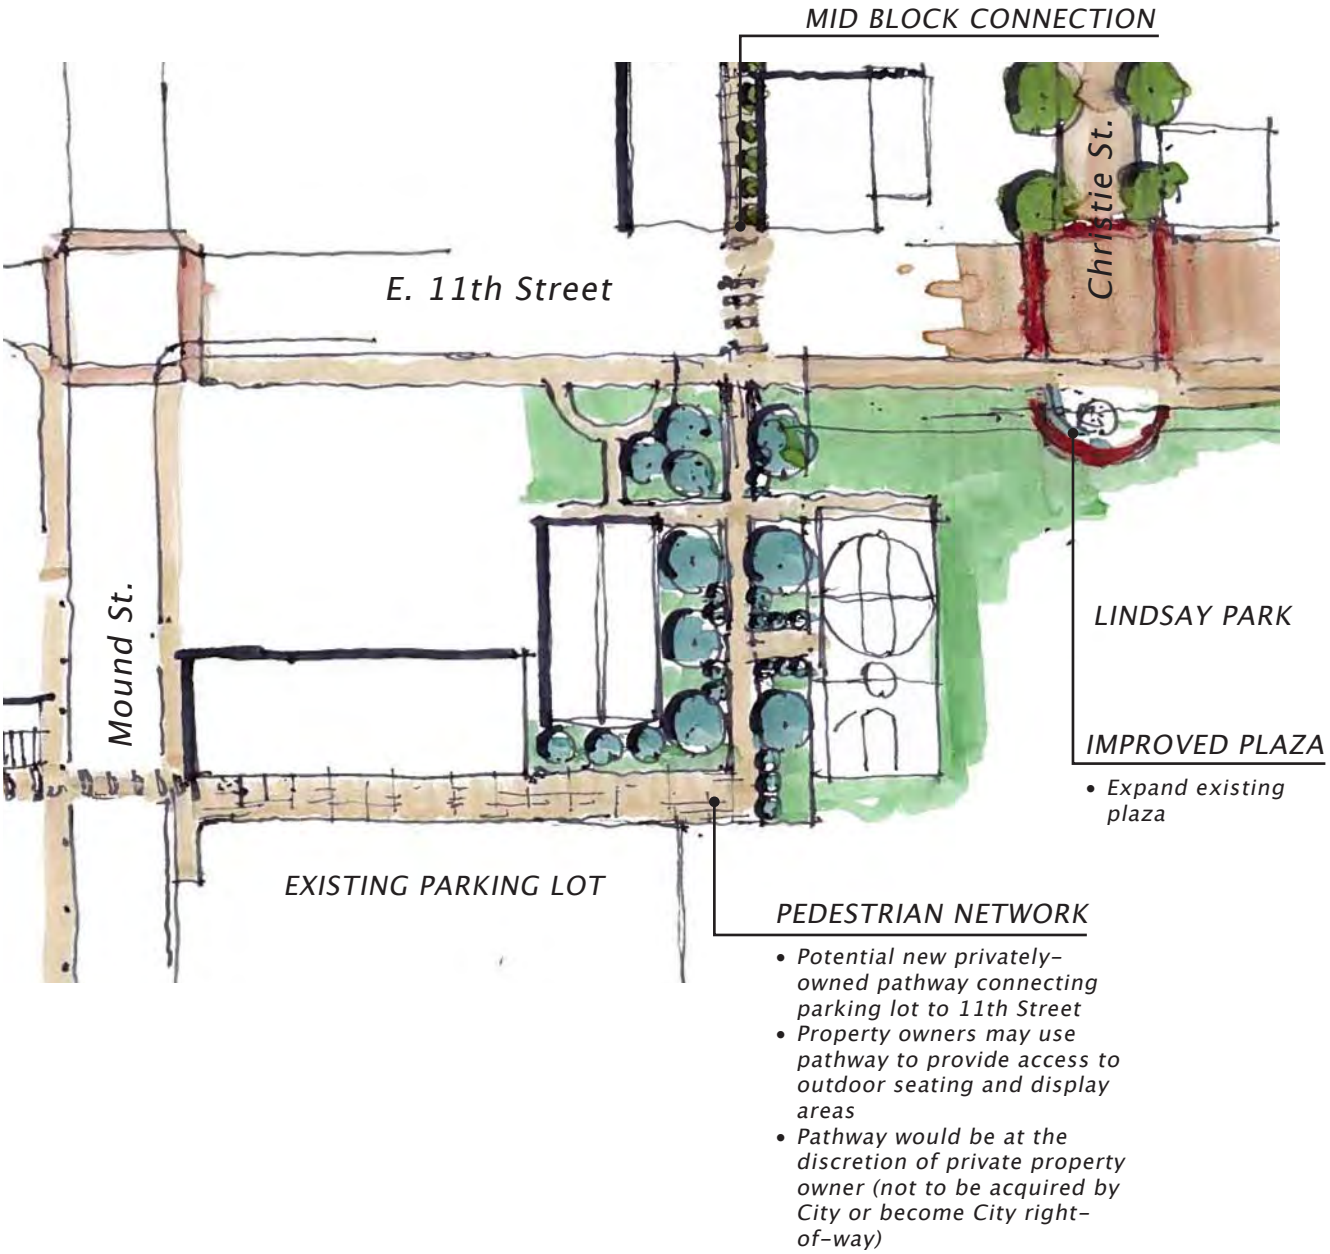
This map reflects park and public space improvements throughout the Village.

Enhance pedestrian routes through the middle section of Lindsay Park.

This includes the walkway that presently leads from East River Drive to 11th Street, and would also include a new walkway, to be developed to connect the parking lot at Mound Street and East River Drive with 11th Street.

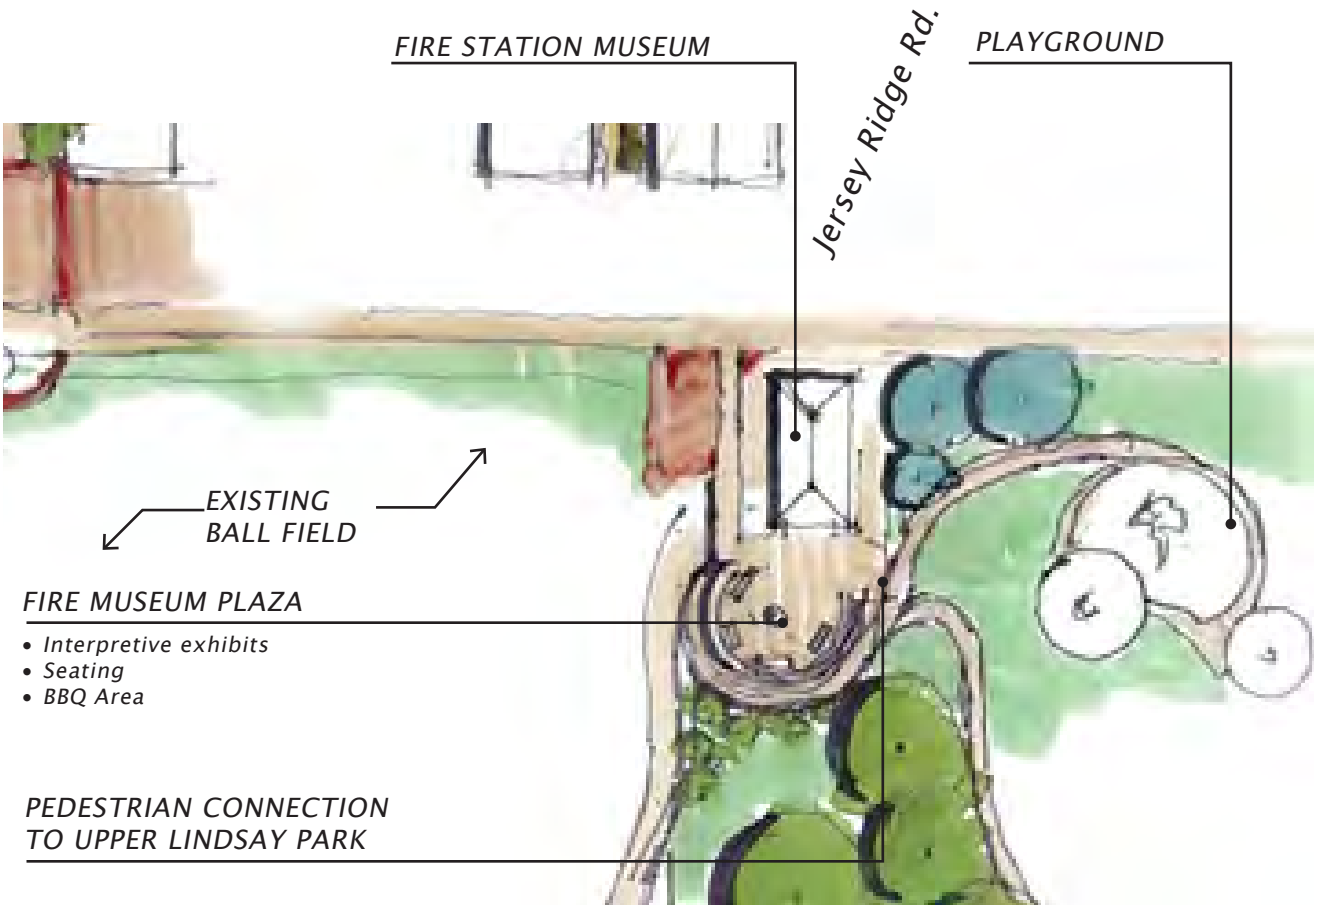
Enhance connectivity along the west end of Lindsey Park.

This includes decorative paving, street trees, and improved plaza and the potential for a new privately-owned pathway connecting to Mound Street as illustrated below.



Provide an outdoor heritage interpretation site at the Firemen's Museum.

This would include panels that convey the history of the Village of East Davenport. It also would include information about the fire museum, such that viewers can interpret its history, even when it is not open to visitors. It should also be designed to provide a place to view games, the river and conduct BBQ's.

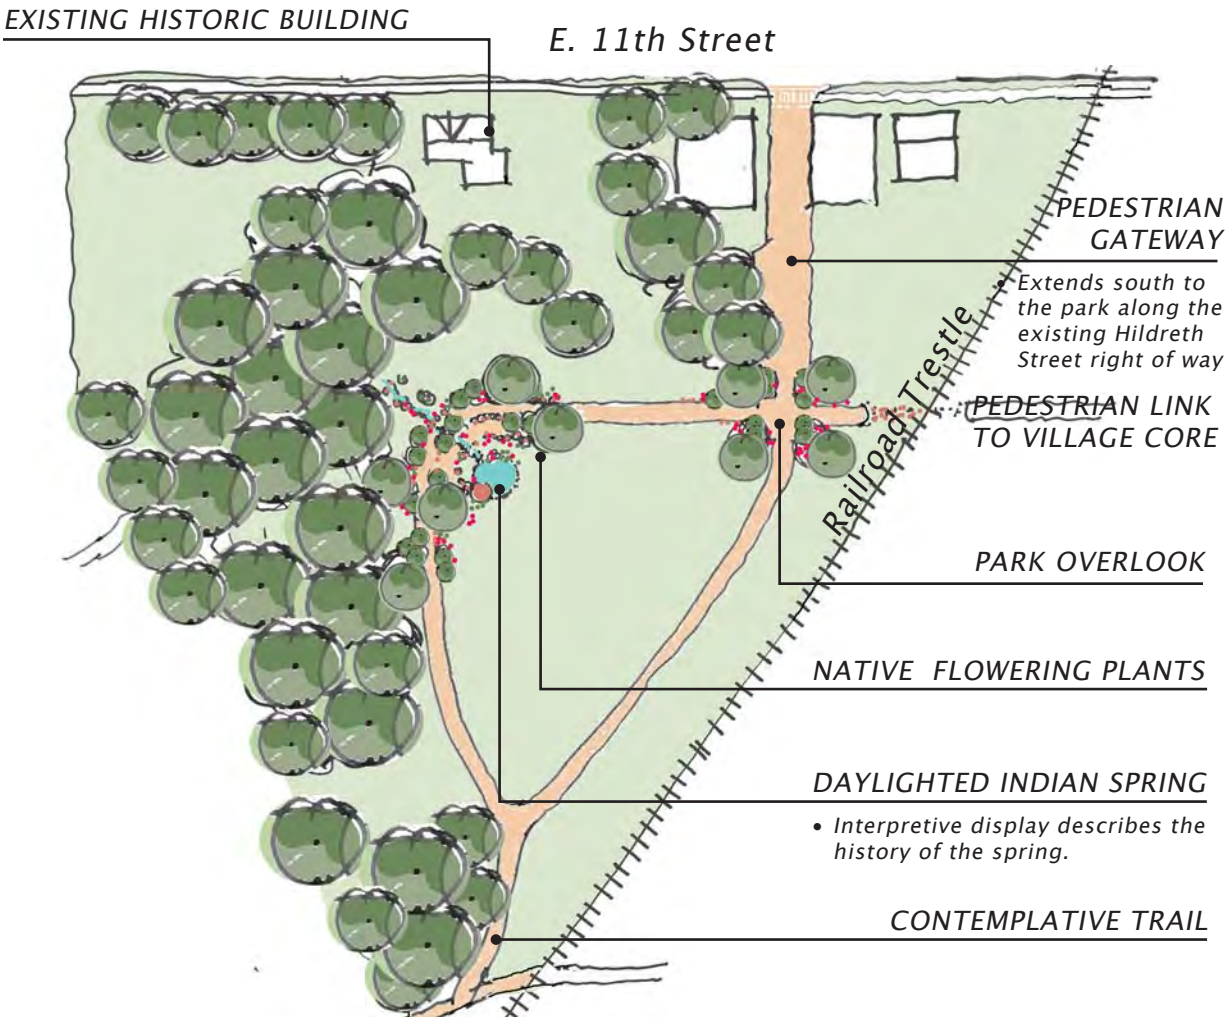


Expand upon existing paths to link upper and lower Lindsay Park.

Incorporate a plaza south of the Fire Station where community events could take place.

Improve Access to Indian Springs Park.

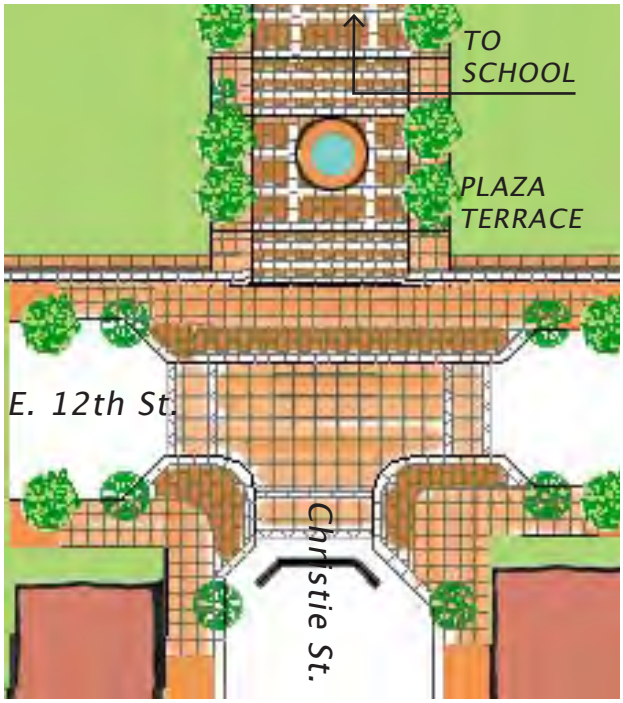
This would include a new pedestrian gateway from East 11th Street, extending south to the park along the existing Hildreth Street right-of-way. The walkway would lead to a park overlook with a smaller path extending down into the park. The existing cover would be removed to "daylight" the spring and provide a park amenity with an interpretive display.



The railroad trestle could provide a visual link from the Village to Indian Springs.

An outdoor amphitheater/garden could also be considered in the future for Indian Springs Park (Berkeley, CA).

The plaza at the base of Pierce School will need to take into consideration the grade change and be terraced to create a "grand" entrance.



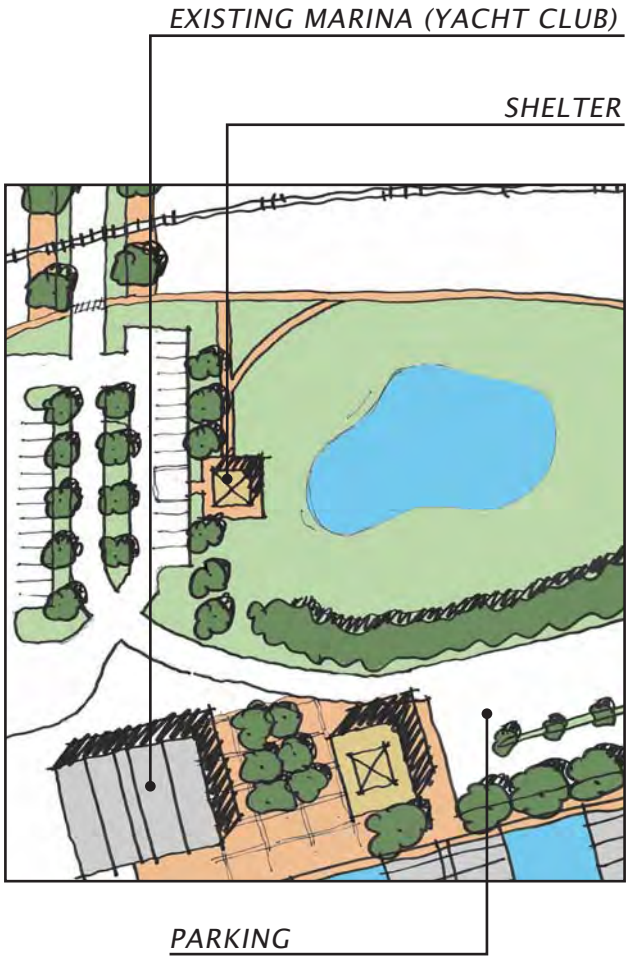
Develop a small plaza at the base of the school.

Develop a small plaza at the base of the school.

This would mirror the one at the southern end of Christie, continuing the same streetscape palette, terminating at the park.

Encourage the provision of small private open spaces.

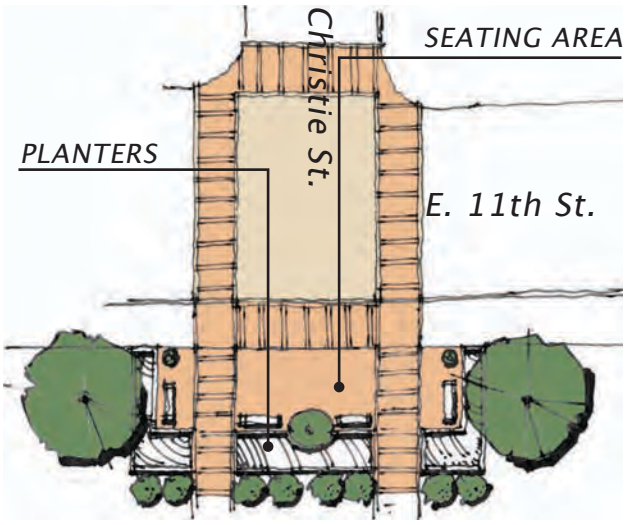
This would contribute to the Village character and contribute to visitor enjoyment with limited private open spaces such as the small private pocket park at the northeast corner of Mound and East 11th Street.



Develop a children's recreation area in the lower portion of Lindsay Park.

This should be designed as a year-round amenity. It could include a shallow pond, which could be used as a toy boat basin in the summer, and an ice rink in the winter.

A small pond and shelter could be operated year round to give children in the Village a new and exciting activity. The shelter could provide a warming device in the winter.



Develop a small staging area at the southern end of Christie Street.

Expand the existing seating area at the southern end of Christie Street to provide space for small festivals and events.

Develop a small staging area at the southern end of Christie Street.

This would be an expansion of the existing seating area to allow for small festivals and events. It would also provide a key visual element looking up from East River Drive toward the Pierce School.

Upgrade the Softball Field.

This could occur in conjunction with development of the small staging area, and would include refinement of the base layout as well as a potential retrofit with green wood bleachers and dugouts, and an old style scoreboard.

Develop a shelter for the water taxi.

A water taxi shelter designed using the Village streetscape palette would convey a sense that visitors have arrived in the Village. The shelter could also support events in Lower Lindsay Park.

A water taxi shelter designed using the Village streetscape palette would convey a sense that visitors have arrived in the Village.

4.2 Heritage Resources

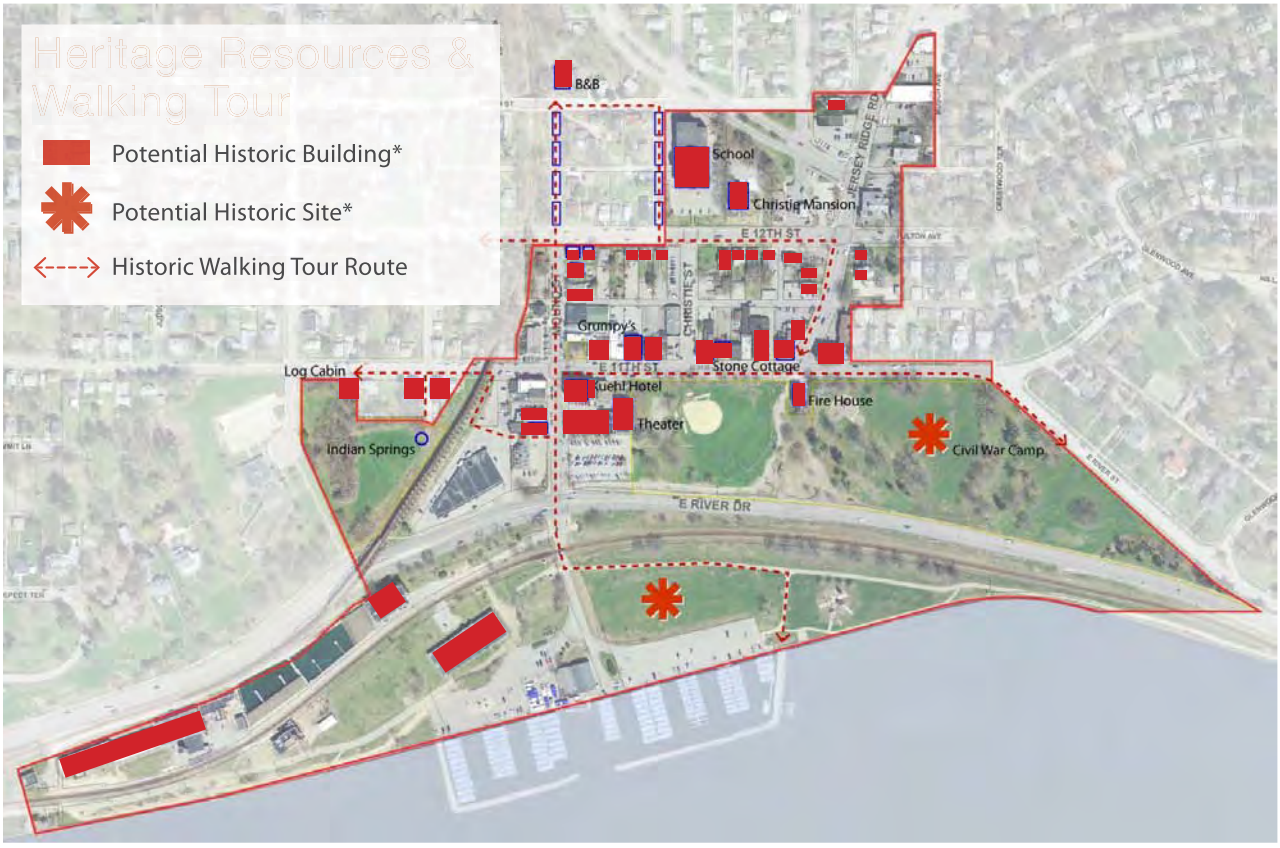
The Village of East Davenport contains a wide range of properties associated with its history. Some are standing structures that convey their historic character while others are remnants of earlier structures, and still others are simply sites associated with historical events. Each of these has the potential of playing a role in heritage tourism, and in serving as touchstones in the urban environment for the area's residents. In order to do so, those historical associations must be conveyed to the public.

Key strategies to protect and promote the Village's heritage resources are described in the following pages.

Historic Properties

The Village's historic properties range from noteworthy landmarks to sites and buildings that contribute to the general historic context.

The map below provides an initial indication of the potential for promoting heritage tourism in the Village. The identified properties merit consideration for rehabilitation and preservation as part of a heritage tourism strategy. Some properties not identified on the map may have associations with noteworthy persons or events. Other properties that appear to retain sufficient integrity may be found not to do so, upon closer inspection.



**The properties identified on the map appear to be at least 50 years old and may have historic significance based on informal information collected from community workshop participants, as well as a field inspection of integrity (degree of original building fabric) by the consultants. It provides an informal "windshield survey" of potential significance but should not be considered as a substitute for a formal historic survey.*

Preservation incentives could help bring new life into historic resources throughout the Village.

ADA Accessibility

The American's with Disabilities Act (ADA) provides some flexibility for meeting the requirements for accessibility for buildings that are officially listed as having historic significance. This may include using an alternative entrance, or providing other means of accessing goods and services that may be offered inside. Installing a ramp to a rear or side entrance, rather than in front, is an example that has sometimes been used. Depending upon the use of the building, access may only be needed to the ground floor. Owners should consult the law for specific guidance.

Historic Demolition

Historic buildings should be preserved to the maximum extent feasible. However, there may be times when a building cannot be preserved. In some cases, a building may be so deteriorated that it will have lost its historic significance. In other cases, it may be in violation of life safety codes and cannot reasonable be mitigated. Other, in other cases, preserving the building may be an economic hardship. In preservation ordinances, "economic hardship" is a specific legal term, and criteria are provided for proving that condition.

Establish a local Landmark District.

Consider establishing a local landmark district for some or all of the Village to help preserve significant buildings that contribute to local character. While some buildings may be considered more important, because they appear as more prominent structures or have distinctive designs, even the more modest buildings help tell a part of the story of the Village.

Develop historic preservation design guidelines.

The City should consider initiating a project to develop citywide historic preservation guidelines and/or context-specific historic preservation guidelines for the Village. Preservation guidelines could also be included in updated general design guidelines as described in "Design Review" on page 64.

Promote incentives for preservation of historic resources.

The City should consider expedited review and approval of projects that include preservation of historic resources. For such projects, the City should also offer additional flexibility in meeting zoning standards. When considering assistance, the SSMID may also give priority to projects that follow adopted guidelines for rehabilitation.

In addition, the City and SSMID should promote the Federal Preservation Tax Incentives Program available to properties voluntarily designated on the National Register of Historic Places, as well as other tax credits available for historic properties that are not designated.

The City may also consider establishing new sales, property or other tax incentive programs that promote rehabilitation of heritage resources in areas of special character, such as the Village.

Consider creating a non-profit preservation advocacy organization.

Consider facilitating the creation of a non-profit organization to advocate for preservation of historic resources throughout Davenport. Friends of Historic Preservation in Iowa City may provide a model for such an organization.

Promote heritage tourism through a Heritage Interpretation Plan.

Promoting local heritage is a key part of the economic development strategy for the Village of East Davenport. While there are many sites and events that have historical importance, the Village is not yet ready to aggressively market its history. This will require coordinated development of information, but also restoration of key historical resources in the area.

A Heritage Interpretation Plan would help determine the best combination of interpretive tools to promote heritage tourism in the Village. At a minimum, it would identify key properties and sites to be highlighted in heritage recognition programs, as well as sites and buildings that may have been lost through demolition. This could include historical site markers, guided tours and events that celebrate the community's history.

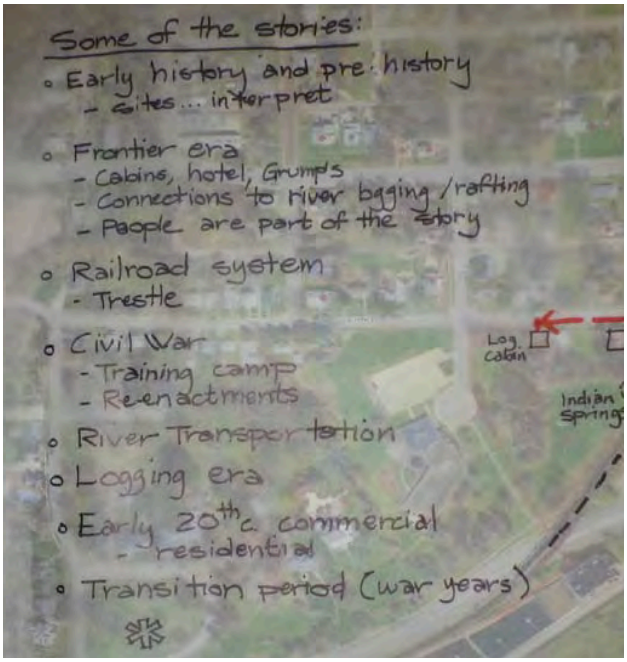
An Interpretation Plan is a cost-effective way to make the best use of the diverse range of heritage resources that exist in the Village to build a sense of community identity and promote economic development. City staff, the SSMID, and other interested parties could use it to coordinate actions and programs related to heritage interpretation in the Village of East Davenport.

Finally, the Interpretation Plan should include an implementation strategy, which identifies a timeline and provides recommendations for funding and administration of the program.

Upper Lindsay Park was used as a parade ground for training Union soldiers stationed at Camp McClellan and Lindsay Park ball field was perhaps the first ball field west of the Mississippi.

Implementing a Heritage Interpretation Plan

Developing a Heritage Interpretation Plan will involve an organized process that provides opportunities for various heritage and preservation advocates to participate, in conjunction with residents and business owners in the area. This would include an evaluation of the character and quality of resources and "stories" to be told. As the plan is developed, recommendations for new survey work may emerge, as well as suggestions for how to improve properties to make them more presentable to the public. The interpretation plan may also consider the benefits of establishing a citywide private, non-profit preservation advocacy organization.



Ideas for historic interpretation from a community workshop

Interpretive signage helps tell the story of a place (Richmond, CA).

There are recognized methodologies for developing a Heritage Interpretation Plan. Questions to be addressed include:

- **What is the story to be told?** There are several themes in the Village of East Davenport's history, and each may be a chapter in the overall "story." The Interpretation Plan will establish which themes to feature.
- **Which are the resources that tell the story?** Each of the properties that have the potential to be included in an interpretive experience should be evaluated for their condition and significance and their ability to convey a part of the community's history. Those that are in the best condition, and that have compelling stories, should be highlighted in heritage tours.
- **What is the quality of the experience?** The location of the interpretive sites, and their general setting will influence the quality of the heritage experience and should be evaluated. Simply noting sites of historic significance is not enough. The experience must be memorable and of high quality.
- **Which interpretation tools will be most effective?** With the analysis of the sites in the context of the story to be told, the plan should then develop a strategy for employing the appropriate tools. This would include mapping the sites as well as determining the media to be used to convey their history.
- **Who is the target audience?** While tourists are a general group to consider, there are sub-groups that should be more clearly identified. Those who tour Civil War era camps are examples of one user group. Others include residents of the region who combine heritage sites with other recreational and cultural activities.

Develop a historic site markers program.

As a Heritage Interpretation Plan is developed, the City may proceed with implementation of some specific interpretation tools, including a site markers program to recognize individual buildings and sites of cultural and historic significance. A plaque or other site marker may be installed to recognize significant properties, help to build a sense of pride and promote heritage tourism.

A simple technique is to mount a marker at a site to convey the property's history. While similar to an interpretive marker, landmark plaques generally have less information, because the primary objective is simply to indicate the significance of the site.

Conventional interpretive markers are usually low-maintenance metal. They should share a consistent design palette with interpretive signage throughout the Village.

Plaques, signage and other site markers may be joined by other interpretation tools, including statuary.

Grumpy's Saloon (pictured prior to a 2013 restoration project) is a candidate for a historic site marker.

Printed and Electronic Tour Guides

An Interpretation Plan should consider the use of both print and electronic media to help explain local heritage.

Traditional print tour guides may be tailored to specific historical themes, or may accompany recreation walks and driving tours. These could be available at various locations around town, and may be downloadable from the Internet.

Interpretive information may also be delivered in the field via smart phones. This can include recorded messages and photographs. Information may be accessed at specific sites, where a QR code or other address is displayed. Already, national companies are providing phone tour services. They simply need the content to include in their systems. Other communities have developed their own web sites, with links to smart phones.

The "Heritage Resources & Walking Tour" map on page 57 illustrates possible walking tour routes that could be promoted through print and electronic media.

Interpretive signage helps tell the story of a place (Breckenridge, CO)

Native Americans and African Americans in the Village

A Heritage Interpretation Plan should consider the relationship of Village sites to earlier Native American settlement as well as the role of African Americans in the history and development of the area. Site markers or interpretive displays may help raise awareness of the participation of diverse groups in building the present-day Village.

Establish interpretive displays.

A special structure may be constructed to contain a series of exhibit materials. It could contain display panels as well as electronic media with interactive capabilities. The interpretive plaza proposed to be installed adjacent to the Fire Museum is an example.

A Heritage Interpretation Plan would provide additional guidance regarding the development of interpretive displays.

Consider historic building museums.

For a historic building museum, the exterior and interior of a building is restored to a specific period in time, and is open to the public for interpretation. Period furnishings may be included, and informational displays help to convey the property's history. The Fire Museum is an example.

Hose Station No. 4 is a distinctive historic landmark that anchors the eastern edge of the Village core.

5.0 BUILDING DESIGN & LAND USE

Appropriate building design in the Village is important in order to retain the character of the area and promote the community vision for the Village of East Davenport as a regional tourist destination and attractive neighborhood center.

This chapter describes the land use regulations that shape development in the Village and provides principles and guidelines for building design.

5.1 Land Use Regulations

The City's existing land use and zoning standards help shape development in the Village. They regulate permitted uses as well as site and building characteristics such as parking, height and setbacks. In many cases, existing land use and zoning standards are consistent with the community's vision for the Village. However, some adjustments may be necessary to better direct future development.

The Village core is zoned as Historic Shopping District (HSD), which is intended to:

- Preserve and enhance the smaller scale or historic character of older commercial areas.
- Stabilize and increase property values by discouraging incompatible development.
- Preserve unique historic and architectural character by controlling the design and scale of infill construction.
- Encourage heritage tourism.

Permitted Uses

Uses permitted in the HSD district include

- Multifamily residential
- Live/work units
- Bed and Breakfast establishments and small inns
- Bars and taverns
- Restaurants
- Stores and retail establishments of various kinds
- Professional services
- Salons and health spas

A number of uses are specifically excluded, including automobile dealerships, drive through sales and liquor stores (excluding wine shops). In addition, bars and taverns may not occupy more than 35% of each block face.

Additional uses that are not specifically listed as permitted in the HSD district may be appropriate to promote the community's vision. They include:

- Boutique hotels
- Grocery stores (gourmet and health food stores are currently permitted)

Design Standards

In most cases, the design standards that shape the development of sites and buildings in the Village are contextual. That is, they vary according to the surrounding context to help ensure compatible height, setbacks and width. Overall building heights may not, however, exceed three stories or 45 feet.

The existing design standards in the HSD district are generally consistent with the community's vision for the Village. In some cases, however, additional clarification or illustrations could be helpful. Additionally, it may sometimes be appropriate to allow building elements that are taller than three stories as part of larger developments that are not adjacent to lower scale neighborhoods or historic resources.

Design Review

New buildings, and exterior modifications, signs or additions are reviewed by a design review committee using adopted performance standards and design guidelines.

The design guidelines should be updated to more clearly articulate the community's vision for the Village, including mixed-use Village character, context-sensitive design guidance for specific subareas and appropriate historic rehabilitation. The general guidelines provided in this chapter provide a foundation for such an update.

5.2 Preserving a Sense of History

An urban village has layers of history. Historic buildings and sites should be preserved to contribute to the character of the street. Some will have compatible additions that reflect an evolution in uses.

The proper treatment of historic buildings will ensure that they continue to contribute to the historic ambiance of the Village. With careful treatment, the existing historic resources will continue to promote the unique atmosphere that makes the Village an inviting place to visit.

Guidelines:

- Preserve significant stylistic and architectural features and materials.
- Repair deteriorated building features.
- Replace an architectural element accurately if it must be replaced, matching the material and design.
- Avoid adding details that were not a part of the original building.

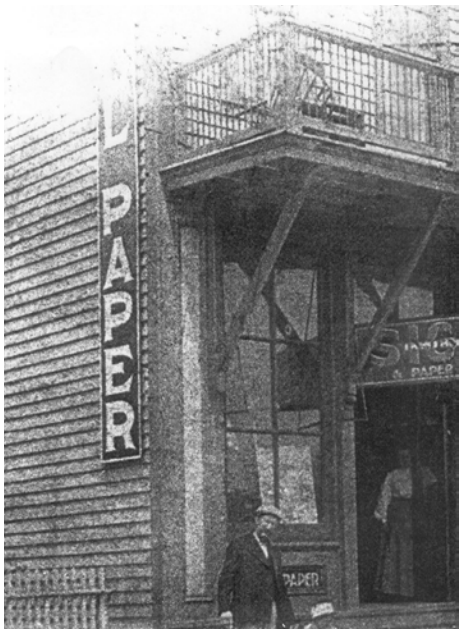
See “Heritage Resources” on page 57 for more information.

An urban village has layers of history. Historic buildings and sites should be preserved to contribute to the character of the street.

Potential Infill Standards

Although preservation of the Village’s historic buildings is a priority, it may sometimes be necessary to demolish an older building to make way for new development that is consistent with the community vision for the Village. The City should require an approved design for new development, or consider a demolition delay to provide time for consideration of other options, prior to issuing a demolition permit. The City should also consider design standards for new infill development to:

- Encourage high quality design and materials in new infill development
- Discourage parking areas located between buildings and the street
- Discourage parking as a primary use (properties use exclusively to provide parking)



A historic image shows the storefront and balcony in a similar configuration as it looks today.

Rehabilitation Opportunities

Preserve significant stylistic and architectural features and materials.

Guidelines:

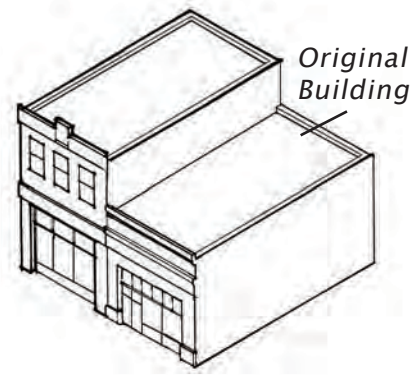
- Do not use synthetic materials, such as aluminum, vinyl or panelized brick/ stone as replacement for primary building materials.
- Do not cover original materials with new materials.
- Consider removing later covering materials that have not achieved historic significance.

The rehabilitation of this building is expected to be completed in 2013.

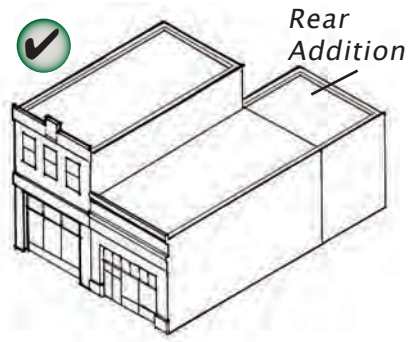
Locating a Commercial Addition

An addition to a historic building may be located to the rear or to the side or roof as illustrated below.

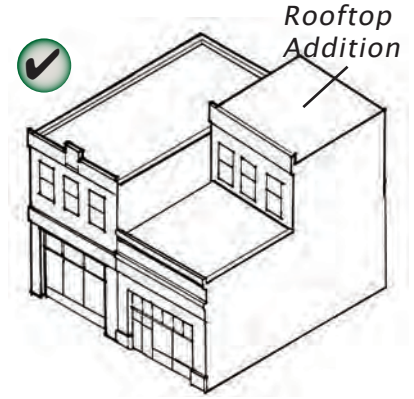
Original Building



New Addition to the Rear



New Addition to the Side and Roof Addition



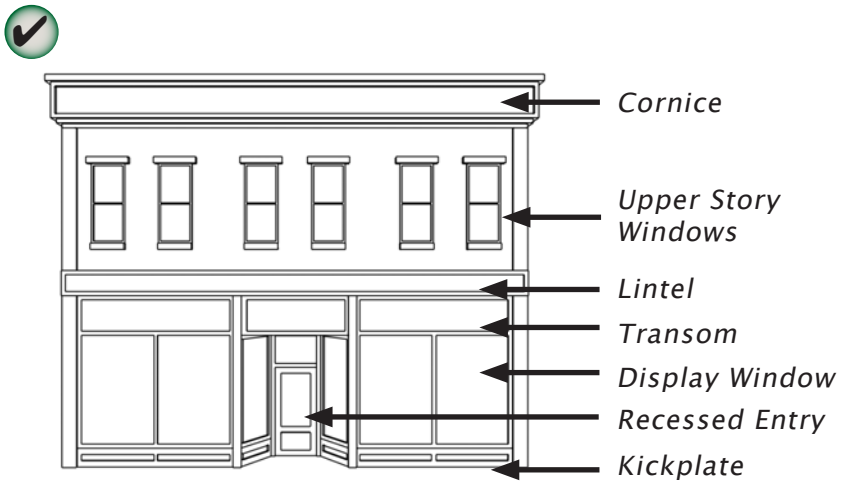
Guidelines:

- Preserve the position, proportion, and arrangement of historic windows and doors on a primary facade.

Special consideration should be given to the important historic elements of specific building types including historic commercial storefronts and residential buildings.

- Preserve the character-defining features of a historic commercial storefront. Typical features include the storefront itself as well as features on the upper stories of the building as illustrated below.

Character-Defining Elements of a Historic Commercial Storefront



Treatment of an Altered Historic Commercial Facade

The guidelines in this *Historic Commercial Properties* section discuss a range of treatment options for commercial facades, including reconstruction and replacement. When applied to a building that is already altered, which would be the best approach? The diagram below outlines the treatments to consider in making that decision. Treatment 1 is always the first priority.

Altered Historic Commercial Facade

Treatment 1: Reconstruct

When should I use this treatment?

- The building is highly significant.
- There is good historical information about the design.
- The needed materials and craftsmen are available.
- The context has many intact historic buildings.

Treatment 2: Simplified Interpretation

When should I use this treatment?

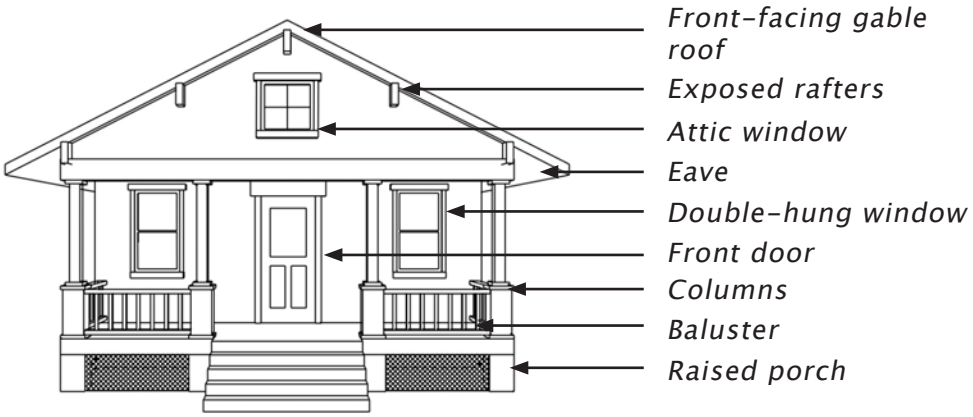
- The building is a contributor to a district.
- There is less historical information available about the original design.

Treatment 3: Contemporary Interpretation

When should I use this treatment?

- There is substantial alteration, making "Treatment 1" difficult.
- There is less historic information about the original design.
- The context has more variety.

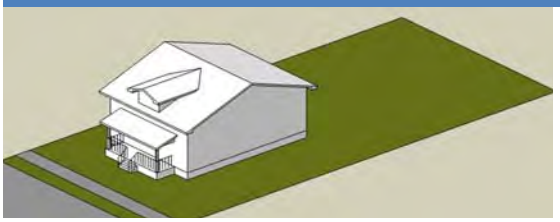
Character-Defining Elements of a Residential Facade



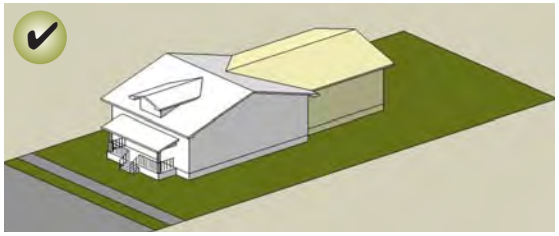
Guideline:

- Preserve the character-defining features of historic residential buildings. The typical features include the front porch, building form and materials.

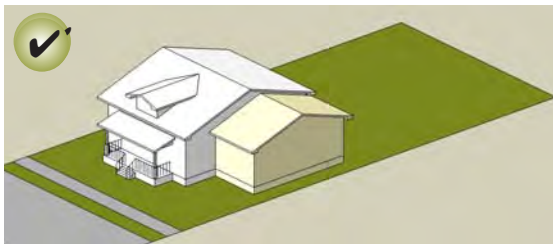
Designing A Residential Addition to a Historic Building



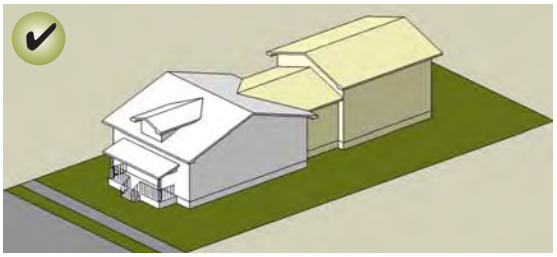
Original building One-and-a-half stories



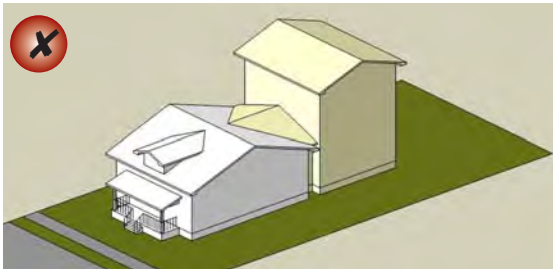
One story attached addition
Addition is set back behind the original building.

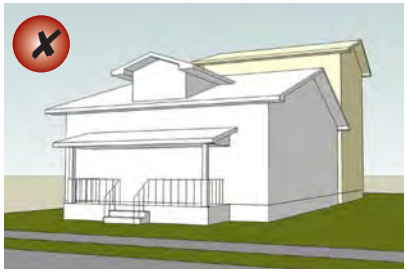


One story attached addition
Addition is set to the side of the original building.

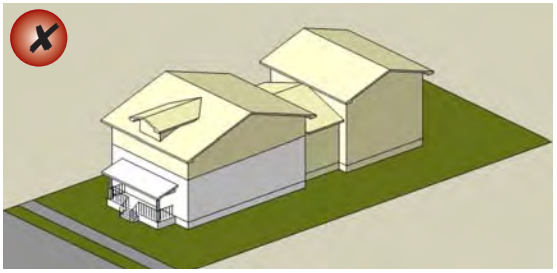


One-and-a-half story addition with connector
Addition is set back behind the original and accessed by a connector.





Two-and-a-half story addition with connector
Addition is set back behind the original and accessed by a connector.



Two story roof-top addition
Addition is set back behind the original and accessed by a connector.

Incorporate traditional building components such as a storefront into the design of a new building (Boulder, CO).

5.3 New Construction

Things to See

Storefronts that create a browsing environment, with goods and activities to see in windows, invite walking.

Guidelines:

- Consider incorporating contemporary interpretations of traditional (1920's Commercial Style) designs and details into a new building. For example, new storefronts can create interest while expressing new compatible design.
- Incorporate traditional building components into the design of a new storefront or porch feature.

Incorporate traditional building components such as a base, middle and cap into the design of a new building (Boulder, CO).

Porches help connect buildings to the street and convey a sense of human scale (Georgetown, TX).

A new building should continue to use a variety of pedestrian-friendly scales and visually appealing masses (Missoula, MT).

A Variety of Building Types

Traditional commercial storefronts are essential ingredients of an urban village, as are conventional residential structures, including those adapted to commercial uses. Porches serve as "connections" to the street and as places for product displays. Storefronts offer views to goods and services inside. Building materials also vary.

Guidelines:

- Design a new building to reflect its time, while respecting key features of its context.

Human Scale Buildings

In the urban village, most buildings range in height from one to three stories, and they are designed to convey a sense of human scale.

Traditionally, commercial buildings had varied heights, articulated masses and visually interesting, pedestrian-scaled street fronts that contribute to a sense of human scale. A new building should continue this tradition of a variety of pedestrian-friendly scales and visually appealing masses. It should not be monolithic in scale or greatly contrast with those seen traditionally in the Village.

Guidelines:

- Maintain the traditional size of buildings as perceived at the street level.
- Establish a sense of human scale.
- Maintain traditional pattern of building widths along the street.
- A new building should incorporate a base, middle and cap.

Gaps in the building wall should incorporate small courtyards or seating areas with landscaping or street furniture.

Orient the primary entrance to the street (Milwaukee, WI).

Unlike a downtown where all buildings align uniformly at the sidewalk edge, an urban village will have more gaps (Le Claire, IA).

Variations in the Street Wall

Unlike a downtown where all buildings align uniformly at the sidewalk edge, an urban village will have more gaps. These spaces are designed to be used and should include plants and landscape structures.

Guidelines:

- Maintain the diverse building and open space pattern that occurs along the street.

Building Entrances Oriented to Pedestrian Ways

Storefronts that face the street and invite walking are key features, as are shops that open onto alleys and internal paths. Residences with stoops and porches that signal connection to the street also contribute to the urban village character.

Guidelines:

- Maintain the traditional orientation of a building to the street.
- Enhance building entries oriented to the alley between East 11th and 12th streets. See “Village Lane” on page 36 for more information on alley improvements.

Use high quality, durable building materials, such as masonry brick for commercial buildings (Boulder, CO).

High Quality in All Things

Finally, an urban village conveys a high level of quality, in terms of the goods and services provided, the buildings and infrastructure and in the experiences that villagers encounter.

Guidelines:

- Use high quality, durable building materials, such as masonry brick for commercial buildings and wood lap siding for smaller residential type buildings.
- Window and door openings as well as trims should be similar in profile to traditional openings.
- Synthetic material is generally inappropriate.

6.0 OPPORTUNITY SITES

A number of redevelopment opportunities exist throughout the Village of East Davenport. These include existing buildings that are suitable for rehabilitation, adaptive reuse and compatible new additions, as well as vacant or underdeveloped properties that are suitable new construction.

This chapter describes redevelopment opportunities on several sites throughout the Village, as indicated on the map below. They illustrate the principles described in the previous chapters and promote the community vision for the Village as a regional tourist destination and neighborhood center. The sites reflect one level of investment that may occur, which would be influenced by market conditions, ownership patterns and assistance programs that may become available over time.

Many of the concepts described in this chapter emerged in a public workshop in which participants noted sites with special opportunities for improvements. They are not formal proposals for specific projects, but instead demonstrate general development opportunities. The concepts will evolve over time and alternatives should always be considered. Some opportunity sites illustrate development across several properties. This would occur with "willing seller" arrangements, or perhaps, in joint venture developments. No forced sale or redevelopment is suggested.

**This diagram illustrates one possible concept for future redevelopment. It does not represent a formal proposal and property owner participation would be voluntary.*

SITE 1

This site lies at the corner of Jersey Ridge and Middle Roads. As such, it is a key gateway into the Village, as one approaches from the north. Rehabilitating the existing building, which potentially has historic significance, should be a priority. There is also opportunity for an addition to the southern edge, which would extend the line of storefronts along the sidewalk. Parking could be incorporated with access from the rear.

Improvements could include:

- Retail and/or service commercial at the street level
- Offices or residential on a second floor
- Parking incorporated into the building, behind retail

A building design concept that reflects a residential building style with a commercial storefront would be appropriate on this parcel as well as others within the Village (Boulder, CO).

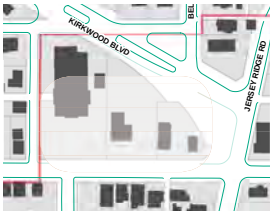
SITE 2

This site, which is located at the intersection of Jersey Ridge and Kirkwood Boulevard, presently has a one-story building that is set back from the street edge. It could accommodate a two-story mixed-use building, which could be positioned at the sidewalk edge, with parking to the side and the rear. This would help to frame this intersection with storefronts and encourage more pedestrian activity.

Improvements could include:

- Retail and/or service commercial at the street level
- Offices or residential on a second floor
- Parking incorporated into the building, behind retail, or as surface parking in the rear

Retail and/or service commercial at the street level that provides a pedestrian-friendly street frontage is appropriate. Note the articulation in the front facade and protected porch-like entry. These features help to break up the scale of the facade (Boulder, CO).



SITE 3

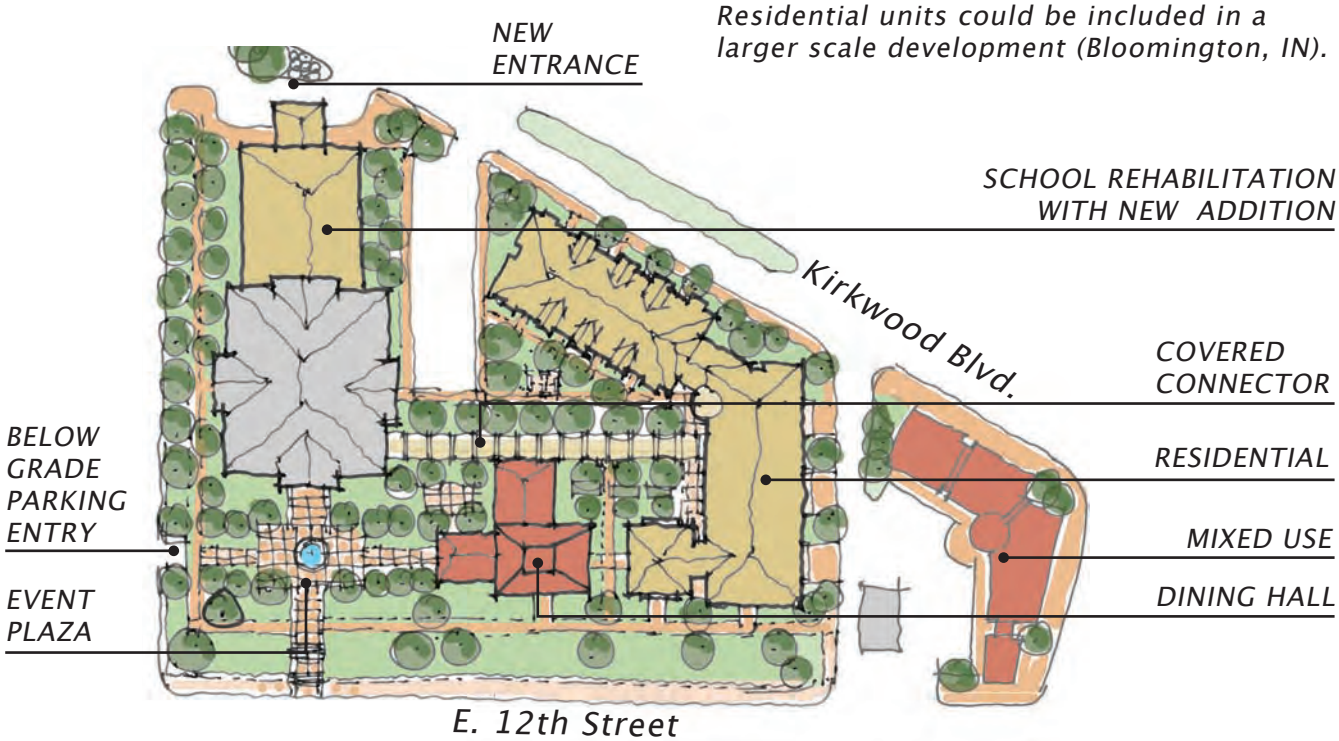
The former Pierce School is the highlight of this site, which spans between 12th Street and Kirkwood Boulevard. It sits well above the center of the Village, and is an important symbol for the community. Rehabilitation should focus on preserving the historic significance of the property. Note that sketch concepts for this property include the existing service station just west of the intersection of East 12th Street and Jersey Ridge Road. Options for the service station site are described in more detail on page 78.

Improvements could include:

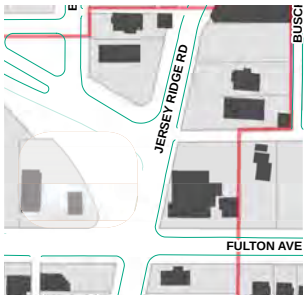
- Residential, or professional offices
- Landscaped surface parking accessed from Kirkwood
- Improved stair and sidewalk connection to the Village core

Rehabilitation should focus on preserving the historic significance of the Pierce School property.

Residential units could be included in a larger scale development (Bloomington, IN).



This potential long term development concept includes assembly of several parcels into a large upscale residential development. Although this concept locates parking below grade, alternative concepts could include a surface parking lot behind the existing service station on the east side of the site as illustrated in the sketch concepts for Site 4 on page 78.



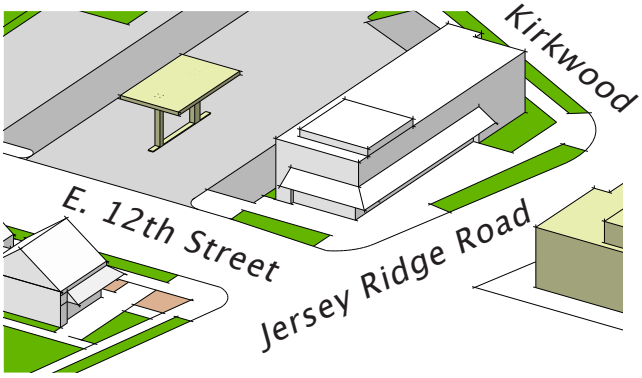
SITE 4

This site, at the southwest corner of the intersection of Jersey Ridge Road and Kirkwood Boulevard, includes two parcels. One is a public parking lot at the street edge; the other is an active service station. Site improvements should focus on bringing development to the corner of Jersey Ridge and Kirkwood to extend the active pedestrian environment north and help serve as a gateway into the Village.

Options include reversing the uses to locate the service station building at the corner with pumps and parking to the rear. This site could also accommodate surface parking areas for development associated with Site 3 as illustrated below.

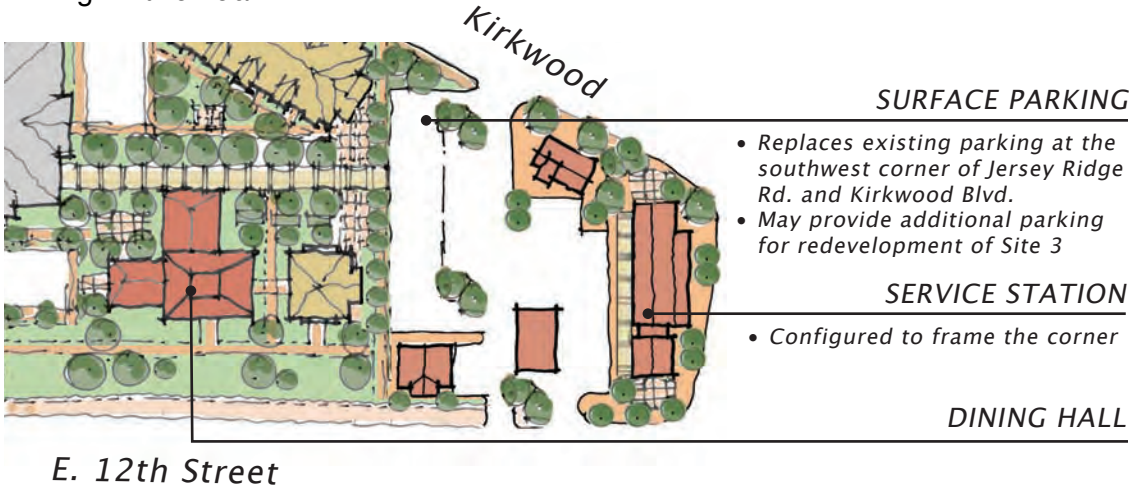
Improvements could include:

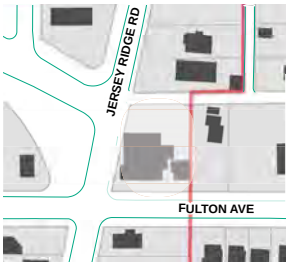
- Retail and/or service commercial at the street level of a new corner building
- Offices or residential on a potential second floor of a new corner building
- Parking incorporated into the building, behind retail, or as surface parking in the rear



Options include reversing the uses to locate the service station building at the corner with pumps and parking to the rear.

Alternative service station configurations with pumps to the side or rear can help frame the street and promote an active pedestrian environment (Boulder, CO).





SITE 5

This site is located at the northeast corner of Jersey Ridge Road and Fulton Avenue. An older residential structure, wrapped with a newer addition, occupies this site. Parking is located at the northern edge. This meets multifamily residential needs, but could be improved to enhance the street edge, and could possibly include some service commercial in a subordinate level of use. One option would be to restore the original house, and construct a compatible addition to the north, with parking at the ground level. Another approach could be to renovate the existing apartment fronts to fit the character of the Village.

Improvements could include:

- Residential or service commercial at the street level
- Residential on upper floors
- Parking incorporated into the building, behind retail, or as a landscaped surface parking lot to the north

The site is currently occupied by an older residential structure that is wrapped with an addition.

Including service commercial uses on the site would enhance the street frontage (Sequim, WA).

SITE 6

This site includes three properties along East 12th Street between Mound and Christie Streets. The properties are occupied by historic cottage structures that are residential in character, although some have been adapted to commercial use. If appropriately rehabilitated, they could contribute to the distinct identity, and stimulate the economic vitality of the Village. Making use of outdoor areas for product display, seating, and dining patios, would enhance their appeal.

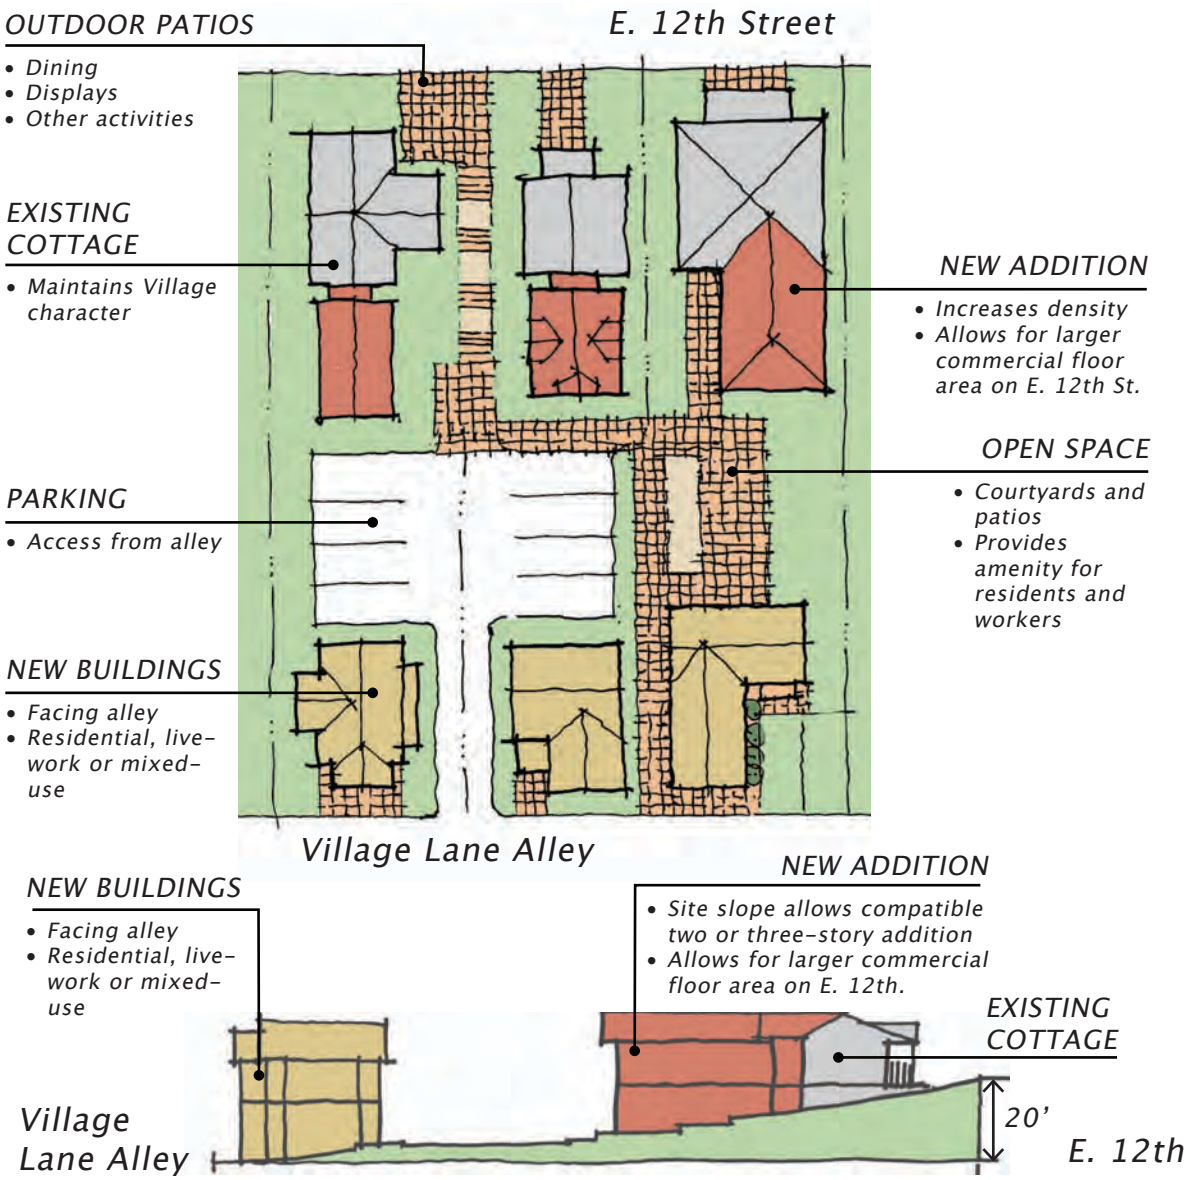
There is room to expand the cottages with rear additions. The area along the alley also provides an opportunity to construct new buildings with residential, mixed-use, or live-work uses to support the Village Lane concept described on page 36.

Improvements could include:

- Retail or service commercial uses at the street level
- Residential or offices on upper floors
- Additions to the rear
- New buildings and parking located at the rear of the properties, along the alley edge

Making use of outdoor areas for product display, seating, and dining patios, would enhance pedestrian appeal (Truckee, CA and Sacramento, CA).

New buildings facing the alley could include residential, live-work or mixed uses (Sacramento, CA).

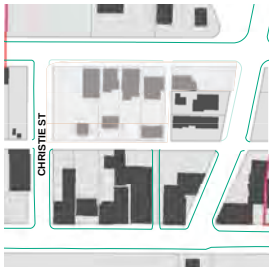


Redeveloping Cottage Properties on East 12th Street

The existing cottage properties along the south side of East 12th Street contribute to the character of the Village and offer opportunities for adaptive reuse, as well as new alley-oriented development.

As illustrated above, a rear addition to an existing cottage structure could expand the usable area and house new mechanical systems, exit stairs and elevators that would enhance the functionality of the building. The existing cottage structures should be preserved to the maximum extent feasible. However, there may be times when replacement development will be appropriate. See "Historic Demolition" on page 58 and "Potential Infill Standards" on page 65 for more information.

An economic evaluation of the development program illustrated on this page indicates that it is financially feasible to complete compatible renovation of the existing cottages (using the Federal 20% Historic Rehabilitation Tax Credit) while adding additional development to the site. With a projected 10%+ return on equity, a primarily rental project appears to be more feasible than a for-sale project.



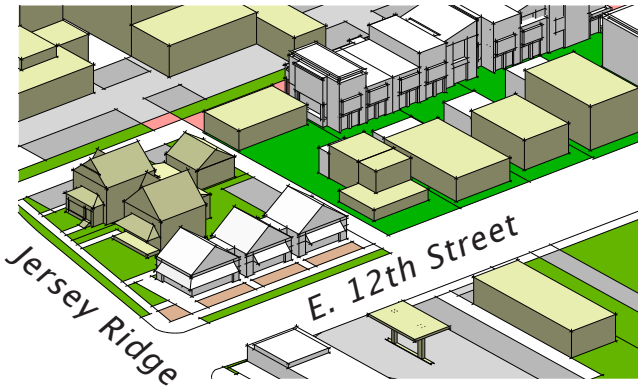
SITE 7

This site includes the residential structures east of Christie Street as well as the vacant properties at the southeast corner of East 12th and Christie Streets and the southwest corner of East 12th Street and Jersey Ridge Road. It provides opportunities to merge commercial and residential architecture into Village-scaled projects.

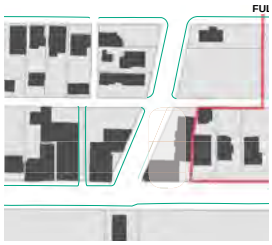
Improvements could include:

- Retail, office or service commercial at the street level and residential or offices on upper floors
- New buildings at the corner of East 12th and Christie Streets as well as East 12th and Jersey Ridge Road
- New live/work town home units along the alley

New infill development with a residential character is appropriate to promote a pedestrian-oriented village atmosphere (Simsbury, CT and Boulder, CO).



New development at the southwestern corner of East 12th Street and Jersey Ridge Road would help extend pedestrian activity north of the Village core.



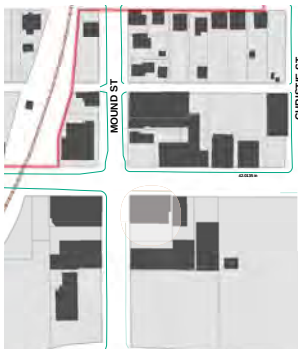
SITE 8

This site, at the northeast corner of East 11th Street and Jersey Ridge Road, is a historic building that has a non-contributing covering. It offers an opportunity for appropriate historic rehabilitation to help establish the corner as a landmark location.

Improvements could include:

- Appropriate historic rehabilitation
- Retail or service commercial at the street level
- Residential or offices on upper floors
- Parking (with additional landscaping) along the northern edge

The historic building at the northeast corner of 11th Street and Jersey Ridge Road was once a retail store (top). The historic facade is now covered (bottom), but there may be an opportunity for appropriate historic rehabilitation to help establish the corner as a landmark location.



SITE 9

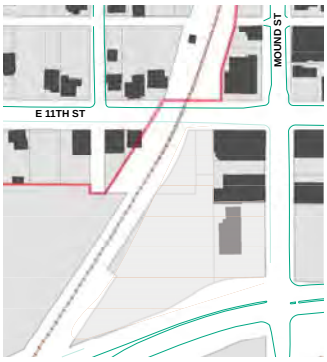
This is the site of the historic Kuehl Hotel, at the southeast corner of East 11th and Mound Streets. While the building has experienced alterations over time, its scale, rising to three stories, establishes it as a landmark and a key anchor to both of these important streets. It offers an opportunity for an appropriate historic rehabilitation. Development program options include restoring it as an elder hostel or boutique hotel with a new modest addition to the south. It could include a bistro at the ground level, or be developed as a mixed use project with retail at the street level and professional offices or residential uses above.

Improvements could include:

- Retail or service commercial at the street level
- Residential or offices on upper floors
- Small addition to the south. This could be a contemporary design to complement the historic structure.

The scale of the former Kuehl Hotel establishes it as a landmark and key anchor at the corner of East 11th and Mound Streets.

A contemporary addition to the south of the historic building, would be an appropriate design approach. Materials should be of high quality (Ann Arbor, MI).



SITE 10

This is a key site along East River Drive. It may include only the vacant area just east of the railroad trestle, or could include the adjoining bank parcel to the east to provide greater flexibility and help define a storefront line to the corner of Mound Street and East River Drive.

The site's broad exposure to traffic means that it will substantially define the character of the Village for many who pass by. As such, defining the street edge with active uses should be a fundamental principle. Because this site is larger than most in the Village, it may be able to accommodate up to three stories, with potential four story elements or rooftop patios with good views of the Village and river.

Improvements could include:

- Retail and service commercial at the street level
- Residential or offices on upper floors
- Parking (with additional landscaping) to the rear

A development scenario that incorporates only the vacant site just east of the railroad trestle is illustrated on the next page. Additional alternatives that incorporate the bank site, as well as the surface parking lot just across Mound Street (Site 11) are illustrated in subsequent pages.

The site may be large enough to accommodate a moderately-sized destination grocery store (Hillsboro, OR).

Defining the street edge with active uses should be a fundamental principle (Boulder, CO).

SITE 10 ALTERNATIVE

Mixed use with structured parking

SITE 11

This site is the public parking lot at the corner of Mound Street and East River Drive. While it serves an important function for the Village, the surface lot leaves a "soft" edge at a key corner. A range of options could be considered for this site. First, simply improving the edges with more intensive landscaping and improved signage would be beneficial. More ambitious programs would include a small commercial building to anchor the corner, while retaining a substantial amount of surface parking. In time, even a more intensive option may be feasible, that would include a second level parking deck with a retail wrap along the outside edge.

Improvements could include:

- Landscaping of existing parking
- Retail (one story) at the corner
- A future parking deck with commercial wrap

A parking deck with a retail wrap along the outside edge could be a long-term future option for the northeast corner of Mound Street and East River Drive (Boulder, CO).

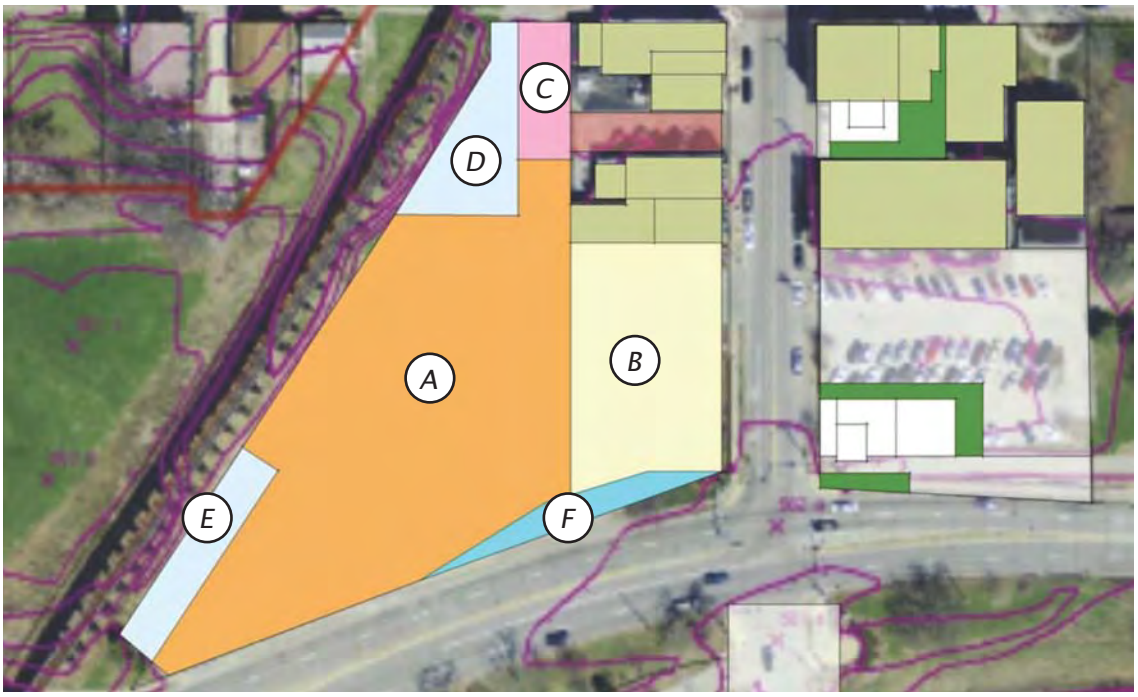
Improving the edges of a surface parking lot with intensive landscaping or other treatments can minimize visual impacts (Lexington, KY and Oakland, CA).

SITE 10 & 11 ALTERNATIVE 1

Site 10: 10,000 SF Market with Residential Above & Townhomes
Site 11: Mixed use

SITE 10 & 11
ALTERNATIVE 1 (CONTINUED)

This alternative includes new mixed-use development at the corner of East River Drive and Mound Street. Note that the three-dimensional models shown in this plan are intended to illustrate general building massing rather than specific architectural styles.



Approximate Site Acreage

A	49,000 SF	D	49,000 SF
B	15,900 SF	E	4,300 SF
C	3,300 SF	F	2,700 SF

SITE 10 & 11 ALTERNATIVE 2

Site 10: Mixed use with Residential Above, Drive-through bank, Townhomes
Site 11: 18,000 SF Upscale Market with structured parking above

BOUTIQUE HOTEL AND ADDITION

- Ground floor New Lobby addition with upscale Restaurant/ Grill

EXISTING RAILROAD TRESTLE

- Elevated
- Provides views/connection to Indian Springs

PEDESTRIAN NETWORK

- Connect to Indian Springs and adjacent neighborhoods

UPSCALE MARKET MIXED USE

- Ground floor 18,000 SF Market
- Structured parking above

DRIVE-THROUGH BANK

- Shared access drive

TOWNHOUSE UNITS

MIXED USE

- 10,000 SF Market
- Apartments Upper Floors

PEDESTRIAN NETWORK

- Potential new privately-owned plaza and pathway
- Plaza and pathway would be at the discretion of private property owner (not to be acquired by City or become City right-of-way)

SITE 10 & 11 ALTERNATIVE 3

Site 10: 20,000 SF Upscale Market with underground parking and Drive-through Bank
Site 11: Mixed use

BOUTIQUE HOTEL AND ADDITION

- *Ground floor New Lobby addition with upscale Restaurant/ Grill*

EXISTING RAILROAD TRESTLE

- *Elevated*
- *Provides views/connection to Indian Springs*

PEDESTRIAN NETWORK

- *Connect to Indian Springs and adjacent neighborhoods*

NEW MIXED USE

- *Ground floor commercial*
- *Upper floors residential*

DRIVE-THROUGH BANK

UPSCALE MARKET MIXED USE

- *20,000 SF Market*
- *Apartments Upper Floors*
- *Partial Underground Parking*

PEDESTRIAN NETWORK

- *Potential new privately-owned plaza and pathway*
- *Plaza and pathway would be at the discretion of private property owner (not to be acquired by City or become City right-of-way)*

SITE 12

This site consists of a variety of parcels. One is occupied by the yacht club building, while another is the landing for the water taxi. In between lies a large expanse of parking. There is an opportunity to expand the complex of buildings at the yacht club to potentially include a commercial use that would orient to Mound Street. At the other end, the opportunity exists to construct a shelter for patrons of the water taxi. This could also include some commercial use, perhaps seasonal in nature, which would serve river travelers as well as those using the trail system. Adding landscaping to the parking lot would make it more attractive to use as a supplement to parking in the Village core.

Improvements could include:

- Service pavilions related to trail and water activities
- Landscaped parking at or above grade
- Enhanced promenade
- Boulevard entry

View from water looking down boulevard.

Event plaza and shelter terminates the boulevard.

Pedestrian promenade along the yacht club.

Covered seating could enhance the area for pedestrians (Dubuque, Iowa).

View from water looking to shelter.

Decorative paving enhances event areas (Dubuque, Iowa).

Waterfront Overview.

Redevelopment of opportunity sites would promote the community vision for the Village as a regional tourist destination and neighborhood center. Note that the three-dimensional models shown in this plan are intended to illustrate general building massing rather than specific architectural styles.

7.0 IMPLEMENTATION PLAN

Realizing the vision for an exciting and active urban village that is both a regional tourist destination and a service center for neighborhood residents will require at least a decade of concerted effort by both public and private participants. Key players will include property owners and developers, the SSMID, other public agencies and the City of Davenport.

This chapter provides a strategy for implementing the recommendations contained in the *Village of East Davenport Master Plan*. It is important to recognize that, while the plan suggests specific projects for selected sites, a number of factors will determine if those projects can be executed as suggested. It is likely that several projects will occur differently, and even in other locations. Some flexibility in the implementation of the specific recommendations therefore should be anticipated.

In this light, individual projects can be modified as specific development opportunities arise. The primary goal is to ensure that property owners and developers uphold the fundamental goals and policies contained in the plan. Maintaining the vision of the overall "framework" of the plan while remaining flexible about specific plan details is the core objective.

The intent is to implement the plan through a variety of means. Public capital investments will be used for street and streetscape improvements and to leverage private investments. Design guidelines will provide guidance for new construction and for rehabilitation of existing structures.

If acquisition of any private land, buildings or other facilities is needed to implement a specific project, it would be on a basis of "willing buyer, willing seller" arrangement.

7.1 A Bilateral Approach

Specific project concepts are illustrated for selected sites in the plan. These should serve as starting points for implementation. While they are highly recommended concepts, it is important to acknowledge that the plan can also accommodate flexibility, and therefore, variations on these illustrative sketches should be expected.

Many projects illustrated in the plan represent public investments that could serve as catalysts to attract private investment. As a result, many of these projects are recommended for early implementation. In some cases, a private sector project may come forward that meets the intent of the plan, but is earlier than anticipated. To the extent feasible, the public sector should adjust its spending priorities to help support such private development.

The community should use a "bilateral" approach for implementing the plan: It should be both proactive in leading efforts to implement the plan as described, and it also should be responsive, and react to new opportunities and changing conditions as they arise in the private sector.

A bilateral approach also implies that both the public and private sectors must share in the responsibilities of implementation, including funding. While the City of Davenport is a key financial player, it is essential that Village property owners and businesses also fund parts of the plan. In many cases, this will be an individual property owner investing in their land. But, it will also be important for the City and the SSMID to help support some projects with coordinated investment. This may include participating in some streetscape enhancement programs, pocket parks, and parking landscaping. There are tools described later in this section that may be used for this purpose.

The community should use the Implementation Matrix presented in this chapter, which provides a schedule for specific public projects, as a guide in establishing work program priorities. It also will help private property owners place their improvement projects in the context of potential public investment that may occur in the area. At the same time, the City and the SSMID should be poised to modify strategies to respond to projects that may be proposed by private developers.

7.2 Key Funding Tools

These financing mechanisms should be explored for funding improvements:

Capital Improvement Program

Each year, the City may allocate a portion of its General Fund toward implementation of public-sector improvements. Work in the right-of-way and parks improvements are examples.

It is best suited for projects that can be completed within a single year or that can be phased without a multi-year commitment. For example, a limited portion of sidewalks may be constructed each year, or a fixed number of street furnishings may be acquired annually. These funds are well suited for improvements that benefit the community at large.

This tool is especially useful for projects that must move quickly. It does require establishing some projects within the annual CIP plan. These funds could be used as a contribution to larger projects, such as the construction of parking facilities, when joint ventured with private development or a not-for-profit organization.

General Obligation Bonds

These are funded by a property tax assessment with income used to retire the bonds. They are generally used for larger projects such as major parks, construction of a performance space, or as an alternative funding source for a parking structure.

Grants

Some key grants may be awarded by federal, state and local agencies for public improvements that fit within the guidelines of specific programs. Others may come from private foundations, typically for smaller projects.

Historic Preservation Tax Incentives

The Federal Preservation Tax Incentives Program provides a 20% income tax credit for the rehabilitation of income-producing properties voluntarily designated on the National Register of Historic Places. A 10% income tax credit may be available for non-designated historic properties.

This program, and potential future local incentive programs, will assist with private redevelopment projects that include historic resources.

Private Investment

The greatest source of investment will be the private sector. Private investment will be encouraged by adoption of the plan and will be further stimulated by regulatory and financial incentives that may be available from time to time.

Residential Enterprise Zone Program

This mechanism can be used to stimulate private investment in multifamily housing. Two tax incentives are offered: One provides a 5% refund of state sales, service or use taxes that are paid during construction. The second provides an investment tax credit up to 10% of the qualifying investment. This tax credit can be used over a seven year period or can be sold.

Riverboat Development Authority (RDA)

The RDA is a non-profit organization mandated by state law to sponsor riverboat gambling. It has contributed millions of dollars in grants in the Quad-cities region. Grants may go to support riverfront development, tourism, economic development and neighborhood development. It also can be used for arts, culture and heritage programs.

Self Supported Municipal Improvement District (SSMID)

In this mechanism, property owners within a defined area assess themselves to finance improvements that will benefit everyone in the area. Construction bonds may be issued based on the income stream projected from the assessment. This tool enables construction of improvements that can benefit a broad area.

The SSMID can be used to:

- Construct expanded streetscape enhancements
- Install public information signs and gateway improvements
- Enhance surface lots
- Support construction of structured parking that can be used by the community

Small Business Loan Program (SBLP)

This program provides 0% interest loans to assist eligible persons in establishing a new small business. It is targeted toward low to moderate income business starts, and to supporting businesses that serve low and moderate income neighborhoods, or employ persons of low to moderate income. This is a useful tool in attracting a wider range of businesses types into the Village. In order to promote the use of this program in the area, the City may help to pre-qualify interested entrepreneurs and guide them through the process. The SBLP may be used to help new businesses start up in the Village.

Special Revenue Funds

Special Revenue Funds account for the proceeds of revenue sources that are legally restricted to expenditure for a specific purpose.

Special Revenue Funds may be used:

- To finance special public improvement projects, generally one-time expenditures for public art, pocket parks and plazas
- As an alternative mechanism for public information signs and gateway enhancements

Tax Increment Financing (TIF)

A TIF district assigns some or all of the increased tax revenues that result from improvements to a specific area into a fund that may be used to pay for those improvements. Tax rates are not increased.

The TIF tool may be used for:

- Pedestrian way improvements
- Alley improvements
- Mini-park development
- Waterfront improvements

Urban Revitalization Tax Exemption (URTE)

The URTE program encourages private investment in targeted areas of the city by providing an exemption on the increase in property taxes resulting from improvements to residential or commercial projects. To promote the program, the City may help to pre-qualify interested property owners and guide them through the process. This may apply to existing property owners or be used as a tool to attract new investors into the area.

The URTE may be used to support:

- Private investment in residential projects
- Private investment in commercial projects

7.3 Setting Priorities for Implementation

Prioritization Process and Criteria

Recommendations for prioritization of improvements appear in a matrix in this chapter. However, prioritization should be considered to be dynamic and should be revised, when necessary, in response to plans and projects by other agencies and individuals that may present opportunities to combine efforts and maximize benefits.

In general, the community should set a high priority on an improvement when it can help support private development that is consistent with the vision and economic development goals of the Village.

However, there will still be times when decision-makers need to reassess the priority of a recommended action or one of the tasks necessary to implement it. When this occurs, the City should use the following criteria. Projects that meet several of the criteria should be given the highest priority for near-term implementation.

The following criteria will be applied in creating the Implementation Prioritization Matrix.

Financing Criteria

1. The project will generate funds to cover portions of development costs. (For example, resulting uses will generate rental income or sales tax revenues.)

2. The project will leverage investment from other sources. (For example, property owners will finance a portion of sidewalk construction costs through an assessment program (SSMID).

3. Grant funds are available to cover portions of development costs.

4. The project fits within a larger capital improvement project, such that cost savings will be realized. (For example, sidewalks could be constructed when a street is to be repaved.)

5. Funding for maintenance of the improvement is available. (This is an important consideration for streetscape, gateways and parks improvements.)

Location Criteria

6. The project will have high public visibility.

Ownership and Project Control Criteria

7. The project is under the appropriate ownership or control.

8. The project ownership or control can be acquired with reasonable effort.

Public Benefits Criteria

9. The project will provide a direct benefit to local residents.

10. The project will serve multiple users or interest groups. (For example, an outdoor plaza that may be used by local residents as well as visitors and that may be used for civic celebrations.)

Relationship to Other Projects

11. The project will connect to existing public improvements. (For example, extension of an existing sidewalk into adjoining blocks.)

12. The project will enhance existing improvements and will not cause other desired improvements to become obsolete.

13. The project provides opportunities to connect with other future public improvements.

14. The project will function well upon its completion and later phases of construction are not required for this phase to perform adequately.

Compliance with Community Plans and Administration

15. The project will help to accomplish broader goals of the community.

16. The project fits within work plans of Village organizations and City staff.

17. Adequate administrative oversight is available for the project.

7.4 Prioritization Categories

Based on consideration of the criteria described above, priorities for implementation are arranged in the following five categories:

- **Priority A.** These are the highest priority projects that should be implemented as soon as possible. Many of these are items that must be set in place before other later projects can be accomplished. (Generally scheduled for years 1-2 of implementation.)
- **Priority B.** These are also of high priority, but usually require additional groundwork to accomplish, and therefore completion is expected to take longer. In some cases, a project designated Priority A must be implemented first. (Generally scheduled for years 2-4 of implementation.)
- **Priority C.** These are projects that require extensive groundwork, fundraising and coordination with other groups. (Generally scheduled for years 3-5 of implementation.)
- **Priority D.** These are often very complex projects and require that a strong market be established first. They also include later phases of special projects that may have been initiated in early stages. (Generally scheduled for years 5-10 of implementation.)
- **Priority E.** These are long-range projects, final phases of staged improvements, and more complex undertakings. Some are feasible only when market conditions are in place to support them. (Generally scheduled for years 10-15 of implementation.)

The categories are based primarily on the length of time it takes to plan for, fund and construct projects. Some projects may be high community priorities but appear in later categories here because they will take significant time to accomplish.

7.5 Implementation Matrix

The following matrix summarizes the key projects recommended in the Village Plan, indicates the lead agencies that should pilot the project, suggests financing sources and indicates relative timing. The Matrix serves as a starting point for planning execution of these specific improvement activities, but it should be understood that changing conditions and new information or opportunities will affect specific recommendations.

Funding Options

- C: Capital Improvement Program (CIP)
- G: General Obligation Bonds
- P: Private Financing
- R: Riverboat Development Authority (RDA)
- S: Self Supported Municipal Improvement District (SSMID)
- T: Tax Increment Financing District (TIF)

CITY OF DAVENPORT

2006-212

DOCUMENT : 14739

COMMITTEE : Community Development Committee

DEPARTMENT: PLANNING AND LAND USE

CONTACT : KEN OESTREICH

PHONE : 326-6170

ACTION:	**DATE:**
CD	06/01/06

1. JUN 7 2006
2. JUN 7 2006
3. JUN 7 2006

SUBJECT:

ORDINANCE for an amendment to Title 17 of the Davenport Municipal Code entitled "Zoning" by adding a new Chapter 17.27 entitled "HSD" Historic Shopping District for the purpose of preserving and enhancing the small scale or historic character of certain older commercial areas, to stabilize and increase property values by protecting these areas from incompatible development, to preserve the historic and architectural character by controlling the design and scale of infill construction, and to encourage heritage tourism (City of Davenport, petitioner).

RECOMMENDATION:

The City Plan and Zoning Commission recommends that the ordinance be approved.

The Commission vote was unanimous.

BACKGROUND:

Property owners in the Village of East Davenport have petitioned the City of Davenport to create a new commercial zoning classification that is specifically geared to the needs of a historic shopping area.

Currently the zoning in the Village of East Davenport is a combination of "C-1" Neighborhood Shopping District zoning and "C-2" General Commercial District zoning. (There is one property, a parking lot, zoned "R-4" Moderate Density Dwelling District.) The Iowa American Water Company property on the south side of East River Drive is zoned "M-1" Light Industrial. The proposed HSD Historic Shopping District zoning classification does a number of things.

1. The ordinance has a more restrictive list of uses than the "C-1" and "C-2" districts. Uses that did not seem to be appropriate for a historic shopping neighborhood have been eliminated.

BACKGROUND: - continued

2. The district also has a list of uses that are specifically disallowed.

3. The district limits the percentage of every block face and/or block length that can be in uses such as bars, taverns, brew pubs and similar uses to no more than 35% of the block. This restriction is intended to maintain a "critical mass" of retail space allowing the Village to continue to be a retail destination. This is also intended to allow the Village to maintain a "family" type atmosphere.

4. The ordinance controls the design of infill buildings to insure that new construction fits the neighborhood and does not destroy the historic character of the shopping district. The ordinance also requires design review approval for large additions (an increase equal to 50% of the existing building), parking lots and signs.

The proposed district is not a historic district. There will not be any review of renovations to existing structures, either interior or exterior (excepting the review of additions of 50% or greater mentioned above). Design Review as it exists will be performed by the Design Review Committee of the City Plan and Zoning Commission rather than the Historic Preservation Commission. The design review process will be similar to the design review process in the Highway Corridor Overlay District (in terms of procedure).

City of Davenport

APPROVAL NO.	ACTION	DATE
	Community Development	6.1.06

COMMITTEE: Community Development
DEPARTMENT: Community Economic Development
CONTACT: Kenneth Oestreich
PHONE: 326-6170

SUBJECT:
ORDINANCE for an amendment to Title 17 of the Davenport Municipal Code entiteld, "Zoning" by adding a new Chapter 17.27 entitled, "HSD" Historic Shopping District, for the purpose of preserving and enhancing the small scale or historic character of certain older commercial areas, to stabilize and increase property values by protecting these areas from incompatible development, and to preserve the historic and architectural character by controlling the design and scale of infill construction and to encourage heritage tourism (City of Davenport, petitioner).

RECOMMENDATION:
The City Plan and Zoning Commission recommends that the ordinance be approved.

The Commission vote was unanimous.

RELATIONSHIP TO GOALS:

BACKGROUND:
Property owners in the Village of East Davenport have petitioned the City of to create a new commercial zoning classification that is specifically geared to the needs of a historic shopping area.

Currently the zoning in the Village of East Davenport is a combination of "C-1" Neighborhood Shopping District zoning and "C-2" General Commercial District zoning (there is one residential property zoned "R-4" Moderate Density Dwelling District). The Iowa American Water Company on the opposite side of East River Drive is zoned "M-1" Light Industrial.

The proposed HSD Historic Shopping District zoning classification does a number of things.

1. The ordinance has a more restrictive list of uses than the "C-1" and "C-2" districts. Uses that did not seem to be appropriate for a historic shopping neighborhood have been eliminated.

2. The district also has a list of uses that are specifically disallowed.

3. The district limits the percentage of every block face and/or block length that can be in uses such as bars, taverns, brew pubs and similar uses to no more than 35% of the block. This restriction is intended to maintain a "critical mass" of retail space allowing the Village to continue to be a retail distinction. This will also allow the Village to maintain a "family" type atmosphere. Property owners have stated that they have no wish to become like New Orleans' Bourbon Street or the City of Rock Island's "District".

4. The ordinance controls the design of infill buildings to insure that new construction fits the neighborhood and does not destroy the historic character of the shopping district. The ordinance also requires design review approval for large additions (an increase equal to 50% of the existing building), parking lots and signs.

The proposed district is not a historic district. There will not be any review of renovations to existing structures, either interior or exterior (excepting the review of additions of 50% or greater mentioned above). Design Review as it exists will go to the Design Review Committee of the City Plan and Zoning Commission rather than the Historic Preservation Commission. The design review process will be similar to the design review process in the Highway Corridor Overlay District (in terms of procedure).

ORDINANCE NO. 2006-212

ORDINANCE for an amendment to Title 17 of the Davenport Municipal Code entiteld, "Zoning" by adding a new Chapter 17.27 entitled, "HSD" Historic Shopping District, for the purpose of preserving and enhancing the small scale or historic character of certain older commercial areas, to stabilize and increase property values by protecting these areas from incompatible development, and to preserve the historic and architectural character by controlling the design and scale of infill construction and to encourage heritage tourism (City of Davenport, petitioner).

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. That Title 17 of the Davenport Municipal Code is amended by adding a new Chapter 17.27 of the Municipal Code of Davenport Iowa, to read as follows.

CHAPTER 17.27
HSD HISTORIC SHOPPING DISTRICT

Sections:

17.27.010 Intent
17.27.020 Applicability
17.27.030 Use regulations
17.27.040 Height, yard, lot width and area regulations
17.27.050 Infill development design, scale and materials
17.27.060 Off-street parking and loading regulations
17.27.070 Design Review Committee

17.27.010 Intent

This district is intended to preserve and enhance the smaller scale or historic character of certain older commercial areas within the City of Davenport, to stabilize and increase property values by protecting these areas from incompatible development, to preserve the unique historic and architectural character of these commercial areas by controlling the design and scale of infill construction and to encourage heritage tourism.

17.27.020 Applicability

The regulations set forth in this chapter, or set forth elsewhere in this title when referred to in this chapter, are the regulations in the HSD Historic Shopping District.

17.27.030 Use Regulations

1. A building, lot, or tract within the HSD Historic Shop District shall be used only for the following purposes:

A. Any use permitted in the R-5M Medium Density Dwelling District; (In particular residential uses such as condominiums, rowhouses, townhouses and live/work units shall be allowed);
B. Antique Shop;
C. Art Gallery;
D. Art Supply Store;
E. Bakery whose products predominantly are sold at retail on the premises;
F. Bank or credit union (without drive-through windows)
G. Barber shops and beauty parlors;
H. Bed and breakfast home(s), provided the following standards are met:
   1. Only family members residing on the premises, within the principal structure, may operate the business;
   2. A maximum of two guest rooms may be devoted to use by no more than two guest families;
   3. Meals are provided to overnight guests only;
   4. No meetings, receptions or private parties are to be held on the premises for which remuneration is received;
I. Bed and breakfast inn(s) provided the following standards are met;
   1. Family members residing on the premises or outside employees, may operate the business;
   2. A maximum of nine guest rooms may be devoted to the operation of the inn;
   3. Meals may be provided to other than overnight guests, though the inn shall not hold itself out to be a public restaurant;
   4. Meetings, receptions or private parties may be held on the premises, for which renumeration is received;
   5. Off-street parking shall be provided at the rate of two parking spaces for the residence plus one space per guest room or one space for every one hundred square feet of floor area devoted to receptions, meetings or private parties, whichever is greater.
J. Boat club/marina;
K. Business, charitable, finance, professional and consulting office or office buildings (without drive-through windows);
L. Business or commercial school;
M. Catering establishment;
N. Cigar and tobacco shop;
O. Coffee house or shop;

P. Copying and mailing shop;
Q. Day care center(s), or nursery school(s);
   1. That the operator supply the city with copies of the state license and inspection reports;
   2. That no play yard or play structures be located in the required front yard;
R. Delicatessen;
S. Florist shop;
T. Dressmaking or tailor shop;
U. Gourmet food store;
V. Health spa;
W. Hospitals and clinics for animals, but not open kennels or yards where animals are confined or exercised;
X. Interior decorating shop;
Y. Landscaping business and outdoor display area;
Z. Medical or dental clinic;
AA. Newsstand;
BB. Repair shops for household items including clothing and shoes;
CC. Restaurant;
DD. Salesroom and showroom;
EE. Store or shop for the conduct of a retail business, including but not limited to book store; candy store, clothing store, curio and import shop, electronics store; furniture store, garden or plant shop, gift shop, health food store, hobby shop, ice cream shop, jewelry store, music record or DVD store, nature, animal and bird watching store, paint and wallpaper store, pet shop, photography and camera shop, shoe store, sporting goods store, stationery and card shop, toy store and wine shop;
FF. Store for the collection and distribution of laundry and dry cleaning articles, but not for the treatment, cleaning or processing of such article;
GG. Studio of an artist, photographer, sculptor, or musician;
HH. Taverns, brew pubs, beer and wine gardens; (approved by Special Use Permit);
II. Travel agency;
JJ. Other similar and compatible uses as well as accessory buildings, structures, and uses customarily incidental to the above uses.

2. Certain uses are considered incompatible with the intent of the HSD Historic Shopping District and are specifically disallowed. They are:

A. Adult uses including, but not limited to, adult cabaret, adult store, escort agency, nude model studio or adult amusement arcade;
B. Automobile dealership, new;
C. Automobile dealership, used;
D. Automobile filling or service station;
E. Automobile/truck rental or leasing establishment;
F. Check cashing facility, currency exchange, pay-day loan agency;
G. Convenience store;
H. Dancing establishment;
I. Drive up or drive-through sales and services;
J. Equipment rental company with outside storage;

K. Liquor stores or sale of alcoholic beverages for off-premises consumption (other than wine shops);
L. Pawn shop;
M. Public garage;
N. Outdoor storage area or lot (both as a principal or accessory use);
O. Radio, telephone or television towers;
P. Tattoo parlor/body-piercing studio;

3. To maintain a healthy retail shopping district a "critical mass" of retail uses must be maintained. In order to allow that to occur this ordinance shall restrict the percentage of any block face or block length that can be in taverns, bars, brew pubs, beer and wine gardens or similar uses to no more than 35%. If the existing percentage of a block face or block length in said uses exceeds 35%, additional establishments of this nature shall not be allowed. Similarly, if the existing percentage of a block face or block length in said uses is under 35%, new establishments shall not be allowed if their addition will result in uses of this nature exceeding 35%. If the existing taverns, bars, brew pubs, beer and wine gardens and similar uses on a block face or block length exceed 35% at the time of the passage of this ordinance those uses may continue without restriction. Should the total drop below 35% by a change in use, however, the 35% restriction shall apply. These restrictions by block face and block length shall not limit the percentage of an individual lot that can be devoted to such uses and shall not restrict building additions or the addition of outside service areas.

17.27.040 Height, yard, lot-width and area regulations

The height, yard, lot width and area regulations in the HSD Historic Shopping District zone shall be contextual. Contextual zoning regulates the height and bulk of new buildings, their setback from the street line, and their width along the street frontage, to conform with the existing character of the neighborhood or district. In no case, however, shall the maximum height be greater than three stories or 45 feet. Also no side yard shall be required for any use other than dwellings (which require a five-foot side yard) except on the side of a lot adjoining an R District in which case a side yard of not less than five feet shall be provided. Similarly, no rear yard shall be required except on the rear of a lot adjoining an R District, in which case a rear yard of not less than 25-feet shall be provided. (Lots separated by a city street shall not be considered adjoining).

17.27.050 Infill development design, scale, and materials

The design, scale and materials of new infill structures are important if the character of the historic shopping district is to be maintained. For this reason the Design Review Committee of the City Plan and Zoning Commission shall review the design of all new infill construction to insure that any new structure is compatible with the architecture of the historic shopping district. Similarly, whenever a building existing prior to the effective date of this title is enlarged to the extent of fifty percent or more in floor area the design of said addition shall also be reviewed and approved by the Design Review Committee (or City Council in the case of an appeal) prior to the issuance of building permits. Finally, the Committee shall review the design and location of any new parking lot to ensure that the lot does not negatively impact the

Historic Shopping District. Parking lots located behind structures are to be preferred to those with street frontages (unless located on the perimeter of the district).

Specifically, the Committee shall examine:

A. Height
Buildings in traditional commercial district share a similar height. Infill construction shall respect this;

B. Width
The infill building shall reflect the characteristic rhythm of the facades along the street;

C. Proportion
The characteristic proportion (the relationship between height and width) of existing facades shall be respected;

D. Relationship to the street
The setback of the new building shall be consistent with that of its neighboring buildings;

E. Roof and cornice forms
The form of the roof and building cornice shall be similar to those on adjacent structures;

F. Composition
The composition of the infill façade (that is the organization of its parts) should be similar to that of surrounding facades;

G. Rhythm
Rhythms that carry throughout the block (such as window spacing) shall be incorporated into any new façade;

H. Proportions of openings
The size and proportion of window and door openings shall be similar to those found on surrounding buildings;

I. Materials
An infill façade shall be composed of materials that complement adjacent facades.

These requirements regarding design and scale (in new construction) shall be weighed as strongly as use in determining the appropriateness of a particular development and whether it may be established within the district. While a small scale hardware store or pharmacy will likely be compatible a "big box" or large suburban style store selling similar products will not. The "foot print" of any new structure shall be reasonable compatible in scale with the district's existing buildings. (This is not intended to preclude additions to existing structures).

In addition, the "formula" architecture common to national chain stores shall not be approved. All new construction designs shall meet the specific district's unique architectural character.

Design requirements for infill construction and signage, within the HSD Historic Shopping District is further described in the district's "Performance Standards and Design Guidelines,"

17.27.060 Off-street parking and loading regulations

The off-street parking and loading requirements within the "HSD" Historic Shopping District shall be as required in Chapter 17.44. The Zoning Board of Adjustment shall have the power to reduce or waive parking requirements by special exception in the event that the Board agrees that requiring the full parking provision negatively impacts the character of the shopping district (through the demolition of historic properties, etc.) as per Section 17.52.050 E.

17.27.070 Design Review Committee

Prior to the issuance of a building permit for the construction of a new building, structure, or sign, the plans shall be reviewed and approved by a Design Review Committee of the City Plan and Zoning Commission, established as herein provided, to ensure that the building, structure, or sign complies with the performance standards and guidelines established in, and pursuant to, Section 17.27.040.

A. Exceptions
   1. Renovations to existing principal structures and accessory structures thereto are not subject to review with the exception of additions and/or enlargements that increase the size of a building existing prior to effective date of this ordinance by fifty percent or more;
   2. Exempted signs, as enumerated in Section 17.45.025 of the Zoning Ordinance;
   3. Temporary signs, which are in compliance with the regulations enumerated Section 17.45.050 of the Zoning Ordinance;

B. Procedure
   1. Prior to the preparation of final architectural drawings and prior to the issuance of any building permit for any proposal, the applicant shall submit the following information and materials;
      a. The completed application form;
      b. A dimensioned site plan, including the locations of any proposed or existing buildings on the subject parcel and on surrounding parcels, if the buildings are within one hundred (100) feet of the subject parcel;
      c. A verifiable legal description, or a land survey, where deemed necessary by the development official;
      d. A map showing the existing topography of the subject parcel and the topography of other properties at two (2) foot contour intervals, extending one hundred (100 feet from the subject parcel;
      e. A preliminary grading plan showing before and after grades at two (2) foot contour intervals.
      f. A landscape plan (although the authority of staff to approve site plans under Section 17.56 of the Zoning Ordinance remains in effect);
      g. Elevation drawings, in color and drawn to scale, on the front, sides, rear, and roof lines of all proposed buildings or structures, illustrating the appearance and treatment of required screening elements for roof-mounted equipment. Outdoor storage areas that are part of any submittal shall be reflected in the elevation drawings submitted and shall show their relationship to the building elevations as well as the material and treatment proposed that would accurately reflect the

screening of the storage areas. A second set of elevations (not colored) shall be submitted on 8 1/2X11, or 11X17 inch paper;

h. Samples of each type of exterior building materials, including the color;

i. Samples of the materials, including the color, along with scaled, accurately-colored elevations, of any proposed sign and/or sign package.

The City Council delegates authority to City staff's development official to waive, at his or her discretion, any of the required submissions stated in Section 17.27.070 B, a-i, if the scale of the project, topography of the site, or other reasons make them unnecessary.

2. Notification about application.

City staff shall inform the owner(s) of record of the date, time and location of the Committee meeting at which the application will be considered.

City staff shall also post the Committee's agenda on the first floor city hall bulletin board used for such purposes no less than one business day prior to the scheduled time of the meeting.

3. Design Guidelines.

The Design Guidelines are intended to aid the members of the Design Review Committee in their review of Certificates of Design Approval.

The Committee shall also consider the proposed height, proportions, scale and relationship with surrounding structures as discussed in the Design Guidelines.

4. Design Review Committee Meeting.

The Committee shall review a completed application for a certificate of design approval to determine if the proposed activity complies with the applicable Design Standards. The Committee shall review the materials submitted by the applicant with the certificate of design approval and consider any testimony by the petitioner. The Committee shall also consider the Committee staff review of the project's design and compliance with the applicable design guidelines. The public may also comment on the project's design.

The Committee shall accept, review and/or request additional evidence and testimony from the applicant during the meeting. The Committee shall work closely with the applicant and recognize the importance of finding an appropriate way to meet the current needs of the applicant. In addition, the Committee shall recognize the importance of approving plans that will be reasonable for the applicant to carry out. The applicant may modify his/her plans as a result of the discussions with the Committee and resubmit them for approval. Petitions brought before the Committee shall be considered in a timely manner. The Committee shall not continue any application more than three regularly scheduled consecutive meetings unless the applicant requests additional continuances. If the continuances are based on the petitioner's failure to provide required information, the Committee may make a decision on the information available, or it may return the petition to the party submitting it for future resubmission. If the Committee finds, by a simple majority, that the proposed activity conforms to the standards for review, then a certificate of design approval shall be issued approving said activity. If the Committee fails to decide on an application within the specified time period, the application shall be deemed approved. Approvals by the Committee shall be valid for a period of one year from the date of the approval by the Committee (or City Council in the case of an appeal). If no building permit has been issued pursuant to the development of the approved project within one year of approval, the approval shall

expire.

If the Committee denies the certificate of design approval, the applicant shall have the right of appeal to the City Council.

5. Notification of determination.

City staff shall notify the owner(s) of record within seven business days of the Committee's action. If the Committee denies the certificate of design approval, the notification letter shall contain the reasons for denial and inform the applicant of his/her right to appeal.

City staff shall also notify the office of construction code enforcement within three business days of the Committee's action. If the Committee issues the certificate of design approval, the Board secretary shall inform the chief building official of said approval and that the proposed work satisfies the intent of this chapter. However, if the Committee denies the certificate of design approval, City staff shall ask that the building or sign permit not be issued for said work unless an appeal to the city council results in a reversal of the denial.

6. Appeal of Committee's determination.

The owner(s) of record may appeal the Committee's decision to the City Council by filing a written appeal with the city clerk's office within thirty calendar days of the postmark date of the notification of determination.

If no written appeals are submitted with the city clerk's office within thirty calendar days, the Board's determination shall be the final action by the city.

a. Appeal fee. A fee in the amount determined in the Committee's Administrative Procedures shall be paid by the petitioner at the time of filing a written appeal to said determination with the city clerk.

b. Appeal criteria. The City Council, after hearing all of the evidence, shall review the Committee's decision and base its ruling on the following criteria:

1) Whether the Committee has exercised its powers and followed the guidelines established by law and ordinance; and

2) Whether the Committee's actions were patently arbitrary and capricious.

c. Appeal – Public meeting. The City Council shall, by simple majority of the members present, approve or disapprove the issuance of the certificate of design approval based upon the appeal criteria described in Section 17.27.070 6.b.1) and 2).

d. Violations and Penalties

Initiating construction or development prior to the issuance of building permits or non-compliance with approved plans and conditions shall be grounds for either stopping work on the project or denial of a certificate of occupancy.

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

Subject:

Resolution approving the addition of properties to the Davenport 2026 Urban Revitalization Area Plan. [Wards 2 & 8]

Recommendation:

Adopt the Resolution.

Background:

Several areas in the northwest Davenport area are being proposed for inclusion in the Urban Revitalization Tax Exemption (URTE) program. The proposed expansion areas, as shown in the attached map, encompass a mix of residential, multifamily, commercial, and industrial properties.

These areas will be incorporated into the existing North Area URTE and utilize the same exemption schedules currently in place. Including these areas in URTE program will provide property owners with access to the existing tax exemption incentives and support continued investment and revitalization in Davenport.

As required by State code, notices were sent out to property owners and occupants in the proposed new area and a public hearing was held on August 5, 2026.

Resolution No. _____

Resolution offered by Alderman Lienen.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION approving the addition of properties to the Davenport 2026 Urban Revitalization Area Plan.

WHEREAS, in the City of Davenport, an urban revitalization plan under the provisions of Urban Renewal has been in effect since 1980; and

WHEREAS, the City reviews the need for any updates or changes to the Urban Renewal Area over a period of approximately five years; and

WHEREAS, the Urban Revitalization Tax Exemption Programs, together with the other economic development programs of the City, have been used to increase assistance for projects which otherwise would not occur; and

WHEREAS, these additional properties will be incorporated into the existing North URTE area and utilize the same exemption schedules currently in place.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that the addition of properties to the Davenport 2026 Urban Revitalization Area Plan is hereby approved.

Passed and approved this 9th day of September, 2026.

Subject:

Resolution approving Case F26-10 being the request of Klingner & Associates, P.C. for a final plat of Kreiter 4th Addition, a 3-lot subdivision on 88.91 acres located at 7805 Jersey Ridge Road. [Ward 6]

Recommendation:

Adopt the Resolution.

Background:

The applicant has submitted a request for approval of the final plat of Kreiter 4th Addition, located at 7805 Jersey Ridge Road. The subject property consists of approximately 88.91 acres and is currently improved with a single-family dwelling, several accessory agricultural structures, and tillable agricultural land. The proposed final plat subdivides the property into three lots consisting of approximately 8.07 acres (Lot 1), 9.15 acres (Lot 2), and 71.69 acres (Lot 3).

The purpose of the subdivision is to separate the existing residential dwelling and associated agricultural structures from the remaining tillable agricultural land. The proposed subdivision will allow the residence and accessory structures to be conveyed separately from the remaining agricultural parcels.

The property is currently zoned AG Agricultural District. The subdivision does not propose any changes to the existing zoning or land use. The final plat has been reviewed by City staff and applicable utility providers for compliance with the City's subdivision regulations and development standards.

Plan and Zoning Commission Recommendation

The Plan and Zoning Commission reviewed Case F26-10 at its August 4, 2026, meeting and recommended approval subject to the listed findings and conditions.

Findings

1. The final plat conforms to the comprehensive plan Davenport +2035.
2. The final plat prepares the area for future development.
3. The final plat (with conditions recommended by City Staff) will achieve consistency with subdivision requirements.

Conditions

1. That the surveyor signs the plat.
2. That the utility providers sign the plat when their easement needs have been met.
3. Add a note to the Final Plat stating, "Stormwater detention and water quality treatment are not required as part of this subdivision. However, such improvements may be required with future site development in accordance with Davenport Municipal Code Sections 13.34.210 and 13.34.300. This may include, but is not limited to, residential development resulting in more than 5,000 square feet of impervious surface."
4. Add a note to the Final Plat stating, "A portion of this subdivision is located within the Special Flood Hazard Area of Crow Creek. The Base Flood Elevation ranges from approximately 699.2 to 698.5 as shown on panel 19163C0360H effective 4/11/2024."

The August 4, 2026, Plan and Zoning Commission staff report is attached.

Subject:
Case F26-10: Request of Klingner & Associates, P.C. for a Final Plat of Kreiter 4th Addition. The 3-lot subdivision is located at 7805 Jersey Ridge Road on 88.91 acres. [Ward 6]

Recommendation:
Staff recommends the Plan and Zoning Commission accept the listed findings and forward Case F26-10 to the City Council with a recommendation for approval subject to the listed conditions:

Findings:

1. The final plat conforms to the comprehensive plan Davenport +2035.
2. The final plat prepares the area for future development.
3. The final plat (with conditions recommended by City Staff) will achieve consistency with subdivision requirements.

Conditions:

1. That the surveyor signs the plat.
2. That the utility providers sign the plat when their easement needs have been met.
3. Add a note to the Final Plat stating, "Stormwater detention and water quality treatment are not required as part of this subdivision. However, such improvements may be required with future site development in accordance with Davenport Municipal Code Sections 13.34.210 and 13.34.300. This may include, but is not limited to, residential development resulting in more than 5,000 square feet of impervious surface."
4. Add a note to the Final Plat stating, "A portion of this subdivision is located within the Special Flood Hazard Area of Crow Creek. The Base Flood Elevation ranges from approximately 699.2 to 698.5 as shown on panel 19163C0360H effective 4/11/2024."

Background:
The applicant has submitted a request for approval of the Final Plat of Kreiter 4th Addition, located at 7805 Jersey Ridge Road. The subject property consists of approximately 88.91 acres and is currently improved with a single-family dwelling, several accessory agricultural structures, and tillable agricultural land. The proposed final plat subdivides the property into three lots consisting of approximately 8.07 acres (Lot 1), 9.15 acres (Lot 2), and 71.69 acres (Lot 3).

The purpose of the subdivision is to separate the existing residential dwelling and associated agricultural structures from the remaining tillable agricultural land. The proposed subdivision will allow the residence and accessory structures to be conveyed separately from the remaining agricultural parcels.

The property is currently zoned AG Agricultural District. The subdivision does not propose any changes to the existing zoning or land use. The Final Plat has been reviewed by City staff and applicable utility providers for compliance with the City's subdivision regulations and development standards.

Comprehensive Plan:
Within Existing Urban Service Area: No
Within Urban Service Area 2035: No

Future Land Use Designation:
The subject property is currently designated as **Agricultural Reserve** in the Davenport +2035 Future Land Use Map. This land use classification is intended for areas located outside the Urban Service Area and unlikely to develop in the foreseeable future. Uses should be limited to agriculture and open space, with only limited residential development needing minimal urban service.

Relevant Goals to be considered in this Case: Strengthen the Existing Built Environment.
The proposed Final Plat complies with the Davenport +2035 proposed land use section.

Zoning:
The subject property is zoned **AG Agricultural District.** This zoning district is intended to address existing agricultural land uses. The standards of the AG District promote the continuation of farming, and protect agricultural land uses from encroachment of incompatible developments.

Technical Review:

1. Zoning: The 3-lot subdivision complies with the AG Agricultural District dimensional standards, which requires a minimum lot area of 1-acre for agricultural uses and 38-acres for other uses. Future residential development of Lot 1 may require a rezoning.
2. Streets: Each lot in the subdivision will maintain access to Jersey Ridge Road. No additional right-of-way dedication is included with the final plat. An existing 20' Ingress/Egress & Utility Easement will continue to facilitate access to Lot 2.
3. Stormwater: No site improvements are proposed as part of this subdivision. Stormwater detention and water quality treatment measures may be required at the time of future site development, in accordance with City standards.
4. Sewer System: The subject property is not currently served by public sanitary sewer or storm sewer systems. The nearest existing public sewer infrastructure is located near the intersection of Jersey Ridge Road and Elmore Avenue, south of Interstate 80. The existing dwelling is served by a private septic system.
5. Flood: FEMA floodplain mapping indicates that a portion of Lot 3 is located within a Special Flood Hazard Area associated with Crow Creek and is subject to inundation by the 1-percent annual chance (100-year) flood. Any future development within the identified flood hazard area will be required to comply with the City of Davenport's Flood Damage Prevention Ordinance.
6. Other Utilities: The existing dwelling is served by a private well system and septic system. Electrical and communication services are provided via existing utility lines extending to the dwelling. Any future development or increase in intensity of use may

require additional evaluation of available utility infrastructure and service capacity.

7. Parks/Open Space: The proposed subdivision will not impact parks or designated open space areas.

Public Input:
Public notification is not required for a Final Plat.

Recommendation:

Pass the Motion.

Background:

These requests for noise variances have been received pursuant to the Municipal Code of Davenport, Iowa, Chapter 8.19 Noise Abatement, Section 8.19.090 Special Variances.

Palmer Homecoming | City staff emailed 64 Good Neighbor Project Leaders within the area generally bounded by Division Street to the west, Eastern Avenue to the east, Kimberly Road to the north, and River Drive to the south on Tuesday, August 25, notifying them of the fireworks associated with the Palmer Homecoming event and asking them to share the information as

widely as possible through text message, email, or Facebooks groups; the NextDoor app; community bulletin boards; etc. In addition, Palmer has/will post the attached notice on NextDoor, appropriate Quad City Facebook pages, and request KWQC to post on its Facebook page and website. As of the publication of this agenda, no objections have been filed with the Deputy City Clerk. If any objections are received prior to the September 9 City Council Meeting, they will be provided to Council members for consideration prior to final action on the noise variance request.

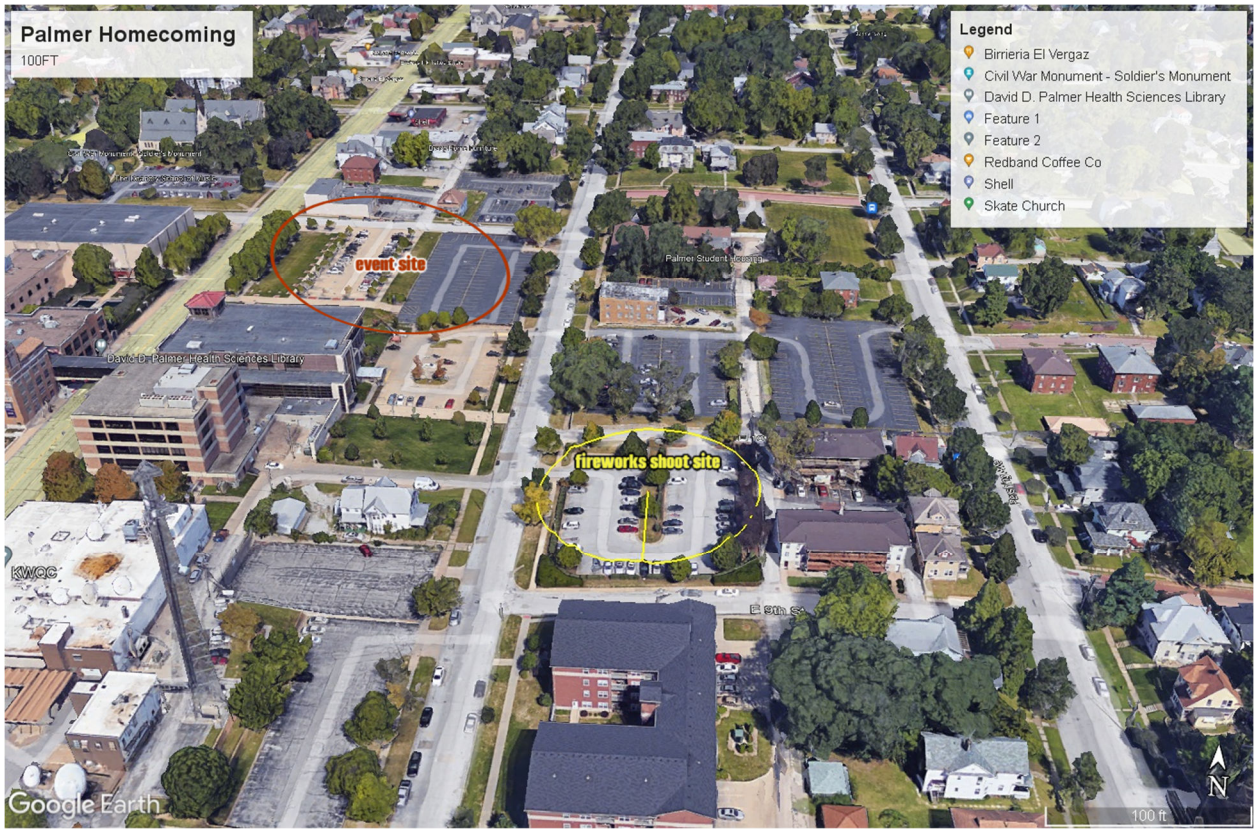
PALMER
College of Chiropractic

Dear Neighbor:

Palmer College of Chiropractic will host its annual Homecoming Festival on **Saturday, Sept. 19** from **6 to 9 p.m.** The event will include a fireworks display starting around 8:30 p.m. and lasting approximately 20 minutes.

Below is a map of the event and shoot site. Written objections to this noise variance can be submitted to Brian Krup, Deputy City Clerk for the City of Davenport, at Brian.Krup@davenportiowa.com by 12:00 p.m. on Wednesday, September 9, 2026.



Krup, Brian

From: GNP
Sent: Tuesday, August 25, 2026 08:29 a.m.
Cc: Krup, Brian

Good morning, GNP Leaders!

The City of Davenport is assisting Palmer College in being a good neighbor by helping communicate to the surrounding area about their upcoming Homecoming Festival planned at their campus which will conclude with a fireworks show. They have gone through the proper process to host said fireworks, and in an effort to alert as many people as possible to ensure enough time for those who need to make proper accommodations, this is where we could use your help! Please share the following information with your friends and neighbors by any means possible (email, text, or Facebook groups; NextDoor app; community bulletin boards; etc):

Date: Saturday, September 19, 2026
Time: *Event:* 6:00 p.m. – 9:00 p.m. | *Fireworks:* Beginning around 8:30 p.m. and lasting approximately 20 minutes.
Location: Fireworks shoot site will be in the Palmer parking lot at Perry and East 9th Streets (circled in yellow below)

Anyone opposed to this fireworks request can submit in writing to Brian Krup, Deputy City Clerk for the City of Davenport, at brian.krup@davenportiowa.com no later than 12:00 p.m. on Wednesday, September 9.

As always, we appreciate your collaboration with the City and being good neighbors.

Have a great day!

Subject:

Second Consideration: Ordinance amending Chapter 15.16 entitled "Electrical Code" of the Municipal Code of Davenport, Iowa, to repeal Section 15.16.030 and conform local electrical requirements to the State Electrical Code. [All Wards]

Recommendation:

Adopt the Ordinance.

Background:

The State of Iowa Electrical Code has been modified following the passage of House File 2800 (HF 2800). These statutory changes apply immediately to all new and ongoing electrical installations statewide.

In accordance with HF 2800, political subdivisions are prohibited from adopting or enforcing local electrical code requirements that are more restrictive than those established by the State Electrical Code.

To comply with the new state legislation, the City of Davenport can no longer enforce Section 15.16.030 of the Municipal Code. This section establishes electrical wiring requirements that are more restrictive than those now permitted under state law. Repealing Section 15.16.030 will bring the Municipal Code into compliance with HF 2800 and ensure the City's requirements are consistent with the State Electrical Code.

Attached to this report is a memorandum from the Iowa Association of Building Officials (IABO) summarizing the revised requirements and statutory changes.

ORDINANCE NO. _____

AN ORDINANCE AMENDING CHAPTER 15.16 ENTITLED "ELECTRICAL CODE" OF THE MUNICIPAL CODE OF DAVENPORT, IOWA, TO REPEAL SECTION 15.16.030 AND CONFORM LOCAL ELECTRICAL REQUIREMENTS TO THE STATE ELECTRICAL CODE.

BE IT ENACTED BY THE CITY COUNCIL OF THE CITY OF DAVENPORT, IOWA:

Section 1. That Section 15.16.030 of the Municipal Code of Davenport, Iowa, is hereby repealed in its entirety and shall be designated as "Reserved."

SEVERABILITY CLAUSE. If any of the provisions of this ordinance are for any reason illegal or void, then the lawful provisions of this ordinance, which are separable from said unlawful provisions shall be and remain in full force and effect, the same as if the ordinance contained no illegal or void provisions.

REPEALER. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

EFFECTIVE DATE. This ordinance shall be in full force and effective after its final passage and publication as by law provided.

Chapter 15.16
ELECTRICAL CODE[1]

15.16.010. Adoption by reference. [Ord. 2015-21 § 1 (part)]

The specifications and regulations which are mentioned by title and date below are hereby adopted and declared to be a part of this title when not in conflict with a specific statement contained herein.

15.16.015. The National Electrical Code. [4-13-2022 by Ord. No. 2022-181; Ord. 2015-21 § 1 (part)]

The Electrical Code as adopted and amended by the State of Iowa is hereby adopted by reference as the electrical code for the City of Davenport, Iowa, subject to the amendments and adoptions by the State of Iowa Department of Public Safety.

15.16.020. Additions deletions and amendments. [Ord. 2015-21 § 1 (part)]

Annex H entitled "Administration and Enforcement," is hereby deleted and replaced by Chapter 15.08 of the Davenport Municipal Code.

15.16.030. Chapter 1, modified. [9-9-2020 by Ord. No. 2020-376[2]; Ord. 2015-21 § 1 (part)]

Add a new paragraph, "Wiring," as follows:

A. Minimum line voltage wire size shall be 12 AWG copper.

B. Feeder conductors within dwellings shall be installed within an approved raceway. Type AC and Type MC cable is not approved for this application. Exception: This is inapplicable where feeder conductors originate and terminate within a dwelling unit.

C. Nonmetallic sheathed cable shall be permitted within one- and two-family dwellings and their garages and storage buildings; and multifamily dwellings in accordance with the National Electrical Code.

D. Exposed nonmetallic sheathed cable shall be protected to a height of eight feet above the floor by approved materials and methods.

E. Where NM & NMC cables are allowed in structures, all wiring in areas outside a dwelling unit, such as common areas, stairs, community rooms, corridors, etc, in multi -family residential structures shall be installed in MC or EMT Cables. Use of NM & NMC cables shall not be permitted in such areas. **[4-13-2022 by Ord. No. 2022-182]**

F. Use of NM & NMC cables, even when installed in raceways, shall not be permitted in Types

The State of Iowa electrical code has been modified following the passage of House File 2800. These mandatory modifications apply immediately to all new and ongoing electrical installations. To assist inspectors and building officials navigate these new requirements, the Iowa Association of Building Officials (IABO) has developed the following overview of the statutory changes. In accordance with HF 2800, a political subdivision is prohibited from adopting a local code that is more restrictive than the State electrical code. Local jurisdictions are strongly advised to consult with their legal counsel before adopting or enforcing these specific code interpretations.

Refrigerators

- GFCI protection is not required for receptacles serving a refrigerator if the location is obvious, regardless of any other code requirements. The receptacle can be a single or a duplex. Labeling the receptacle for future occupants is recommended if not GFCI protected. (HF2800 Item #8 & NEC Article 100)
- Freezers are not exempt and would still require GFCI protection if located in an unfinished basement, garage, damp or wet location, etc. (NEC 210.8 A)

Kitchens in Dwelling units

- GFCI protection is still required for receptacles serving kitchen countertops (Modified 210.8 A)
- General purpose wall receptacles in the kitchen no longer require GFCI protection (Modified NEC 210.8 A)
- GFCI protection is required for; microwaves, dishwashers, electric ranges, wall ovens, cooktops (NEC 210.8 D)
- Countertop receptacles no longer need to be less than 20" above a kitchen counter (Striking NEC 210.52 C 3)
- Receptacles located below countertops, in appliances garages, or behind fastened in place appliances can now be considered for the required countertop receptacles (Striking NEC 210.52 C 3)
- At least one receptacle, or provisions for a future receptacle, is required for kitchen islands or peninsulas 24" or greater in length. There are no location limitations for the receptacle (Modified NEC 210.52 C 2)
- Popup style receptacles in countertops must still be listed for the purpose (NEC 406.5 G 1)
- Kitchen receptacles within 6' of a sink no longer require GFCI, unless required otherwise (Modified NEC 210.8)
  Please note – The State of Iowa interprets this modification to HF2800 as still requiring GFCI protection with-in 6' of a kitchen sink in a dwelling. State electrical inspectors will be enforcing it accordingly and the State will fully support jurisdiction's enforcement of GFCI protection within 6' of a sink.

Wet Bar (or similar)

- GFCI protection is no longer required for areas such as wet bars with a sink and provisions for; food prep, beverage prep, or cooking. Unless it's considered a kitchen (Strike NEC 210.8 A 7, NEC 210.8)
- Receptacles within 6' of a sink in these areas still require GFCI protection (Striking NEC 210.8 A 7, NEC 210.8)
- GFCI protection is required for appliances including dishwashers and microwaves (NEC 210.8 D)
- GFCI protection is not required for receptacles serving refrigerators (HF2800 Item #8)

ISSUED 7.27.2026

Bathroom Receptacles

- Receptacles can now be located within 3 feet of a bathtub or shower, but not directly over (Mod NEC 406.9 C)

Arc-Fault Protection

- AFCI's are not required for new or remodeled 1 & 2 family dwellings and townhouses (Modified NEC 210.12 B)
- Replacement of a receptacle does not require AFCI protection (Striking NEC 406.4 D 4)
- AFCI's are not required for kitchen and laundry areas within apartment dwelling units, hotels, motels, nursing homes, dorms, and similar locations (Modified NEC 210.12 B)

Basements

- GFCI protection is no longer required for receptacles in finished portions of a basement (Modified NEC 210.8)
- GFCI protection is not required for receptacles serving sump pumps regardless of other code requirements. The receptacle can be either a single or a duplex (HF2800 Item #8 & Receptacle definition Article 100)

Appliances / Mechanical Equipment

- GFCI protection is now required for dryers (NEC 210.8 D)
- GFCI protection is not required for receptacles serving refrigerators if location is obvious, regardless of other code requirements. The receptacle can be a single or a duplex (HF2800 Item #8 & NEC Article 100)
- GFCI protection is required for; microwaves, dishwashers, electric ranges, wall ovens, cooktops (NEC 210.8 D)
- After September 1, 2026, HVAC equipment located outdoors requires GFCI protection (NEC 210.8 F)

Surge Protection

- A surge protection device (SPD) is no longer required for dwelling electrical services (Strike NEC 230.67)
- Dwelling units still require an SPD located at each panel supplied by a feeder, which would include every home with an emergency disconnect (NEC 215.18)

Ceiling Light and Fan Outlets

- Fan rated boxes, or solid blocking behind a standard box, are only required for ceiling outlets located in the center of family rooms, living rooms, parlors, libraries, dens, bedrooms, sunrooms, recreation rooms, or similar (Modified NEC 314.27(A)(2) & 314.27 C)

Service Calculations

- When sizing a service, the calculated floor area of a dwelling now excludes garages (Modified NEC 220.5)

Electrical Service Updates

- Emergency disconnects are still required if a service panel is replaced (NEC 230.85 C)
- Jurisdictions cannot require additional electrical updates with a service changeout (HF2800 Sec 37)
- Smoke alarms and CO detection are still required (IRC 314 & 315, IA Code 661-201.15(10A) & 661-201.17(10A)

ISSUED 7.27.2026

STATE OF IOWA

KIM REYNOLDS
GOVERNOR

June 2, 2026

The Honorable Paul Pate
Secretary of State of Iowa
State Capitol Building
LOCAL

Dear Mr. Secretary:

I hereby transmit House File 2800, an Act relating to state and local government and finances, including by making, modifying, limiting, or reducing appropriations, distributions, or transfers, authorizing expenditure of unappropriated moneys in special funds, making corrections, and providing for properly related matters including the national electrical code, local civil rights laws, political party state central committees, noxious weeds, nonresident deer hunting licenses, proprietary treatment systems, poultry associations, tax credits, alternative nicotine and vapor products, public assistance programs, judicial branch and county attorney salaries, civil litigation abuse, human trafficking, federal grants and loans notifications, quarterly payments to area education agencies, civic proficiency in higher education, charter schools under the Iowa Public Employees' Retirement System, school district incentives, extracurricular interscholastic eligibility, and levy increases, and including effective date, applicability, and retroactive applicability provisions.

House File 2800 is approved this date with the following exceptions:

- Division I Section 4 proposes transferring the unencumbered and unobligated balances of federal funding that the state received from Coronavirus Relief Fund (CRF) to the information technology fund created in section 217.25 on July 1, 2026.

  This federal funding contains federal restrictions prohibiting the transfer of funds into a state general fund or any other fund without qualifying, documented eligible use under program rules. Funds not meeting eligible cost timelines must be returned to the U.S. Treasury.

  CRF funds and interest earned can only be used for eligible COVID-19 response expenses[1]. Treasury further specifies that if CRF funds are placed in an interest-bearing account, any

[1] Coronavirus Relief Fund Guidance, Necessary Expenditures Incurred Due to the Public Health Emergency (page 4183) https://www.govinfo.gov/content/pkg/FR-2021-01-15/pdf/2021-00827.pdf.

interest earned "must be used only to cover expenditures incurred in accordance with section 601(d) of the Social Security Act"[2]. CRF interest cannot legally be reallocated to a state IT fund unless that fund administers an eligible COVID-19 response activity—which HF 2800, Sec. 4 does not require. Unspent CRF balances must be returned to Treasury if not used for eligible expenditures[3]. A state statute cannot override a federal recoupment mandate. Transferring CRF funds in 2026 would violate federal law.

- Division I Section 5 proposes four appropriations from the information technology fund created in section 217.25 to the department of health and human services for specific information technology projects with the remaining balance of the fund being appropriated for the Medicaid management information system. Further, this section prohibits the usage of funding for maintenance operations, staffing, or other corporate technology needs of the department.

  The information technology fund created in section 217.25 is utilized by the department of health and human services to pay for all of their information technology expenditures. As HF 2800, Sec. 4 is in conflict with federal law and will result in no additional funding being transferred into the information technology fund, this would result in the department of health and human services being unable to maintain their operational information technology needs.

- Division X relates to a health care access and innovation tax credit.

  As clearly stated during debate on this legislation, the intent of this provision is to hold harmless Iowa's largest HMO from the MCO tax enacted earlier this year in HF 2739. This carveout undermines the integrity and uniformity of the tax structure adopted by the Legislature and required by the Federal Government. Accordingly, this provision places at risk more than $120 million in new federal funding that supports Iowa Medicaid and the vulnerable Iowans who depend on these services.

- Division XIV creates a new cause of action for "civil litigation abuse" and abrogates the common law cause of action for abuse of process for actions between private parties.

  The codified cause of action for abuse of process abrogates the long-standing common law cause of action for abuse of process. This substantial change to Iowa tort law was not precipitated by discussion with stakeholders, and both the Office of the Attorney General and Iowa State Bar Association have raised concerns about its implications. Specifically, the Office of the Attorney General has identified a likely unintended impact to the State's liability exposure.

---

[2] Coronavirus Relief Fund FAQ, Section B, #3 (page 4193) https://www.govinfo.gov/content/pkg/FR-2021-01-15/pdf/2021-00827.pdf

[3] Coronavirus Relief Fund FAQ, Section B, #1 (page 4193) https://www.govinfo.gov/content/pkg/FR-2021-01-15/pdf/2021-00827.pdf.

Moreover, codifying a broad-based cause of action for civil litigation abuse would make Iowa an outlier. A cause of action for abuse of process has existed in Iowa since at least 1956 and is based on the Restatements of Torts §682. Well over forty states have adopted the Restatement's definition of a claim for abuse of process. It appears that only three states have codified an abuse of process cause of action, and those statutes are limited to claims brought by family members or within the domestic relations context. No statute was found that codified an abuse of process claim applying to any private party (e.g., individuals, corporation or other entity).

The cause of action for abuse of process, as drafted, also includes overbroad definitions thereby creating confusing standards for juries. For example, the bill defines "ulterior purpose" as use of process "mainly" for an improper reason, but then incongruously defines the elements of the claim to include use of process "primarily" for an ulterior purpose.

I remain willing to work with both chambers to address concerns regarding claims in this area of the law.

For the above reasons, I respectfully disapprove those parts of House File 2800 as specified above, in accordance with Article III, Section 16, of the Constitution of the State of Iowa. The remainder of House File 2800 is approved as of this date.

Sincerely,

Kim Reynolds
Governor

cc: Secretary of the Senate
Clerk of the House

House File 2800

AN ACT

RELATING TO STATE AND LOCAL GOVERNMENT AND FINANCES, INCLUDING BY MAKING, MODIFYING, LIMITING, OR REDUCING APPROPRIATIONS, DISTRIBUTIONS, OR TRANSFERS, AUTHORIZING EXPENDITURE OF UNAPPROPRIATED MONEYS IN SPECIAL FUNDS, MAKING CORRECTIONS, AND PROVIDING FOR PROPERLY RELATED MATTERS INCLUDING THE NATIONAL ELECTRICAL CODE, LOCAL CIVIL RIGHTS LAWS, POLITICAL PARTY STATE CENTRAL COMMITTEES, NOXIOUS WEEDS, NONRESIDENT DEER HUNTING LICENSES, PROPRIETARY TREATMENT SYSTEMS, POULTRY ASSOCIATIONS, TAX CREDITS, ALTERNATIVE NICOTINE AND VAPOR PRODUCTS, PUBLIC ASSISTANCE PROGRAMS, JUDICIAL BRANCH AND COUNTY ATTORNEY SALARIES, CIVIL LITIGATION ABUSE, HUMAN TRAFFICKING, FEDERAL GRANTS AND LOANS NOTIFICATIONS, QUARTERLY PAYMENTS TO AREA EDUCATION AGENCIES, CIVIC PROFICIENCY IN HIGHER EDUCATION, CHARTER SCHOOLS UNDER THE IOWA PUBLIC EMPLOYEES' RETIREMENT SYSTEM, SCHOOL DISTRICT INCENTIVES, EXTRACURRICULAR INTERSCHOLASTIC ELIGIBILITY, AND LEVY INCREASES, AND INCLUDING EFFECTIVE DATE, APPLICABILITY, AND RETROACTIVE APPLICABILITY PROVISIONS.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

DIVISION I

APPROPRIATIONS, DISTRIBUTIONS, TRANSFERS, AND EXPENDITURE AUTHORITY

Section 1. LIMITATIONS OF STANDING APPROPRIATIONS — FY 2026-2027. Notwithstanding the standing appropriation in the following designated section for the fiscal year beginning July 1, 2026, and ending June 30, 2027, the amount appropriated from the general fund of the state pursuant to that section for the following designated purpose shall not exceed the following amount:

For payment of claims for nonpublic school pupil transportation under section 285.2:

..... $ 8,997,091

If total approved claims for reimbursement for nonpublic school pupil transportation exceed the amount appropriated in accordance with this section, the department of education shall prorate the amount of each approved claim.

Sec. 2. INSTRUCTIONAL SUPPORT STATE AID — FY 2026-2027. In lieu of the appropriation provided in section 257.20, subsection 2, the appropriation for the fiscal year beginning July 1, 2026, and ending June 30, 2027, for paying instructional support state aid under section 257.20 for the fiscal year is zero.

Sec. 3. DEPARTMENT OF WORKFORCE DEVELOPMENT — USE OF FEDERAL INCENTIVE PAYMENTS — FY 2025-2026 — FY 2026-2027. For the fiscal year beginning July 1, 2025, and the fiscal year beginning July 1, 2026, the department of workforce development may use up to $12,000,000 from incentive payments made to the state pursuant to the federal Assistance for Unemployed Workers and Struggling Families Act, Pub. L. No. 111-5, Div. B, Tit. II, pursuant to a special transfer under section 903 of the federal Social Security Act, for administration of the unemployment compensation insurance program and for unemployment compensation insurance systems modernization.

~~Sec. 4. DEPARTMENT OF HEALTH AND HUMAN SERVICES INFORMATION TECHNOLOGY FUND — TRANSFERS. On July 1, 2026, all of the following shall be transferred to the information technology fund created in section 217.25:~~

1. The unencumbered and unobligated balance, including all interest and earnings thereon, of the Iowa coronavirus fiscal recovery fund created in section 8.57G.

2. The unencumbered and unobligated balance, including all interest and earnings thereon, of moneys available to the state pursuant to the federal Coronavirus Aid, Relief, and Economic Security Act, Pub. L. No. 116-136.

Sec. 5. DEPARTMENT OF HEALTH AND HUMAN SERVICES INFORMATION TECHNOLOGY FUND — APPROPRIATIONS.

1. There is appropriated from the information technology fund created in section 217.25 to the department of health and human services for the fiscal year beginning July 1, 2026, and ending June 30, 2027, the following amounts, or so much thereof as is necessary, to be used for the purposes designated:

a. For the Medicaid management information system:

..... $ 31,000,000

b. For the eligibility determination for essential needs information technology modernization project:

..... $ 30,500,000

c. For information technology projects associated with child support services:

..... $ 34,000,000

d. (1) For information technology costs associated with implementation of 2023 Iowa Acts, chapter 104, and 2026 Iowa Acts, Senate File 2422, if enacted:

..... $ 5,000,000

(2) The appropriation in this paragraph shall be used to implement 2023 Iowa Acts, chapter 104, if 2026 Iowa Acts, Senate File 2422, is not enacted.

2. Following the appropriations in subsection 1, the remaining balance of the information technology fund created in section 217.25 is appropriated to the department of health and human services for the fiscal year beginning July 1, 2026, and ending June 30, 2027, to be used for the Medicaid management information system.

3. Moneys appropriated in this section shall not be used for maintenance, operations, staffing, or other corporate technology needs of the department.

Sec. 6. SPECIAL FUNDS — SALARY ADJUSTMENTS — FY

2026-2027. For the fiscal year beginning July 1, 2026, and ending June 30, 2027, salary adjustments otherwise provided may be funded as determined by the department of management, subject to any applicable constitutional limitation, using unappropriated moneys remaining in the commerce revolving fund, the gaming enforcement revolving fund, the gaming regulatory revolving fund, the primary road fund, the road use tax fund, the fish and game protection fund, and the Iowa public employees' retirement fund, and in other departmental revolving, trust, or special funds for which the general assembly has not made an operating budget appropriation.

Sec. 7. Section 8.57I, subsection 3, Code 2026, is amended by adding the following new paragraph:

NEW PARAGRAPH. *c.* (1) For the fiscal year beginning July 1, 2026, and each fiscal year thereafter, there is appropriated from the sports wagering receipts fund to the department of health and human services one million dollars to provide a grant to the Iowa healthiest state initiative to support the double up food bucks program to make fresh fruits and vegetables sold at farmers markets, grocery stores, and other participating locations accessible to individuals and families who reside in this state and receive assistance through the federal supplemental nutrition assistance program.

(2) A grant recipient that receives funding pursuant to this paragraph shall provide at least a dollar-for-dollar match of the grant assistance.

(3) Subsections 5 and 6 do not apply to moneys appropriated under this paragraph.

Sec. 8. Section 84F.1, subsection 6, paragraph b, Code 2026, is amended to read as follows:

b. Notwithstanding section 8.33, moneys appropriated to the department by the general assembly for purposes of this section that remain unencumbered or unobligated at the ~~end~~ close of the fiscal year shall not revert ~~to the general fund~~ but shall remain available for expenditure ~~for the purposes designated~~ in subsequent fiscal years by the department to operate and manage the Iowa office of apprenticeship established in section 84D.3 or for other apprenticeship activities deemed appropriate by the department, not subject to the limitation set forth in

paragraph "a".

Sec. 9. Section 84F.2, subsection 7, paragraph b, Code 2026, is amended to read as follows:

b. Notwithstanding section 8.33, moneys appropriated to the department by the general assembly for purposes of this section that remain unencumbered or unobligated at the ~~end~~ close of the fiscal year shall not revert ~~to the general fund~~ but shall remain available for expenditure ~~for the purposes designated~~ in subsequent fiscal years by the department to operate and manage the Iowa office of apprenticeship established in section 84D.3 or for other apprenticeship activities deemed appropriate by the department, not subject to the limitation set forth in paragraph "a".

Sec. 10. Section 257.35, subsection 2, Code 2026, is amended by striking the subsection and inserting in lieu thereof the following:

2. The amounts specified for school districts in section 257.10, subsection 7, for the fiscal year beginning July 1, 2026, and each succeeding fiscal year, shall be reduced by the department of management by thirty-two million five hundred thousand dollars. The department of management shall calculate a state aid reduction such that such amounts shall be reduced proportionally to the amount that the district would otherwise have received under section 257.10, subsection 7. For the fiscal year beginning July 1, 2027, and each fiscal year thereafter, from the reduction under this subsection for that fiscal year there is appropriated ten million dollars to the department of education for division of special education general supervision, oversight, compliance, employee salaries, support, maintenance, and miscellaneous purposes within the area education agency regions and the department of education main office.

Sec. 11. Section 257.35, subsections 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, and 20, Code 2026, are amended by striking the subsections.

Sec. 12. EFFECTIVE DATE. The following, being deemed of immediate importance, takes effect upon enactment:

The section of this division of this Act providing for the use of federal incentive payments by the department of

workforce development.

DIVISION II

CORRECTIVE PROVISIONS

Sec. 13. Section 135.61, subsection 16, paragraph a, subparagraph (1), subparagraph divisions (a) and (b), if enacted by 2026 Iowa Acts, House File 2635, section 14, are amended to read as follows:

(a) Beginning on or after January 1, 2027, and before ~~December 31, 2031,~~ January 1, 2032, four million dollars.

(b) Beginning on or after January 1, 2032, and before ~~December 31, 2036,~~ January 1, 2037, four million five hundred thousand dollars.

Sec. 14. Section 135.61, subsection 16, paragraph c, subparagraphs (1) and (2), if enacted by 2026 Iowa Acts, House File 2635, section 14, are amended to read as follows:

(1) Beginning on or after January 1, 2027, and before ~~December 31, 2031,~~ January 1, 2032, four million dollars.

(2) Beginning on or after January 1, 2032, and before ~~December 31, 2036,~~ January 1, 2037, four million five hundred thousand dollars.

Sec. 15. Section 135.61, subsection 16, paragraph e, subparagraph (1), subparagraph divisions (a) and (b), if enacted by 2026 Iowa Acts, House File 2635, section 14, are amended to read as follows:

(a) Beginning on or after January 1, 2027, and before ~~December 31, 2031,~~ January 1, 2032, four million dollars.

(b) Beginning on or after January 1, 2032, and before ~~December 31, 2036,~~ January 1, 2037, four million five hundred thousand dollars.

Sec. 16. Section 135.61, subsection 16, paragraph f, subparagraph (1), subparagraph divisions (a) and (b), if enacted by 2026 Iowa Acts, House File 2635, section 14, are amended to read as follows:

(a) Beginning on or after January 1, 2027, and before ~~December 31, 2031,~~ January 1, 2032, four million dollars.

(b) Beginning on or after January 1, 2032, and before ~~December 31, 2036,~~ January 1, 2037, four million five hundred thousand dollars.

Sec. 17. Section 135C.6, subsection 1, paragraph b, as

enacted by 2026 Iowa Acts, Senate File 572, section 2, is amended to read as follows:

b. A supported community living service, as defined in section ~~225C.21~~ 249A.38B, is not required to be licensed under this chapter, but is subject to approval under section ~~225C.21~~ 249A.38B in order to receive public funding.

Sec. 18. Section 135S.1, subsection 2, if enacted by 2026 Iowa Acts, House File 571, section 2, is amended to read as follows:

2. *"Discrimination"* means an adverse action, including but not limited to any penalty, disciplinary, or retaliatory action taken against, or a threat of adverse action communicated to, a medical practitioner or health care institution as a result of the refusal of the medical practitioner or health care institution to participate in a health care service on the basis of conscience. *"Discrimination"* ~~not~~ does not include the negotiation or purchase of insurance or a health care service by a nongovernmental entity or individual, the refusal to use or purchase insurance or a health care service by a nongovernmental entity or individual, or a health care institution's good-faith effort to accommodate a medical practitioner's or health care institution's exercise of conscience.

Sec. 19. Section 135S.2, subsection 1, paragraph a, if enacted by 2026 Iowa Acts, House File 571, section 3, is amended to read as follows:

a. A medical practitioner or health care institution has the right not to participate in or pay for a health care service that violates the medical practitioner's or health care institution's conscience. A medical practitioner shall inform the medical practitioner's employer of the nature of the ~~medical's~~ medical practitioner's objection based on the practitioner's conscience. This paragraph shall not be construed to waive or modify a duty a medical practitioner or health care institution may have to participate in a health care service that does not violate the medical practitioner's conscience.

Sec. 20. 2026 Iowa Acts, House File 2562, section 10, if enacted, is amended by striking the section and inserting in

lieu thereof the following:

SEC. 10. Section 144H.1, subsection 6, as enacted in section 1 of this Act, is amended by striking the subsection and inserting in lieu thereof the following:

6. *"Person authorized to consent"* means an individual, in the same order of priority prescribed in section 144A.7, subsection 1, paragraph *"b"*, who shall be guided by the express or implied intentions of the patient and who is reasonably available, willing, and competent to consent, refuse to consent, or withdraw consent on a patient's behalf.

Sec. 21. Section 148.11A, subsection 2, paragraph b, as enacted by 2026 Iowa Acts, Senate File 2184, section 3, is amended to read as follows:

b. The board shall adopt rules pursuant to chapter 17A to set the term of an administrative medicine license, but shall not require an administrative medicine license to be renewed more often than once every three years. An administrative medicine license shall expire on the licensee's birthday.

Sec. 22. Section 256C.4, subsection 1A, paragraph b, if enacted by 2026 Iowa Acts, House File 2754, section 87, is amended to read as follows:

b. For the fiscal year beginning July 1, ~~2025~~ 2026, and each succeeding fiscal year, of the amount of state preschool funding received by a community-based provider approved to directly participate in the preschool program for a fiscal year, not more than five percent may be used by the community-based provider for administering the approved local program. Outreach activities and rent for facilities not owned by the community-based provider are permissive uses of the administrative funds.

Sec. 23. Section 280.37, subsection 3, if enacted by 2026 Iowa Acts, Senate File 2086, section 4, is amended to read as follows:

3. If the board of directors of a school district or the authorities in charge of an accredited nonpublic school offer the elective junior fire fighter program, then the board of directors of the school district or the authorities in charge of the accredited nonpublic school shall coordinate with a local fire department to ensure students are provided with the

appropriate materials and training to successfully complete all components necessary for ~~fire fighter~~ firefighter I certification, including the written certification examination and the practical certification examination.

Sec. 24. Section 280.37, subsection 4, paragraph a, if enacted by 2026 Iowa Acts, Senate File 2086, section 4, is amended to read as follows:

a. Be designed to prepare students to sit for certification testing from the fire service training bureau for ~~fire fighter~~ firefighter I certification.

Sec. 25. Section 307.22A, subsection 6, if enacted by 2026 Iowa Acts, House File 2667, section 2, is amended to read as follows:

6. The statewide urban design and specifications board shall publish on the Iowa state university of science and technology's internet site an analysis of any changes made to the statewide urban design and specifications manuals and provide an estimate of expected cost variations that are likely to be incurred, if any, by implementing the changes.

Sec. 26. Section 452A.33, subsection 1, paragraph c, subparagraph (2), Code 2026, as amended by 2026 Iowa Acts, House File 2643, section 5, is amended to read as follows:

(2) (a) If a retail dealer fails to file a timely filed report as required by this subsection or fails to maintain records required to file the report, the department may impose a civil penalty of not more than one hundred dollars per occurrence in addition to any other penalty provided by law. The penalty amount shall be deposited into the general fund of the state.

(b) A retail dealer who fails to ~~timely~~ file a timely filed report as required by this subsection for the latest determination period ending on or before the last day of the retail dealer's tax year is also ineligible to claim any tax credit available under section 422.11O, 422.11P, or 422.11Y for the tax year.

Sec. 27. Section 514F.8D, subsection 5, if enacted by 2026 Iowa Acts, House File 2635, section 4, is amended to read as follows:

5. The commissioner of insurance may adopt rules pursuant to

chapter 17A to administer and enforce this section.

Sec. 28. Section 537C.9, as enacted by 2026 Iowa Acts, House File 2497, section 9, is amended to read as follows:

537C.9 Program agreement — approved parties.

1. A program shall only enter into a program agreement with the following persons:

~~1.~~ *a.* A resident of this state who holds a driver's license issued in this state that authorizes the person to operate a vehicle of the class of the shared vehicle that is the subject of the program agreement.

~~2.~~ *b.* A nonresident of this state who holds a driver's license issued by the state or country of the person's residence that authorizes the person to operate a vehicle of the class of the shared vehicle that is the subject of the program agreement, and is at least the minimum age required by this state to operate a vehicle of that class.

~~3.~~ *c.* A person who is specifically authorized by this state to operate a vehicle of the class of the shared vehicle that is the subject of the program agreement.

~~4.~~ 2. A program shall keep permanent records of all of the following:

a. The names and address of each shared vehicle driver.

b. The driver's license number and place of issuance of each shared vehicle driver, and any other person who may operate a shared vehicle under a program agreement.

Sec. 29. Section 910.2, subsection 3, as enacted by 2026 Iowa Acts, House File 2697, section 1, is amended to read as follows:

3. Notwithstanding any other statute or rule of law, with the consent of the defendant and the prosecuting attorney, the court may order as part of the dismissal of a public offense or violation of an ordinance that the defendant pay pecuniary damages to the victim~~,~~ and category "B" restitution, which shall include court costs.

Sec. 30. 2026 Iowa Acts, House File 2739, section 13, is amended to read as follows:

SEC. 13. TEMPORARY PROVISIONS FOR THE HEALTH CARE-RELATED TAX AND PREPAYMENTS FOR CALENDAR YEAR 2026. Notwithstanding section 432B.2, subsection 1, if enacted by this division

of this Act, each health ~~care~~ maintenance organization transacting business in this state shall be subject to a health care-related tax payable to the director of revenue in an amount equal to three and one-half percent of the applicable percentage of taxable funds as defined in section 432B.1, if enacted by this division of this Act, for the period in calendar year beginning January 1, 2026, and ending September 30, 2026. The difference between the amount of taxes collected pursuant to this section and the amount of tax that would be collected by imposing the rate under section 432B.2, subsection 1, if enacted by this division of this Act, shall not be subject to prepayment under section 432B.3, subsection ~~1~~ 2, if enacted by this division of this Act.

Sec. 31. 2026 Iowa Acts, House File 2757, sections 5 and 6, if enacted, are amended to read as follows:

SEC. 5. APPLICABILITY. Except as otherwise provided, this Act applies to tangible personal property or specified digital ~~projects~~ products sold to or of services furnished to a nuclear electric generation facility when permissible under section 423.3, subsection 111, paragraph "c", if enacted by this Act.

SEC. 6. RETROACTIVE APPLICABILITY. This Act applies retroactively to January 1, 2026, for tangible personal property or specified digital ~~projects~~ products sold to or of services furnished to a nuclear electric generation facility that is undertaking an activity described in section 423.3, subsection 111, paragraph "a", subparagraph (1), subparagraph subdivision (i), if enacted by this Act.

Sec. 32. EFFECTIVE DATE. The following, being deemed of immediate importance, take effect upon enactment:

1. The section of this division of this Act amending section 256C.4, subsection 1A, paragraph "b".

2. The section of this division of this Act amending 2026 Iowa Acts, House File 2739, section 13.

Sec. 33. RETROACTIVE APPLICABILITY. The following applies retroactively to the effective date of 2026 Iowa Acts, House File 2754, if enacted:

The section of this division of this Act amending section 256C.4, subsection 1A, paragraph "b".

Sec. 34. RETROACTIVE APPLICABILITY. The following applies

retroactively to January 1, 2026, for tax years beginning on or after that date:

The section of this division of this Act amending 2026 Iowa Acts, House File 2739, section 13.

DIVISION III

NATIONAL ELECTRICAL CODE

Sec. 35. Section 103.1, Code 2026, is amended by adding the following new subsection:

NEW SUBSECTION. 12A. *"National electrical code"* means the national electrical code, 2023 edition, published by the national fire protection association, as modified by section 103.1B, and excluding sections 210.52(C)(3), 230.67, and 406.4(D)(4) of the national electrical code, 2023 edition.

Sec. 36. NEW SECTION. **103.1B National electrical code — alterations.**

For purposes of the national electrical code:

1. *Dwelling units.* Section 210.8(A) of the national electrical code, 2023 edition, is amended by requiring that one hundred twenty-five volt through two hundred fifty volt receptacles supplied by single-phase branch circuits rated one hundred fifty volts or less to ground installed in a kitchen only require ground-fault circuit interrupter protection for personnel where receptacles are installed to serve the countertop surfaces and by striking section 210.8(A)(7) of the national electrical code, 2023 edition. In lieu of basements, section 210.8(A) of the national electrical code, 2023 edition, shall apply to unfinished portions or areas of the basement not intended as habitable rooms.

2. *Arc-fault circuit interrupters.* Notwithstanding section 210.12(B) of the national electrical code, 2023 edition, arc-fault circuit interrupters shall not be required for one-family and two-family dwellings and townhouses, and section 210.12(B) of the national electrical code, 2023 edition, shall not apply to kitchens or laundry areas.

3. *Kitchen receptacles on islands and peninsulas.* In lieu of the requirements of section 210.52(C)(2) of the national electrical code, 2023 edition, an electrical provision or at least one receptacle shall be installed at each island and peninsular countertop space with a long dimension of six

hundred millimeters, or twenty-four inches, or greater and a short dimension of three hundred millimeters, or twelve inches, or greater, with a peninsular countertop being measured from the connected perpendicular wall.

4. *Load calculations.* With respect to section 220.5(C) of the national electrical code, 2023 edition, the calculated floor area of a dwelling unit shall additionally exclude garages.

5. *Ceiling outlets.* In addition to the requirements of section 314.27(A)(2) of the national electrical code, 2023 edition, outlet boxes mounted in the ceilings of family rooms, living rooms, parlors, libraries, dens, bedrooms, sunrooms, recreation rooms, and similar areas of dwelling occupancies, and located in an area of the ceiling typical for the installation of a ceiling-suspended paddle fan shall be installed to accommodate a ceiling-suspended paddle fan in accordance with section 314.27(C) of the national electrical code, 2023 edition.

6. *Boxes at ceiling-suspended paddle fan outlets.* In lieu of the second paragraph of section 314.27(C) of the national electrical code, 2023 edition, where a ceiling-suspended paddle fan is not installed, the outlet box shall comply with either section 314.27(C)(1) or 314.27(C)(2) of the national electrical code, 2023 edition.

7. *Receptacles near bathtub and shower spaces.* In lieu of the requirements of and exceptions to section 406.9(C) of the national electrical code, 2023 edition, receptacles shall not be installed within or directly over a bathtub or shower stall.

8. *Ground-fault circuit interrupters.* Ground-fault circuit interrupter protection is not required for receptacles that serve sump pumps or refrigerators.

Sec. 37. NEW SECTION. **103.1C Electrical code — amendments — limitations.**

1. A political subdivision shall not adopt a local electrical code that is more restrictive than the national electrical code.

2. Prior to adopting any changes to the national electrical code pursuant to section 103.6, including but not limited to by adopting the national electrical code, 2026 edition, published

by the national fire protection association, the board shall conduct an analysis of the cost to consumers of any significant changes to the national electrical code. The analysis shall be submitted to the administrative rules coordinator and the administrative code editor for publication in the Iowa administrative bulletin along with the notice of intended action.

Sec. 38. FUTURE REPEAL. Section 103.1, subsection 12A, and section 103.1B, as enacted by this division of this Act, are repealed effective upon the adoption of the national electrical code, 2026 edition, published by the national fire protection association, by the electrical examining board. The electrical examining board shall inform the Iowa Code editor upon the adoption of the national electrical code, 2026 edition.

Sec. 39. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

DIVISION IV

LOCAL LAWS — CIVIL RIGHTS

Sec. 40. Section 216.19, subsection 1, unnumbered paragraph 1, Code 2026, as amended by 2026 Iowa Acts, Senate File 579, section 1, is amended to read as follows:

All cities shall, to the extent possible, protect the rights of the citizens of this state secured by the Iowa civil rights Act. A city or local government shall not enact or enforce any ordinance or other law which is broader or has different categories of unfair or discriminatory practices than those provided in this chapter. Nothing in this chapter shall be construed as indicating any of the following:

DIVISION V

POLITICAL PARTY STATE CENTRAL COMMITTEES

Sec. 41. Section 43.111, subsections 1 and 3, Code 2026, are amended to read as follows:

1. *a.* The state convention held by each political party pursuant to section 43.107 shall adopt a state platform, adopt or amend a state party constitution, and bylaws if desired, and transact other business which may properly be brought before it. A copy of the constitution and any bylaws so adopted or amended shall be kept on file in the office of the state commissioner.

b. A state party constitution or bylaws shall not prohibit an elected official from serving on a state party central committee.

3. *a.* The state central committee so selected may organize at pleasure for political work as is usual and customary with such committees, adopt bylaws, provide for the governing of party auxiliary bodies, and shall continue to act until succeeded by another central committee selected as required by this section. The receipts and disbursements of each political party's state party central committee shall be audited annually by a certified public accountant selected by the state party central committee and the audit report shall be filed with the state commissioner.

b. Each political party's state central committee shall elect a chairperson, co-chairperson or vice chairperson, treasurer, and secretary.

DIVISION VI

NOXIOUS WEEDS

Sec. 42. Section 317.1A, subsection 1, paragraph a, Code 2026, is amended by adding the following new subparagraph:

NEW SUBPARAGRAPH. (13) Japanese knotweed (Fallopia japonica).

DIVISION VII

IOWA STATE FAIR FOUNDATION — NONRESIDENT DEER HUNTING LICENSE

Sec. 43. Section 483A.24, subsection 3, unnumbered paragraph 1, Code 2026, is amended to read as follows:

The director shall provide up to one hundred ~~twenty-five~~ twenty-six nonresident deer hunting licenses for allocation as provided in this subsection.

Sec. 44. Section 483A.24, subsection 3, Code 2026, is amended by adding the following new paragraph:

NEW PARAGRAPH. *c.* One nonresident deer hunting license shall be allocated as determined by the Iowa state fair foundation established pursuant to section 173.22.

DIVISION VIII

PROPRIETARY TREATMENT SYSTEMS

Sec. 45. NEW SECTION. **455B.241 Definitions.**

As used in this part 3 of subchapter III, unless the context otherwise requires:

1. *"Certified technician"* means a person who is certified in accordance with the manufacturer to monitor, maintain, and inspect a proprietary treatment system.

2. *"Proprietary treatment system"* means a system that is certified by an ANSI-accredited third-party certifier, including certification meeting standard NSF/ANSI40 for effluent from class I systems.

Sec. 46. NEW SECTION. **455B.242 Monitoring and maintenance requirements.**

1. A proprietary treatment system shall be inspected, monitored, and maintained by the certified technician in accordance with the manufacturer's specifications.

2. All maintenance and visual inspections of a proprietary treatment system shall be performed by a certified technician. A manufacturer-certified technician shall report results, as provided in section 455B.243, to the system owner and to the applicable administrative authority within thirty days following the inspection. The certified technician shall also report any discontinuance or proprietary treatment system maintenance to the applicable administrative authority. If the applicable administrative authority is not the department, the administrative authority must also submit the information to the department in the form and manner prescribed by the department.

Sec. 47. NEW SECTION. **455B.243 Reporting.**

1. A maintenance and visual inspection report for a proprietary treatment system, as required under section 455B.242, that was installed on or after January 1, 2018, shall record at least all of the following information:

a. The date of the inspection.

b. The manufacturer and model of the proprietary treatment system.

c. Any sign of equipment malfunction, the cause or potential cause of the malfunction, and any corrective action taken.

d. Results of effluent testing if the proprietary treatment system is subject to national pollution discharge elimination system general permit number four for private sewage disposal systems.

e. If the proprietary treatment system appears to be

functioning incorrectly, the primary cause or causes for the deficiency, including but not limited to any of the following:

(1) Improper design.

(2) Improper installation.

(3) Lack of required maintenance.

(4) Improper operation or malfunction.

(5) Other damages or conditions contributing to the malfunction that require a repair or replacement.

f. Whether the proprietary treatment system required repair outside of scheduled maintenance intervals, including the reason for the repair and whether the system was in a failed state at the time of repair.

g. Any action taken to bring the proprietary treatment system back into operation as designed.

h. Maintenance records as required by the manufacturer's warranty for the proprietary treatment system.

2. The completed report shall be submitted to the department by the certified technician in the form and manner prescribed by the department.

3. The department shall compile the information submitted pursuant to this section and shall maintain a publicly accessible database summarizing inspection outcomes and unscheduled failures or repairs. The information in the database shall include the name of the proprietary treatment system, product name, and model design. The database shall not include personally identifiable information.

4. The department shall not assess any fees associated with the receipt or collection of reports required under this section.

Sec. 48. NEW SECTION. **455B.244 Rulemaking authority.**

The department may adopt rules as necessary to administer this part.

Sec. 49. DEPARTMENT OF NATURAL RESOURCES — PROPRIETARY TREATMENT SYSTEM REVIEW AND REPORT.

1. The department of natural resources shall review the information regarding proprietary treatment systems, as defined in section 455B.241, as enacted by this division of this Act, reported to the department pursuant to section 455B.243, as enacted by this division of this Act.

2. The department shall review the information submitted in annual inspection and maintenance reports, including proprietary treatment system functionality, causes of deficiencies, and maintenance practices. The department shall also review any other data the department determines relevant to evaluating system performance.

3. The review shall include analysis of inspection, monitoring, and maintenance data collected from July 1, 2026, to December 1, 2028, for purposes of evaluating the performance, reliability, maintenance needs, and common causes of malfunction of proprietary treatment systems.

4. The department shall submit to the general assembly on or before January 10, 2029, a report detailing the department's findings and recommendations.

Sec. 50. APPLICABILITY. This division of this Act applies to the inspection, monitoring, and maintenance of proprietary treatment systems, as defined in section 455B.241, as enacted by this division of this Act, performed on or after July 1, 2026.

DIVISION IX

POULTRY ASSOCIATION

Sec. 51. Section 163.3C, subsection 1, paragraph f, Code 2026, is amended to read as follows:

f. The ~~Iowa~~ north central poultry association or its successor organization.

Sec. 52. Section 165B.5, subsection 2, paragraph e, Code 2026, is amended to read as follows:

e. An event sponsored or sanctioned by the Iowa turkey marketing council, the Iowa turkey federation, the national turkey federation, the ~~Iowa~~ north central poultry association or its successor organization, the Iowa egg council, the American egg board, or the American poultry association.

Sec. 53. Section 184.2, subsection 4, Code 2026, is amended to read as follows:

4. Immediately after passage of the question at the referendum, the secretary shall appoint seven members to the council in accordance with section 184.6 based on nominations made by the ~~Iowa~~ north central poultry association or its successor organization. The association shall nominate and

the secretary shall appoint two members representing large producers, two members representing medium producers, and three members representing small producers. The department, in consultation with the association, shall determine initial classifications for small, medium, and large producers. The secretary shall complete the appointments within thirty days following passage of the question at the referendum.

Sec. 54. Section 267.2, subsection 2, paragraph d, Code 2026, is amended to read as follows:

d. One poultry producer appointed by the north central poultry association, or its successor organization, who shall serve an initial term of two years.

DIVISION X

HEALTH CARE ACCESS AND INNOVATION TAX CREDIT

Sec. 55. NEW SECTION. 432.12P Health care access and innovation tax credit.

1. As used in this section:

a. *"Department"* means the department of revenue.

b. *"Domestic insurer"* means the same as defined in section 521A.1.

c. *"Eligible taxpayer"* means a domestic insurer that files an annual statement pursuant to section 508.11, completes the national association of insurance commissioner's health statement test, and has policies in force issued pursuant to chapter 513B.

d. *"Expenditures"* includes programs, payments, or grants.

e. *"Health care access and innovation"* means expenditures that support one or more of the following:

(1) Improving access to health care services in rural areas in this state.

(2) Value-based payments to a health care provider that provides additional compensation to the health care provider based on evidence-based metrics of the health care provider's patient care or outcomes.

(3) Increasing the interoperability or transparency of health care information to benefit health care consumers and health care providers.

2. The tax imposed under this chapter shall be reduced by a health care access and innovation tax credit authorized in this

section for tax years beginning on or after January 1, 2026, but before January 1, 2034.

3. The amount of the health care access and innovation tax credit shall equal twenty-five percent of the expenditures that support health care access and innovation made by an eligible taxpayer.

4. In order to claim the tax credit for a tax year, an eligible taxpayer shall apply to the department in a manner approved by the department, and shall provide any other information related to the tax credit requested. The cumulative value of tax credits claimed in each tax year by applicants shall not exceed three million dollars.

5. The department, in consultation with the department of insurance and financial services, may adopt rules pursuant to chapter 17A to administer this section.

Sec. 56. RETROACTIVE APPLICABILITY. This division of this Act applies retroactively to January 1, 2026, for tax years beginning on or after that date. JK

DIVISION XI

ALTERNATIVE NICOTINE AND VAPOR PRODUCTS — PEDIATRIC CANCER RESEARCH

Sec. 57. Section 453A.35A, subsection 1, paragraph b, subparagraph (1), if enacted by 2026 Iowa Acts, Senate File 2480, section 3, is amended to read as follows:

(1) For the fiscal year beginning July 1, 2027, and each fiscal year thereafter, the first three million dollars from the amount of tax collected that is attributable to the additional taxes on alternative nicotine products and vapor products pursuant to section 453A.43A is appropriated from the health care trust fund to the state board of regents for the purpose of conducting pediatric cancer research~~,~~ and clinical therapy access~~, and providing physician-scientist leadership~~ at the state university of Iowa stead family children's hospital. Moneys appropriated in this subparagraph shall not be used for administrative or overhead costs, or activities not directly related to the purposes designated in this subparagraph.

Sec. 58. Section 453A.45, subsection 5, paragraph c, unnumbered paragraph 1, Code 2026, as amended by 2026 Iowa Acts, Senate File 2480, section 8, if enacted, is amended to

read as follows:

c. Common carriers knowingly transporting tobacco products, alternative nicotine products, or vapor products into this state shall file with the director reports of all such shipments other than those which are delivered to public warehouses of first destination in this state which are licensed under the provisions of chapter 554. Such reports shall be filed electronically with the department on or before the tenth day of each month and shall show with respect to deliveries made in the preceding month all of the following:

Sec. 59. SPORTS WAGERING RECEIPTS FUND — PEDIATRIC CANCER RESEARCH — FY 2026-2027.

1. There is appropriated from the sports wagering receipts fund created in section 8.57I to the state board of regents for the fiscal year beginning July 1, 2026, and ending June 30, 2027, the following amount, or so much thereof as is necessary, to be used for the purposes designated:

For pediatric cancer research including but not limited to laboratory research and clinical trials at the university of Iowa hospitals and clinics, and for providing therapy access at the state university of Iowa stead family children's hospital:

..... $ 3,000,000

2. Moneys appropriated in this section shall not be used for administrative or overhead costs, or activities not directly related to the purposes designated in this section.

3. The state board of regents shall submit a report to the governor and the general assembly by October 1, 2027, detailing how the appropriated moneys were used.

4. Section 8.57I, subsections 5 and 6, do not apply to moneys appropriated in this section.

Sec. 60. CONTINGENT EFFECTIVE DATE. The following take effect January 1, 2027, if 2026 Iowa Acts, Senate File 2480, is enacted:

1. The section of this division of this Act amending section 453A.35A.

2. The section of this division of this Act amending section 453A.45.

Sec. 61. CONTINGENT EFFECTIVE DATE. The following takes effect July 1, 2026, if 2026 Iowa Acts, Senate File 2480, is

enacted:

The section of this division of this Act appropriating moneys from the sports wagering receipts fund.

DIVISION XII

PUBLIC ASSISTANCE PROGRAMS

Sec. 62. 2026 Iowa Acts, Senate File 2422, if enacted, is amended by adding the following new section:

NEW SECTION. SEC. 2A. CONTINGENT EFFECTIVE DATE. This division of this Act takes effect on the date the department of health and human services implements the supplemental nutrition assistance program and cash assistance eligibility system known as the eligibility determination for essential needs system. The department of health and human services shall notify the Iowa Code editor of the date of implementation on or before that date.

Sec. 63. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

DIVISION XIII

JUDICIAL BRANCH AND COUNTY ATTORNEY SALARIES

Sec. 64. Section 331.752, subsection 5, Code 2026, is amended to read as follows:

5. The resolution changing the status of a county attorney shall state the initial annual salary to be paid to the county attorney when the full-time or part-time status is effective. The annual salary specified in the resolution shall remain effective until changed as provided in section 331.907. ~~Except in counties having a population of more than two hundred thousand, the annual salary of a full-time county attorney shall be an amount which is between forty-five percent and one hundred percent of the annual salary received by a district court judge.~~

Sec. 65. Section 602.1401, subsections 1 and 5, Code 2026, are amended to read as follows:

1. The supreme court shall establish, and may amend, a personnel system and a pay and benefits plan for judicial officers, the state court administrator, and court employees. The personnel system shall include a designation by position title, classification, and function of each position or class of positions within the judicial branch. Reasonable efforts

shall be made to accommodate the individual staffing and management practices of the respective clerks of the district court. The personnel system, in the employment of court employees, shall not discriminate on the basis of race, creed, color, sex, national origin, religion, physical disability, or political party preference. The supreme court, in establishing the personnel system, shall implement the comparable worth directives issued by the state court administrator under section 602.1204, subsection 2. The personnel system shall include the prohibitions against sexual harassment of full-time, part-time, and temporary employees set out in section 19B.12, and shall include a grievance procedure for discriminatory harassment. The personnel system shall develop and distribute at the time of hiring or orientation, a guide that describes ~~for employees~~ the applicable sexual harassment prohibitions and grievance, violation, and disposition procedures. This subsection does not supersede the remedies provided under chapter 216.

5. The pay and benefits plan shall set the compensation and benefits of judicial officers, the state court administrator, and court employees within the funds appropriated by the general assembly.

Sec. 66. Section 602.1502, subsection 1, Code 2026, is amended by striking the subsection.

Sec. 67. Section 602.6808, subsection 1, if enacted by 2026 Iowa Acts, Senate File 639, section 8, is amended to read as follows:

1. A judge of the business court shall receive the annual salary set for a district judge under section ~~602.1501~~ 602.1401.

Sec. 68. Section 602.9104, subsection 1, paragraph a, Code 2026, is amended to read as follows:

a. A judge to whom this article applies shall be paid an amount equal to the basic salary of the judge as set ~~by the general assembly~~ pursuant to section 602.1401 reduced by an amount designated as the judge's required contribution to the judicial retirement fund. The amount designated as the judge's required contribution shall be paid by the state in the manner provided in subsection 2.

Sec. 69. Section 602.9204, subsection 1, paragraph a, Code 2026, is amended to read as follows:

a. A judge who retires on or after July 1, 1994, and who is appointed a senior judge under section 602.9203 shall be paid a salary ~~as~~ determined ~~by the general assembly~~ pursuant to section 602.1401.

Sec. 70. Section 602.9303, subsection 1, as enacted by 2026 Iowa Acts, House File 2706, section 30, is amended to read as follows:

1. A magistrate who retires on or after the effective date of this division of this Act, and who is appointed a senior magistrate under section 602.9302, shall be paid a salary as determined ~~by the general assembly~~ pursuant to section 602.1401.

Sec. 71. 2026 Iowa Acts, House File 2769, section 4, if enacted, is amended to read as follows:

SEC. 4. JUDICIAL OFFICER — UNPAID LEAVE. Notwithstanding the annual salary rates for judicial officers established ~~by 2025 Iowa Acts, chapter 158, section 6,~~ pursuant to section 602.1401 for the fiscal year beginning July 1, 2026, and ending June 30, 2027, the supreme court may by order place all judicial officers on unpaid leave status on any day employees of the judicial branch are placed on temporary layoff status. The biweekly pay of the judicial officers shall be reduced accordingly for the pay period in which the unpaid leave date occurred in the same manner as for noncontract employees of the judicial branch. Through the course of the fiscal year, the judicial branch may use an amount equal to the aggregate amount of salary reductions due to the judicial officer unpaid leave days for any purpose other than for judicial salaries.

Sec. 72. REPEAL. 2026 Iowa Acts, House File 2706, sections 35, 36, and 37, are repealed.

Sec. 73. REPEAL. Section 602.1501, Code 2026, is repealed.

Sec. 74. JUDICIAL OFFICERS — CURRENT SALARY RATES SUPERSEDED. For purposes of 2025 Iowa Acts, chapter 158, section 6, subsection 1, this division of this Act shall be deemed as the provision of salary rates for judicial officers by the general assembly for fiscal years subsequent to the fiscal year beginning July 1, 2025.

Sec. 75. EFFECTIVE DATE. This division of this Act takes effect June 19, 2026.

DIVISION XIV

CIVIL LITIGATION ABUSE

Sec. 76. NEW SECTION. 611.24 Civil litigation abuse — cause of action.

1. As used in this section:

a. "Civil legal process" means a procedure used in a civil action, including but not limited to filing a petition, issuing a subpoena, noticing a deposition, or seeking an injunction, attachment, or similar relief.

b. "Private party" means an individual, corporation, partnership, or other legal entity that is not acting on behalf of a governmental body.

c. "Ulterior purpose" means using a civil legal process mainly to obtain a result the civil legal process was not intended to achieve, including but not limited to coercing action on an unrelated matter, interfering with employment or business relationships, or causing financial harm through harassment.

2. *a.* This section applies to the use of civil legal processes by a private party against another private party.

b. This section abrogates the common law cause of action for abuse of process for actions between private parties.

c. This section does not apply to criminal proceedings or to actions involving the state, a political subdivision, or an officer or employee of the state or a political subdivision acting in an official capacity.

3. A private party may bring a civil action for civil litigation abuse against another private party who initiated or caused to be initiated a civil legal process for an ulterior purpose.

4. To prevail in a civil action brought under this section, the plaintiff must prove all of the following:

a. The defendant used a civil legal process against the plaintiff.

b. The civil legal process was used primarily for an ulterior purpose.

c. The defendant engaged in a specific, willful act in use

~~of the civil legal process that was not proper in the regular course of the proceeding.~~

~~*d.* The underlying civil action or proceeding was resolved in favor of the plaintiff bringing the claim under this section.~~

~~5. A private party may bring a civil action under this section without showing a special or extraordinary injury. Attorney fees and costs incurred in responding to the misuse of the civil legal process are sufficient to establish injury.~~

~~6. A private party found liable under this section is liable for actual damages, as defined in section 714H.2, including reasonable attorney fees and costs.~~

~~Sec. 77. APPLICABILITY. This division of this Act applies to civil actions or proceedings that are resolved on or after the effective date of this division of this Act.~~]

DIVISION XV

HUMAN TRAFFICKING

Sec. 78. Section 232.71B, subsection 1, paragraph a, unnumbered paragraph 1, Code 2026, is amended to read as follows:

If the department determines a report constitutes a child abuse allegation, the department shall promptly commence either a child abuse assessment within twenty-four hours of receiving the report or a family assessment within seventy-two hours of receiving the report. During a child abuse assessment, if the department identifies known risk factors for commercial sexual exploitation, a screening shall be conducted by a trained child protection worker, considering the child's age, cognitive and emotional functioning, and the specific circumstances of the case.

Sec. 79. 2026 Iowa Acts, House File 1036, section 11, if enacted, is amended to read as follows:

SEC. 11. EFFECTIVE DATE. The following takes effect July 1, ~~2026~~ 2027:

The section of this Act amending section 910.1.

Sec. 80. REPEAL. 2026 Iowa Acts, House File 1036, sections 1 and 4, if enacted, are repealed.

Sec. 81. REPORT. Notwithstanding 2026 Iowa Acts, House File 1036, section 10, if enacted, the report described in that section is due by December 15, 2026.

Sec. 82. CONTINGENT EFFECTIVE DATE. This division of this Act takes effect July 1, 2026, if 2026 Iowa Acts, House File 1036, is enacted.

DIVISION XVI

FEDERAL GRANTS AND LOANS — NOTIFICATION

Sec. 83. Section 8.9, Code 2026, is amended by adding the following new subsection:

NEW SUBSECTION. 3. *a.* Once per month, the office of grants enterprise management shall notify by electronic mail the chairpersons and ranking members of the standing committees on appropriations of the senate and house of representatives, the chairperson and ranking member of the house of representatives appropriations subcommittee on federal and other funds, and the legislative services agency of all of the following:

(1) Each federal grant or loan of five million dollars or more that a department or establishment has applied for or received in the prior month. This subparagraph does not apply to the department of public defense or the state board of regents or its institutions.

(2) Each federal grant or loan requiring state matching moneys that a department or establishment has applied for or received in the prior month.

b. This subsection does not apply to block grants described in section 8.41.

Sec. 84. NEW SECTION. **602.1306 Federal grants and loans — notification of general assembly.**

Within thirty days of applying for or receiving a federal grant or loan of five million dollars or more, or a federal grant or loan requiring state matching moneys, the judicial branch shall notify by electronic mail the chairpersons and ranking members of the standing committees on appropriations of the senate and house of representatives, the chairperson and ranking member of the house of representatives appropriations subcommittee on federal and other funds, and the legislative services agency.

DIVISION XVII

AREA EDUCATION AGENCIES — QUARTERLY PAYMENTS — FY 2026-2027

Sec. 85. Section 257.35, subsection 1, paragraph a, subparagraph (3), unnumbered paragraph 1, Code 2026, as amended

by 2026 Iowa Acts, Senate File 2201, section 17, is amended to read as follows:

For the fiscal year beginning July 1, 2025, ~~and the fiscal year beginning July 1, 2026,~~ the department of management shall deduct the following from the state aid due to each school district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year:

Sec. 86. Section 257.35, subsection 1, paragraph a, subparagraph (4), unnumbered paragraph 1, as enacted by 2026 Iowa Acts, Senate File 2201, section 18, is amended to read as follows:

For the fiscal year beginning July 1, ~~2027~~ 2026, and each fiscal year thereafter, the department of management shall deduct the following from the state aid due to each school district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a quarterly basis from July 15 to April 15 during each school year:

Sec. 87. Section 257.35, subsection 21, unnumbered paragraph 1, Code 2026, as amended by 2026 Iowa Acts, Senate File 2201, section 19, is amended to read as follows:

For the fiscal year beginning July 1, 2025, ~~and the fiscal year beginning July 1, 2026,~~ the director of the department of management may deduct the following from the state aid due to each school district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year for purposes of providing services to students enrolled in nonpublic schools within the boundaries of the area education agency:

Sec. 88. Section 257.35, subsection 21A, unnumbered paragraph 1, as enacted by 2026 Iowa Acts, Senate File 2201, section 20, is amended to read as follows:

For the fiscal year beginning July 1, ~~2027~~ 2026, and each fiscal year thereafter, the director of the department of management may deduct the following from the state aid due to each school district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a quarterly basis from July 15 through April 15 during each

school year for the purposes of providing services to students enrolled in nonpublic schools within the boundaries of the area education agency:

DIVISION XVIII

HIGHER EDUCATION — CIVIC PROFICIENCY

Sec. 89. NEW SECTION. **262.100 General education requirements and core curricula — courses on American history and American government.**

1. The state board of regents shall require each institution of higher education governed by the board to establish as a requirement for the completion of any general education requirements or core curricula that an undergraduate student complete an introductory survey course in American history and an introductory survey course in American government. An institution shall assign a value of at least three semester hours of credit to each course. A course required by this section shall be a comprehensive survey of all American history and American government.

2. A course required by this section shall fulfill the general education or core curriculum requirement for social sciences or humanities, as designated by the institution, that a student is required to complete as a condition of graduation.

3. An institution shall provide equivalent credit toward the courses required by this section to a student transferring to the institution for previous coursework completed by the student that is substantially similar to a required course.

4. This section does not apply to a student completing a degree program designated by an institution as a degree program of three years or less in duration.

5. *a.* Annually, the center for cyclone civics at the Iowa state university of science and technology and the center for civic education at the university of northern Iowa shall designate courses at their respective institutions that satisfy the requirements of this section.

b. The center for intellectual freedom at the state university of Iowa shall be the sole academic unit at the state university of Iowa responsible for offering courses that satisfy the requirements of this section.

Sec. 90. APPLICABILITY. This division of this Act applies

to undergraduate students beginning enrollment at institutions of higher education governed by the board of regents in academic years beginning on or after July 1, 2028.

DIVISION XIX

CHARTER SCHOOLS — IPERS

Sec. 91. Section 97B.1A, subsection 8, paragraph a, subparagraph (13), if enacted by 2026 Iowa Acts, House File 2754, section 69, is amended to read as follows:

(13) Persons employed by a charter school established pursuant to chapter 256E~~, subchapter I,~~ that satisfies all applicable requirements under federal law for participation in the retirement system.

Sec. 92. Section 97B.1A, subsection 9, paragraph a, Code 2026, as amended by 2026 Iowa Acts, House File 2754, section 70, if enacted, is amended to read as follows:

a. "Employer" means the state of Iowa, the counties, municipalities, agencies, public school districts, charter schools established pursuant to chapter 256E~~, subchapter I,~~ that satisfy all applicable requirements under federal law for participation in the retirement system, all political subdivisions, and all of their departments and instrumentalities, including area agencies on aging, other than those employing persons as specified in subsection 8, paragraph *"b"*, subparagraph (7), and joint planning commissions created under chapter 28E or 28I.

Sec. 93. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

Sec. 94. RETROACTIVE APPLICABILITY. This division of this Act applies retroactively to the effective date of 2026 Iowa Acts, House File 2754, if enacted.

DIVISION XX

INCENTIVES — SCHOOL DISTRICTS

Sec. 95. Section 257.3, subsection 2, paragraph d, Code 2026, is amended to read as follows:

d. For purposes of this section, a reorganized school district is one which absorbs at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution is initiated by a vote

of the board of directors or jointly by the affected boards of directors to take effect on or after July 1, 2007, and on or before July 1, ~~2024~~ 2035. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, ~~2024~~ 2035, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

Sec. 96. Section 257.11, subsection 2, paragraph c, Code 2026, is amended to read as follows:

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall be eligible for supplementary weighting pursuant to this subsection. A school district which executes a whole grade sharing agreement and which adopts a resolution jointly with other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, ~~2024~~ 2035, shall receive a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this paragraph for a maximum of three years. Receipt of supplementary weighting for a second and third year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, ~~2024~~ 2035.

Sec. 97. Section 257.11A, subsections 1 and 2, Code 2026, are amended to read as follows:

1. In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing pursuant to section 257.11 and the school district has approved an action to bring about a reorganization to take effect on and after July 1, 2007, and on or before July 1, ~~2024~~ 2035, the reorganized school district shall include,

for a period of three years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. For the purposes of this subsection, the weighted enrollment for the period of three years following the effective date of reorganization shall include the supplementary weighting in the base year used for determining the combined district cost for the first year of the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district.

2. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 2007, and on or before July 1, ~~2024~~ 2035. Each district which initiates, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, ~~2024~~ 2035, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

DIVISION XXI

EXTRACURRICULAR INTERSCHOLASTIC ELIGIBILITY

Sec. 98. 2026 Iowa Acts, House File 2591, sections 4, 5, and 6, if enacted, are amended to read as follows:

SEC. 4. EMERGENCY RULES. The state board of education shall adopt emergency rules under section 17A.4, subsection 3, and section 17A.5, subsection 2, paragraph "b", to implement the section of this Act amending section 256.7. The rules shall be effective ~~no later than~~ August 1, 2026. Any rules adopted in accordance with this section shall also be published as a notice of intended action as provided in section 17A.4.

SEC. 5. EFFECTIVE DATE. The following take effect August 1, 2026:

1. The section of this Act amending section 256.7.

~~1.~~ 2. The section of this Act amending section 256.46.

~~2.~~ 3. The section of this Act amending section 282.18.

SEC. 6. EFFECTIVE DATE. The following, being deemed of immediate importance, ~~take~~ takes effect upon enactment:

~~1. The section of this Act amending section 256.7.~~

~~2.~~ The section of this Act requiring emergency rulemaking.

Sec. 99. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

Sec. 100. RETROACTIVE APPLICABILITY. This division of this Act applies retroactively to the enactment date of 2026 Iowa Acts, House File 2591, if enacted.

DIVISION XXII

LEVY INCREASE

Sec. 101. SCHOOL DISTRICT CASH RESERVE LEVY INCREASE — SCHOOL BUDGET YEAR 2026-2027.

1. For the school budget year beginning July 1, 2026, a school district for which the taxable value used to calculate school district property taxes for the school budget year beginning July 1, 2025, was reduced by one hundred million dollars or more due to a correction to the taxable value of a single property within the school district made during the school budget year beginning July 1, 2025, may increase the school district's proposed cash reserve levy under section 298.10 to an amount that exceeds the limitations of section 298.10, if the district complies with subsection 2.

2. A school district that increases its cash reserve levy pursuant to this section shall also reduce one or more other property tax levies of the school district, including the district management levy under section 298.4, by a total amount equal to or greater than the increase in the cash reserve levy so that the total property tax dollars for all property tax levies of the school district does not exceed the school district's combined amount of property tax dollars determined under section 24.2A, subsection 2, paragraph "b", subparagraph (3).

3. A school district that wishes to adjust its levy rates pursuant to this section shall notify the department of management in a manner prescribed by the department. Following receipt of the notice from the school district, the department of management shall adjust the school district's property tax levy rates as necessary to implement this section.

Sec. 102. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

PAT GRASSLEY
Speaker of the House

AMY SINCLAIR
President of the Senate

I hereby certify that this bill originated in the House and is known as House File 2800, Ninety-first General Assembly.

MEGHAN NELSON
Chief Clerk of the House

Approved June 2nd, 2026, with exceptions Noted

KIM REYNOLDS
Governor

City of Davenport

Subject:

Resolution accepting work completed under the Pine Street (West 49th Street to West 53rd Street) Reconstruction Project, by CDMI Concrete Contractors, Inc. of Port Byron, Illinois in the amount of $836,964.25, CIP #35061. [Ward 2]

Recommendation:

Adopt the Resolution.

Background:

The section of Pine Street from West 49th Street to West 53rd Street had fallen into disrepair and required replacement. The existing four-lane concrete roadway, consisting of two northbound lanes and two southbound lanes, was removed and replaced with a three-lane concrete roadway consisting of two drive lanes separated by a center turn lane, with a rock base and subdrains. The project also included storm sewer upgrades, concrete driveway entries, and installation of ADA-compliant ramps.

The final cost of work performed under the contract with CDMI Concrete Contractors, Inc. of Port Byron, Illinois, was $836,964.25 and budgeted in CIP #35061 | High Volume Street Repair Program.

Resolution No. _____

Resolution offered by Alderman R. Dunn.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION accepting work completed under the Pine Street (West 49th Street to West 53rd Street) Reconstruction Project by CDMI Concrete Contractors, Inc. of Port Byron, Illinois, in the amount of $836,964.25, CIP #35061.

WHEREAS, the City of Davenport entered into a contract with CDMI Concrete Contractors, Inc. of Port Byron, Illinois, for the Pine Street (West 49th Street to West 53rd Street) Reconstruction Project; and

WHEREAS, the work of constructing the above-named project has been duly and fully completed by the contractor in accordance with the terms of the contract; and

WHEREAS the final cost of work completed under this contract was $836,964.25.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that the work completed under the Pine Street (West 49th Street to West 53rd Street) Reconstruction Project by CDMI Concrete Contractors, Inc. of Port Byron, Illinois, in the amount of $836,964.25, CIP #35061, is hereby accepted.

Passed and approved this 9th day of September, 2026.

Resolution accepting work completed under the Rockingham Road (South Farragut Street to South Elmwood Avenue) Reconstruction Project by N.J. Miller, Inc. of Bettendorf, Iowa, in the amount of $648,778.15, CIP #35061. [Ward 1]

Recommendation:

Adopt the Resolution.

Background:

This project involved replacing the asphalt with underlying brick pavement on Rockingham Road between South Elmwood Avenue and South Farragut Street with new concrete, as well as updating ADA-accessible sidewalks and pedestrian signals at the South Elmwood Avenue intersection.

The final cost of work performed under the contract with N.J. Miller, Inc. of Bettendorf, Iowa, was $648,778.15 and budgeted in CIP #35061 l High Volume Street Repair Program.

Subject:

Resolution awarding a contract for final engineering services for the South Concord Railroad Grade Separation Project to HR Green, Inc. of Cedar Rapids, Iowa, in the amount of $449,000, CIP #21013. [Ward 1]

Recommendation:

Adopt the Resolution.

Background:

This project will eliminate two highway-rail grade crossings along South Concord Street and Wapello Avenue and provide access to critical infrastructure, including a shared Water Pollution Control Plant (WPCP) and the Davenport Compost Facility. Operations at the rail yard often block these crossings, limiting access for employees, residents, businesses, customers, and emergency response. Located in the Mississippi River floodplain, these facilities also face road closures when South Concord Street is overtaken by floodwaters (which occurs when the Mississippi River exceeds 13 feet).

The project will construct a bridge overpass at the South Concord Street crossing leading to a new access road elevated out of the 100-year floodplain, while closing the low-traffic crossing at Wapello Avenue. The bridge will also feature a separate multi-use path for pedestrians and non-motorized transportation.

A Request for Qualifications (RFQ) was issued on September 25, 2023, and six (6) proposals were opened on October 23, 2023, for engineering services. A selection committee evaluated all submissions based on key personnel experience (30%), key personnel qualifications (30%), ability to meet schedule and budget (20%), present/projected workloads (10%), and consistent communication (10%).

HR Green, Inc. of Cedar Rapids, Iowa, received the highest ranking. HR Green is nearing completion of the preliminary engineering scope and will be ready to begin final design in the upcoming months. This request is to approve a contract with HR Green for the final design of this project in the amount of $449,000.

Resolution No. _____

Resolution offered by Alderman R. Dunn.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION awarding a contract for final engineering services for the South Concord Railroad Grade Separation Project to HR Green, Inc. of Cedar Rapids, Iowa, in the amount of $449,000, CIP #21013.

WHEREAS, the City of Davenport requires qualified engineering services to conduct project management, stakeholder coordination, alternative road analysis, and final engineering design for the South Concord Railroad Grade Separation Project; and

WHEREAS, this project will eliminate two highway-rail grade crossings along South Concord Street and Wapello Avenue, construct a bridge overpass and elevated roadway above the 100-year floodplain, and enhance safety and access to critical infrastructure; and

WHEREAS, the Purchasing Division issued a Request for Qualifications (RFQ) on September 25, 2023, receiving and evaluating six (6) qualification submissions; and

WHEREAS, the evaluation committee ranked HR Green, Inc. of Cedar Rapids, Iowa, highest based on established selection criteria and recommends award of the contract.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa that the contract for final engineering services for the South Concord Railroad Grade Separation Project is hereby awarded to HR Green, Inc. of Cedar Rapids, Iowa in the amount of $449,000, CIP #21013.

Passed and approved this 9th day of September, 2026.

Subject:

Resolution awarding a three-year contract, with two optional one-year renewals, for on-call maintenance services for the medium- and low-voltage distribution systems at the Water Pollution Control Plant to Tri-City Electric Company of Iowa of Davenport, Iowa. [Ward 1]

Recommendation:

Adopt the Resolution.

Background:

A Request for Proposals (RFP) was issued and sent to contractors on July 21, 2026. On August 18, 2026, the Purchasing Division opened one (1) proposal.

A selection committee evaluated the proposal on the following criteria set forth in the RFP:

- Qualifications, References, Experience | 40%
- Training & Safety Practices | 30%
- Pricing | 25%
- Quality & Thoroughness of Proposal | 5%

The evaluating committee scored the proposal submitted by Tri-City Electric Company of Iowa, Davenport, Iowa. Their proposal received high marks and the evaluating committee determined that the vendor could successfully meet the needs and requirements of the City.

This contract will encompass services including electrical distribution of 15 kV and below, and technical services including knowledge of PLC programming and automation integration, industrial communications support, and CAD drafting. Contractors will support safe, reliable plant operations through troubleshooting, emergency response, system improvements, and accurate documentation in compliance with applicable safety and industry standards.

The initial contract term will be three (3) years beginning upon approval by Davenport City

Council, with two (2) optional one-year extensions, for a maximum contract length of five (5) years. The City reserves the right to award multiple contractors if deemed in the City's best interest.

Funding for this project is from account 51151975 520226 | WPCP Fund - Machine & Equipment Maintenance.

Resolution accepting the sanitary sewer associated with the Gurley Leep development project. [Ward 8]

Recommendation:

Adopt the Resolution.

Background:

The Gurley Leep development project is a commercial development located at 1911, 1915, 2131 and 2135 East 53rd St. The sanitary sewer has been constructed to support the construction of three automobile dealership buildings and an associated car wash.

The developer is Gurley Leep Automotive Group of Mishawaka, Indiana. The plans for the site improvements were created by Snyder & Associates, Inc. of Ankeny, Iowa. The construction of the sanitary sewer was completed by Needham Excavating of Walcott, Iowa.

This action will accept the new sanitary sewer including approximately 558 linear feet of 8-inch diameter sanitary sewer and three new sanitary sewer manholes, connecting to existing downstream sanitary sewer manhole HA-27-40.

Public Works has inspected the work and found it to be acceptable according to City of Davenport specifications. This portion of the storm sewer has been satisfactorily completed and is hereby formally accepted, and, as of this date, considered public infrastructure.

Resolution approving the plans, specifications, form of contract, and estimate of cost for the Eastern Avenue Bridge (South) Over Goose Creek Replacement Project, CIP #21012. [Wards 6 & 7]

Recommendation:

Adopt the Resolution.

Background:

This project will replace the south bridge over Goose Creek on Eastern Avenue, consisting of the removal and disposal of all existing bridge components and replacement with a new slab bridge meeting modern design requirements. The new bridge will be higher than the existing bridge to allow clearance for the proposed Goose Creek Trail Phase IV. Federal aid will reimburse the City 100% of eligible construction costs up to $1,500,000 in total reimbursement.

Construction plans and specifications have been completed by the City's design consultant and approved by the Iowa Department of Transportation (DOT). The DOT is scheduled to advertise for and receive bids in August 2026. Construction will begin in spring 2027 with completion set for November 2027.

Funding for this project is budgeted in CIP #21012.

Resolution approving the plans, specifications, form of contract, and estimate of cost for the Union Station Flood Repairs Project, CIP #68015. [Ward 3]

Recommendation:

Adopt the Resolution.

Background:

This project will include the construction of a permanent, multi-layered flood protection system wrapping around 3 sides of the Union Station perimeter. The core of this system features an engineered earthen berm constructed along the south side of the property, running parallel to the rail line to block rising floodwaters. To guarantee zero encroachment onto the railroad easement, a steel sheet pile wall will be driven into the ground between the new berm and the tracks, serving as a permanent structural boundary. As the earthen berm wraps around the southwest and southeast sides of the property, it will transition into a freestanding flood wall finished with a brick facade to complement the historic character of the station. The southwest entrance to the rear parking lot will utilize a deployable, removable floodgate that can be quickly closed during active flood threats as needed. The project also includes site updates to handle localized drainage, featuring storm sewer revisions, paving removal and replacement around the construction zone, and decorative landscaping over the new earthen berm.

The proposed improvements include, but are not limited to, the furnishing of all labor, materials and equipment necessary for the construction of an earthen berm with sheet pile wall; freestanding flood wall, removable floodgate; proposed PCC paving; new storm sewer system set to finish grade; topsoil; sodding; landscaping; and erosion control.

Resolution approving the purchase of one Ford Transit van, four Ford F-150 trucks, and six Ford F-450 trucks from Stivers Ford of Waukee, Iowa, in the amount of $572,788 using Iowa Department of Administrative Services contracts #26067, #26064, and #26063. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

This purchase is part of the FY 2027 Fleet Replacement Schedule. Each vehicle in this order will be replacing similar assets that are scheduled for replacement. The breakdown of each purchase, assignment, and funding is:

- One Ford Transit van will replace a 2008 van assigned to the Facilities Division of Public Works and will be funded with Local Sales Tax funds.
- Two Ford F-150 trucks will replace two 3/4 ton trucks assigned to the Streets Division of Public Works and will be funded with Road Use Tax funds.
- Two Ford F-150 trucks will replace two 3/4 ton trucks assigned to the Sewer Division of Public Works and will be funded with Sewer funds.
- Two Ford F-450 trucks will replace two 1-ton dump trucks assigned to the Street Division of Public Works and will be funded with Road Use Tax funds.
- Two Ford F-450 trucks will replace two 1-ton dump trucks assigned to the Sewer Division of Public Works and will be funded with Sewer funds
- One Ford F-450 truck will replace one single-axle dump truck assigned to the Water Pollution Control Plant and will be funded with Waste Water funds.
- One Ford F-450 truck will replace a 1-ton dump truck assigned to the Compost Division and will be funded with Waste Water funds.

The cost for each is:

- Ford Transit Van | $58,118
- Ford F-150 trucks | $42,374.50
- Ford F-450 trucks with 60" cab-to-axle | $57,277 - Streets and Sewers
- Ford F-450 trucks with 84" cab-to-axle | $57,452 - Waste Water and Compost

Contact Info: Jim Erwin | 563-326-7922 **9/2/2026**

Subject:

Resolution approving the purchase of five Ford Interceptors from Stivers Ford of Waukee, Iowa, in the amount of $251,070 using Iowa Department of Administrative Services contract #24051A, CIP #24032. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

These vehicles will replace five police vehicles that are scheduled for replacement in FY 2027. The police interceptor utility vehicles are quoted at $50,214 each using Iowa Department of Administrative Services contract #24051A.

This purchase is budgeted in CIP #24032 | FY 2027 Public Safety Vehicle.

Attachments:

1. Resolution
2. 2027 Ford Interceptor

Resolution No. _____

Resolution offered by Alderman R. Dunn.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION approving the purchase of five Ford Interceptors from Stivers Ford of Waukee, Iowa, in the amount of $251,070 using Iowa Department of Administrative Services contract #24051A, CIP #24032.

WHEREAS, the City needs to purchase two Ford Interceptors to replace two existing Police Department vehicles that are scheduled for replacement; and

WHEREAS, Stivers Ford of Waukee, Iowa, was awarded Iowa Department of Administrative Services contract #24051A as the lowest responsive and responsible bid.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that the purchase of five Ford Interceptors from Stivers Ford of Waukee, Iowa, in the amount of $251,070 using Iowa Department of Administrative Services contract #24051A, CIP #24032, is hereby approved.

Passed and approved this 9th day of September, 2026.

Approved:

_____
Jason Gordon
Mayor

Attest:

_____
Brian Krup
Deputy City Clerk

Resolution approving the purchase of four Chevrolet Equinox sport utility vehicles and two Chevrolet Colorado trucks from Karl Chevrolet of Ankeny, Iowa, in the amount of $191,145.52 using Iowa Department of Administrative Services contracts #26337 and #25282. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

This purchase will be used to replace sedans and light-duty trucks used by the Capital and Engineering, Neighborhood Services, Parks, and Public Works Departments. Each Chevrolet Equinox sport utility vehicle will cost $29,544.98 and each Chevrolet Colorado truck will cost $36,482.80 for a total of $191,145.52.

The purchase will be funded with Local Sales Tax.

Resolution No. _____

Resolution offered by Alderman R. Dunn.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION approving the purchase of four Chevrolet Equinox sport utility vehicles and two Chevrolet Colorado trucks from Karl Chevrolet of Ankeny, Iowa, in the amount of $191,145.52 using Iowa Department of Administrative Services contracts #26337 and #25282.

WHEREAS, the City needs to purchase four Chevrolet Equinox sport utility vehicles and two Chevrolet Colorado trucks to be used by the Capital and Engineering, Neighborhood Services, Parks, and Public Works Departments; and

WHEREAS, Karl Chevrolet of Ankeny, Iowa, was awarded Iowa Department of Administrative Services contracts #26337 and #25282 as the lowest responsive and responsible bid.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that the purchase of four Chevrolet Equinox sport utility vehicles and two Chevrolet Colorado trucks from Karl Chevrolet of Ankeny, Iowa, in the amount of $191,145.52 using Iowa Department of Administrative Services contracts #26337 and #25282 is hereby approved.

Passed and approved this 9th day of September, 2026.

Subject:

Resolution approving the purchase of four Iteris traffic signal detection systems from MoboTrex, LLC of Davenport, Iowa, in an amount not to exceed $125,000. [Ward 7]

Recommendation:

Adopt the Resolution.

Background:

This purchase will provide four new adaptive traffic control signal detection systems at intersections along Kimberly Road, including Northwest Boulevard, Main Street, Fair Avenue, and Welcome Way. These systems will replace existing traffic loops impacted by Iowa Department of Transportation (IDOT) resurfacing projects.

As part of a cost-share and reimbursement agreement previously approved by City Council (2026-115), IDOT will reimburse $100,800 of the cost with additional funding from the Traffic Engineering budget.

Subject:

Resolution approving a 28E Intergovernmental Agreement between the City of Davenport, Iowa, and the City of Bettendorf, Iowa, for the provision of dispatching services for Bettendorf Transit on certain holidays. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

The City of Bettendorf provides dispatching services for Bettendorf Transit using Bettendorf staff. On certain holidays when City offices are closed, Bettendorf Transit continues to operate, but the staff who normally provide dispatching services are not scheduled to work. During these same holidays, Davenport Transit remains in operation and has dispatching staff working to support its transit services.

A 28E Intergovernmental Agreement between the City of Davenport and the City of Bettendorf will allow Davenport Transit dispatching staff to provide dispatching services for Bettendorf Transit on these holidays. This arrangement will allow Bettendorf Transit to maintain dispatching services when its regular staff are not working, while utilizing Davenport staff who are already scheduled to work. Under the Agreement, Bettendorf will bear all costs associated with the dispatching services provided by Davenport, ensuring that Davenport incurs no net cost. The Agreement provides for the continuation of essential dispatching functions for Bettendorf Transit without requiring Bettendorf to schedule its regular dispatching staff to work on these holidays.

CHAPTER 28E AGREEMENT FOR THE PROVISION OF TRANSIT DISPATCH SERVICES ON DESIGNATED HOLIDAYS

Between the City of Davenport, Iowa and the City of Bettendorf, Iowa

This Chapter 28E Agreement for the Provision of Transit Dispatch Services on Designated Holidays (this "Agreement") is made and entered into as of 9-16-2026, by and between the City of Davenport, Iowa, an Iowa municipal corporation (the "Provider" or "Davenport"), and the City of Bettendorf, Iowa, an Iowa municipal corporation (the "Recipient" or "Bettendorf"). Davenport and Bettendorf are referred to individually as a "Party" and collectively as the "Parties."

RECITALS

WHEREAS, each Party is a public agency within the meaning of Iowa Code Chapter 28E and is authorized to enter into agreements with other public agencies for the joint or cooperative exercise of powers, privileges, and authority that each Party may exercise separately; and

WHEREAS, Bettendorf owns and operates a public transit system (the "Bettendorf Transit System") that provides service to the public on certain holidays on which Bettendorf municipal offices are closed; and

WHEREAS, the dispatch function for the Bettendorf Transit System is ordinarily performed by dispatchers who are employees of Bettendorf, and those employees do not work on the holidays identified in this Agreement, leaving the Bettendorf Transit System without dispatch coverage on those days; and

WHEREAS, Davenport owns and operates a public transit system and maintains dispatch personnel, systems, and capabilities, and is willing to provide dispatch services to the Bettendorf Transit System on those holidays on the terms set forth in this Agreement; and

WHEREAS, the Parties intend that Bettendorf bear all costs associated with the dispatch services provided under this Agreement, so that Davenport incurs no net cost; and

WHEREAS, the Parties wish to formalize this arrangement in a written agreement that allocates responsibilities, costs, and risk in a manner that is fair to both Parties and that protects the interests of each;

NOW, THEREFORE, in consideration of the mutual covenants and promises contained in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the Parties agree as follows:

1. PURPOSE AND AUTHORITY

1.1 Purpose. The purpose of this Agreement is to enable Davenport to provide, and Bettendorf to receive, transit dispatch services for the Bettendorf Transit System on the Covered Holidays defined below, on a full cost recovery basis.

1.2 Authority. This Agreement is entered into pursuant to Iowa Code Chapter 28E. Each Party represents that it is authorized to perform the services and obligations set forth in this Agreement.

1.3 No Separate Legal Entity. This Agreement does not create, and is not intended to create, any separate legal or administrative entity. This Agreement is a contract for services between the Parties, administered jointly through their respective designated representatives. No property, real or personal, is acquired, held, or disposed of jointly under this Agreement.

2. TERM AND RENEWAL

2.1 Initial Term. This Agreement is effective on the later of (a) the date on which it has been approved by the governing body of each Party and executed by both Parties, and (b) the date on which it is filed as required by Iowa Code Chapter 28E (the "Effective Date"), and continues for an initial term to expire on June 30, 2027, unless earlier terminated in accordance with Section 12.

2.2 Renewal. Following the initial term, this Agreement automatically renews for successive [1]-year renewal terms unless either Party provides written notice of non-renewal not less than [30] days before the end of the then-current term, or unless earlier terminated in accordance with Section 12.

3. COVERED HOLIDAYS AND SERVICE HOURS

3.1 Covered Holidays. Davenport will provide the Dispatch Services (defined in Section 4) for the Bettendorf Transit System on the five standard covered holidays and four observed covered holidays identified in Exhibit A (each a "Covered Holiday"). The specific holidays, and the transit service hours on each such holiday during which Dispatch Services are required, are set forth in Exhibit A.

3.2 Changes. Bettendorf may request changes to the Covered Holidays or to the service hours on any Covered Holiday. Any such change is effective only upon a written amendment to Exhibit A signed by the authorized representatives of both Parties, and may result in an adjustment to the amounts payable under Section 7. Davenport is not obligated to provide Dispatch Services on any date, or during any hours, not set forth in Exhibit A as amended.

3.3 Advance Coordination. Not less than [7] days before each Covered Holiday, the Parties, through their designated representatives, will confirm the service hours, expected service levels, points of contact, and any operational information Davenport reasonably requires to perform the Dispatch Services on that Covered Holiday.

4. SCOPE OF DISPATCH SERVICES

4.1 Dispatch Services. Subject to the terms of this Agreement, Davenport will provide dispatch services for the Bettendorf Transit System during the service hours on each Covered Holiday, consisting of the functions described in Exhibit C (the "Dispatch Services"). The Dispatch Services may include, as specified in Exhibit C, receiving and relaying communications with Bettendorf transit operators, monitoring and coordinating vehicle assignments and schedule adherence, receiving and logging service requests and incidents, coordinating rider communications, and escalating emergencies and service disruptions to the Bettendorf On-Call Contact in accordance with the protocols in Exhibit C.

4.2 Exclusions. Except as expressly set forth in Exhibit C, Davenport is not responsible for, and the Dispatch Services do not include, the operation, maintenance, staffing, or supervision of the Bettendorf Transit System, its vehicles, or its operators; the scheduling or routing decisions of the Bettendorf Transit System; the establishment of service policies; fare collection; or any function reserved to Bettendorf in this Agreement.

4.3 Standard of Performance. Davenport will perform the Dispatch Services in a manner substantially consistent with the manner in which it dispatches its own transit system, and with the degree of care and skill ordinarily exercised by a public transit dispatcher under similar circumstances. Davenport does not warrant or guarantee any particular service outcome, on-time performance, or result. Davenport's obligations under this Agreement are obligations to provide dispatch services, not to ensure any level of transit performance by the Bettendorf Transit System.

4.4 Priority. Davenport retains discretion to allocate its dispatch resources during an emergency or a public safety event. Davenport will use reasonable efforts to notify Bettendorf's On-Call Contact if an emergency materially affects Davenport's ability to perform the Dispatch Services on a Covered Holiday.

5. RESPONSIBILITIES OF BETTENDORF

5.1 Access and Information. For each Covered Holiday, Bettendorf will provide to Davenport, at no cost to Davenport and sufficiently in advance, all access, credentials, equipment, software licenses, radio frequencies or communication devices, route and schedule data, operator rosters and contact information, standard operating procedures,

emergency contacts, and other information and materials reasonably necessary for Davenport to perform the Dispatch Services.

5.2 On-Call Contact. For each Covered Holiday, Bettendorf will designate and make continuously available a qualified Bettendorf representative (the "On-Call Contact") with authority to make operational decisions for the Bettendorf Transit System, and will provide Davenport with current contact information for that representative.

5.3 Operational Responsibility. Bettendorf remains solely responsible for the operation of the Bettendorf Transit System, including the condition, maintenance, and safe operation of its vehicles; the hiring, training, licensing, supervision, and conduct of its transit operators; compliance of its operations with applicable law; and all service policies and decisions. Nothing in this Agreement transfers to Davenport any responsibility for the operation of the Bettendorf Transit System.

5.4 Accuracy of Information. Bettendorf is responsible for the accuracy, completeness, and currency of the data, credentials, and information it provides to Davenport, and for the functionality of any system Bettendorf requires Davenport to use.

6. PERSONNEL; NO JOINT EMPLOYMENT

6.1 Davenport Personnel. The Dispatch Services will be performed by employees of Davenport. Such personnel remain at all times solely employees of Davenport, subject to Davenport's sole and exclusive direction, supervision, and control with respect to hiring, assignment, scheduling, discipline, compensation, and all other terms and conditions of their employment.

6.2 No Joint or Co-Employment. No employee of Davenport is or will be considered an employee, agent, borrowed servant, or joint employee of Bettendorf for any purpose. Bettendorf has no obligation with respect to the wages, benefits, taxes, workers' compensation, unemployment, or other employment-related liabilities of Davenport personnel, all of which remain the responsibility of Davenport and are recovered through the charges under Section 7.

6.3 No Agency. Neither Party is the agent of the other, and neither Party has authority to bind the other except as expressly provided in this Agreement.

7. COMPENSATION AND FULL COST RECOVERY

7.1 Full Cost Recovery. Bettendorf will pay Davenport for all costs incurred by Davenport in providing the Dispatch Services, so that Davenport incurs no net cost. The charges are set forth in Exhibit B and are calculated to recover Davenport's fully loaded costs, including without limitation dispatcher wages for hours worked on the Covered Holidays (including

any applicable holiday premium pay and overtime), payroll taxes, retirement and benefit costs, supervisory and administrative time, applicable technology, licensing, and communications costs, training costs, and a reasonable administrative overhead allocation.

7.2 Rate and Minimum Hours. Davenport will charge Bettendorf at the fully loaded rate(s) set forth in Exhibit B, subject to any minimum call-out or minimum shift hours stated in Exhibit B.

7.3 Invoicing and Payment. Davenport will invoice Bettendorf following each Covered Holiday, or on a periodic basis as stated in Exhibit B. Bettendorf will pay each undisputed invoice within 60 days after receipt. Each invoice will identify the Covered Holiday, the hours worked, the applicable rate, and any other charges.

7.4 Disputed Charges. If Bettendorf disputes any portion of an invoice in good faith, Bettendorf will pay the undisputed portion when due and will notify Davenport in writing of the disputed portion and the basis for the dispute within 60 days after receipt of the invoice. The Parties will work in good faith to resolve the disputed amount promptly.

7.5 Late Payment. Undisputed amounts not paid when due accrue interest at the rate permitted by applicable Iowa law.

7.6 Rate Adjustments. Davenport may adjust the rates in Exhibit B to reflect changes in its actual costs, including changes in wage rates and benefit costs, effective upon not less than 60 days' prior written notice to Bettendorf. If Bettendorf does not agree to a rate adjustment, either Party may terminate this Agreement in accordance with Section 12.

7.7 Appropriation. Each Party's financial obligations under this Agreement are subject to the annual appropriation of funds by its governing body. This provision does not relieve Bettendorf of its obligation to pay for Dispatch Services actually provided before the effective date of any termination for non-appropriation.

8. RECORDS AND AUDIT

8.1 Records. Davenport will maintain reasonable records supporting the charges under this Agreement, including records of the hours worked by dispatch personnel on each Covered Holiday.

8.2 Audit. Upon reasonable prior written notice, Bettendorf may examine Davenport's records relating to the charges under this Agreement, during normal business hours, for the sole purpose of verifying those charges. Each Party will retain its records relating to this Agreement for the period required by applicable law or [NUMBER] years after the applicable Covered Holiday, whichever is longer.

9. INSURANCE

9.1 Coverage. Each Party will maintain, throughout the term of this Agreement, insurance or a program of self-insurance covering its operations, personnel, and liabilities under this Agreement, in amounts not less than the applicable limits of liability under Iowa Code Chapter 670, or such other amounts as the Parties agree in writing.

9.2 Evidence. Upon request, each Party will provide the other with evidence of the coverage required by this Section.

10. INDEMNIFICATION

10.1 Indemnification by Bettendorf. To the extent permitted by Iowa law, Bettendorf will defend, indemnify, and hold harmless Davenport and its officials, officers, employees, and agents (the "Davenport Indemnitees") from and against any and all claims, demands, suits, losses, damages, liabilities, costs, and expenses, including reasonable attorney fees, arising out of or relating to (a) the operation of the Bettendorf Transit System, including its vehicles, operators, equipment, systems, data, and service decisions; (b) any inaccuracy, incompleteness, or failure of the credentials, data, systems, or information provided by Bettendorf; and (c) the performance of the Dispatch Services by the Davenport Indemnitees in good-faith reliance on information, direction, systems, or credentials provided by Bettendorf, except, in each case, to the extent such claim is caused by the gross negligence or willful misconduct of a Davenport Indemnitee.

10.2 Indemnification by Davenport. To the extent permitted by Iowa law, Davenport will defend, indemnify, and hold harmless Bettendorf and its officials, officers, employees, and agents from and against any and all claims, demands, suits, losses, damages, liabilities, costs, and expenses, including reasonable attorney fees, to the extent arising out of the gross negligence or willful misconduct of Davenport or its officers, employees, or agents in the performance of the Dispatch Services.

10.3 No Waiver of Immunity or Caps. Nothing in this Agreement waives, and the Parties expressly reserve, any defense, immunity, or limitation of liability available to either Party under Iowa Code Chapter 670 or any other applicable law, including the monetary limitations and defenses provided by law. Neither Party is required to indemnify the other for the indemnified Party's own negligence or wrongful acts except to the extent, if any, permitted by Iowa law.

10.4 Cooperation. The indemnifying Party's obligations under this Section are conditioned upon the indemnified Party providing prompt written notice of a claim, reasonable cooperation in the defense, and the opportunity to participate in the defense and

settlement of the claim, provided that no settlement imposing any obligation on the indemnified Party may be made without that Party's written consent.

11. LIMITATION OF LIABILITY

11.1 No Consequential Damages. To the extent permitted by Iowa law, neither Party is liable to the other for any indirect, incidental, special, consequential, or punitive damages, or for lost revenues or lost profits, arising out of or relating to this Agreement, regardless of the form of action.

11.2 Nature of Undertaking. The Parties acknowledge that Davenport is providing the Dispatch Services as an intergovernmental accommodation on a full cost recovery basis and not for profit, and that the allocation of risk in Sections 10 and 11 reflects that arrangement. Nothing in this Section limits Bettendorf's obligation to pay the charges under Section 7 or a Party's indemnification obligations under Section 10.

12. TERMINATION

12.1 Termination for Convenience. Either Party may terminate this Agreement for convenience upon not less than 30 days' prior written notice to the other Party.

12.2 Termination for Cause. Either Party may terminate this Agreement for a material breach by the other Party if the breaching Party fails to cure the breach within [NUMBER] days after written notice describing the breach, or, for a breach not reasonably curable within that period, if the breaching Party fails to commence a cure within that period and diligently pursue it to completion.

12.3 Termination for Non-Appropriation. Either Party may terminate this Agreement upon written notice if its governing body fails to appropriate funds necessary to perform its obligations under this Agreement, effective at the end of the fiscal period for which funds were last appropriated.

12.4 Effect of Termination. Upon termination, Davenport will have no further obligation to provide Dispatch Services, and Bettendorf will pay Davenport for all Dispatch Services provided through the effective date of termination. Bettendorf will promptly return or disable any Davenport access to Bettendorf systems, and each Party will return or destroy the other Party's confidential materials as directed. No jointly held property exists under this Agreement, and none is to be disposed of upon termination. The provisions that by their nature should survive termination, including Sections 7, 8, 10, 11, 14, and 16, survive termination.

13. COMPLIANCE WITH LAWS

13.1 General. Each Party will comply with all federal, state, and local laws, rules, and regulations applicable to its performance under this Agreement, including applicable requirements of the Americans with Disabilities Act.

14. PUBLIC RECORDS AND CONFIDENTIALITY

14.1 Public Records. The Parties acknowledge that each is subject to Iowa Code Chapter 22, and that records created, sent, or received in connection with this Agreement may be public records. Each Party will handle records in accordance with Chapter 22 and applicable exemptions, and will reasonably cooperate with the other regarding any request for records that relate to the other Party.

14.2 Rider and Sensitive Information. Each Party will protect personally identifiable information of transit riders, and any confidential information provided by the other Party, and will use such information solely to perform this Agreement, consistent with applicable law.

15. FORCE MAJEURE

Neither Party is liable for any failure or delay in performance, other than a payment obligation, caused by events beyond its reasonable control, including acts of God, severe weather, fire, public health emergencies, labor disputes, failures of communications or utility systems not caused by the affected Party, or governmental action. The affected Party will use reasonable efforts to notify the other Party and to resume performance promptly.

16. GOVERNING LAW; DISPUTE RESOLUTION; VENUE

16.1 Governing Law. This Agreement is governed by and construed in accordance with the laws of the State of Iowa, without regard to conflict-of-laws principles.

16.2 Good-Faith Resolution. Before commencing litigation, the Parties will attempt in good faith to resolve any dispute arising out of this Agreement through negotiation between their designated representatives.

16.3 Venue. Any action arising out of this Agreement that is not resolved under Section 16.2 will be brought exclusively in the Iowa District Court for Scott County, Iowa, and each Party consents to venue and jurisdiction there.

17. GENERAL PROVISIONS

17.1 Relationship of the Parties. The Parties are independent public agencies. This Agreement does not create a partnership, joint venture, or separate legal entity, and, except as expressly stated, does not make either Party the agent of the other.

17.2 No Third-Party Beneficiaries. This Agreement is for the sole benefit of the Parties. Nothing in this Agreement confers any right, benefit, or remedy on any transit rider or other person or entity that is not a Party, and no such person or entity may enforce any provision of this Agreement.

17.3 Assignment. Neither Party may assign or delegate this Agreement, in whole or in part, without the prior written consent of the other Party.

17.4 Notices. All notices under this Agreement must be in writing and delivered to the addresses set forth below the signature blocks, or to such other address as a Party designates in writing. Notice is effective upon receipt.

17.5 Entire Agreement; Amendment. This Agreement, including its Exhibits, is the entire agreement of the Parties concerning its subject matter and supersedes all prior understandings. This Agreement may be amended only by a written instrument signed by the authorized representatives of both Parties and, where required, approved by their respective governing bodies.

17.6 Severability. If any provision is held invalid or unenforceable, the remaining provisions remain in full force and effect, and the Parties will negotiate in good faith to replace the invalid provision with a valid provision that most nearly reflects the original intent.

17.7 Waiver. No waiver of any provision is effective unless in writing and signed by the waiving Party. A waiver on one occasion is not a waiver of any subsequent occasion.

17.8 Counterparts. This Agreement may be executed in counterparts, including by electronic signature, each of which is deemed an original and all of which together constitute one instrument.

17.9 Filing. This Agreement will be filed as required by Iowa Code Chapter 28E, and is not effective until so filed.

IN WITNESS WHEREOF, the Parties have executed this Agreement by their duly authorized representatives as of the dates set forth below.

EXHIBIT A: COVERED HOLIDAYS AND SERVICE HOURS

Davenport will provide the Dispatch Services on each of the following Covered Holidays, during the service hours indicated.

Standard Covered Holidays | Date (as observed) | Transit Service Hours

1. |Martin Luther King Day | 0500-2000
2. |Presidents Day | 0500-2000
3. Good Friday | 0500-2000
4. |Veterans' Day | 0500-2000
5. |Friday after Thanksgiving | 0500-2000

Observed Covered Holidays (when standard holiday falls on a weekend)

1. New Year's Day (observed)- 0500-2000
2. Independence Day (observed)- 0500-2000
3. Veterans Day (Observed)- 0500-2000
4. Christmas Day (observed)- 0500-2000

EXHIBIT B: CHARGES AND FULLY LOADED RATE

The charges under Section 7 are calculated to recover Davenport's fully loaded costs of providing the Dispatch Services.

1. Costs. The following costs will be charged: $200 per day of dispatching regardless of the amount of hours dispatched each day.
2. Invoicing. Davenport will invoice after each Covered Holiday; payment is due within 30 days of receipt.

EXHIBIT C: SCOPE OF DISPATCH SERVICES AND OPERATIONAL PROTOCOLS

1. Services Included. On the abovementioned days, Davenport will provide dispatching services for Bettendorf including putting Bettendorf's buses in their Computer Aided Dispatch/Automatic Vehicle Location (CAD/AVL) system, answer phone calls from customers inquiring about or making requests Bettendorf's system, forwarding standard requests for a deviated route on to Bettendorf drivers and logging any noteworthy events for Bettendorf's management.

2. Systems and Access. Davenport already has access to the radio systems of Bettendorf's Transit System. Davenport would also need access to Bettendorf's (CAD/AVL) Software. Bettendorf would also need to forward their customer call in number to Davenport's customer call in number for the affected days.

3. Location of Performance. Davenport personnel will dispatch from the City of Davenport Facilities, such as the Ground Transportation Center or Davenport Public Works.

4. Communications and Escalation. Davenport Transit and Bettendorf Transit use the same radio system through SECC. Both drivers and dispatchers can switch from one channel to another in order to communicate with each other. For most communication between drivers and dispatchers this will be sufficient. If an incident, such as an accident between a Bettendorf Transit Operator and another vehicle, occurs. Davenport dispatchers will contact both the Bettendorf Transit on-call contact as well as the Davenport supervisor on-call as well.

5. Points of Contact.
   Davenport contact: [Jeff Wolf, Davenport Transit Manager, 563-210-4416, jeff.wolf@davenportiowa.com]
   Bettendorf On-Call Contact: [Austin Whelan, Bettendorf Transit Manager, 563-271-3681, awhelan@bettendorf.org]

Subject:

Resolution accepting a grant in the amount of $194,111 from the Federal Transit Administration's Bus and Bus Facilities Grant Program to purchase driver enclosures for the fixed route bus fleet. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

The City of Davenport's transit system is supported through a combination of federal, state, and local funding. The Federal Transit Administration (FTA) has awarded the City a grant to fund a planned capital improvement project to install driver enclosures on the City's fleet of 21 buses. The project is intended to increase safety for transit operators and other transit staff.

The project also supports the FTA's nationwide efforts to reduce assaults on transit workers and aligns with Davenport's Agency Safety Plan and the region's Long Range Transportation Plan.

The grant will be funded using an 80/20 formula, with the FTA providing 80 percent, or $194,111, and the City providing a 20 percent local match of $48,529. The total project cost is $242,640.

Resolution No. _____

Resolution offered by Alderman R. Dunn.

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION accepting a grant in the amount of $194,111 from the Federal Transit Administration's Bus and Bus Facilities Grant Program to purchase driver enclosures for the fixed route bus fleet.

WHEREAS**,** the City submitted a grant application to the Federal Transit Administration's Bus and Bus Facilities Grant Program to purchase driver enclosures for the fixed-route bus fleet; and

WHEREAS, the Federal Transit Administration has awarded the City a grant in the amount of $194,111, representing 80 percent of the total project cost of $242,640, with the remaining $48,529 to be provided by the City as the required local match; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that a grant in the amount of $194,111 from the Federal Transit Administration's Bus and Bus Facilities Grant Program to purchase driver enclosures for the fixed route bus fleet is hereby accepted.

Passed and approved this 9th day of September, 2026.

Subject:

Resolution approving the purchase of network hardware and a 5-year licensing term from Aercor, Inc. of Minneapolis, Minnesota, in the amount of $349,945.85 using NASPO Master Agreement AR3228. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

The City is completing the final phase of its network modernization project, a rolling deployment that began approximately six years ago. The project was intentionally designed to occur over a five- to seven-year period to distribute costs and accommodate budget, staffing, and network disruption considerations.

This phase will replace the remaining HPE 5412zl network switches located in the City Hall Data Center, SECC Data Center, Public Works, and Police Department. These switches serve as critical aggregation points connecting services and locations throughout the City's network infrastructure. All of the equipment being replaced has reached end-of-life/end-of-support status and is no longer supported by HPE. Replacement of this equipment is necessary to maintain reliable and supported network infrastructure for the City's daily operations.

The replacement equipment consists of network switches and routers and will include five years of licensing and support. The licensing package provides next-business-day hardware support, 24/7 support, software updates, and access to Aruba Central cloud-based network management and AI services.

Aercor is an authorized HPE/Aruba vendor and the equipment and services will be procured through the NASPO ValuePoint Master Agreement AR3228. The proposed solution is consistent with the City's ongoing network modernization plan and existing network infrastructure and provides the necessary equipment, licensing, and support to complete the final phase of the project.

Resolution No. _____

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION approving the purchase of network hardware and a 5-year licensing term from Aercor, Inc. of Minneapolis, Minnesota, in the amount of $349,945.85 using NASPO Master Agreement AR3228.

WHEREAS, the City of Davenport is completing the final phase of its network modernization project, a rolling deployment that began approximately six years ago and was designed to be completed over a five- to seven-year period to accommodate budget, staffing, and network disruption considerations; and

WHEREAS, the City's existing HPE 5412zl network switches located at the City Hall Data Center, SECC Data Center, Public Works, and Police Department have reached end-of-life and end-of-support status and are no longer supported by the manufacturer; and

WHEREAS, these network switches serve as critical aggregation points connecting services and locations throughout the City's network infrastructure and are essential to the reliable operation of City services; and

WHEREAS, replacement of the existing network equipment will include network hardware and a five-year licensing and support term, including next-business-day hardware support, 24x7 support, software updates, and access to Aruba Central cloud-based network management and AI services; and

WHEREAS, the City intends to purchase the network hardware and licensing from Aercor, Inc. of Minneapolis, Minnesota, through NASPO ValuePoint Master Agreement AR3228; and

WHEREAS, the proposed equipment and services are consistent with the City's ongoing network modernization plan and existing network infrastructure and will complete the final phase of the planned network modernization rollout; and

WHEREAS, the total purchase price for the network hardware and five-year licensing term is $349,945.85.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that purchase of network hardware and a 5-year licensing term from Aercor, Inc. of Minneapolis, Minnesota, in the amount of $349,945.85 using NASPO Master Agreement AR3228 is hereby approved.

Passed and approved this 9th day of September, 2026.

NASPO Master Agreement Number : AR3228

Exhibit A
PRODUCT PURCHASE AGREEMENT
TERMS AND CONDITIONS

1. **Product**

Aercor Inc (Aercor) will provide to the other party hereunder ("Client"), the product or products specified in the sales proposal (the "Document") to which these Terms and Conditions are attached and made a part of (individually and collectively, the "Product"), by sale, license or sublicense, as provided under and upon the terms and conditions of this Agreement. These Terms and Conditions, along with the Document and all appendices thereto, are collectively the "Agreement".

2. **Invoicing and Payment**

The purchase price for the Product will be due and payable as indicated in the attached Document. Payment terms are net 30 days. If Client's account is past due and Aercor has notified Client verbally or in writing of the past due balance, it may, without advance notice, immediately cease any and all Product sales hereunder, or revoke any and all Product licenses hereunder, without any liability for breach of this Agreement. If Client's account, after default, is referred to an attorney or collection agency for collection, Client will pay all of Aercor's expenses incurred in such collection efforts including, without limitation, court costs and reasonable attorney's fees.

3. **Taxes**

The customer agrees that they are responsible for payment of any sales or use tax arising from its purchase of product under this agreement.

4. **Limitations on Warranty**

Aercor MAKES NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCT. Aercor EXPRESSLY DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. Client should refer to the Product license, documentation and other information provided by the manufacturer of the Product for warranty and any other information regarding any Product.

5. **Limitation of Liability**

Client's exclusive remedy, and Aercor's sole liability to client, for any cause whatsoever will be limited to any purchase price or license fees, as applicable paid to Aercor by client under this agreement. The foregoing limitation will apply regardless of the form of action, whether contract or tort, including without limitation, negligence. In no event will Aercor be liable for any loss of profit, revenue, data, use, or other commercial injury, or any special, incidental, indirect or consequential damages, suffered by client or any third party, whether or not Aercor has been advised of the possibility of such loss, injury, damages or third party claim, under any cause of action arising out of or relating to this agreement.

6. **Enforceability**

If any provision, or any part of any provision, of this Agreement will be held void, voidable, invalid, or inoperative, no other provision of this Agreement will be affected as a result thereof and accordingly, the remaining provisions of this Agreement will remain in full force and effect as though such void, voidable, invalid or inoperative provision or part thereof had not been contained herein.

7. **Relationship**

This Agreement does not create an agency, employment, partnership joint venture, trust or other fiduciary relationship between the parties. Neither party shall have the right to bind the other to any third person or otherwise to act in a way as a representative or agent of the other.

8. **Entire Agreement**

This Agreement sets forth the entire agreement between the parties with respect to the subject matter herein, superseding all prior agreements, negotiations or understandings, whether oral or written, with respect to such subject matter. To the extent that any of the terms and conditions of the Document or any appendices thereof conflict with these Terms and Conditions, these Terms and Conditions will control. This Agreement may not be changed, modified or waived in whole or part except by an instrument in writing signed by both parties. Unless otherwise defined in the Document, all defined terms will have the definitions set forth in these Terms and Conditions.

Exhibit B:
Service Purchase Agreement
Terms and Conditions

1. Reimbursable Expenses
The Client agrees to reimburse Aercor, Inc. ("Aercor") for any reasonable and necessary out-of-pocket expenses incurred in the course of providing services. These may include, but are not limited to:

a) Travel-related expenses for out-of-town engagements, billed at actual cost in addition to standard service rates.
b) Parts, components, or incidental hardware required to fulfill the requested services.

2. Billing Increments
All support services will be billed in 15-minute increments.

3. Travel Charges
Standard trip charges will apply for one-way travel to the service location.

4. Payment Terms
Payment is due within 30 days from the invoice date (Net 30).

5. Taxes
Quoted service fees do not include applicable taxes. Any federal, state, or local taxes required to be paid by Aercor, Inc. in connection with the services rendered—excluding taxes based on Aercor, Inc.'s income—will be invoiced to the Client in addition to the service rates.

6. **Limitation of Liability**

Client's exclusive remedy, and Aercor's sole liability to client, for any cause whatsoever will be limited to any purchase price to license fees, as applicable, paid to Aercor by client under this agreement. The foregoing limitation will apply regardless of the form of action, whether contract or tort, including without limitation, negligence. In no event will Aercor be liable for any loss of profit, revenue, data, use, or other commercial injury, or any special, incidental, indirect or consequential damages, suffered by client or any third party, whether or not Aercor has been advised of the possibility of such loss, injury, damages or third party claim, under any cause of action arising out of or relating to this agreement.

7. **Independent Contractor**

Aercor and Client acknowledge that the relationship between the parties to this Agreement is exclusively that of an independent contractor and that Aercor's obligations to Client are exclusively contractual in nature. This Agreement does not create any agency, employment, partnership joint venture, trust or other fiduciary relationship between the parties. Neither party shall have the right to bind the other to any third person or otherwise to act in any way as a representative or agent of the other.

8. **Entire Agreement**

This Agreement sets forth the entire agreement and understanding between the parties with respect to the subject matter herein, superseding all prior agreements, negotiations or understandings, whether oral or written, with respect to such subject matter. To the extent that any of the terms and conditions of the Document or any appendices thereof conflict with these Terms and Conditions, these Terms and Conditions will govern and control. This Agreement may not be changed, modified or waived in whole or part except by an instrument in writing signed by both parties. Unless otherwise defined in the Document, all defined terms will have the definitions set forth in these Terms and Conditions. This Agreement will be construed, interpreted and enforced in accordance with the laws of the State of Minnesota, regardless of whether the principles of conflicts of laws would require the laws of different state or other jurisdiction to be applied. This Agreement will be binding upon, inure to the benefit of and will be enforceable by and against Aercor Wireless and Client and their respective legal representatives, successors and permitted assigns, if any.

Subject:

Resolution approving the purchase of desktops, laptops, docking stations, and monitors from Dell Marketing LP of Round Rock, Texas, in the amount of $247,161.35 using NASPO ValuePoint Master Agreement #23004, CIP #67002. [All Wards]

Recommendation:

Adopt the Resolution.

Background:

This purchase is for equipment that will be utilized for end-of-life replacements, new users, and staff migration from thin clients to laptops and desktops and will utilize NASPO ValuePoint Master Agreement #23004. NASPO ValuePoint is the cooperative purchasing division of the National Association of State Procurement Officials (NASPO), facilitating cooperative public procurement solicitations using a lead-state model. Dell Marketing LP was awarded NASPO contract #23004 for Computer Equipment, Peripherals & Related Services via the sealed proposal.

This purchase is for equipment that will be utilized for end-of-life replacements, new users, and staff migration from thin clients to laptops and desktops.

Funding for this purchase is budgeted in CIP #67002 | IT Hardware/Software Program.

Resolution No. _____

RESOLVED by the City Council of the City of Davenport, Iowa.

RESOLUTION approving the Global Release & Settlement Agreement and authorizing payment of $397,500 in accordance with its terms for Case RM25-234.

WHEREAS, Mallory Bagby has asserted claims for damages, costs, and expenses against the City, Davenport Civil Rights Commission, Latrice Lacey, Tim Kelly, Cody Eliff, Mike Matson, Michael Guster, Mallory Merritt, and Alison Fleming associated with claims arising out of events occurring during and since Bagby's employment with the City that ended with the separation of Bagby's employment on or about July 26, 2024; and

WHEREAS, the City has denied any and all accusations and liability related to Bagby's Allegations and/or accusations and claims made within the Petitions; and

WHEREAS, the parties to this Agreement wish to settle and compromise the disputes and claims between each other as set forth in the Agreement related to any facts, acts, events, or otherwise pertaining to Bagby's Allegations and/or the Petitions which have or could have been asserted through the present date, without the necessity of further litigation and/or a trial on the merits with all of the attendant expenses that have been significant through current date and would be even more sizable in the event of continued litigation of these claims, all without admission of wrongful conduct, fault, or culpability on the part of the parties.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Davenport, Iowa, that:

1. the Global Release & Settlement Agreement for Case RM25-234 is hereby approved; and
2. payment of $397,500 in accordance with the terms of the Global Release & Settlement Agreement for RM25-234 is hereby authorized.

GLOBAL RELEASE & SETTLEMENT AGREEMENT

This Global Release & Settlement Agreement ("Agreement") is entered into between Mallory Hoyt Bagby ("Bagby") and The City of Davenport, Iowa (the "City") for the consideration and mutual promises hereinafter stated. Bagby and the City are at times referred to as "the parties" or a "party".

WHEREAS, Bagby has asserted claims for damages, costs, and expenses against the City, Davenport Civil Rights Commission, Latrice Lacey, Tim Kelly, Cody Eliff, Mike Matson, Michael Guster, Mallory Merritt, and Alison Fleming (collectively "Defendants") associated with claims arising out of events occurring during and since Bagby's employment with the City that ended with separation of Bagby's employment on or about July 26, 2024 (the "Allegations");

WHEREAS, Bagby has filed and moved to file petitions with the Iowa District Court for Scott County (Case No. LACE139021) entitled *Mallory Hoyt Bagby v. The City of Davenport, Iowa; Davenport Civil Rights Commission; Latrice Lacey; Tim Kelly; Cody Eliff; Mike Matson; Michael Guster; Mallory Merritt; and Alison Fleming* (the "Petitions") asserting claims of (1) Violation of the Iowa Civil Rights Act, Iowa Code Chapter 216: Discrimination and Hostile Work Environment: Sex, Gender and Race, (2) Violation of the Iowa Civil Rights Act, Iowa Code Chapter 216: Retaliation, (3) Aiding and Abetting in Violation of Iowa Code Chapter 216, (4) Violation of the Iowa Civil Rights Act, Iowa Code Chapter 216: Constructive Discharge, (5) Violation of Iowa Code §70A.29, (6) Defamation, (7) Negligent Supervision and Retention, (8) Intentional Infliction of Emotional Distress, and (9) Civil Conspiracy, seeking various forms of damages (e.g., compensatory damages, punitive damages, costs, attorney fees, and other relief);

WHEREAS, the City has denied any and all accusations and liability related to Bagby's Allegations and/or accusations and claims made within the Petitions; and

WHEREAS, the parties to this Agreement wish to settle and compromise the disputes and claims between each other as set forth in the Agreement related to any facts, acts, events, or otherwise pertaining to Bagby's Allegations and/or the Petitions which have or could have been asserted through the present date, without the necessity of further litigation and/or a trial on the merits with all of the attendant expenses that have been significant through current date and would be even more sizable in the event of continued litigation of these claims, all without admission of wrongful conduct, fault, or culpability on the part of the parties;

THEREFORE, the parties, in consideration of the foregoing and the payments and mutual promises set forth in this Agreement, agree as follows:

1. Consideration. It is understood and agreed by Bagby that as full, sufficient, and complete consideration for Bagby's promises and releases made herein, the City shall tender upon execution of this Agreement the combined total sum of Three Hundred Ninety Seven Thousand and Five Hundred Dollars and Zero Cents ($397,500.00) in the form of three (3) checks payable to: (1) Bagby in full and final settlement of all Bagby's claims for lost wage damages ($25,114.87) gross that will be reduced for taxes/withholdings and reported on a Form W-2), (2) Bagby in full and final settlement of Bagby's claims of emotional distress ($226,033.88), which will be reported on a Form

1099_MISC and, (3) to "Simmons Perrine" in full and final settlement of all Bagby's claims for attorney fees and expenses ($146,351.25), which will be reported on a Form 1099-MISC.

Said sum shall be paid in order to avoid the cost of litigation and is full payment for settlement of all claims that were or could have been raised by Bagby in the Petitions or any time in the future based upon facts now known or that could have been known by Bagby. The City will not be liable in any manner for the distribution, division, or payment of any portion of these funds to or involving any other claimants thereto. These payments will be issued only after the City's receipt of a fully executed settlement agreement and appropriate W-9(s) from Bagby and Bagby's counsel. The City would make payment within twenty (20) days after full execution of the Agreement.

The City further agrees to continue to save Bagby harmless and indemnify Bagby against claims, whether groundless or otherwise, arising out of an alleged act or omission occurring within the scope of Bagby's employment or duties, as required by Iowa Code §670.8. The City has not agreed to save harmless or indemnify for any awards of punitive damages against Bagby. The City will continue to agree to Bagby's choice of Erin Nathan as counsel to defend Bagby.

The City further represents as of the effective date of this Agreement it has no knowledge of Bagby listed as a legal representative of the City in any active legal matters.

Upon tender of the respective sum referenced above, the City will have fully met its obligations under this Agreement.

2. Valid Consideration. The parties expressly agree and acknowledge that the release described in Paragraph 4 below is not a release to which Defendants would otherwise be entitled. Bagby shall not be entitled to any compensation, remuneration, benefits, or other payments from Defendants related to Bagby's Allegations and/or the Petitions (other than the Consideration described within Paragraph 1).

3. Taxes. Bagby agrees that if any state, federal, or local taxes are owing from her on the sum set forth in Paragraph 1 that Bagby will assume all responsibility for payment of any such taxes, together with any interest and/or penalties due thereon to any state, federal, or local authority. Bagby further agrees to indemnify the parties released under Paragraph 4 regarding any liability or expense for any claims or determinations hereafter regarding the payment of taxes, interest charges or penalties relating to any payments made to or discharge given by Bagby pursuant to this Agreement, with the exception of the employer's portion of any taxes due.

4. Bagby's Release. Bagby, with full understanding of the contents and legal effect of this Release and on the advice of her counsel, freely and voluntarily promises to and does hereby completely release and forever discharge Defendants (i.e., the City, Davenport Civil Rights Commission, Latrice Lacey, Tim Kelly, Cody Eliff, Mike Matson, Michael Guster, Mallory Merritt, and Alison Fleming) and their former or present representatives, agents, attorneys, employees, officers, directors, successors, affiliated entities, assigns and insurers including but not limited to Defendants (hereinafter collectively referred to as "Released Parties," and individually as a "Released Party"), from any and all liability, and suits of every kind and nature, known or unknown, foreseen or unforeseen, that Bagby may have against a Released Party from the circumstances and events

involved in the afore-mentioned Allegations and/or Petitions and all claims which were asserted or could have been asserted related to the Allegations and/or Petitions from the beginning of time to present date including, but not limited to, those arising out of any aspect of Bagby's employment, employment separation, relationship, interactions, or affiliation with Defendants as well as any publications, statements, or commentary of Defendants prior to Bagby's execution of this Agreement. Bagby agrees her release of claims would include, but not be limited to, any and all claims under or based upon:

(i) Title VII of the Civil Rights Act of 1964, as amended in 1991, 42 U.S.C. §2000e, *et seq*.;
(ii) The Americans with Disabilities Act, as amended;
(iii) The Family and Medical Leave Act;
(iv) The United States Constitution;
(v) The Iowa Civil Rights Act;
(vi) Statements Regarding Discharge, Iowa Code 730.1;
(vii) Blacklisting Employments, Iowa Code 730.2;
(viii) False Charges Concerning Honesty, Iowa Code 730.3;
(ix) Any claims alleging wrongful discharge and/or breach of any alleged employment contract;
(x) Any claims alleging tort, such as invasion of privacy, defamation, fraud, conspiracy, reckless disregard, and/or infliction of emotional distress;
(xi) Any whistleblower claims;
(xii) Any retaliation claims;
(xiii) Any other civil rights or human rights statutes;
(xiv) Any other local, state or federal statute or ordinance; and
(xv) Any other claims rooted in common or contract law.

At no time subsequent to the execution of this Agreement will Bagby file or maintain, or cause or knowingly permit the filing or maintenance, in any state, federal, or foreign court, or before any local, state, federal, or foreign administrative agency, or any other tribunal, any charge, claim, or action of any kind, nature, and character whatsoever against Defendants or any other Released Party that Bagby is releasing in this Agreement. For the avoidance of doubt, nothing in this Agreement waives or releases claims from circumstances or events outside the scope of the Allegations and/or Petitions. In the event Bagby violates this release or Agreement by suing any of the Released Parties for any reason for which suit is precluded by this release and Agreement, Bagby agrees that she will not be entitled to any damages, costs, expenses, or relief of any kind. This Agreement does not waive rights that may arise after the execution of this Agreement.

5. Withdrawal/Dismissal. Bagby stipulates and agrees that in consideration of the payment and representations described herein, she shall cause to be filed a Dismissal With Prejudice of any and all claims she has filed against Defendants or other Released Parties, in the Petitions, within three business days of receipt of the payment(s) referenced in Paragraph 1. Bagby further stipulates and agrees that in the event she has instituted any other legal proceedings against Defendants or other Released Parties that she will immediately file a Withdrawal or Dismissal With Prejudice of any and all such pending claims in any administrative body, court of law, or private entity, of any kind or nature whatsoever. Bagby further agrees that each party to these Allegations

and Petitions shall bear their own fees and costs such that Bagby does not expect and will not accept or receive any payments from Defendants or other Released Parties for fees and/or costs that she has incurred and/or which would be attributable to the Allegations or Petitions (except as referenced in Paragraph 1).

6. No Admission of Liability. Liability for any and all of Bagby's claims is expressly disputed and denied by Defendants and the Released Parties. It is understood and agreed that this is a compromise settlement of any and all claims, and that neither this Agreement itself, the offering of it, nor the furnishing of the consideration for this Agreement shall be deemed or construed at any time for any purpose as an admission of Defendants' liability or responsibility for any wrongdoing of any kind. Bagby agrees this settlement is in full compromise of a disputed claim both as to the question of liability and as to the nature and extent of damages and that this Agreement is not to be construed as an admission of liability.

7. Medicare. It is not the purpose of this Agreement to shift responsibility of medical care in this matter to the Medicare program pursuant to 42 U.S.C. Sec. 1395y(b). Instead, this settlement is intended to resolve a dispute between the parties. The parties have attempted to resolve this matter in compliance with both state and federal law and it is believed that the settlement terms adequately consider Medicare's interest and do not reflect any attempt to shift responsibility of treatment to Medicare pursuant to 42 U.S.C. Sec. 1395y(b). In this case, Bagby is not Medicare eligible, has not received any Medicare benefits, and has not received any notice of any lien or intervention interest by Medicare or Medicaid. No Party is aware of Medicare having paid any past medical expenses for Bagby's medical treatment that has formed a basis for Bagby's claims in the Petition. The parties acknowledge and understand that any present or future action or decision by CMS or Medicare on Bagby's eligibility or entitlement to Medicare or Medicare payments will not render this Agreement void or ineffective or in any way affect the finality of this settlement. Bagby relieves Defendants and the other Released Parties of any responsibility for reimbursement of any liens against the proceeds of this settlement.

Bagby represents and warrants that no Medicare or Medicaid payments have been made to or on behalf of Bagby and that no Medicare or Medicaid liens, claims, demands, subrogated interests, or causes of action of any nature or character exist or have been asserted arising from or related to any released claims. Bagby further agrees that Bagby and not Defendants or the Released Parties shall be responsible for satisfying all such liens, claims, demands, subrogated interests, or causes of action that may exist or have been asserted or that may in the future exist or be asserted with respect to the released claims.

Bagby agrees to indemnify and hold harmless Defendants or any of the Released Parties herein from any and all claims, demands, liens, subrogated interests, and causes of action of any nature or character that have been or may in the future be asserted by Medicare and/or persons or entities acting on behalf of Medicare, or any other person or entity, arising from or related to this Agreement, the payment of the Settlement Sum, any Conditional Payments made by Medicare, or any medical expenses or payments arising from or related to any claim released herein that is subject to this Agreement or the release set forth herein, including but not limited to: (a) all claims and demands for reimbursement of Conditional Payments or for damages or double damages based upon any failure to reimburse Medicare for Conditional Payments; (b) all claims and demands for penalties based upon

any failure to report, late reporting, or other noncompliance with or violation of Section 111 of MMSEA (the Medicare, Medicaid, and SCRIP Extension Act of 2007 (P.L. 110-173), which, in part, amended the Medicare Secondary Payer statute at 42 U.S.C. § 1395y(b)(7) and (8)) that is based in whole or in part upon late, inaccurate, or inadequate information provided to the Released Parties by Bagby or Bagby's counsel or upon any failure of Bagby or Bagby's counsel to provide information; and (c) all Medicaid liens. This indemnification obligation includes all damages, double damages, fines, penalties, attorneys' fees, costs, interest, expenses, and judgments incurred by or on behalf of the Released Parties in connection with such claims, demands, subrogated interests, or causes of action.

Bagby has been apprised of her right to seek assistance from legal counsel or directly from the Social Security Administration or other government agencies regarding the impact this Agreement may have on Bagby's current or future entitlement to Social Security or other governmental benefits. Bagby acknowledges that acceptance of these settlement funds may affect Bagby's rights to other governmental benefits, insurance benefits, disability benefits, or pension benefits.

8. No Rehire. Bagby shall not seek employment, reemployment or reinstatement with Defendants or any of the Released Parties. Bagby acknowledges and agrees that Defendants and the Released Parties have no obligation now or at any time in the future to rehire, engage, or employ Bagby in any capacity. Further, Bagby acknowledges that if she is hired by an employee of Defendants or any Released Party who does not have actual knowledge of this Agreement, then in accordance with the intent of this Agreement, Bagby's employment may be later terminated without liability for the hiring or termination decision.

9. Beneficiaries and Assignability. This Agreement is binding on, and shall inure to the benefit of the parties, their heirs, representatives, transferees, principals, estates, executors, administrators, predecessors, successors, affiliates, assigns, agents, directors, officers, directors and employees.

10. Liens, Subrogation. Bagby represents and agrees that she shall be solely responsible for any outstanding liens or subrogation claims arising from the matters referred to in this Agreement. Bagby further agrees that she shall be solely responsible for her own fees, bills and expenses, and that no other party will pay any such fees, bills or expenses on her behalf. Bagby guarantees that she will ensure the satisfaction of any and all liens or subrogation claims or expenses, whether currently existing or arising in the future, for amounts or expenses purportedly arising from the circumstances, events, and/or occurrences set forth within the aforementioned Allegations and Petitions and for which this Agreement is made. Bagby agrees to indemnify and hold harmless Defendants or any of the Released Parties herein from any and all liens and subrogated interests that have been or may in the future be asserted by any person or entity arising from or related to the Allegations and/or Petitions..

11. Entire Agreement. This Agreement constitutes the entire agreement, written and oral, of the parties hereto, and it supersedes and replaces all prior negotiations, proposed agreements, understandings, representations and agreements, written or oral. No party hereto is relying on any statement or representation of any other party hereto except those, if any, set forth herein. No part of

this Agreement may be amended, varied, or supplemented in any respect, except by a writing duly executed by each of the parties hereto or their authorized representatives.

12. Counterparts. This Agreement may be executed in one or more counterparts, all of which, taken together, shall constitute one and the same instrument.

13. Choice of Law. The parties agree that this Agreement shall be interpreted by, governed by and construed in accordance with the laws of the State of Iowa, without regard for its choice-of-law provisions.

14. Severability. Except as otherwise provided in this Paragraph, if any provision of this Agreement shall be finally determined to be invalid or unenforceable by a court of competent jurisdiction, that part shall be ineffective to the extent of such invalidity or unenforceability only, without in any way affecting the remaining parts of said provision or the remaining provisions of this Agreement.

15. Knowing and Voluntary Waiver. In entering into this Agreement, no party has relied on any representations or warranties of any other party, other than the representations or warranties expressly set forth in this Agreement. The parties further acknowledge that they fully understand this Agreement and the effect of signing and executing the Agreement.

16. Jointly Drafted. Because the parties have had a full opportunity to consider this Agreement and negotiate its terms, this Agreement is deemed to have been jointly prepared by the parties, and any uncertainty or ambiguity existing in it shall not be interpreted against any party as the primary drafter of the Agreement. The language of all parts of this Agreement shall in all cases be construed as a whole, according to its meaning and not strictly for or against any of the parties.

17. Warranty of Capacity to Execute Agreement. Bagby represents and warrants that no other person or entity has, or had, any interest in the claims, demands, obligations, or causes of action referred to in this Agreement; that Bagby has the sole right and exclusive authority to execute this Agreement; and that Bagby has not sold, assigned, transferred, conveyed or otherwise disposed of any of the claims, demands, obligations or causes of action referred to in this Agreement.

18. Effectiveness. This Agreement shall become effective as of the date it is signed. This Agreement shall become effective immediately upon execution and may be executed by duplicate of the original, in which event all original signed copies shall be the original document.

ALL PARTIES EXECUTING THIS AGREEMENT STATE THAT THEY HAVE READ AND FULLY UNDERSTAND THE FOREGOING AGREEMENT AND CONSULTED AN ATTORNEY IF BELIEVED NECESSARY BEFORE EXECUTING THIS GLOBAL RELEASE & SETTLEMENT AGREEMENT.

THIS RELEASE INCLUDES A RELEASE OF ALL KNOWN AND UNKNOWN CLAIMS, EXCEPT AS OTHERWISE STATED IN THE AGREEMENT.
